Parents May Organize Sunday at House Plan

An attempt will be made Sunday at Lamport House to form a Baruch School Parents Association.

A steering committee of 15 parents of the Class of '60, which has had five meetings with parents of the students in the sophomore class, plans to approach the Board of Education to secure approval for the formation of the group. The party is scheduled to be held Sunday at 12.

The fate of Dr. Warren B. Austin, a City College English professor suspended for "conduct unbecoming a member of the staff," was put into the hands of a three-member administrative committee of the Board of Higher Education when testimony in the four-month hearing ended Thursday.

The committee, composed of Dr. Charles H. Tuttle, chairman, Professor Arleigh B. Williamson and John J. Morris, was set up by the BHE to hear charges that Professor Austin lied when he testified before the Board's Committee on Section 903 of the City Charter, the Feinberg Law, and Related Matters.

The 903 Committee asserted that Dr. Austin "denied having been a member of the Communist Party or of any unit of the Communist Party." The Board then declared that the "denials were false." The Board has set a date for the hearing on the charges against him.

The 903 Committee's charges were presented May 20 by President Buell G. Gallagher. The charges, based on a ruling by the Board of Estimate when the science class of '60 was signed by the 86 students.

The charges against Dr. Austin were "abusive" and "abusive" and "abusive." The Board then declared that the "denials were false." The Board has set a date for the hearing on the charges against him.

The case against Dr. Austin was based principally on the testimony of Bishop George Ahr of the Catholic Church, the Reverend Hugh Halton, St. Jerome's, New York City, and the Reverend William J. Byrnes, of the City College and the City College English Department.

The Board of Education recommended that the Board of Higher Education for possible police use.

Gustave G. Rosenberg, newly-elected BHE chairman, was reported to be favorable to the proposal. He said the Board would seriously consider it.

The two-year college is scheduled to open in Sept. 1961.

Uptown NAACP Moves Off Campus Over Lists

The Uptown City College chapter of the National Association for the Advancement of Colored People will operate "off-campus" this semester rather than submit a membership list, it was learned last week.

A spokesman for the NAACP Uptown said that "many of our members come from the South and may someday return there in a professional capacity. Membership listing may be detrimental to the safety of our members and their families in later years."

Compulsory lists have been a controverted subject at the College since they were initiated in 1954. The ruling requires every organization on campus to submit the names of at least 12 members to the Department of Student Life.

The NAACP has no intention of going out of existence, but will remain "in the background." The group's list of all organizations unable or unwilling to comply with the list requirement. The NAACP was one of the groups whose list was signed by the eight students.

The committee hopes to enroll students in the sophomore class of '61 later in the semester. It is anticipated that the special steering committee will be formed.

The 903 Committee's charges were presented May 20 by its chairman, Gustave G. Rosenberg, newly-elected BHE chairman.
The powers that be on the nineteenth floor have been having a good time. Of course, this is a "will be" and not an actual event. However, many are assured further that no student will be punished for discussing according to the powers that be. The final resolution being that the student's attitudes must be "appropriate." 

From the standpoint of general acceptance of a clothing code, we can see why people object to it. It is a form of dress which almost everyone disagrees with. By objecting, we, in effect, are preventing our own being protested while at the same time demonstrating the "right" way to protest, as conformed to our specifications.

The mildness of the code makes little difference. We can see that the individual last week denouncing the professor's privilege is the same as the individual who denounces the professor's privilege as a result of the "untruthfulness" of the criticism. Princeton University, as the author of the code, must be "proper." 

For tactics of this sort, he added, "no university devoted to freedom of rational inquiry need make...

Some Serious Doubts

Booteers Begin Title Defense Against Strong Upstate Team

An internationally-flavored City College soccer squad will meet an equally foreign-flavored Rensselaer Polytechnic Institute team in its opening contest, Friday at Lewisohn Stadium.

With seven foreign born players on its squad, the Engineers will give the Beavers a tough fight as they open their defense of the Metropolitan League title. These players come from as far east as Turkey and as far south as Central America. The Lavender's foreign booters come from all over the globe.

The Techmen, striving to improve last year's 4-3 record, will be paced by Sandy Csobaji, a junior center forward. They will feel the loss of two All-American stands from their defense line.

Asst. Coaches will be senior Paul Scanlon, who will also be playing in the forward wall.

Tending the goal for the up-and-comers will be Abel Leger, who hails from Haiti, and according to coach Jack Corkery, "one of the best in the college ranks today." Most of the RPI squad are veterans from last season.

Beaver coach Harry Karlin stated that the RPI squad was a hard fighting, well-coached and well conditioned crew.

Karlin felt that the men from the junior varsity squad "have come along well, but they could do better."

Among those new men are Heniz Minnerop and Claude Spinoza, both highly regarded by the Beaver coach.

Karlin felt that one of the reasons they might not be doing as well as expected was that there is far more running in the college game than in the club game, in which many of these boys are used to playing.

One of the opponents on the Engineers' 1957 slate is Springfield College. Beaver soccer followers will remember that it was the Massachusetts team which defeated the Lavender in the Eastern playoffs last year.

2:1. The men from Troy didn't do any better, losing 5-2 in a regular season game.

1956 CHAMPS: City College's 1956 undefeated soccer team were the winners of the Metropolitan Intercollegiate League title.

Sport Shorts

Jerry Gold, new Baruch School basketball mentor, would like all prospective hoopsters to report to Hansen Hall October 15, the first day of practice. Gold wants each player to bring a medical certificate on that day. Freshmen, as well as upper-classmen, are invited to try out.

Lavender cross-country coach Harry de Girolamo is looking for new blood for his squad. Although there are few open spots, any harrier who shows promise will be allowed to stay with the group.

Edward Lucia, Beaver fencing master, is holding daily practice sessions in the Convent Building.

Passing, Not Points: McErlain Preference

By Mel Winer

In soccer, as in nearly every other sport, it is the scorer who gets the headlines. Yet, without a playmaker to set up plays and make the passes, it is doubtful whether the scorer would perform as well as he does. On City College's defense of the Metropolitan League title, the net. The tally gave the Beavers a 1-0 lead in the contest.

Coming to the United States from Scotland, Danny first entered City College as an evening session student in 1952. The following two years were spent in the Army. In 1954, he was named the Most Valuable Player in the American Intercollegiate Soccer championships.

Discharged in 1955, Danny, with the help of the GI Bill of Rights, became a day session student at the Baruch School. Majoring in accounting, he has felt his soccer ability interfere with his schoolwork, maintaining a B average.
