Cavallaro, 38 Students Gain BGS Membership

Joseph B. Cavallaro, chairman of the Board of Higher Education of the City of New York, and thirty-eight Baruchians have been elected to membership in Beta Gamma Sigma.

The initiation of these thirty-eight members, will take place on Tuesday evening, December 18 at the Uptown Center. Dr. Cavallaro will speak at the dinner.

Beta Gamma Sigma is the national honorary fraternity of the American Association of College Schools of Business.

60 Chapters

The Baruch School's chapter of BGS was organized in 1955. It is one of 60 chapters with a total membership of about 27,000.

Election to BGS is equivalent to that of Phi Beta Kappa, since the primary requirement for election to BGS is excellent scholarship. The money was obtained from the City College of New York and student leadership.

Statistics Exhibition Set for Thursday

The Baruch School's Business Statistics Division of the Business Administration Department and the Economics Division of the Committee on Business Education of the American Statistical Association and the American Society for Quality Control, will present its third Statistics Show Thursday from 10-10.

The show, organized by Professors Herbert Arkin, Assistant Professor David Valinsky, both of the Business Administration Department, and Assistant Professor John J. Griffin, of the Economics Department, will take place on the entire tenth floor of the College.

The affair will feature a wide variety of exhibits, displays and demonstrations by governmental and research organizations on the applications of statistical methods as well as demonstrations of statistical machines.

Among the many companies to be represented at the show are the Monroe Calculating Machine Company, with a historical exhibit in 1906; Remington Rand and Grant, with exhibits from their printing calculator division in 1914; and the International Business Machines Corporation, whose exhibit will include a model of the Electronic Statistical Machine.

Special Meetings

At 7:30, the American Society for Quality Control will hold a talk on "Modern Quality Control" in Lounge C on the ninth floor.

The American Statistical Association will also hold a number of meetings at 7:30 as follows: The

SA Will Organize Service Program

Sigma Alpha has instituted a community service program through which any student or student organization may request a "favorable" community citizen and hospital group aid. The service will be initiated in response to appeals from community citizens and hospitals. At the Welfare Isolation Agapew of Agawam, there is a need for people to go to the hospital and sing for the patients. Sigma Alpha has arranged for Saturday afternoon volunteers to help provide entertainment. For further information about the program, contact Mr. William M. Hunter, Sigma Alpha president.

Highest IQ at Age Not 21—Tests Conclude

The general assumption that the major intellectual activities at age 21 have been exhausted is challenged by a recent study of children from 21 to 60. Dr. Donald Jacobson of the University of Illinois reports that intellectual activities at age 21 are not exhausted, and that the major intellectual activities at age 21 are not exhausted. Dr. Jacobson's study was initiated in response to a request by the University of Illinois. In evaluating the intellectual activities of 50 children, 10 to 60, it was noted that the major intellectual activities at age 21 are not exhausted. Dr. Jacobson's study was initiated in response to a request by the University of Illinois.

Question: What's funny, honey? Answer:

If you's a smoker who never tried a cigarette, you should give it a try. It tastes good. Smoke rings come from the tobacco. This makes no difference to the smoker, but it does to you. You see, fine tobacco means good taste, and Luckies' fine, naturally good-tasting tobacco is TOASTED to taste even better. So make your next cigarette a Luckies, and call your first month's a bottle of a Price of Tobacco.

Luckies Taste Better

STEIN FUND

By Stewart Karpmanstein

We need not emphasize the sequence previously advised in our communications. We have received an overwhelming number of requests for further information.

As you may or may not know, the proceeds from the first two games are to be paid in advance to the Stein Fund. The total amount of these proceeds is $2,000. This fund was established in 1949 in order to raise funds for the Stein Fund in memory of Dr. Stein, the late President of the University of California.

The Stein Fund was established to provide financial assistance to help in the maintenance of the University's libraries and to aid in the purchase of new books. The Stein Fund is administered by the University of California Libraries and is used only for the purchase of books and other materials for the use of the students and faculty of the University.

The Stein Fund is the only fund that is strictly for the benefit of the University. The Stein Fund is administered by the University of California Libraries and is used only for the purchase of books and other materials for the use of the students and faculty of the University.

**VETERAN HOOPSTERS BOLSTER 1956-57 BASKETBALL TEAM**

By Norm Morocnick

Saturday, the baskets will begin flying through the hoops as the 1956-57 basketball season gets under way for the City College Barons against Hunter College (See Story Page 7). Dave Polansky, last year's freshman basketball coach, will direct the Barons this season. The team is still on the youthful side.

"We have about the same personnel as last year, but we have shown a great deal of improvements due to the year of experience the boys have had under Holman. At this point we have a lot of confidence in our ability for the season," says Holman.

After working with the squad for several weeks, Polansky has come up with a starting lineup. At the forward slots will be Bob Silver, 6-6, and Bill Lewis, 6-0. These two are big and strong and can score with consistent accuracy.

At the center position is Syd Levy, 6-9. A tall unorthodox ball-handler, Levy played summer ball and is said to have improved greatly. "He has shown improvement," the coach said, "and I think he'll do a lot for us."

**EXPECT TO BREAK EVEN**

"I expect to break even this season and I will be pleasantly surprised if we do better," said Edward Lucia, the Baruch College fencing coach. Lucia feels that "the fencing team faces the toughest schedule of any City College varsity squad."

Last year's fencers compiled a record of five wins and three losses. The team, however, was hurt by graduation and ineligibility losses. Marty Wiertleb, intercollegiate sabre champ last year, has graduated and his loss will be keenly felt.

Norm Zaftman and Jonas Ulenas are also gone from last year's squad—Ulenas by graduation and Zaftman by ineligibility. These two comprised two-thirds of the epee squad.

This season's foil squad is the same as last year's, Joel Wolfe, team captain, Paul Tannenbaum, and Morty Glasser, a former captain, are the mainstays. The sabremen are headed by Elliot Mills, who has a streak of fourteen consecutive wins, and Manny Fineberg, a Baruch School student.

**LAVENDER BOOTERS PREP FOR SPRINGFIELD PLAYOFF**

By Bernie Seeman

"It's or die Saturday for the City College soccer team when it faces Springfield College in the first round of the Eastern Intercollegiate Soccer Championships in Brockton Field in Springfield, Massachusetts. The game begins at 3:30 p.m.

"The Beaver booters were unanimously selected to represent New York State last week, while Springfield will represent the New England area."

The Beaver, undefeated Metropolitan Soccer League titlist for the fourth consecutive year and fifth in the last six seasons, closed out its season two weeks ago by downing Pratt Institute for its twenty-eighth consecutive victory. Two ties mar the perfect record. The game dates back to 1932 when Brooklyn College beat City, 1-0.

Springfield mentor Irvin Schefflan calls his squad "one of the best I've ever coached. It is the best team with the least individual stars. The other good teams I've coached all had individual performers."

The City College defense is manned by right fullback Dick Tangley, an All-American selection last year, and Bob Baker, left fullback. Dan Sullivan, Dick Haran and Don Jagling will start at the back of the Miller line.

Dink Hengford, a center forward who has scored 16 goals this season, will be flashed on the right by Leon Kusyevsky and Tom Stammers. On his left will be Stan Kasatkin and co-cap- tain Paul Sweeney. Springfield, a physical education student, is the possessor of a lethal bag of tricks.

**Soccer Ace:**

"Buddha" Comes to City College

By Bernie Seeman

"Please, Buddha, let me score a goal and let City College win another soccer game," are very familiar pleas made by the Beavers' star center-halfback, Johnny "Buddha" Paranos.

An Upper Sophomore majoring in Geology, Paranos is one of the reasons why the Beaver soccer men have been unanimously selected to represent New York State in the Eastern Intercollegiate Soccer Championships in Springfield, Massachusetts, Saturday.

Due to his kidding-around antics, which started before this year's Army game, and has continued ever since, he has officially been given the title, "Buddha." No one is complaining as long as the Indian God allows his wishes to come true.

Paranos strictly adheres. He puts in eleven hours a week practicing to keep himself in tip-top condition until he came to City. "Practice makes perfect" is an expression which Paranos particularly likes to particu- late. He played freshman basketball, but was forced to discon- tinue when he suffered a shoulder separation. "The shoulder made him concentrate on soccer.
