Council to Send Letters On Speaker Ban Issue

Student Council Friday voted 18-1-1 to send letters to City College President Buell G. Gallagher and the five other members of the Administrative Council, calling for the rescinding of the current ban on speakers convicted under the Smith Act.

The five other members of the Council are the presidents of Hunter, Queens and Brooklyn Colleges and Staten Island and Baruch College. These Sovnarkhoz, these Sovnarkhoz, the ban on the laws, was postponed because with sit for one year.

The five other members of the Administrative Council, calling for the rescinding of the current ban on speakers convicted under the Smith Act.

Gallagher to Take Smith Act Ban Before Administrative Council;
Scores MDU's Letter of Appeal

City College President Buell G. Gallagher will take the Marxist Discussion Club's request, to allow Benjamin J. Davis to speak on campus, before the Administrative Council tonight. Under an Administrative Council ruling made in March, 1957, persons convicted under the Smith Act are banned from speaking on campus.

Benjamin Davis, New York State Chairman of the Communist

Carlino, Zaretsky Support State Aid to City Colleges

Two influential members of the New York State Legislature have announced their approval of plans to give the municipal colleges State aid.

The legislators, Assembly majority leader Joseph Carlino, from Long Beach, and Senate minority leader Joseph Zaretsky, from Manhattan, both supported the plan, but with qualifications.

Mr. Carlino said he was in favor of State aid, "provided that the program be worked out within the community college framework." At present, New York State operates a system of community colleges, mostly two-year institutions, throughout the State. Those colleges are not run jointly by the State and the local communities involved.

Difficulties

The majority leader also noted that he expected the measure to be passed within a year, during the next session of the State Legislature. However, he pointed out that there were numerous difficulties to be overcome, such as the type of plan to be approved, and the possible disapproval of Upstate legislators.

Senator Zaretsky also said he was in favor of the proposed measures to aid the colleges, but he had reservations. Echoing Mr. Carlino's sentiments, he said that the colleges would have to be treated "like the community colleges, which the State now supports.

However, Mr. Zaretsky had different feelings as to the success of the bill. He felt that since Republicans have "continuously voted against the bill," chances were slim that the measure would be approved by the Legislature.

Economics Professor:
Sethkar Views Changing Russia

By Don Cucinotta

"Russia is undergoing an ex-
hausted political and economic revolution which will alter the entire
set-up of the country within
..." said Professor Frederick Sethur, of the Eco-

demic Department, who visited the Soviet Union during the sum-

mer.

Dr. Sethur, who went as a member of an international study group in Russia, said that the entire country is being divided into different units, the so-called "sovarkholos." These sovarkholos, which are made up of both industrial and agricultural centers, will have individual, local plans, he said, which will supplant the present centralized ministries.

Dr. Sethur said that the changes are "a natural outgrowth of the present situation."

Professor Sethur with the problems that they know more intimately than do the cen-

tral agencies.

When Dr. Sethur went to a co-

operation farm, he said the farmers had their own plot of land which he could use for his own needs, but he still must contribute his labor to the state-owned land.

New System

Since he must sell 50% of what he produces on the state land to the government at very low prices, he neglects this land and tends to concentrate on his own farm. The result is low productivity with little variety and little scientific farming. The new system would do away with the private plots but, to compensate for this, would raise the prices on agricultural products.

When it comes to industry and technology, however, Russia is in top form. Dr. Sethur saw the "No. 1 Steel Rivet-Heating Plant" (whose name has been changed because the official whom it was named after was not very popular at the moment) and "No. 8 steel..." (Continued on Page 2)
Horowitz Clears Case Concerning Alaska Trip
Mike Horowitz, Uptown Student Government president, has been cleared of any effort to defraud the student body after the student government paid $300 in student fees for a trip to Alaska.

Concerning the matter, Horowitz had used the funds, disclosed the fact that he had made a statement about it to the student government, and used the funds to help defray the cost of the trip. He informed the student government that he had used the funds to pay for the trip to Alaska.

President Horowitz will not be penalized for his actions.

SL Job Given To Berkowitz

The employment of a college student at a job has been very successful for the college and the student. The student, Berkowitz, has been employed in a job for which he was qualified. Berkowitz said that it has been a good experience for him.

"I'm glad to have the job," Berkowitz said. "I've been looking for a job for a while, and this is a good one."

Berkowitz, a senior at the college, said that he was interested in the job because it provided him with the opportunity to earn money and gain experience.

The college has been successful in placing students in jobs that are well suited to their abilities.

Peter T. Horowitz Visits Russia

(Correspondence from Page 1)

The trip was very successful, Mr. Horowitz said, and he enjoyed seeing the sights. He also had the opportunity to meet with several Russian officials.

"Many of the people I met were very friendly and helpful," Mr. Horowitz said. "I was able to see a lot of the country and learn a lot about its culture."
Entrance Requirements

As noted on Page 3, the Baruch School has the lowest entrance requirements of any city college. We have examined the same, which are at the bottom of the list, but go on good enough.

We realize that the Student Body is not proud when they are at the bottom. But the situation at the Baruch School was completed, and the new regulations went into effect at the beginning of this semester. A new Faculty Student Committee was formed, and the number of students on the faculty increased. The committee consists of two representatives from each college, and the number of students on the faculty increased.

This group meets today at 2. The students are united in their protest, and the group consists of all the students who are united in their protest.

We maintain that this low entrance requirement hurts the students of the Baruch School, and that the students are not proud when they are at the bottom of the list.

We shudder to think of the result if and when added requirements are introduced. We realize that the Student Body is not proud when they are at the bottom of the list.

Engineer Enrollment Declines This Semester

For the Academic Year 1958-59, the number of students declined 25%. For this semester, it was announced last week. The decrease is due to the fact that many undergraduates and 4,000 metropolitan enrollment, despite the "Great Depression." One of the reasons for this trend was due in part to the fact that high school students may be found in positions open to engineers but "I didn't expect it to come at this rate."

"The enrollment figures show that the trend is still increasing," said a UA official. "Last year, the UA projected an increase in enrollment of about 5%, but this year the figures show an increase of 10% to 15%.

The UA also announced that the number of Tech students tied with New York City's estimated number of student enrollment. The number of Tech students tied with New York City's estimated number of student enrollment.

CCNY Gets Unanimous Nod For Tri-State League Entry

The officials of the Tri-State Basketball League voted unanimously last week to accept City College of New York into the 1959-60 basketball season. Also accepted was Long Island University.

In an interview with THE TICKER, basketball coach Nat Holman said that, "As long as we’re having our basket-

ball team in that league," Holman said he was in favor of the team’s entering the Tri-

State League from the beginning.

City’s and LIU’s entrance into the loop will bring the League total to 11 teams. The other teams are Brooklyn, Fairleigh Dickinson, Hunter, Adelphi, Rider, New York University, Kings Point, and Yeshiva.

Traditional Fees

Although it was believed that the ‘traditional’ teams might have to be dropped from the schedule, Athletic Director Arthur Des Grey told THE TICKER that “if New York University can work into our openings, by all means they will play us.” He noted, “We plan to use within the 18-game schedule.”

Des Grey amplified his statements by saying that “(NYU’s) Garden commitments have to be consid-
ered.” Other teams that are interesting but already booked include St. John’s, St. Francis, Manhattan, and Fordham.

It is possible that teams from outside New York will play in the League. Des Grey said, "I expect it. It’s too difficult to keep within the league. But if we can manage relationships if it isn’t a hardship for them.”

As a result of entry into the

City Trounces LIU, 8-0, As Sund Scores Four Goals

A partisan crowd of about 500, shouting “evil” at the referee, off-side calls against City, saw the national soccer co-champions prove to be far too powerful for Long Island University, Saturday at Lewisohn Stadium. The final score was 8-0, as Billy Sund scored one goal in the second half as goals began to pile up. Billy Sund and Gabor Schlissel scored one each within three minutes during the third quarter. Sund, Schlissel and Lesinkey each tallied within three minutes of the last quarter.

Baruch Savio D’Agostino took over the goal-tending chores for the second half of play. The Beaver defense was so good, that he sat down on the grass and began to pine for the ball, while the game was going on.

Typical comments from the Kings Point bench included: "When do we get a chance to kick the ball?”

Soccermen to Oppose Queens in Loop Game

By Bob Signer

Queens College’s soccer team will greet City’s Beavers at home, tomorrow and the Knights will be out to avenge last year’s 4-0 defeat at the hands of City. However, the City team has started off on the right foot this year by beating Adelphi, 2-0.

Queens Public Relations Director of Sports, Irving Schwartz, further pointed out that there are quite a few foreign-born boys on the team. The coach regarded this as an advantage because it means that the boys “learned the game the way boys born here learn baseball.”

Pratt’s Canners—finished last among the Tri-State League teams—were given an impressive 3-2 record. They have 18 returning lettermen which add up to a strong team. This year, they were beaten 11-0 by NYU, and were victorious against Long Island University, 2-0 and 5-1 against Columbia. Pratt didn’t play City last year, but in the past, they "usually got beat.

Bruce Track Club Started By Taylor, Dawkins, Best

By Alvin Revkin

Co-captains Ralph Taylor, Stan Dawkins and George Best of the CCNY track team, are succeeding in their effort to reviving the Bruce Track Club. The club is named after Dr. Harold Anson Bruce, former CCNY varsity track coach, who passed away in February 1957.

During the past summer, Taylor, Dawkins and Best collaborated with other CCNY trackmen to form a track club known as the Bruce Club. This was the one element lacking in the club during Bruce’s lifetime.

The purpose of the club would be to break into the ranks of the top five teams in the National College Athletic Association and the New York Pioneer Club, which at the present time commands dominate the present AAU picture.

Taylor takes the outlook of the present situation that where other associations in the amateur field failed, this club will succeed because, "talent draws talent.”

The effort of the new organization is being hampered because the members of the CCNY track team cannot participate on outside teams. However, by the time June comes around, the Bruce Club will be in top shape and ready for any major competition. This will be due to the large number of trackmen graduating at this time.

The team is under the auspices and supervision of Alvin Fausty, a drafting instructor at the Up-
town Center. Any person who is interested and is experienced in any phase of track competition, should get in contact with Ralph Taylor.

The cross-country team rolled up a 26-31 victory in the season’s opener against Tappan Zee Indians, Saturday at Van Cortland Park.

Accidental Kick Begins Spinosa on His Career

During a game of basketball with his neighborhood friends in Brooklyn, Claude Spinosa, accidentally kicked the ball. Since then he has achieved skill enough to become a starter with the national soccer co-champions, the City College team.

He was born in Sardinia, Italy, and surprisingly enough, did not use the country’s most popular game, soccer, when he was a

the Merchant Marine Academy.

Spinosa doesn’t let his two years in the Merchant Marine Academy take away from his soccer talents. He does an average of four to five hours of practice a day, three of which are mandatory. However, he and the other players usually join in for an additional hour or two on their own.

A sophomore, he has already kicked his way to the varsity team. He is a member of the Delta Alpha fraternity, and also

tries to keep up photography as a hobby. This pastime gets too expensive and time-consuming and he cannot keep up with it as much as he would like to.

Pressure generally doesn’t bother Spinosa, although he may compare his team and himself with the opposing team before a game. During practice, he is too busy preventing goals to worry about such things, and thus is more relaxed.

Spinosa thinks the team will do "excellently well,” this year, and feels that his team is the best in the city.

The team is under the leadership of a youth. In high school he played for Fort Hamilton and Haasen High Schools.

The estimated 5-2 Spinosa team will face the Merchant Marine Academy, Queens, New York University and Adelphi.
