Next Term's Council

We wish the best of luck to those Student Council candidates running for office. During the past few terms, the quality of Councilor work has been declining. We hope that the incoming council will have the respect of the administration and the student body

Aims of Student Government

Among the important mandates facing Council must be the culmination of the student body's constitutional mandate. Impurposes such as co-curricular, literary, exhibition, and social

dynasties much of the time.

Council meets four times a week and is divided into committees. The committees deal with such issues as the student government budget, off-campus activities, and student housing. During the past several terms, the quality of Councilor work has been declining. We hope that the incoming council will have the respect of the administration and the student body.

Business vs. Arts?

Before the spring finals and uncalled student were
gone, the student government met for the last time to discuss the budget. The main issues were the amount of money allocated to the student activities fund and whether or not the student government should have the power to allocate money to student organizations. The student government currently has the power to allocate money to student organizations, but this power is often abused. Therefore, we feel that the student government should have the power to allocate money to student organizations.
