Record High Budget Announced by BHE

While announcing planning and operating budget content budgeting period, 1965-66, the BHE budget committee announced that $10,000,880,000 has been allocated to the City University system.

The budget covering all the city campuses (exclusive of Baruch College) for the current academic year, 1964-65, is $9,924,728,000. The 1965-66 budget, however, calls for a shift of $76,162,000 to the City College System. The College Discovery Program will not be affected.

Dr. Max B. Baker, President of the City University, said, "The budget allows the major adjustments that will be needed to meet the rising cost of living." He added that the City College System will receive an increase of $35,000,000, which is the largest increase in any of the university's divisions.

We Do Not Need Elections-or 1984

by Edward Saben

Society Department

After the elections of 1964, while the politicians who had taken the polls had divined the accuracy of their predictions, the voters were left to fend for themselves. Thus, it was with a certain amount of gratification that I heard the announcement of the 1984 election. The announcement not only shocked the nation, but it also raised a host of questions. What would it mean for the country as a whole? Would it bring about a new era of prosperity and progress? Would it bring about a new era of prosperity and progress? Would it bring about a new era of prosperity and progress?

The Wealth of Knowledge

Vocational Skills Are as Important As Liberal Arts

Professor Aaron Lewis

Given the current state of the economy, the need for vocational skills is more pronounced than ever before. The liberal arts, on the other hand, have been declining in popularity. The question remains: Are vocational skills as important as liberal arts?

I believe that the answer is yes. While academic skills are certainly important, they should not be the only focus of education. Vocational skills are equally important, and they should be given equal emphasis. In this regard, we need to strike a balance between the two.

The liberal arts are important, but vocational skills are equally important. Both are necessary for a well-rounded education.

Beavers Beat Queens College
As Lavender Defense Excels; Zuckerman, Kissman Score

BY BARRY EPSTEIN

The City College basketball team defeated Queens College, 62-54, Tuesday, October 29, in Winchell Gym (Uptown). The team's record now stands at 3-3. Leading scorers for City were Al Zuckerman and Bob Kissman with 19 and 16 points, respectively. Mike Pearl added 12 points.

In the most lopsided game in the last few years, the Beavers took on Queens in a contest to test their newly found stamina after a steady diet of practice games.

The starting line-up for both teams was as follows:

City: Zuckerman, Kissman, Schweid, Pearl, and Delvecchio

Queens: Greene, Matson, McFarlane, and Resnick, Kissman

The game opened with a bang as the Beavers, led by sophomore center Zuckerman and senior Kissman, scored 19 of the team's 21 points in the first period. A fast break by Zuckerman and Kissman forced the visiting team to take control of the game. A 6-1 lead for City continued to grow, reaching 21-11 by the end of the first half. The rest of the starting five—unknown—

Coach Kaplan, who could pass for James Dean, is the nucleus of the team, he noted. "Norm is the man we're shooting for."

The team was led by Zuckerman and Kissman, two of the top rebounders in the league. Zuckerman's defensive skills were on display as he blocked more shots than any other player. Kissman's offensive skills were also on display as he scored 19 points on 12-of-14 shooting.

The game's highest scorer was Bob Pinkin with 19 points, a 5-of-8 shooting performance. Zuckerman also added 19 points on 12-of-14 shooting.

The City freshman team evened its record at 3-3 by defeating Queens' freshmen, 71-39. Leading scorer for City was Richie Knel with 27 points. Also scoring in double figures were Chick Newman with 12 points and Curtis Hendrix with 10 points.

The next game will be against the Varisty Engineering team, scheduled for November 1.
