Tuition Fee Charged at Baruch School; Council to Strike Friday Night Meetings

Demonstration Set Against Tuition

Stupid Council, at its Friday night swinging soiree, passed a motion by Kornplot '64 (going on '65) to strike its own meetings for the rest of the semester as a demonstration against tuition.

The motion was deemed necessary by the members felt they had nothing to do and a strike of their own meetings was the only move they could get support for.

Caramba Palamba, dictator of Stupid Council, was visibly upset by the outcome of the vote which passed by an overwhelming majority (2-12-23). He bawled, "Now I won't have any place to vent my frustrations on all week." and he had to bring his data up to the realization that they will never be announced.

The deciding vote was cast by Crazy Vanderheim '63, Palamba's own mind, who said, "Now I'm just going to sit around a table and have to vote for, or else I might have become an old maid."

Corresponding scribbler Lef'T Beatty '64 claimed that Palamba's downfall came when he began the practice of forcing naughty representatives to sit through the entire soiree with their fingers over their mouth. "The question of table manners didn't make," he barked.

In other business, Stupid Council voted to send a bus up to Albany to demonstrate against mandating at the College.

Ridiculous Robots Destroyed With Replacement by Foods

The Department of Stupid Life has announced that commencing in the future at a time that will never be announced, the cafeteria in the College will serve food, believe it or not.

The ridiculous robots, better known as vending machines, will be done away with, as their usage has become too confusing to the faculty, other than those in the Manipulating Department. You see, it has not been easy for them to figure out how much to put in the robots, and whether or not they should get change.

The downfall of the machines came as a result of a study by the Psychopathic Department. They found out that the extra-sugar button on the cocoa machine really didn't give extra sugar at all. Instead, an idea was created in the student's mind that he was receiving extra sugar and thus, according to the survey, was causing all coffee drinking students to undergo strange tribulations.

Student protests have been received concerning the conversion. One said that the robots were helping her on her diet. "You see," she stated, "by running out of food during key hours, the machines were preventing me from eating too much."

An undertaking by the Business Administration Department revealed that a "will soon be received by the Department of Stupid Life served by the other eating places around the College. Laraddins has claimed that they will be forced to look elsewhere.

Teachers To Pay

The Bored of Higher Education announced yesterday that commencing tomorrow, all faculty members at the Baruch School must pay a $10,000 tuition fee or they will not be allowed to teach for the remainder of the term. Teachers are to other branches of the City University will not be charged. Dr. Gusse Rosenthal, chairman of the B. H. E., said that he realizes that students cannot afford to pay tuition, so before the state forces the fee to pay. I want to build upon a large working fund.

When the faculty at the Baruch School said we can convince students to free tuition for students indefinitely.

Marvelous Manny Socks, dean of the Baruch School, said "I doubt that any teacher in our College will be forced to drop out, as they are all rich. Unfortunately, the faculty at the other schools cannot afford to do it.

Jean Socks, THE TRUMA inherited learning, does the income tax come upon the G. C. N. Y. faculty members.

Playgirls to Provide Stupid Council Boats For Fun Excursion

Stupid Council's annual boaridie, as a result of the strenuous, intelligent, diligent, competent, and most efficient Stupid Council level of service, will be provided by the Playgirl Travelling Under Moonlight Necking in the Daylight Boattride Company.

Instead of the usual steamboat, one rowboat and seven thousand canoes have been rented for Sister's Day, Friday, April 17. Each canoe will be "manned" by four playgirl handlers. The canoes arrive at one o'clock at midnight for Bare Mountain.

"We, ah, hope, ah, this will be one of the finest, ah, ah, I mean the best rides in the history of the Playgirl Company, ah, and, furthermore, let me say this about that. I, ah, don't believe it, ah? forcefully and clearly announced boatride chairman, Sub Hitler '39.

Dear Holman,
Piston Bottles Syrup In Heavyweight Bout

Funny Piston, heavyweight champ of the world, announced today that he will defend his title against "Busted" Yustin Syrup.

Syrup declared he was overwhelmed by Piston's confidence. The terms of the fight are as follows: Piston's hands and feet must be bound, his eyes must be blindfolded, and prior to the first round, he must consume three quarts of assorted liquors. According to ring experts, this should equalist the fighters.

A crowd of one hundred spectators is expected at the match, to be held on the bridge to the Student Center. Among them will be ten doctors and seven first aid experts.

Syrup, who has never been defeated, said he will have half his life saving on himself to win.

On April 1, 1966, Beaver booster Bob Berkson was given honorable mention on the All-American based in Queens, New York. He is the only person ever to be a perfect 1,000 pounds. The betting odds show that Piston will win.

City College's five recently finished their season undefeated in league play. The team also captured a major invitational tournament. Included among the team's victims were Fordham, Hofstra, St. John's, and N.Y.U. Only by the way, this City College five is not a basketball team, it is the rifle squad.

Barry Saymore, one of a local college's basketball teams, will transfer to C.C.N.Y. next season. When Jerry "Shooting" Benbry was informed of the impending transfer, he humbly said, "The team can use Saymore. Since I'm graduating, somebody has to take my place as leading scorer."

The 1964 C.C.N.Y. football schedule was announced yesterday. Included among the opponents are U.C.L.A., Army, Navy, Air Force (or it Fair Fair), Mariner (not to be fair to the other military schools), Penn State, Pittsburgh, Miami, Ohio State, and Illinois. The schedule was limited to three games per season. The following request for petty cash was submitted by a TRAUMA sports reporter. He will cover the N.C.A.A. fencing tournament at Colorado Springs this weekend. It included: 1) Transportation—$400, 2) Meals—$200, and 3) Hotel—$350 for two nights (we don't sleep in flop-houses), 4) Cell girl—$50, and 5) Present for Dean Sacks—$500. The reporter received the entire amount less $1 for admission. This was considered an unnecessary expense.

Carolyn's Guard

Carolyn's Guard has set a record for the most pledges ever received by a Baruch School organization. This is because they finally introduced Carolyn to the student body.

Sports Quiz

Question—Can you name the sports personality pictured above?

Hints—He played for the Birds in St. Louis. He is a member of the Hall of Fame (not in stage). He had a quick pitch in his day (452 B.C.). He pitched to hard one day that he broke his toe and had to retire to a sixteenth floor penthouse apartment.

Tuition...

(Continued from Page 1)

The leader of the teacher underground, Dr. Robert Stanhans, said the faculty would hold a referendum tomorrow to determine whether or not to hold a strike against the tuition charge. "We expect, if the vote passes, to get the help of Stupid Council. Then, in due time, students will strike any time for anything," he said.

Council...

(Continued from Page 1)

announced. A rider to the motion stated that if this doesn't work, the student would then line up and all other tangibles would be given away.

Later in the evening authentic roll call was taken for the twenty eighth time. This established a new all time record. The previous mark was set last year when a lecture was being held downstairs. C meeting room on Pre-marital Sex. At that time, many Council members received twenty seven all articles.

"However," claimed Marcus Gruv '64, "vote is the favor of unlimited cutting in class rooms."

The meeting ended at 12, with former Stupid Council dictate Babbling Brooks, recting the bad eduction.
