Letters

(EDITOR'S NOTE: The following is a letter to the Editor from a student at Baruch College, New York City College of the City University of New York, New York City.)

Dear Mr. Hammond,

I just want to let you know that I believe that the student government at Baruch College is doing a great job. The students are really making a difference in the way that the college is run. I think that the student government should be given more power to make decisions about the college, and I hope that the administration will listen to the students.

Sincerely,
