President Gallagher Accused
Of Mishandling College Fund

"I do not want to be known as an alumnus of the largest college or largest government university in the country. I prefer being an alumnus of the college of the highest scholastic standards, as it was in my day," said Dr. H. Henry Lamdan.

The statement was made in a letter of resignation addressed to the Board of Trustees. Dr. Lamdan gave as a reason for his resignation from the 50th anniversary celebration program, his view of the City College, as improved service and facilities.

One of the terms of the letter was the use of the Fund's money for a new program. Dr. Lamdan feels that such a program should wait until the College's fiscal condition is more secure.

In reference to President Gallagher's plans for the College, Dr. Lamdan states that his aim is to make the City College the largest school in the world. He is impressed himself, unable to meet the City College's demands on him.

Three Receive Wollman Gifts

The Morten Wollman Scholarship Fund was established in 1940 to give gifts to three students at City College. The fund is named after the late Morten Wollman, a City College alumnus.

The Board of Trustees has announced that the fund will be used to aid three students at City College. The fund will be used to aid three students at City College.

To the Editor of THE STAR:

Dear Sirs:

The negotiations of the teachers associations and school board are under way. However, there is a much better way to handle this matter and that is through the intervention of the courts. The teachers and the school board are both parties to the contract agreement that they entered into. The courts can provide an impartial and binding decision. This way, both parties will feel that they have been treated fairly.

Yours sincerely,

State Aid

State aid for higher education is now under consideration. A bill to provide additional subsidies for college students has been submitted to the legislature.

The Miller-Brook bill, which provides state aid covering one-third of the operating costs of a four-year college, appears to be the most comprehensive plan. The bill will cover the operating costs of the municipal colleges, which currently account for over 15% of the total cost of college education. The state aid will be calculated on the basis of student enrollment, with a higher percentage of aid being provided to colleges with higher enrollment.

Other bills, such as the food-aid bill, offer aid for students who are not enrolled in the municipal colleges. While this might be sufficient for the technical community colleges, it may not be enough for the four-year colleges.

Perhaps the most significant supporter of the bill is the National Education Association, who have argued that the municipal colleges, which are open to all students, must be maintained. The NEA has stated that the bill is necessary to ensure that all students have access to higher education.

Beaver Fencers Low In IFA Championships

Harold Mayer tried hard over the weekend in an attempt to capture the individual sabre championship crown, but it took a two-time champion to stop him.

Mayer's attempt took place during the Intercollegiate Fencing Association tournaments Friday and Saturday at the Concours Plaza Hotel in the Bronx.

The man who beat him out, of course, was Mike Desaro of New York University, a winner of the title in 1958. Last season, at the tournament at the Massachusetts Institute of Technology, Mayer occupied the sabre champion throne.

Overall, the Beavers finished a disappointing fourth of ten colleges, with a three-season total of 33 points. Of the points, 23 were accumulated in the sabre division, in which the Beavers did quite well, finishing behind only Columbia and Navy. However, the epee and foil teams did not fare as well, both finishing out of the field of eight schools.

In the epee competitions, Mike Goldstein and Vladimir Lazar, both freshmen, showed identical records of 2-7. Mike Lazar, a second-year man, was 0-9 in the same division.

In the foil class, Alonzo Johnson and Robert Spencer showed identical 4-6 records, Jerry Meulden an 8-2 mark, and Earle Al Korkich 2-5.

In the sabre class, Mayer finished with a 7-2 mark, followed by Andy Kimeny, with a 6-3 showing and Dick Kupchick, with a 4-6 mark showing good for three places in the league total.

Nick West, who has won the two-year title for the College for the last two years in every dual meet, failed to successfully defend his championship in the One-Meter Drive. West, in his third year, started by Gordon Mason of Kings Point, whose total of 346.40 topped the title for him.

Beaver Danny Goldstein, a recent record-breaker, finished second to Fredy McNich of Long Island University in the 100-meter breaststroke.

The other City College entries in the City College of New York were Jerry Kaplan (125), Barry Goldlust (127), Bernie Haynes (137), Tom Lopez (147), and Mel Feldman (177).

Mermen Finish Fifth In Metropolitan Series

Mike Bayuk and Nick Polansky, two perennial Beaver swimming winners, were dethroned last week as the College's swimming squad captured fifth place in the Metropolitan College Swimming Championships.

The event, which is held annually, was recently, only managed to salvage a fourth place in the 200-yard breaststroke. The University of Pennsylvania was the winner.

In the epee competitions, Mike Lazar and Mike Lazar, both freshmen, showed identical records of 2-7. Mike Lazar, a second-year man, was 0-9 in the same division.
