The "highest student position in the Baruch School, Stu­

The Baruch School was created by the City University of New York and places an emphasis on academic and professional development. The Baruch School of Business is known for its strong business programs and partnerships with various industries. The Baruch School was established in 1949 and has since become a leading institution for business education.

Ten Achieve "Who's Who"

Ten June '63 graduates have been chosen to represent the Baruch School in the current edition of "Who's Who in American Colleges and Universities.

The students chosen to represent the School are: Robert Brooks, Barry Ehrlich, Charles F. Kind, Katherine Fitzgerald, and Stuart Golkin. In addition, Neil Polonski, William Roskin, Joyce Siegel, and Alan Silverman have also been named.

Students from all over the nation are chosen for this "Who's Who" on the basis of extracurricular activities and scholastic records.

Dr. Gustave G. Rosenberg

Lupiano's decision to throw out all of the student's opportunity presented by the court to air this matter before a jury.

In ruling that this case was properly one for the courts to decide, Judge Lupiano declared, "The courts must be the accommoda­
tive philosophy so widely held with respect to so-called sensitive or controversial questions."

J0f School Honors Program

The need for more highly specialized courses in the internal operations of business and finance led to the formation of the B.S. Department in 1948. Under the direction of Professor Arthur Altergood, the department grew to include a wide range of specialized courses. The department was established to meet the growing demand for professionals with advanced knowledge in specific areas of business and finance.

The B.S. Department offers a variety of courses in areas such as marketing, management, accounting, and finance. The department has a commitment to providing students with a strong foundation in business principles and the opportunity to specialize in areas of interest.

The B.S. Department is proud to be a part of the broader business program at J0f School. The department works closely with other divisions, such as the School of Business Administration, to ensure that students have a well-rounded education in business.

In addition to its traditional courses, the B.S. Department also offers a new Management Program, which focuses on providing students with practical business skills and knowledge. The program is designed to prepare students for careers in management and leadership roles.

The B.S. Department is committed to providing students with a high-quality education that prepares them for success in the business world.

Election Endorsements

Student Council elections will be held Wednesday, December 5. The candidates for executive posts according to our convictions as to which student is most qualified to serve the School. This, we believe, is the inherent right of every free newspaper.

Two of the contested elections this semester have, among other things, raised the issue of N.S.A. coordinator7 executive posts. According to our convictions as to which candidates are best qualified to serve the School, and on any vital issues which place the candidates for Council, on knowledge of the co-curricular program of the School, and on any vital issues which place the candidates for Council, we endorse no candidate for the presidential office, chances of having opponents in that post, increased contested elections, we urge all students to vote Tuesday, December 4, 1962

**THE TICKER**

**Continued Growth**

By Mike Del Giudice

"I remember back in 1910 when the City College basketball team was the greatest ever assembled. The games were so exciting that the whole city turned out to watch them. Even more incredible is that the team only had three losses in the entire season!"

The senators have been discussing a proposal to create a new office for the N.S.A. coordinator. This office would be responsible for the overall organization of the N.S.A. and would serve as a liaison between the students and the administration. The senators believe that this office is needed to ensure the smooth operation of the N.S.A. and to address any concerns that may arise.

FACULTY VIEW OF CUTS

(Continued from Page 1)

Students...

(Continued from Page 1)

favorable cut decisions in the admissions for the student unable to cut classes. We believe that a college student unable to cut classes must have been given the privilege of staying away from our classes.

We believe that the Baruch School student is capable of cutting himself out of class. We foresee no great inconvenience from this new unlimited cut kind of plan.

The question of realism was not raised by the professor: "I think that the program will not change in any way because of this new unlimited cut kind of plan." It is very sympathetic to this view that the Baruch School student is capable of cutting himself out of class. We believe that the Baruch School student is capable of cutting himself out of class and would be foolish not to use this privilege to its full advantage.

(Continued from Page 1)

THE TICKET believes that unlimited cuts are, rather than being a source of increased popularity to the student, a source of increased popularity to the student. Upsala Whips Cagers, 61-49, As City Turns Cold in Opener

By Jeff Palca

If City College's cagers had even a luke-warm shooting night Saturday they would not have dropped their opener to Upsala, 61-49, in Wingate Hall. C.C.N.Y. hit on nineteen of sixty-two field goal attempts and nine of twenty free throws. The win was the Vikings' first ever over City in six tries.

Coach Dave Polansky was disappointed with the team's play, but expects the shooting to improve.

The game was evenly played with both teams guilty of numerous walking and palming violations. Don Sidat was the only standout from last year's lineup. As Polansky used five players who were not with the team last year in an effort to find the winning combination. Despite the newcomers, the team worked the ball fairly well, but was unable to cash in on numerous scoring opportunities. The rebounding was excellent at times, but City was usually held to one shot at a time.

The lead changed hands several times during the first half. Jump-shooting Gene Ekholm scored six quick points to move Upsala in front 8-5 at the five minute mark, but a three point bomb by City ahead. With four minutes remaining, Upsala regained the lead. Sidat and Greenberg had extensive varsity experience.

Sidat, the team's best shooter, put in five field goals and a foul shot for eleven points. Greenberg, hampered by an ankle injury, and Wyles found it difficult to drive. Golden showed nice moves and rebounding, but needs more experience in handling off his pivot post.

Columbia Clobbers Matmen; Taylor Registers City's Win

By Marc Naeson

Columbia's wrestling team, a contender for the Ivy League title, clobbered the Beavers, 29-3, Saturday on the Beaver's mat.

City's only victory was registered by Harvey Taylor in the 137-lb. bout. At 147, Mark Miller held his opponent until the final round, but then lost.

City was hampered by injuries to Mal Schwartz and Mark Chazen, who did not participate.

Columbia also won the freshman contest 24-12. For the Beavers, Al Frester won the 167-lb. battle and Ron Taylor tied in the 125-lb.

Both the varsity and freshman teams travel to New Jersey Saturday to meet Montclair State. The Beavers usually have more luck with Montclair than Columbia.

C.C.N.Y. has two other matches on the road during December. The team visits Brooklyn Polytechnic Institute December 19 and Yeshiva December 20.

City returns home January 26 to host Temple of Philadelphia.

Lions Hold Height Advantage In Contest with CCNY Five

The Columbia Lions will have a height advantage when they meet the Beaver hoopers in the I.R.T. gymnasium.

City has only one player taller than six feet in the lineup, 6-7 Jim Brown. The other forwards are all 6-4 or shorter.

Coach Ed Lucia, who has had sixteen years experience on the varsity level, is still looking for a player to give the team the advantage it needs.

Mooses Trip Hunt '61 For IMB Hoop Crown

The Mooses used good outside shooting to retain the Intramural basketball title by defeating a taller Hunt team, 73-49, Thursday in Hansen Hall.

Mike Cameras, who tied the winners in scoring with eighteen points, was awarded the tournament's "Most Valuable Player" prize.

It was a hard-fought game, with the lead changing hands many times. The Mooses moved in front to stay late in the final period on two field goals by Arnie Muller. These points broke a 45-45 tie.

City tallied nine points. Hal Eckstein, the team's floor general, added six points, although he had to leave the game at one point because of an injury.

Other high scorers for the winners were Mike Druck (right) and Steve Simms (seven). Bob Johnson added a free throw.

In the first period which ended in a 10-10 deadlock, the lead changed hands eight times. Hunt gained a four point margin midway in the second period, fell behind 27-25 at intermission.

The Mooses added one point, their lead then the third quarter, 39-36.

Hunt, the top House Player, was paced by Bob Diem whose eighteen points led all scorers. Max Olsen followed him in the scoring column. Gary Levine and Gary Leven also chipped in with several timely baskets.

This contest was similar to the previous one, except that the Mooses whipped Sigma Alpha Mu, 46-42, the Mooses were also underweight and had height disadvantage. Eckstein was hurt in both games. In the third quarter of last tilt, he injured himself by cutting an ankle under a basket, but still was able to fourteen points.

Come From Behind Win: Fencers Conquer Quakers

The Beaver fencing team scored a come-from-behind victory over the University of Pennsylvania, 16-11, Saturday in Wingate Hall.

A fencing match employs three types of swords: a foil, an epee, and a sabre. The match is divided into three rounds; one for each weapon, with nine minutes per round.

Coach Ed Lucia's men lost the first round, 6-5, and were losing the second before they scored seven consecutive wins and moved ahead 10-8. The Beavers never trailed again.

Don Sidat hit three baskets to and the Beavers' threat.

City started Sidat and Canina at forwards, 6-5 soph center Steve Golden, and John Wyles and Jerry Greenberg at guards. Only Sidat and Greenberg had extensive varsity experience.

Sidat, the team's best shooter, put in five field goals and a foul shot for eleven points. Greenberg, hampered by an ankle injury, and Wyles found it difficult to drive. Golden showed nice moves and rebounding, but needs more experience in handling off his pivot post.
