SC Hears Results of Survey

Student Council's final business meeting of the semester, Friday evening, was jam-packed with 150 students in attendance. The business included everything from the presentation of an extensive survey of student participation in the extra-curricular program to an attempt to reduce the membership of the Council. The survey prepared by an advanced statistics class, revealed, among a great many other things, that there was little or no correlation between participation in extra-curricular activities and working at an outside job. A complete resume of the survey will be printed in next semester's "TICKER."

New Dean

After waiting for one year, we have finally been informed that the Baruch School has appointed Dean. However, the Baruch School has not announced the name. We do not know what kind of dean Dr. Mayers will be, but we know, however, already proven himself a capable administrator. We are sure that this appointment has constituted all others. He has helped to improve the image of the School.

Do we ask from our new dean? One thing is that he cooperate closely with our students. Therefore, we are writing to him to ask for the cooperation of the students. A step in this direction has already been taken with the appointment of this student liaison to the faculty curricular committee. But a list of improvements we would like to see this dean has already taken. We are sure that this will be a great help to us.

Dr. Mayers, we would like the promotion of the Baruch School of Business to be successful.
