Curriculum Committee Hears SC Unlimited Cut Proposal

By Jay Haberman

The Faculty Committee on Undergraduate Curriculum, chaired by Dean Emanuel Saxe, met Tuesday to hear the Student Government's proposal for unlimited cuts in any course elective and special.

Professor Louis Goldberg, visiting professor, to teach at Baruch School

Professor Louis Goldberg of the University of Melbourne will be the first instructor under the Buell G. Gallagher Visiting professorship program to teach at the Baruch School. The committee met Tuesday, January 15, 1963 and invited representatives of S.C. to attend. The students who attended were Neil Levitt '63, S.C. vice-president; Jeffrey Levitt '64, S.C. corresponding secretary; and Steven Egel '64, S.C. president.

The system is currently in use at Brooklyn College and has had appreciable effect on the number of A's, B's, C's, etc. The Committee mentioned a state law which would prohibit a system of uniform grading. In a memorandum sent to Dean Saxe, S.C. argued that the system merely set the minimums students are taking elective and special courses. Council also argued that the system is currently in use at Brooklyn College.

Jeffrey Levitt made this comment to make concerns over the present attendance system: "This system is not capable of accepting without question a certain number of absences and then removing a student from a course if he takes only one more than the prescribed number as absences. All that we are asking is the removal of this regulation on a trial basis.

Jeffrey Levitt made this comment to make correlation between scholastic achievement and cutting.

The proposed system would permit students to take unlimited cuts in any course elective and special, as well as earn a special course credit and laboratory on a trial basis.

Dean Emanuel Saxe

Steven Egel

Effigy Burning Marks Feelings About Tuition

Governer Nelson A. Rockefeller was burned in effigy at state university colleges as students held angry demonstrations against the tuition imposed by the university's board of trustees.

Effigies were burned on the campuses of two colleges, Cortland and Oneonta. At Oneonta 500 students burned an effigy.

Effigy Toledo was burned in effigy at State University of New York in Oneonta. The effigy was placed on the campus of the university, and a fire was started. The effigy burned for several hours.

The Governor of New York, Nelson Rockefeller, was burned in effigy at the University of Texas, Austin. The effigy was placed on the campus of the university, and a fire was started. The effigy burned for several hours.

Prospectus of Academic Issues

It is very easy to name the year after it takes place. The hard thing is to predict the year before it takes place. It’s almost impossible to imagine what new trends will be discovered, or what will be the hot topics that will drive the market. However, by looking at the past, we can make some educated guesses about what to expect in the future.

Tuition Enigma

One of the most pressing issues in higher education is the rising cost of tuition. According to a recent study by the National Center for Education Statistics, tuition and fees at four-year public institutions have increased by an average of 10.6% per year over the past decade. This trend is likely to continue in the coming years, as colleges and universities struggle to maintain a balance between the need to fund their operations and the need to keep tuition costs affordable for students.

Some colleges have attempted to offset rising costs by reducing administrative spending or increasing endowment income. Others have made efforts to increase state funding or explore new revenue streams, such as online education or partnerships with industry. However, these strategies may not be sufficient to sustain the pace of tuition increases.

Education the prerogative to charge tuition, a recognized as a dramatic step by the Rockefeller Foundation. In 1950, the foundation announced a program to assist higher education institutions in covering the costs of tuition. This initiative, known as the Rockefeller Plan, was seen as a significant step toward making higher education more accessible to students from a variety of backgrounds.

In 1963, the Rockefeller Foundation released a report titled "The Future of Higher Education," which argued for increased federal support for higher education and called for a more equitable distribution of educational resources. The report also recommended that tuition be considered "a legitimate part of the cost of education," challenging the traditional view that education was a public good that should be supported by the government.

In 1950, the foundation announced a program to assist higher education institutions in covering the costs of tuition. This initiative, known as the Rockefeller Plan, was seen as a significant step toward making higher education more accessible to students from a variety of backgrounds.

In 1963, the Rockefeller Foundation released a report titled "The Future of Higher Education," which argued for increased federal support for higher education and called for a more equitable distribution of educational resources. The report also recommended that tuition be considered "a legitimate part of the cost of education," challenging the traditional view that education was a public good that should be supported by the government. Previous studies have highlighted the financial burden that higher education places on students, with many students relying on loans to cover tuition and other expenses. The report also emphasized the importance of providing support to low-income students and those from underrepresented backgrounds.

Conclusion

In conclusion, the rising cost of tuition is a significant challenge for higher education institutions. While there is no easy solution, efforts to increase federal support and explore new revenue streams may help to alleviate some of the pressures. It is important to remember that education is a fundamental right and that we must continue to work towards making it more accessible to all.

due to the nature of the text, it is difficult to accurately summarize the content. The text appears to be a combination of legal and educational topics, with references to the Rockefeller Foundation and higher education funding. However, the specific context and purpose of the text are not clear.
Free Tuition

It was hard to learn that tuition will be charged to students at the State University. It left as with the feeling that for some unknown reason the State University of New York, has settled on free tuition for students. The changes in the tuition policies were announced this week.

In the past, students have been able to apply for free tuition at state universities. However, starting this fall, students will be charged tuition for their studies. The new policy is designed to fund the education of students and provide support for their families.

The change in policy has sparked debate among students and faculty. Some argue that the new policy will unfairly burden students and their families, while others believe it will increase the quality of education by ensuring funding for the institution.

Unlimited Cutting

We are very pleased to note that three representatives of Student Council were invited to the annual meeting of the Student Council at SUNY. It is evident that the student representatives have been invited because they have shown great leadership in their respective roles.

The representatives will be discussing topics such as student life, academic policies, and campus issues. We believe that their presence at the meeting will be beneficial to both the Student Council and the student body as a whole.

Rule and Plans

A new regime is in power in THE TICKER. It is important for people to understand the changes that have taken place. The new administration has made several plans that will affect the student body.

The first order of business is to increase the budget for the Student Council. This will provide them with the resources they need to continue their work.

Additionally, there will be a new policy in place for the selection of student representatives. The new policy will ensure that representatives are chosen based on their performance and dedication to the student body.

Cuba and Errors

WASHINGTON, October 31, 1981 (AP) - President Kennedy has been accused of making errors in his foreign policy, particularly in relation to Cuba.

The president's handling of the situation in Cuba has been criticized by some for not being aggressive enough. The errors in foreign policy are not an uncommon phenomenon and have been made by many presidents in the past.

However, the president's actions have led to significant changes in the relationship between the United States and Cuba. The president's efforts have helped to bring about a thaw in the Cold War, which has had a positive impact on the world.

The president's handling of the situation in Cuba has been praised by many for being a step in the right direction. His efforts have helped to bring about a thaw in the Cold War, which has had a positive impact on the world.

Three League Contests
Face Basketball
Winners

Three league contests face basketball winners.

J. V. Cagers Beat Cathedral; Raise Overall Mark to 3-2

J. V. Cagers basketball team will have good luck in one of capturing the key league contests. The wins will bring the team to a 3-2 overall record.

Rutgers (Newark), Howard
Replace Fordham, American
On New Basketball Line-up
University of Denver, Colorado, will replace Fordham and American University in the 1963-64 season. The team will play five games out of the ten game schedule.

City College's Track Team
City College's track team took part in the Manhattan Invitational meet.

The Latest News

City College's junior varsity cagers scored home-and-home victories over Cathedral College and St. Peter's. The two victories brought City's record to 3-2 with five games remaining.

Tom Hickey to Hit Double Figures, Regularly
Steve Golden with eleven points was the high scorer, followed by Jerry Greenberg with twelve and Ken Trell with thirteen. The Beaver scorers were Ken Trell and Al Kleinhaus.

City College's Track Team
City College's track team will have a much tougher time before emerging with a victory. The team's record was 3-2 with five games remaining.

The Latest News

The latest news from the City College basketball team is that the team will have a much tougher time before emerging with a victory. The team's record was 3-2 with five games remaining.
Cagers Trip American, 73-61

Shooting Key Factor; St. Francis Wins

By Jeff Palen

The City College basketball team, shooting a dazzling forty-nine percent from the floor, registered its highest point total of the season in a 73-61 victory over the University of Washington, D.C., Saturday at Wingate Hall.

The win followed a heart-breaking 91-57 loss to favored St. Francis of Brooklyn. Both games were nonleague affairs.

Team Tied For Fifth In Tri-State Loop

By Lew Lippet

Defeats in two out of three recent Tri-State League games dropped City College's basketball team into a three-way tie for fifth place.

The losses were to Adelphi, 69-66, and Fairleigh Dickinson, 56-47, at Wingate Hall. sandwiched between them was a victory over Bridgeport, 70-67, in Connecticut.

In order for Dave Polansky's charges to cop the loop title, they would virtually have to win all of their remaining five games. This would include victories over defending champion Fairfield and powerful Rider.

Taylor Loses His First Match As City Wrestlers Bow Twice

By Joe Rosenberg

Harvey Taylor was dropped from the ranks of the unbeatens as the Tri-State Leaguer was brought down by Drexel, 22-3, and Temple, 25-3, during intermission.

Taylor, who was defeated in both contests, said: "I was out of shape. I gained fifteen pounds while studying for finals. Nevertheless, I was outdistanced by my opponents."

In the loss to Drexel, Al Fife, a 177-pound senior, put on his best show, scoring a season's best against his opponent.

Bill Hudgins, a sophomore, in the heavyweight category turned in a winning performance in the Temple match.

Coach Joe Saporas's charges, holding a 1-3-1 record, will resume action Saturday against Fairleigh Dickinson at Tennent.

Other teams on the schedule include Kings Point, Hunter, and N.Y.U.

In addition, City hosts the Metropolitan Championships in Goethals Gym (Uptown) at 10 a.m. Saturday.

Next season Columbia, Drexel, and Temple will not appear on the Beavers' schedule. This was not the Lavender success story.

Free Throw Record Falls To Blatt in Bridgeport Tilt

"I knew I had a chance to break the record, but I didn't feel any more pressure on me than for a regular foul shot," Alex Blatt said after he snapped the C.C.N.Y. record for consecutive free throws made in a season. Blatt, a husky 6-foot junior, hit twenty-five straight fouls in the 1957-58 campaign.

"More than that, the record would be a nice obstacle to overcome," said Blatt, who hit eighty-three straight free throws.

The old record of twenty-one was set by Merv Shorr during the 1953-54 campaign.

"I would have liked to set the record again, but Alex's performance tonight was just that much better," said N.Y.U. Coach John Sidat.

"I thought we were going to lose the game when we fell behind, but Alex stepped up and hit the free throws," said Blatt.
