Dr. Gallagher Challenged

"Yes," shouted Professor Tony Leffert of the Uptown English Department in answering President Gallagher's question of "Is there someone somewhere in the College who sees his section size grow?"

President Gallagher continued: "Does he believe that the administration is trying to grind a maximum production of credits out of him, and his only protection is the labor-union philosophy with which the administration is not sympathizing?"

Again the elderly professor interjected from his seat in the audience and replied, "I have been a student in this college for thirty-five years. I don't think you have a right to say such things about the labor union."

All eyes turned to Professor Leffert as he continued his attack. "As a fellow member of the UFT, I wish to say that my professor never used to talk against trade unions."

"Will you now hear me, Mr. President?" he asked, "or have we already finished?"

Again the professor excelled in his role as an educator, not a speaker. When approached by the TICKER for comment, the speech, he continued his attack.

"It was a wonderful speech, but the speech of an educator. We come to hear an educator, not a speaker."

"But let me continue."

Mrs. Roosevelt Honored by JFK;

Levy to Attend

Professor William Turner Levy, Jr., a personal friend of the late President Roosevelt, will attend the centennial commemorative services for his wife, in Washington, where a memorial honoring the former first lady will be erected. President Kennedy will preside at the services.

The White House Rose Garden will be dedicated to Mrs. Roosevelt, who is called the "First Lady of the World," died November. She becomes the first wife of a Chief Executive to appear on a United States postage stamp since Martha Washington.

Gallagher Cites Need for More Classroom Use

Dr. Gallagher cites need for more classroom use.

An Uptown Loss:

"The loss of the faculty is a loss to the College."

Liberal Arts Dean Retires

"No matter who we select to replace Dean Morton Gottschall, no one will be able to take his place," exhorted Dr. Emanuel Saxe, referring to President Buell G. Gallagher's appeal for extended enrollment through greater class utilization and expanded class hours.

"We will have no problem handling an increased enrollment for the first year," the dean continued. "We can accommodate 200 more freshmen in Fall '64. The difficulty arises in trying to accommodate the increasing numbers in the following years. Budget limitations of the past have restricted enrollment and caused the cutoff scores on entrance examinations to be increased. Lectures accommodating a large number of students, however, can ease the burden of high enrollments and serve a partial remedy to the problem."

"As a matter of fact, the dean added, "the lecture sessions going on in Accounting 101, 102, 250, 255, Law 101, Economics 101, 102, and 15, and in the Biology and Chemistry sections, in addition, the large lecture in Marketing 110 will be reduced."

"These courses are already a part of the lecture system, and we have found that it works," added Dr. Saxe. "The system will be extended wherever permissible. In addition, greater use will be made of the smaller faculty.

Saxe Views Proposals

"I think the plan is in order," declared Dr. Emanuel Saxe, referring to President Buell G. Gallagher's appeal for extended enrollment through greater class utilization and expanded class hours.

"We will have no problem handling an increased enrollment for the first year," the dean continued. "We can accommodate 200 more freshmen in Fall '64. The difficulty arises in trying to accommodate the increasing numbers in the following years. Budget limitations of the past have restricted enrollment and caused the cutoff scores on entrance examinations to be increased. Library Floor Plan Reset; Fines Schedule Increased
By DAVID GOLDBERG
The Baruch School Library, which had been rearranged last year on a trial basis, has now gone back to the original plan, according to Mr. Harold Elmer, head of the Library Department.

"This is the original plan which was used last year," said Mr. Elmer. "We have now reset the shelves and the books are back in their original places."

Mr. Elmer said that the new plan will facilitate the use of the library, as it will make it easier for students to find what they are looking for.

Mr. Elmer also said that the library has increased its collection of books, and that the periodical catalogue, which includes current periodicals, is now available for students to use.

On-Campus Interviews

By DAVID GOLDBERG

A meeting of the Baruch School Library's Departmental Honors Committee held last year resulted in a new method of selecting honors candidates.

In the new method, the chairman of the committee, Dr. Gadol, will interview each student individually. This will be most beneficial to the student, as it will allow the chairman to get an accurate picture of the student's abilities and skills.

Mr. Elmer said that the new method will be used this year, and that it will be a great improvement over the old method.

Placements Office Plans On-Campus Interviews

The Placement Office is arranging appointments for interviews with the Class of 1961 and 1962 candidates who wish to participate in On-Campus Interviews. 

At the time of the interviews, the students will be interviewed by representatives of the firms they wish to work for. 

The interviews will be held on the Baruch School campus, and the students will be given the opportunity to discuss their qualifications and interests with the representatives. 

If a student is offered a job after the interview, he will be asked to accept it. If he does not accept it, he will be free to continue the interviews with other firms.

New Creative Method

By DAVID GOLDBERG

A new creative method of selecting honors candidates has been developed by the Departmental Honors Committee. 

In the new method, the chairman of the committee, Dr. Gadol, will interview each student individually. This will be most beneficial to the student, as it will allow the chairman to get an accurate picture of the student's abilities and skills.

The interviews will be held on the Baruch School campus, and the students will be given the opportunity to discuss their qualifications and interests with the representatives.

If a student is offered a job after the interview, he will be asked to accept it. If he does not accept it, he will be free to continue the interviews with other firms.

The new method is being applied on a trial basis, and it is being evaluated by the Department of Student Life.

The results of the interviews will be used to determine the best students for honors programs.

A meeting of the Departmental Honors Committee will be held at 4 South on Tuesday, October 8, at 2:30 P.M. 

The new method will be used for the first time on the second interview. The interviews will be held on the Baruch School campus, and the students will be given the opportunity to discuss their qualifications and interests with the representatives.

If a student is offered a job after the interview, he will be asked to accept it. If he does not accept it, he will be free to continue the interviews with other firms.

The new method will be used on a trial basis, and it is being evaluated by the Department of Student Life.

The results of the interviews will be used to determine the best students for honors programs.

Special Voting
Set Tomorrow
BY IRA TELLIN
Student Council will hold
a special election for four
members of the City Universi
ty Board of Trustees on
Tuesday. Voting will begin
at 10:00 a.m. and con
clude at 6:00 p.m. at the Uptown Center.

In presenting the United States National Student
Association for your consideration, I think it would be very
profitable for us to ask ourselves some basic questions:
Do you believe it? Why does it represent you? What does it do
for you as a student? Does it have any influence on the
college? What must it do in the future to represent you?

Student government, although in itself not a guaran
tee of education, is an means of self-expression. It is a
vehicle of the student community's will. It is the organiza
tion that the students have chosen to represent them.

I believe that it is the responsibility of the Student Council
to work toward the increasing efficiency of the student
government, to increase its capacity to represent the
students, to increase its influence on the administration
and to improve its effectiveness in doing so.

The best way to do this, I feel, is to work toward the
increasing efficiency of the student government, to
increase its capacity to represent the students, to
increase its influence on the administration and to
improve its effectiveness in doing so.

The Student Council is the representative body of the
students. It has the power to make decisions on behalf of
the students, it can act as a liaison between the students
and the administration, and it can help to shape the
policy of the University.

We should work toward the increasing efficiency of the
student government, to increase its capacity to represent
the students, to increase its influence on the administration
and to improve its effectiveness in doing so.

Therefore, I urge you to vote for the United States
National Student Association for your consideration.

3 BURIED, 3 DEAD, 1 DOWN, 17 TO GO

Baruch College

September 19, 1969

Tickets: S C Lobby, 11-12 Daily
**Soccermen Edge Post on Goal by Soas**

**Sophomores Excel In Opening Tilt**

By JOSEPH TRAUM

Cliff Soas scored with less than three minutes remaining in the final period to enable the City College soccer team to defeat C. W. Post, 3-2, in the opening game of the Metropolitan Conference season on Saturday at Greenwich, N.Y. It was the first meeting between the schools.

Soas, a sophomore, tallied the tying breaker with a hard shot from fifty-four feet out. It was his second goal of the game. Another sophomore, Jerry Zanderman, who committed the score to left back Paul Bouard, who committed another error in the game.

City Moves Ahead

C.C.N.Y. forged ahead, 1-0, at 3:30 of the third quarter after scoring from the center of a huge pile-up in front of the Pioneers' goal. Post then tied the game once again on a disputed score. Schr- macher was the returning score to the center of the game. Although it was difficult to tell whether Johnson's shot had beaten the referee allowed the goal.

Zanderman took the game "aggressive," as he下雨 way showed. They overhustled and became an important benefactor of the more aggressive they became," he said.

In addition to the back forces future obstacles. "The toughest games we have are still ahead of us," he claimed.

**St. John's Defeats Beavers With Two Shutouts, 2-0, 11-0**

By STEVE SCHERR

St. John's University, blanked an inept-filling Beaver nine, 11-0 and 2-0, in an exhibition doubleheader Saturday at the Redmen's field.

Rolande Meyereilles, a sophomore, started the first game for City and did a splendid job in holding the Redmen to one unearned run through the first three innings. However, St. John's broke the game open in the next three frames, scoring runs in the fourth, five runs in the fifth (ten men came to bat); and two runs in the sixth.

Paul Lamprinos relieved for the Beavers in the fifth inning and was the victim of poor fielding. St. John's had five pitching performances from Bob Wolfe and reliever Terry Cash.

Things were no better for the Beavers in the second game, especially not for pitcher Howie Smith. Smith hurled an exceptional game, giving up only six hits and striking out eight in seven innings. But his teammates could only support him with four misses, bringing their total to nine for the day. Lamprinos scored the only run in the first frame with two out and a man on third. The Beavers shortstop booted a grounder to allow the score. St. John's again received good pitching, this time from Bob Lurie and Gregory Freim.

**Tri-State Loop Holds Meeting**

The result of Friday's meeting regarding the expansion of the Tri-State basketball league were made public.

George L. Shibler, commissioner of the Eastern Intercollegiate Athletic Conference, announced that "Nothing final has been done, however, there have been discussions, plans revamping the 1945-46 season. Perhaps in December there will be an official announcement.

A tentative proposal involves breaking up the conference into two divisions: one for the stronger teams and one for the weaker teams. The organization will add new teams to complete the loops.

The league now consists of Adelphi, Bridgeport, C.C.N.Y., Fairfield, Fairleigh Dickinson, Howard University, Rider, Brooklyn Heights, and Columbia. The league is considering the addition of Hofstra, Roberts and Wagner College who are interested in the University.

**Frosh Booters To Meet Pratt**

By NEIL HAY

Coach Lester Solney's frosh soccer team will open its season at 3:30 tomorrow by traveling to Pratt Institute.

Although Solney does not put any emphasis on this game, Coach William Burman of Pratt does. "This game will be my club's most important game of the season because of the long-standing rivalry between the two colleges," he said. C.C.N.Y. has won the last two encounters.

The Beavers should feature five or six experienced players. However, their main deficit is the lack of an experienced goalie. Solney expects to see great improvement as the season progresses.

Burman is very happy with his personnel. Three of his players scored all the club's goals in their 10-3 win over Brooklyn College, September 28. These players are Richard Penney (9), Alfragan Pollak (8) and Peter Mychalski (13).

Frosh Booters to Face Kingsmen In Met Conference Opener

By MARTY LEVISON

Brooklyn College, missing All-Americans Ben Gibbs and Ingo Kampa, will oppose C.C.N.Y. as the Beavers open their season Saturday at 2:00 in Lewisohn Stadium. It will be a Metropolitan Conference affair.

The Kingsmen have not defeated B.C. since 1959 when they registered a 6-0 shutout. Since then, the Kingsmen fell to their 2-2 mark in the league.

**Frosh Hoops**

All freshman basketball prospects are invited to attend a meeting at Williams Gym (Brooklyn) tomorrow at 4. No experience is necessary.

The University of Western Ontario may be reached by 1RT 137 Street, IND 143 Street.
