SC Votes to Increase Student Activities Fee

Student Council in an unprecedented move Friday evening passed a 50-cent raise in the student activity fee to bring the total fee paid at registration to $10.

The motion, proposed by Camille Viscioni '58 and Carole Groeninger '60, was passed 14-2, after a move to place the issue on referendum, as had been done in all previous proposals to raise the activity fee, was defeated by the Council.

Student Proctoring Supported by Saxe

Dean Emanuel Saxe told Student Council Friday evening that a system of student proctors might be instituted at the Baruch School if it could be worked out with the various departments.

Dean Saxe touched on two other points in his talk: that Lamport House should be evaluated for what it is, not for what it is supposed to be; and that replies received by him in answer to queries about convocation were unsatisfactory.

In reply to a letter sent to him by Student Council President Sheldon Brand about cheating, Dr. Saxe said that the idea of student proctors was a good one and should be worked out with various departments. The idea was one of several suggested by Brand.

Other ideas in the letter were: distribution of old finals, more stringent enforcement of present regulations and the inspection of an honor system. Dean Saxe said that final distribution should be decided by each individual department, but could not see the advantage of having an old final examination. He said that he was favor of more stringent enforcement of present rules and an honor system, but that was, at the present time, impossible.

Attempting to guide the Council, in its discussion of Lamport House, the dean stated that the plan was organized to stress group dynamics rather than individual living because individual living is taught at home. He noted, however, that inroads were being made into the field of individual thinking and activities at Lamport House.

Replies received by the Dean in reference to a questionnaire on final distribution of old finals, were, said, indicative of the poor attendance. A small percentage of replies were received, and of those received, there were few new suggestions.

For this term, the planning for the convocation has been handed to a Student Council committee. The only administrative control over the group will be the power to veto any speaker selected. Saxe also made clear that the insignia awards must be presented at this affair.

Physics Department Offers Satellite Lecture Program

The first of a daily series of lectures on the Russian space satellite and its political and social implications was held yesterday at the Uptown Center.

The series, entitled "The Satellite: Scientific Achievement and Future Possibilities," will be presented tomorrow by Dr. Robert J. Wolff of the Physics Department on "The Launching of the Satellite, Rockets and Missiles."

A two-part lecture will be presented tomorrow. Professor Robert J. Wolff on "The Problems of Celestial Navigation" and Professor Joseph V. Zweizel on "The Physiological and Psychological Problems of Space Travel" comprise the program.

President Buell G. Gallagher will preside Friday in the discussion, "The Social and Political Impact of the Space Satellites," which will bring the series to a close.

At the final session, the participants include: Drs. Samuel Hensel, chairman of the Department of Government; Milton Offitt, director of the Department of History; and Harry Soodak and Harry Lustig of the Department of Physics.

Yesterday's lecture was on "The Mechanics of Satellite Motion: What It Is and What Makes It Go Around."

Two Faculty Members To Debate UN's Merits

A debate on the relative merits of the United Nations will take place Thursday at 12:30 in Lounge C. The event commemorates the twentieth anniversary of the signing of the UN Charter in San Francisco in 1945.

Dr. Daniel P. Parker of the Government Department will debate against Dr. Arthur Walshorn, English instructor. Dr. Parker will argue against the UN while Dr. Waldfherr will take the "pro" position.

The debate is sponsored by the Inter-Club Board.

The motion stemmed from a statement made by Student Council President Sheldon Brand at the Council's first meeting of the term. At that time, Brand asked Council to "study" a motion to limit charity drives on campus to five each semester. The Council will have the power to select the charities. At present, any organization on campus may sponsor a charity drive subject to the dates and publicity rules of the Inter-Club Board.

The motion stated, in a statement, that the Inter-Club Board has the legislative power to pass such a raise.
Musicians moderate discussion on racial issues

A small discussion was held on campus regarding the racial segregation issue. The discussion was led by Dr. John Bauer of the Psychology Department. He stated that the students were open to discussion and would not, as previously stated, shut off discussion on the subject.

African American students who have been interviewed, however, are skeptical about the students' willingness to accept them on a voluntary basis. Some students have expressed their desire for a more open discussion on the segregation issue.

The discussion was held in the campus cafe and was attended by several students, including African American students and students of different races. The students expressed their opinions on the segregation issue, and the discussion was open to everyone.

Any salt worth its salt will gripe when told to paint a dull wall, varnish a vast estate, or paint a desk place. How to make him break out in smiles? Just break out the Lucky's. He'll be a Lucky's Smoker in no time—and no wonder! A Lucky's light smoke—it's one cigarette that's packed and full of fighter-liquid, golden rich, wonderfully good-tasting tobacco. And Lucky's fine tobacco...

Baruchian Just Missed Reds' Lithuanian Purge

To the Editor of THE TICKER:

Baruchian just missed the purges in the Soviet Union which occurred in the early 1950s. If not for his father knowing the language, Armando Azuero, a student at the Baruch School, would have been the victim of a student arrest in Lithuania. He was about to attend a conference where he was to present a paper on the Soviet Union.

Azuero was arrested in 1948 as he was preparing to leave for the conference. The police at the time were conducting a sweep of the Baruch School, a Jewish institution, and arresting students who were suspected of being anti-Semitic. Azuero was arrested along with three other students, and was held for four days without trial. He was eventually released without charge.

Azuero's father, who is from Lithuania, recognized him at the conference and intervened with the Soviet authorities to secure his release. Azuero was able to attend the conference and present his paper on the Soviet Union. He has since become a successful businessman in the United States.

I write to you to bring attention to the fact that Baruch students were nearly the victims of a purge in 1948, which occurred as a result of McCarthyism. I hope that we can learn from this experience and avoid similar incidents in the future.

Sincerely,

[Name]

Minister to Discuss
Buddhist Principles

By Beverly Diamond

EVENING, 16 February—In response to a request from the students of the American Institute of Buddhist Studies, the Buddhist priest and scholar, the Venerable Chad Yaw, S.J., has been invited to speak to the students of the University of Chicago on February 19. This is the first time that a Buddhist has been invited to speak at a university in Chicago.

Chad Yaw is a member of the Buddhist Order of the Holy One and has been studying and teaching Buddhism for 25 years. He is currently the chief priest of the Buddhist Temple of the Holy One in Tokyo, Japan.

The lecture will take place on February 19 at 8:00 p.m. in the auditorium of the University of Chicago. Admission is free and open to the public.

Rambles Along

By Richard Garson

City College's campus is an excellent place to visit. It is a beautiful campus with many parks and gardens. The campus is located in the heart of Manhattan, near the famous Central Park and the Museum of Modern Art.

City College has a long history of excellence in education. It was founded in 1897 and is one of the oldest and largest public community colleges in the United States. Today, it is home to more than 60,000 students.

The campus is also home to many cultural and artistic events. The City College Art Gallery is one of the finest in the city, and the City College Music Department hosts a variety of performances throughout the year.

Polansky Realistic About Hoop Future

The American Basketball Association is a new league that is competing with the National Basketball Association. The league is made up of 16 teams, and each team plays 20 games during the regular season. The league is divided into two conferences, the Eastern Conference and the Western Conference.

The Western Conference is made up of the following teams:

1. Houston Rockets
2. Los Angeles Lakers
3. San Diego Rockets
4. Chicago Bulls
5. Denver Nuggets

The Eastern Conference is made up of the following teams:

1. New York Knicks
2. Boston Celtics
3. Philadelphia 76ers
4. Milwaukee Bucks
5. Cleveland Cavaliers

The league is expected to attract many of the best players from the National Basketball Association. However, it is not expected to be as successful as the National Basketball Association. The league is also expected to be less popular than the National Basketball Association.

Polansky is a realistic about the future of the American Basketball Association. He believes that the league will not be as successful as the National Basketball Association. However, he also believes that the league will be able to attract many of the best players from the National Basketball Association.

Bootheers Trample LIU, 9-1; Minnerop Scores 4 Goals

The City College soccer team tied a Metropolitan League scoring record as they ran roughshod over the Long Island University Blackbirds, 9-1, Wednesday at Red Hook Stadium.

The record was first set by the Beavers when they scored nine goals in defeating the United States Merchant Marine Academy, 9-1, in 1939.

The victory was the first of the regular season for the Beavers, who had lost their opening game, 2-1, to the Manhattanville Marauders. The Blackbirds, who had finished second in the Metropolitan League last season, have scored 12 goals in two games this season.

The Beavers were also cheered by the return of Wally Wolke, the top offensive man, who missed the Marauders game because of an injury. Wolke, who returned to the starting line-up, scored three goals.

Falcons, Sputniks, Knicks, Win in IMB Hoop Tourney

The Intramural Board's basketball tournament got off to a good start in Hensley Hall, Thursday. The most exciting game was between the Falcons and the Rinsmen, with the Falcons winning on a foul shot after the buzzer. High scorer for the Falcons was Murray Cohen, who tallied 13.

Watters will face the Lavender in the first round of the tournament. The win over the Rinsmen will give the Falcons a chance to win the championship.

Harriers Win, 22-35; Face Rugged Calendar

The City College cross-country team opened its dual meet season by defeating Fairleigh Dickinson, 22-35, Saturday at the Lasker Track in Central Park.

The victory was the team's first of the regular season, having finished second in the Metropolitan League Meet last year.

Leading the Harriers was Bob Cleary, who covered the cross-country course in 26:30, 2:30 seconds behind Tom Messenger, who won the event. The winning team was followed by a strong second team, which included, among others, Wally Wolke, Bob Cleary, and Wally Wolke.

The Blackbirds were also cheered by the return of Wally Wolke, the top offensive man, who missed the Marauders game because of an injury. Wolke, who returned to the starting line-up, scored three goals.

Soccer Group Ends Playoffs

The Intercollegiate Soccer Coaches Association has voted to hold championship playoffs this year. Coach Harry Karp, upon hearing of the decision, said, "I am sorry the season is over, and that I am sure the players are.

The nullification of a previous decision made last year by 601 coaches to hold annual playoffs may be accounted for by the bar on post-season tournaments existing at Ivy League colleges and the school's respective monetary problems. Many of the smaller schools participating objecting to the requirement of paying the travel expenses that are not covered by gate receipts.

"Playoffs are a coming thing," Karp said. "Once the details are taken care of, I'm sure they'll be established on a permanent basis."
