Gallagher Announces Opening Of CUNY Doctoral Programs

President Buell G. Gallagher has announced that a program leading to doctorates in four fields would begin at the City University September 1962. The statement was made Wednesday at a student press conference.

The City University had originally asked for a combined total of six million dollars from the state and city to begin the Ph.D. programs this fall. When it was originally announced that the state would contribute only one million dollars and the city would contribute little or nothing, the Board of Higher Education stated that the program would not begin this year. However, the city announced later that it would contribute the same amount as the state had. This reversal prompted the City University to start the program this fall.

The four fields in which the doctoral programs will be given are:

- Economics, which will be granted Insignia awards at a Student Council meeting Friday.
- English, based at Hunter College and taught by professors from the City University.
- General psychology, based at Brooklyn College and taught by professors from the City University.
- Chemistry, with the executive officer at Brooklyn College and taught by professors from the City University.
- Chemistry, with the executive officer at Brooklyn College and taught by professors from the City University.
- Chemistry, with the executive officer at Brooklyn College and taught by professors from the City University.
- Chemistry, with the executive officer at Brooklyn College and taught by professors from the City University.
- Chemistry, with the executive officer at Brooklyn College and taught by professors from the City University.

At the meeting, Dr. Everett stated, "It would be professionally irresponsible for the university administration to recommend that Ph.D. candidates could be admitted to even severely limited Ph.D. programs if only the state's $1,000,000 is available for the 1962-1963 session. The administration of the university is prepared to recommend the acceptance of doctoral candidates in chemistry, economics, English, and psychology in the fall of 1962 if an additional $1,000,000 is made available by the city."

When asked about the possibility of obtaining an increase for the following year, Dr. Gallagher emphasized that "increases are difficult matters. However, it should be noted that when the state and city granted the City University funds, they were conditioned on the understanding that it was a moral commitment."

If this year's Ph.D. programs are successful, programs in business and clinical psychology might be added later, stated Dr. Gallagher. The president said that the Ph.D. program was expected "to strengthen and enrich the total College's educational system as well."

President Gallagher also announced that Hamilton Grange, the former mayor of Cambridge, was ordered to a plot on the City College campus Uptown. The president said that the law was recently taken over by the federal government and that it would be maintained by it, although it will still be on City College land. Dr. Gallagher stated that a decision had been discussed since 1962 and he was pleased to see it had finally been approved.

Ten Baruchian Seniors Given Insignia Awards

Ten graduating seniors at the Baruch School were granted Insignia awards at a Student Council meeting Thursday. Insignia is given for outstanding service in the field of co-curricular activity.

In addition to the ten High Honors, two Honors were given to David Podoff, former editor-in-chief of THE TICKER and Student Council president; and Bob Signer, twice editor-in-chief of THE TICKER and Student Council president, and Bob Signer, twice editor-in-chief of THE TICKER and Student Council president. The three students receiving Insignia with High Honors were Paul Prusan, Larry Schuwer and Bob Solodov. Prusan is presently president of Council; Schuwer is editor-in-chief of Lexicon; and Andy Siegel, president of the senior class.

Student Council also voted to present a special Insignia award to Dr. Harry Lerner, acting president of City College for six months during Dr. Buell Gallagher's leave. The award was given for outstanding service above.
Students and a Film

A picture was shown in a classroom last week. It followed another picture which was also shown in the course.

The second picture was important, however, for it depicted the college students of the late 1930's marching to the sound of a brass band. After the picture, the instructor pointed out the beliefs that the students in the film possessed.

Since then, there has been much difference in the students of the late 1930's and today. Today's students have little or no value to those students. How blind some are. Many are but a step away from the grime.

One of the family members in the film expressed distrust of the current political system. This is not unlike the political system that is in existence today. If this film were presented at the orientation assembly, the students who attend would understand the political system that is in existence today.

As a result of the political system that is in existence today, the students have little or no value to the students of the late 1930's. The students of today are not important to the students present in the classroom for their failure to understand the political system that is in existence today.

It was unfortunate that this film was presented. The students of today are not important to the students present in the classroom for their failure to understand the political system that is in existence today.

The students of today are not important to the students present in the classroom for their failure to understand the political system that is in existence today.

The students of today are not important to the students present in the classroom for their failure to understand the political system that is in existence today.

V. Summary

VI. Conclusion

For the running of a student government there are many sides to the college experience, and many benefits that can be provided to a student. As I see it, the main benefit is that it may come to improve the quality of your education and your life. I hope to see you in the student government next year.

Bill Booker
The school council meeting was held on Tuesday, May 8, in the Student Center. The door opened at 7:00 p.m. and closed at 9:00 p.m. A total of 21 people attended the meeting.

President's Report
(Continued from Page 5)

The president's report mentioned several important matters. One of them was the need for better communication between the council and the student body. The president also expressed concern about the lack of participation in council meetings.

Voting Records
(Continued from Page 4)

The voting records were reviewed, and the secretary read out the results of the previous meeting's vote on the motion to allow upper sophomores to serve as council members.

The editor-in-chief, Class "65 news editor, wrote that the council's meeting had been well attended and that the members were engaged in discussing important issues.

Elections

(Continued from Page 1)

The editor-in-chief of the school newspaper announced the results of the school council elections. The candidates for student council positions were:

1. Joe Brown, for treasurer
2. Tim White, for secretary
3. Steve Rappaport, for council member
4. Mary Johnson, for council member

The results of the election were as follows:

- Joe Brown: 19 votes
- Tim White: 17 votes
- Steve Rappaport: 15 votes
- Mary Johnson: 13 votes

The council members-elect were sworn in and began their term.

HP Election

(Continued from Page 3)

The results of the HP election were announced. The candidates for HP positions were:

1. Dave Thomas, for HP president
2. Sarah Smith, for HP vice president
3. John Johnson, for HP treasurer

The results of the election were as follows:

- Dave Thomas: 20 votes
- Sarah Smith: 18 votes
- John Johnson: 16 votes

The council members-elect were sworn in and began their term.

Baseball Losing Skein Advanced to Thirteen

Iona increased the Beaver baseball team's losing streak to thirteen by whipping City, 8-3 and 12-1, in a Metropolitan Conference doubleheader at New Rochelle Saturday.

City Unbeaten After Net Win

By Joseph Borowsky

The City College tennis team advanced its season-record to 6-4-2 by defeating Kings Point, the defending Metropolitan Champion, Saturday on the Mariner's home courts Saturday.

The setmen meet Adelphi on the Finley Courts (Uptown) at 2 tomorrow. This match will probably decide the league championship, since Adelphi is also undefeated.

Al Smith, City's number one man, was in top form as he defeated Gordon Lee 6-4, 6-4; Stan Freundlich's fine forehand was a deciding factor as he conquered Steve Fugaro 6-2, 5-4; Karl Otto recovered after losing the first set and outplayed Tom Atkinson to win the set 6-6, 6-0, 6-2; Bernie Wagner outdistanced Bill Jesperin and won in three sets 6-2, 3-6, 7-5.

City's two defeats were suffered by Joe Borowsky, who lost to Dave Fyfe 2-6, 9-11; and Jeff Zupan, who lost to Tom Sutton 6-2, 6-6, 4-6.

In the doubles Smith and Freundlich united to beat Lee and Fugaro 6-1, 6-4; and Borowsky and Al Loss defeated Owens and Tobonao 6-2, 6-2. The third doubles match was called due to the lateness of the hour.

Inner Outfield Point

Mooses Take IMB Tourney

It was height against speed in the finals of the Intramural Board's basketball tournament as the Mooses triumphed 67-60 over the Alpha Mu, 46-42, Thursday in Hansen Hall.

Hal Eckstein and Arnie Muller led the winners by scoring fourteen points each, mostly in the second half. Eckstein joined Bob Johnson and the backcourt to set up the attack against the taller S.A.M. team.

The Mooses, who held a 28-16 half-time advantage, were hampered in the third quarter by the loss of Eckstein, who injured himself by crashing into the wall underneath the basket. However, Eckstein returned in the final period and S.A.M. never narrowed the lead to less than four points.

Eckstein scored on drives and long short shots, while Muller used jump and layups.

High scoring honors went to Steve Lieberman of S.A.M. who hit twenty-five points, seventeen in the final two periods. Dave Epstein added fourteen more in a losing cause.

Each team made eight of twenty-three free throws, but the Mooses made up the winning margin from the field.

高三 was no scoring in the first two minutes of play; however, the winners moved to a 31-17 advantage when the period ended.

Roop action will continue in the cross country and indoor track and field championships.

The win also snapped a losing streak which saw Kings Point and Fairleigh Dickinson victorious over City.

The victory gave the Beavers the Municipal College "triple crown" as they had previously won the cross country and indoor track and field championships.

The Army contest was post-poned until tomorrow on the Redman's field in Queens.

The Mooses played one of their best games against St. John's earlier in the season, losing 2-1 on a run in the ninth inning.

The Johnnies, defending league champion, have almost clinched another crown. They are 19-6 in the league and 16-0 overall.

C.C.N.Y. has three more league games remaining and a comeback could move this team out of the cellar.
