Members of Faculty Given Survey of ‘Study’ Program

The results of a survey conducted to measure the attitudes of students toward the Methods program in the Baruch School of Business and Public Administration are encouraging. Seventy-two percent of the students enrolled in the laboratory section of the program have indicated a change in their approach to studying as a result of new seminars. This result is attributable to the influence of Professor Mortimer Feinberg, who is in charge of the lecture portion of the program. Professor Feinberg testified that the laboratory section, which he was leading in concert with Mrs. Viola Rosenheck, has resulted in an overall improvement in the students’ performance. The laboratory sections of the program are an integral part of the study and lecture sections, which are a systematic and comprehensive method of presenting a group of students with a series of assignments. The study methods program is designed to help students develop a systematic and comprehensive method of presenting a group of students with a series of assignments. The study methods program is designed to help students develop a systematic and comprehensive method of presenting a group of students with a series of assignments. The study methods program is designed to help students develop a systematic and comprehensive method of presenting a group of students with a series of assignments. The study methods program is designed to help students develop a systematic and comprehensive method of presenting a group of students with a series of assignments.

The survey also included questions about the effectiveness of the study methods program. Seventy-four percent of the students said that they would benefit even more from the course when they learn to tackle them effectively. The faculty ‘received the report with interest and is looking forward to research to establish evidence of the program’s validity.’

The responses to one question on the attitude survey revealed that eighty-nine percent of the entering freshmen did not feel that they utilized a systematic method of studying. This indicated the need for a study methods course at the Baruch School, noted Professor Feinberg. However, the effectiveness of the Study Methods course cannot be assessed just yet, said he. We are still in the middle of the program will have a ‘sleepier effect.’

The effects of the course, if any, will not appear until later in the academic year. A public seminar will be held established a right to have the commission stopped from further investigations and to have nullified what had been done in a previous study. The report said that a “no pattern of religious discrimination against any person was found.”

The B.H.E. has continually charged that the commission’s investigation at Queens College would be an end to the study methods program. The B.H.E. is shown the faculty that a report was made to them on the issue of religious discrimination.

President John F. Kennedy: Peace Corps Creation Ordered

President John F. Kennedy has issued an executive order creating a Peace Corps of un­skilled and unskilled American men and women workers. These people will assist underdeveloped na­tions and the country. They will provide the specific skills the countries need to convert technical advice into action.

The Peace Corps will undergo training at regional centers at universities throughout the United States. The training will in­clude the languages of their host coun­tries, screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI, and screening for membership will include security clearance by the FBI.

The Foreign Trade Society, in conjunction with the Student Council, has been working on the role of the Peace Corps in the Peace Corps program. The idea of the Corps was first conceived of by Senator Hubert H. Humphrey and has been developed by President Kennedy. Humphrey supported his plans for the Peace Corps and accorded them the necessary funds to launch the United States’ new overseas program. The Peace Corps will be an al­ternative to the draft. Deferment from military service will be offered to Peace Corps members.

The Peace Corps will be pri­marily composed of young people who have recently completed their college education and who, by virtue of the experience they gained, will be better equipped to assist the Peace Corps in its mission.

Dr. Gustave G. Rosenberg, Chairman v. Board of Higher Education, recently released the first from a series of studies conducted by the University of Tennessee, and the American Council of Education. The study, which will be published in the near future, is the first of its kind to be conducted in the United States.

"The study of the effects of higher education on the American community," said Dr. Rosenberg, "is an important and timely one. The results of this study will help us understand the role of higher education in our society and the needs of the American people."
A Welcome Decision

A major step in the fight for preservation of civil liberties took place when the Board of Supreme Court decided to dismiss a case against the Student Assembly of the University of Maryland. The case was brought by the government to prevent the assembly from holding a demonstration against the war in Vietnam.

The assembly was charged with violating a state law that prohibits demonstrations without a permit. However, the court ruled that the assembly had the right to hold a peaceful demonstration as a means of expressing their views on the war.

The assembly's victory is significant because it helps to protect the rights of students to engage in political expression. It is a reminder that the government must respect the rights of individuals to express their views, even if those views are unpopular or controversial.

Seminar

The Student Assembly is holding a seminar series on a variety of topics, to be arranged by the Public Affairs Seminar Committee. The seminar will include lectures and discussions on a wide range of topics, including politics, economics, and social issues.

The seminar will be held at 12:30 in the Student Center, and is open to all students. The seminars are a great opportunity to learn about important issues and to meet other students with similar interests.

Letters to The Editor

We are pleased to receive letters from our readers. We welcome your feedback and opinions on the issues we cover. Your letters help us to provide a diverse range of perspectives on the topics we discuss.

We encourage our readers to submit letters to the editor. Your letters will be published in our upcoming issue.

The Bombs Fell

By Rob Brooks

The bombs fell flat and fell. The village now was empty. It is clear that the bombs were not meant for this village, but were meant for the city of the United States. The bombs fell flat and fell. The village was now empty.
Supreme Court . . .

Reporter's Note: The reporter noted that the action of the Supreme Court on the appeal of the college administration was in the public interest. The court was asked to consider the matter of the college administration's action in a case involving a member of the college faculty. The case involved an appeal from a lower court decision that upheld the college administration's decision to fire a member of the faculty. The Supreme Court ruled in favor of the college administration, upholding its decision to fire the faculty member.
Polanskymen Finish Season With Defeat by St. Francis

By Lew Lipset

A valiant City College comeback fell short Tuesday night as the Beavers closed their season with a heartbreaking defeat to St. Francis. The Terriers won their tenth in nineteen starts.

The Beavers started fast, with Irwin Cohen, Shelly Bender and Howie Wilkov moving City to a 17-6 lead by the third minute. The lead, led by 6-3 Richie Dreyer and 6-2 Jim Raftery, gradually came back and moved ahead to a point lead.

Beaver Coach Dave Polansky in the drive.

As the second half began, St. Francis reeled off seven straight points for a 40-31 lead, and it looked as though the Terriers might be headed for a near reality.

Beaver captain Bender was playing his final game for City and his infinite talent was a big factor in the second Beaver comeback of the night.

City made a play, along with accuracies, shooting by Cohen, Greenberg and Sidat put City ahead with seventeen minutes remaining.

Four minutes later, the Beavers were hurt by the loss of Bender, who slashed aside his right elbow. The Beaver center left the court as City roosters gave him a thundering rebound ovation.

The Terriers regained the lead on John Jasiel's long one-hander over Cohen, who was able, with a pair of free throws, to keep the game close.

The Terriers regained the lead by four points, remaining Cohen's highest point total of his career.

The Beavers rushed the ball to Tor Nilsen, only to have their hopes dashed away with Dave Lopez's key block into the hands of Dreyer.

Cohen, with 22 points, led all scorers. This represented Irwin's highest point total of his career.

Bender, with 11, Dreyer and with 17, Jasiel scored 14 and Dreyer 11. Dreyer held the Beavers' season high scorer, Nilsen, to only 6 points.

In a freshmen preliminary game, the Terriers defeated the City seventh, 7-6.

Senior Gerry Kaplan took third place in the 153-pound class.

Fencers End Season:

Lucianem Lose to NYU, 17-10

By Lenny Furman

C.C.N.Y. ended its dual-meeting fencing competition for the year by bowing to New York University, 17-10 Saturday morning at the Beavers' Wingate Gymnasium. This was the second 17-10 victory over the Violets this season, the first coming February 8.

With three more matches remaining on their schedule and their defeat of St. John's University last week, the dream of an undefeated season along with the Metropolitan Conference Championships has become a near reality.

"The team is looking forward to the final three matches and a chance to get the National Trophy for Rifle competition," asserts their coach.

During the next three weeks the school will engage Manhattan, Rutgers, Stevens, N.Y.U. and Brooklyn College.

Riflemen Remain Unbeaten: Capture Triangular Contest

By Mel Bernhardt

—Bernie Renois and Don Nuns fired totals of 285 and 284, respectively Friday to spark the undefeated Beaver-nimrods to a triangular Metropolitan rifle victory over Brooklyn Poly Tech and Queens College. The meet was held on City's range.

The five-man team of sharpshooters amassed a total of 1,412 points out of a possible 1,500 to even with Penn, which shot 1,376, and Queens, with a 1,312 score. Placing the nimrods for Brooklyn were Steve Emmen and Norman Rand, shooting 280 and 279, respectively, and a possible perfect score of 390. The Queens team was led by Jack Steltz of Roslyn, Long Island. At present, the City R.O.T.C. unit holds the trophy.
