March to Dramatize CUNY Need of Funds

City University students will lead a "March on Albany" in April to dramatize the need for increased state aid to the university.

Dr. Gallagher Scores Draft

President Roel G. Gallagher has urged that a substantial, not the only criterion used to decide which full-time college students should be drafted.

Dr. Gallagher has two concerns. The first is the status of full-time college students as he has twice said that it would be unfair to draft college students who are not in full-time employment.

Letters On Evaluation

The Ticker resumed publication today after its editors admitted that they had caused "unwarranted damage" to faculty members and the school by publishing a teacher evaluation three weeks ago.

The Ticker's statement was authorized by the Ticker Association, as well as Dr. Emanuel Saxe and David Newton, "acted most fairly in this matter." The controversy arose over the publication of an evaluation of the merits of fifty-one required-course instructors in the first edition of the Ticker of the spring term. The issue appeared on January 27, the first day of registration.

The Ticker's statement was printed without malice, and its goal is to serve student and faculty members, not to do injury to anyone.

The editors ordered 1,000 copies of the issue delivered to the school on Thursday, and planned to distribute them and then additional copies on Friday, "...to be printed by the same editorial staff without consultation with them." The issue, however, when the editors were informed that several statements in the statement were potential libel.

The issue was printed on Page 7. It was the first time in school history that the Ticker was printed on the same day of the week as the issue, and the paper was pub...

Thirty-six Freshmen Attend Colloquium; Class of '70 Introduced to Baruch School

Faculty Members Conduct Classes

Alumni Hold Luncheon

Cafeteria Imperiled by Operating Costs

Student Leaders Teach Small Orientation Groups

Placement Office To Begin On-campus Job Recruiting

First Negro Member—Dr. Clark Elected to Board of Regents

Lindsay and Kennedy to Speak At City Free Tuition Conference

Thirty-six entering freshmen to college next term. Dr. Kenneth Clark, a professor of mathematics at New York State University at Stony Brook, will be the first Negro member of the Board of Regents. The conference will be held on April 15th and 16th. The main objective of the orientation groups is to help freshmen get over the transition period from high school to college.

Prominent orientation leaders will be Mr. Theodore Kupferman (Rep., Man.) and Assemblyman Melville Abrams (Dem., Man.).

First Negro Member—Dr. Clark Elected to Board of Regents

The New York State Board of Regents is to be expanded to include a Negro member. This was announced by Dr. Kenneth Clark, a professor of mathematics at New York State University at Stony Brook.

Dr. Clark will be the first Negro member of the Board of Regents since its formation in 1826. The Board of Regents is the state's educational policy-making body. Its members are appointed by the governor and confirmed by the legislature.

Dr. Clark's appointment is a victory for civil rights advocates. He has been a strong advocate of educational equal rights for all students, regardless of race.

The conference will be held on April 15th and 16th. The main objective of the orientation groups is to help freshmen get over the transition period from high school to college.

Prominent orientation leaders will be Mr. Theodore Kupferman (Rep., Man.) and Assemblyman Melville Abrams (Dem., Man.).

A Time for Change

As much as we might like to stand off and see what the current situation in the School is, such that The Ticker will never offer its students an administration of information in the form of an editorial, it is however, we feel, the faculty and administration must come together and request that the lecture system of the School be changed. We are suggesting that the lecture system if found to be of no use, and that the School as a whole be changed. The lecture system, however, we feel, should be the new system to be used to combat the current situation in the School.

The quality of instruction is only as good as the teacher, and in our opinion, the lecture system should be changed to reflect this. We feel that the lecture system should be abolished and replaced with a system of small group discussion, where the students and the teacher can discuss the material in depth.

The lecture system is not only inefficient, but it also does not encourage participation from the students. The students are not able to ask questions or participate in the discussion, and this is not conducive to learning. The lecture system also does not allow for the students to learn from each other, as they are not able to see the work of their classmates.

We believe that the lecture system should be replaced with a system of small group discussion, where the students and the teacher can discuss the material in depth.

The lecture system is not only inefficient, but it also does not encourage participation from the students. The students are not able to ask questions or participate in the discussion, and this is not conducive to learning. The lecture system also does not allow for the students to learn from each other, as they are not able to see the work of their classmates.

We believe that the lecture system should be replaced with a system of small group discussion, where the students and the teacher can discuss the material in depth.

We are not suggesting that the lecture system is never useful, but only that it should be used as a complement to the new system, which we propose. The new system would allow for a more interactive and engaging learning environment, and would also allow for the students to learn from each other, which is essential for a good education.

We hope that the faculty and administration will consider our proposal and take the necessary steps to implement it. We believe that it is time for change, and that the School must move forward to ensure the best possible education for its students.

Members of Faculty Comment on Ticker Editors' Evaluation

To the Editor of The Ticker:

The evaluation made by the Ticker editors of the faculty, I am sure, is not the only one of its kind that will be made. I have been involved in the evaluation of faculty for over 20 years, and I can attest to the fact that it is a difficult and sometimes controversial process. However, I believe that the Ticker editors have done an excellent job in their evaluation of the faculty.

I must say that I was disappointed to see that some of the professors were not evaluated on the basis of their teaching. I believe that teaching is the most important aspect of a professor's job, and it is important that it be evaluated. I also believe that the professors should be evaluated on the basis of their research, as this is a key component of their work.

I would like to see the faculty evaluated on a more regular basis, so that they can improve their teaching and research. I also believe that the faculty should be evaluated by their students, as they are the ones who are directly affected by their teaching.

I am confident that the faculty will continue to improve, and that they will be able to provide the best possible education for their students.

Edward S. Lodge

To the Editor of The Ticker:

I was pleased to see that the Ticker editors have taken a thoughtful approach to the evaluation of the faculty. I believe that it is important to have a system in place for evaluating faculty, as it is important to ensure that they are providing the best possible education for their students.

I would like to see the faculty evaluated on a more regular basis, so that they can improve their teaching and research. However, I believe that it is important to ensure that the evaluation process is fair, and that it is based on a variety of factors, including teaching, research, and service.

I am confident that the faculty will continue to improve, and that they will be able to provide the best possible education for their students.

Robert J. Smiley

The evaluation made by the Ticker editors is not the only one of its kind that will be made. I have been involved in the evaluation of faculty for over 20 years, and I can attest to the fact that it is a difficult and sometimes controversial process. However, I believe that the Ticker editors have done an excellent job in their evaluation of the faculty.

I must say that I was disappointed to see that some of the professors were not evaluated on the basis of their teaching. I believe that teaching is the most important aspect of a professor's job, and it is important that it be evaluated. I also believe that the professors should be evaluated on the basis of their research, as this is a key component of their work.

I would like to see the faculty evaluated on a more regular basis, so that they can improve their teaching and research. I also believe that the faculty should be evaluated by their students, as they are the ones who are directly affected by their teaching.

I am confident that the faculty will continue to improve, and that they will be able to provide the best possible education for their students.

March to Albany Slated
More Aid Needed

The New York College Teachers Federation has announced a $4 million drive to raise funds for its program of representing college teachers in negotiations with their employers. The Federation is also planning a series of lectures and meetings to be held in various parts of the state. The Federation is.sparse of the need for more funds, and is particularly concerned about the question of academic freedom. The Federation has already made arrangements with several universities to host its lectures, and is planning to hold similar events in other cities. The Federation is also planning to hold a rally in Albany to draw attention to its cause.

More Food Now Offered

Over 4,000 meals a day are now offered at the fix. This is an increase of over 1,000 meals a day over last year. The increase is due to the increased demand for food, and the increased availability of funds. The fix is also planning to offer a wider variety of food, and to improve the quality of the food. The fix is also planning to offer a wider variety of food, and to improve the quality of the food.
Summary of Games
February 7, 1966

Harriers Win In Mile Relay
The Harriers defeated the Beavers in the mile relay event, winning with a time of 4:39.1. The team consisted of Jerry Uretsky, Charlie Rabinowitz, and David Silverman.

MermenSink

Hooper's Record At 10-4
By David P. Smith

Tied for first place in the Mens' AA Conference, the Mermen defeated the Bulldogs by a score of 55-48. The team, led by John Collins, had a strong performance, scoring 20 points in the first half alone.

Recruiting Is Set at School

Kipper Beavers Ailce in First Half

In a suspense packed story, unfold before the eyes of a packed house Saturday, as the City hoosters defeated the University of Rochester, 77-71, in triple overtime.

The first half of the game was low and poorly played, Rochester being leading 34-32 at half time, as Alan Zuckerman, who leads the Beavers with 18.4 ppg average, scored only four points, hitting one for two from the floor, Mike Perl and Bob Kissman kept the Beavers in contention by scoring eight points each. Perl, a sharp shooter, scored all his eight points, Kissman made his shots from out of place, and the Kipper play of City.

In the second half, the play got better played, with the Beavers, as the time came back. At one point Perl scored four consecutive points to pull the Beavers out front, 41-39, forcing Rochester to call a timeout. Barry Kissman started rebounding, and Pat Valancic did a great defensive job on Bill Borkowski, Rochester's candidate for Little America honors. Denson finished with sixty, ten points.

**Hoopsters To Meet League Leaders; Rider and LIU Each Own A 4-1 Slate**

The Long Island University Blackbirds, approaching a re-entrance into big-time college basketball, meet the Beavers Saturday night at the converted Brooklyn Paramount theatre. The Blackbirds are really up for this Tri-state league contest. City's stunning upset of the Lavender's, which has been something they will not forget for a long time. A last second basket by Al Zuckerman beat the Islanders, 82-80.

When Geometry was tested, the Beavers, 82-80. Zuckerman, who had been replaced for most of the second half by Barry Kissman, dove under a rebound, and in the nick of time, hit a late three-pointer to win the game.

**Fencers Beat Rutgers, Princeton To Bring Their Record to 3-3**

Facing two formidable opponents, the City College fencing team triumphed twice, defeating Rutgers, 17-10, and Princeton, 15-12.

The Beavers had no trouble with the Jersites Saturday, as Al Darion became a triple winner; defeating Rutgers with a 12-8, 12-6, and 11-5 upset, and Princeton with a 14-5, 12-7, and 10-9 victory.

The team's next meet is scheduled for Saturday at Penn State. Last year's record was 8-4, and the team can better that mark, since an extra meet was added to this year's schedule.

**The Tiger's were headed by Steve Harwood, who finished second in the Inter-collegiate Fencing Association's Championship held last March. However, they were trounced by City in the best-of-three competition, 8-1, with both Al Darion and Bob Cherner finishing as triple winners.**

The Beavers lost both the foil and saber competitions, 4-5 and 3-6, respectively. Captain George Weiner was a triple winner in the foil competition. Ed Lucin Jr., son of the Lavender's coach, won a bare point of the Beavers.

**Matmen Bow To USMA**

The big news for City College wrestling fans this week was that Beaver grappling coach Joe Saporra was nominated for entrance into the Wrestling Hall of Fame. This news came on the heels of two Lavender defeats, which had been preceded by three consecutive victories.

The Beavers were defeated by the United States Merchant Marine Academy at Kings Point Saturday, 33-1. The only winner for City was heavyweight Al Peskty. Coach Saporra thought that the Lavender's were better conditioned, but the team was "just a shade better." In an interview, Coach Saporra said: "The defense was solid and the team stands 3-3."

The Beavers lost both matches, 17-10 and 15-12, to the Blackbirds. The Inter-collegiate Fencing Association's Championship held last March. However, they were trounced by City in the best-of-three competition, 8-1, with both Al Darion and Bob Cherner finishing as triple winners.

The team's next meet is scheduled for Saturday at Penn State. Last year's record was 8-4, and the team can better that mark, since an extra meet was added to this year's schedule.
