Faculty Urges College To Install PhD Plan

A nine-member faculty committee has recommended establishment of a full program of research and graduate studies in the college leading to a doctoral degree.

The primary purpose of a graduate studies and research program would be to improve the quality of education at the college, the report continued. Without faculty for research, without the opportunity to associate with distinguished faculty specialists and without challenging courses for new teachers to teach, it might be increasingly difficult to attract the best young instructors in the highly competitive market for college teachers.

The committee recommended establishing a program of high quality, containing these points: The extension of master's degree work to most of the departments of the college; increased scholarly research activity by faculty members; adequate laboratory and office space determined by graduate and research standards; and a stimulation of a general environment congenial to independent and creative faculty endeavor.

council sends two letters to administration, ticker

Student Council passed two motions Thursday to send letters to Dean Emanuel Saxe and THE TICKER concerning the meeting room of Council and the purpose and present procedure for mailing school identification cards.

The first motion, presented by SC President Howard Mischel, which requested that Council return to its former meeting room of past semesters, The Faculty Council Lounge, on the ninth floor, was unanimously approved by Council.

The present room used by the group, 1221, has been found to be inadequate in meeting the needs of Council, repotted many of its members.

The letter states, "The Faculty Council Lounge has not been used on any Friday this term. Council could use itself unencumbered, instead of being hampered when the room in question has been occupied. Regardless of what future plans may be for the Faculty Council Lounge, as long as it is not used, Council members have the right to meet there."

Arthur Schreiber '61, proposed the second motion related to the ID cards, which was passed by Council 22-10. The motion to send the letter stemmed largely from the fact that most Baruchans have not received their cards although the semester is already half over.

The letter concludes, "We believe that the present procedure is ineffective and unnecessary. The identification cards have not fulfilled their original purpose. We would, therefore, request an evaluation on your part of the effectiveness of the program."

Student Council to Present Human Relations Seminar

Student Council, through its National Student Association committee, will bring to the Baruch School its first human relations seminar, December 18, in the Student Center.

The program will revolve around discriminatory policies in the north, with discussion groups focusing in detail on problems of housing, employment, college admissions and discriminatory policies of organizations inside and outside of schools and colleges.

The committee plans to have a top government official of New York State as the keynote speaker in addition to speakers from such recognized human relations agencies in the city as the National Council of Churches and the Congress of Racial Equality.

The letter states, "We believe that the present procedure is ineffective and unnecessary. The identification cards have not fulfilled their original purpose. We would therefore, request an evaluation on your part of the effectiveness of the program."

Business Unit Elects Twenty

Mu Gamma Tau, the National Honorary and Professional Fraternity in Industrial, Small Business, Traffic and Personnel Management, has announced the election of eighteen regular and two honorary members to its society.

The two honorary members are Dr. Henry Elbirt, Assistant Professor of Business Administration at City College, member of Task Force on Graduate Studies, and author of many articles on Personnel Management, and Mrs. Beverly Goff.

The regular members inducted are Paul Boren, Alvin Bills, Richard Brzozowski, Allen Chai-kin, Bernard Choupin and Gerald Davis.

Also: Jack Reisner, Richard Rowe, Saul Schnider, Eugene Shettna, John Trinkhaus and Donald Wayne.

Two Africans Discuss Continent’s Emergence

By Marilyn Raulston

The Truth About Africa was the title of a broadcast by Richard Gibson. The Duke Street Theatre Society of New York. It was broadcast on commercial radio stations throughout the United States and Canada.

In his broadcast, Mr. Gibson mentioned that Africa is a continent in the making. He said that Africa needs to be looked at as a continent that has potential for development.

Mr. Gibson also discussed the resources of Africa. He mentioned that Africa has vast amounts of minerals and other resources that can be exploited for economic development.

Mr. Gibson ended his broadcast by saying that Africa is a continent that deserves to be looked at with a positive outlook.

Letters to the Editor

Letter to the Editor

To the Editor:

I have been a student at the School of Business and Public Administration for the past two years. I have found that the courses offered at the school are very helpful in my career goals.

I would like to suggest that the school offer more courses in international business. There is a growing need for professionals in this field, and I think it would be beneficial for students to have the opportunity to study this area.

Sincerely,

[Name]

To the Editor:

I appreciate your suggestion to offer more courses in international business. The school is currently working on expanding its offerings in this area.

Thank you for your support.

Sincerely,

[Name]

Correction

Last week’s editorial regarding the current situation in Con Edison noted that “Con Edison is in the midst of a huge expansion program to serve a growing New York—the world’s most dynamic city.” The statement was incorrect. The expansion program is actually focused on the city’s electrical grid and does not affect Con Edison’s overall growth.

The statement was an error due to a misunderstanding of the company’s priorities. Con Edison is indeed working on expanding its electrical grid, but the statement did not accurately reflect the scope of the project.

We apologize for any confusion caused by this error and appreciate your attention to this matter.

Sincerely,

Karlinmen Lose to Pratt, 3-1
To Cap Disappointing Year

By Marty Perl

City College closed out its 1960 soccer season Friday with a 3-1 loss to Pratt Institute. It was the first time in 12 years that the Cannoneers have defeated the Beavers. In 1958 and 1959, the two squads played to 2-2 and 1-1 ties, both times in well-played games.

The loss dropped City to a third-place berth in the final Metropolitan League standings behind undefeated Brooklyn College and once-beaten Pratt. Brooklyn's "eleven" defeated City 8-2 earlier in the year.

No excuses could be offered for the Pratt defeat; the Beavers were simply outplayed. Andy Houtkruyer, the City goalkeeper, made a fantastic 41 saves to ward off other Cannoneer threats. This was the two-year veteran's final game for City, as he is due to graduate in June.

The lone Beaver goal was scored by Aldo Gambardella. In addition, Baruchian Bob Berkson and substitute goalie Tony Papa will graduate in June.

City finished the season with a 7-5 record, 6-2 in the League and 3-1 in its final five games, defeating RPI and losing to Brooklyn and 1-1 in outside games, having scored by Aldo Gambardella.

Coach Harry Karlin is losing six starters who will graduate this year. They are Hugh Bobb, Gambardella, Houtkruyer, captain Eloy Pereira, Vic Polo- mano and Karl Racevskis.

In addition, Baruchian Bob Berkson and substitute goalie Tony Papa will graduate in June. Berkson, who has played as many as eight of the sport's eleven positions, has often been referred to as Karlin's "second team." City College Students
