**BHE Will Meet Tomorrow To Discuss Tuttle Report**

The Board of Higher Education will hold a special meeting tomorrow night to discuss the report of a special committee on "administrative relationships and functions."

The committee, appointed by Gustave C. Rosenberg, the chairman of the B.H.E., is headed by board member Charles H. Tuttle. It was appointed to look into the tangled relationship that has lead to an open split between the policy-making board and the administrators of the City University.

Of the report could have influence on Dr. Albert H. Bowker, the chancellor of the City University, decision to resign from his position. After last Monday's meeting, Dr. Bowker said he was approaching a final decision and that the content of the Tuttle committee's report could be "the determining factor" in his decision.

After the B.H.E. meeting last Monday night, Dr. Bowker declared that the City University is in a "great deal of trouble." He noted that faculty morale is sinking and that the University is having difficulty in recruiting new faculty members.

The resignation Friday of Dr. Harry N. Rivlin, dean of education of the University, may be one of the first signs of this trend. Dr. Rivlin will become dean of Education at Fordham University next fall.

He noted Saturday that his decision to change positions was not connected with the City University's present troubles. However, his departure comes after thirty-six years of service in the University's higher education system. He served as acting president of City College from June 1961 to February 1962.

Dr. Rosenberg was not available for comment on the resignation.

Although he has made no public comment on the resignations, the aggressive chancellor has asked for an opportunity to present his view before the entire board.

The New York Times reported Wednesday that, despite the committee's emphasis on keeping the report confidential, it had obtained a copy.

The committee recommended no change in the board's bylaws with the exception of clarifying qualifications and responsibilities of the chancellor.

Dr. Bowker has charged that the board, particularly its chairman, has impinged upon his administrative authority.

One answer to the university's financial problems lies in increased state aid. Governor Nelson Rockefeller has offered the City University an increase, but only if the city matched state funds.

At the same time the governor warned that if the city is unable to provide for the necessary increase in public higher education, he will ask the State University to place its own programs on the alumni and foundation rolls.

The rally will be held Thursday from 12 to 2 in 4N. The event is also being cosponsored by the United Federation of College Teachers, which has held similar rallies at Hunter and City Uptown.

The chairman of Thursday's discussion will be Professor Thomas Karsia (Dept. Rep., Pol. Sci.). Speakers will include Dr. Israel Kligler, the Reverend Peter O'Reilly, head of the union's St. John's chapter, Professor Aaron Levenstein (Mgt.).

**Rally Slated On St. John's**

The Baruch School Chapter of the American Association of University Professors voted Wednesday to cooperate in the upcoming rally to present the dismissed instructors' case in the St. John's dispute.

The rally will be held Thursday from 12 to 2 in 4N.

**State Aid Needed**

A campaign to get widespread student participation in the upcoming march on Albany has begun at the School.

Steve Sandell '67, the School's coordinator of the event, along with several assistants, spoke at club meetings Monday and Tuesday and asked students to join the march on Wednesday, March 22, and to aid in the sale of free tuition buttons to finance the event. The purpose of the march is to dramatize the need for more state aid to the City University.

Mr. Sandell has asked clubs to appoint special coordinators to work with him. He noted that clubs should be especially interested since the State University restricts certain extra-curricular activities on many of its campuses, and a merger with the state system may be forced upon the City University if its financial crisis becomes acute.

A booth will be set up outside the auditorium this week to register students interested in attending the march, and to sell free tuition buttons at a price of twenty-five cents.

But transportation will be provided for students participating. The march is being sponsored by the Executive Council of Student Governments of the City University.

**Support Urged In March on Albany**

By LAWRENCE S. LEVITAS

A campaign to get widespread student participation in the upcoming march on Albany has begun at the School.

Steve Sandell '67, the School's coordinator of the event, along with several assistants, spoke at club meetings Monday and Tuesday and asked students to join the march on Wednesday, March 22, and to aid in the sale of free tuition buttons to finance the event. The purpose of the march is to dramatize the need for more state aid to the City University.

Mr. Sandell has asked clubs to appoint special coordinators to work with him. But transportation will be provided for students participating. The march is being sponsored by the Executive Council of Student Governments of the City University.

**Students to Organize Their Own Talk-out**

A second talk-out, to be coordinated solely by students, is now being planned by a committee of five student leaders. It will be held Wednesday, March 30 in 4N.

All members of the faculty and student body will be invited to attend, and will be given an opportunity to speak and ask questions.

A faculty committee organized the first "talk-out," held last December 4.

As Dean David Newton, the chairman of the committee, pointed out, the name was really a misnomer. He termed it a "hearing" at which students could present their own view.

Frank Cassidy '67, the coordinator of this talk-out and a participant at the last one, noted, "There is a necessity for the student body, faculty, and administration to have an opportunity to exchange their ideas on such basic areas as curriculum and faculty evaluation.

**CCNY Has A DuBois Club**

A City College chapter is among the W. E. B. DuBois Clubs which were ordered by the Justice Department Friday to register as community-front organizations.

Joseph Popper '67, a student member of a former regional coordinator of the group, pressed over a press conference called Saturday by the organization.

He acknowledged that there was "individual communists" in the DuBois Clubs. However, he denied that it is a "front" group.

Mr. Popper accused the government of reserving to a "class-action campaign" because of the group's opposition to the war in Vietnam.

Eric Eisenberg '66, also a student member, and the former "action director" of the clubs, was (Continued on Page 3)
The Chancellor's Role

The Board of Higher Education meeting scheduled for tomorrow night may be one of the most momentous in the history of the University ever held. For three months, ever since the chancellor's return from New York City, could be the climax of a campaign which has as its object the strengthening of the Board of Higher Education (the B.H.E.) as the governing body of the University, and its re-emergence as the premier governing body in the system of State Education in the state of New York.

When the state's Board of Regents assumed the direction of the University of the State of New York in 1904, it was essentially an executive branch of the government. Yet the chancellor, as the figurehead of the academic branch of the University, was the real executive. The Board of Regents, on the advice of the chancellor, either directly or indirectly, was the policymaker for the University. This role has changed. Now the Board of Regents is the key policy-making body, and the chancellor is the Board's successor. He is the B.H.E.'s representative in the making of policy at the Board of Regents level, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future. He is the University's chief representative at the Board of Regents, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future.

The Board of Regents is, in a sense, the Board of Higher Education, leaves working out the details of policy in the hands of the chancellor, and then carries them to the Board of Regents for approval. The chancellor is the policy-maker, the Board of Regents is the policymaker. The chancellor is the Board of Higher Education's representative in the making of policy at the Board of Regents level, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future.

When the chancellor, on March 24, 1956, announced his appointment of a new chancellor for the University, Dr. Robert L. Goodnow, then Commissioner of Education in the state of New York, it was essentially the beginning of a new era for the University. The chancellor, in effect, is the director of the University, and the Board of Regents is the policymaker. The chancellor is the Board of Higher Education's representative in the making of policy at the Board of Regents level, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future.

It is the chancellor's responsibility to make policy decisions which will shape the University's future, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future. He is the chancellor, and the chancellor is the policy-maker, the Board of Regents is the policymaker. The chancellor is the University's representative at the Board of Regents, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future.

The chancellor is the University's representative at the Board of Regents, not as an executive branch, but as the policy-making body of the University, with the power to shape the University's future. One more question remains. Why is an effort being made today in some quarters to get reluctant parents to agree to let their boys attend college? The answer is to be found in the obvious benefits of such an effort.

Deferments: Con

(Continued from Page 1)

The other side of the coin is the student who will not pay, no matter who pays. His solution to the financial problem is to indulge in the protest of the conscientious objector. The difference in the attitude of the two sides is obvious. We have come a long way from the Conscription Law of 1863 signed by Abraham Lincoln, which allowed men to win exemption by filing substitute papers in their names. In fact, Lincoln himself was against the law.

Wherein does the problem lie? Is it not in the conscience or in the economic necessity? The deferment of men based on the principle that the deferment of essential defense workers to other work is not justifiable. The problem is not so difficult in the case of the draft law. But he asked in his address, "What is your purpose to see the draft law faithfully carried out, if not for the nation's best interest?"

Dr. Levensenit Favors Emphasis on Theory

Dr. Levstennit Favors Emphasis on Theory

A complete examination of the curriculum to determine the type of instruction is necessary. A comparison approach to the teaching of an operation has been emphasized in BROOKLYN.

"Worse comes to worse," the professor said. "The practical problems of administration will be discussed. The practical problems of administration will be discussed."

"There are some practical problems of administration which are not the least logical to demand it."

Dr. Levstennit Favors Emphasis on Theory

Dr. Levensenit Favors Emphasis on Theory

Most educators, the Levstennit professor said, noted that the future of education depends on the basic principles of the present society. The basic principles of the present society are expected to have a revolutionary effect in the educational system.

CUNY Hopes to Give College Skills to All

The post of the City University is to offer by 1970 some college skills to all New York City people who are profit by it.

The movement has been termed by Brooklyn college president as a "remarkable" project.

"There are not practical problems of administration which are not the least logical to demand it."

Parries Lose to Navy;
Preparing for I.F.A.'s.

The Beaver fencing team dropped its last meet of the season to Navy, 20-7, Saturday. This defeat dropped the parrier's record for the season to the .500 mark, with five wins and five losses.

Navy was dominating this game all year. Last year the Beavers edged the Naval Academy 14-13 in the season's finale as Steve Bernard came up with a clutch win in foil. Unfortunately, this year, only City's foil team was able to pull out a victory, as it won 5-4. Captain George Wiegens won two bouts in this competition, as did Bill Bokowski, a first-year man, Bernard won one bout for the Lavender.

The sabre team lost 7-7, as sophomores Steve Leiberman and Jack Endek each won a bout for City.

The surprise of the afternoon came in the epee competition. This group has shown real promise, but was shutout for the first time this year 9-0. In the words of a member of the squad, "Navy was just very, very strong." Epeeman Bob Chernick was elected captain for next year's team.

Always looking at the positive side of things, Beaver mentor Edward Lucia was "encouraged by the showing of the foil team."

The team is eagerly awaiting the Eastern Championships which will be held at Yale this Friday and Saturday. Last season the Beavers placed sixth overall, as the epee team captured a silver medal in its competition. Stan Lefkovitz, a senior who graduated last June, won the bronze medal in the individual epee contest.

This year the team is hoping to "sneak in" between Columbia and NYU in the foil competition. These schools were described by a member of the team as having "phenomenal" foil teams.

The epee team has strength in Chernick and senior Al Darlon. The sabre team will be counting on Joe Giovannoni for a good showing.

Racers Slow,
Can't Place

The Beaver track team ran in the IC4A Championships. Saturday afternoon at Madison Square Garden, but was unable to qualify one man for an evening race.

Harrier Jim O'Connell made the best showing for City as he finished sixth in the mile run. His time of 9:26.6 was three and a half seconds off his record time which was set last year at the Metropolitan championships.

Even though he got off on a poor start, Beaver Dorm Schlessinger was able to come in third in the sixty-yard dash qualifying heat. Don's time of 6.6 seconds was a centi-second off his school record which he tied twice in last two weeks.

The freshman medley relay team posted a time of 8.06, although it was not good enough to qualify, it was two seconds off the school record.

The varsity relay team, which has been doing well lately, did not enter this meet due to injuries to Vincent Burger and Dennis Wildey.

Sophomores Lewis Rosenblatt and Thomas Walsh entered the 600 yard run and Walpole time of 1:15.9 could not get him past the qualifying meets.

The team will participate in its last indoor meet of this season next Saturday as it runs in the Collegetown Track conference championships. After that there is a three week rest for the team, and then the outdoor season begins.

Cheerleaders
Gone Are Basketball, Snow and GIRLS!

That's it fellows. It's all over. Now that spring is here we can forget about basketball, snow storms, and cheerleaders. Cheerleaders, how can one forget about the cheerleaders?

Those ten lovely Beaverettes can be seen at all the cager's home games, and some of the road contests to the one-two leaders of the league, LIU and Rider.

The team won its last two games of the year against St. Francis and Hartford. The Hartford game will go down in the College's history. The total of 106 points was the most ever scored by a City team, as Alan Zucker­
man scored one-half of those points, establishing a new College individual scoring mark.

The epee team has strength in Chernick and senior Al Darlon. The sabre team will be counting on Joe Giovannoni for a good showing.

We Shall Overcome . . . Next Season

Cagers - Back on Winning Side

They were hot, and they were cold. They set two School records, and they captured the CUNY Championship. They were the most successful squad since the team of 1949-50. "They" are this year's basketball team.

In 1950, the Beaver cagers won both the NCAA title and the N.I.T. as they amassed a record of 24-4. It took fifteen years for the Lavender to amass another fine record, but this year they did it.

The season opened with a romp over Adelphi, but the first home game of the year saw the Beavers lose a heartbreaker to the Columbia Lions, 69-47. In that contest City led for thirty-five minutes until Beaver center Barry Kaufman fouled out and his counterpart, Ted Davis, fouled, started hitting.

A win over American University in Washington was followed by a loss to C. W. Post. In the game Baruchian Dave Schweid started in place of Mike Pearl, who was suffering from a leg injury. This loss really angered the Beavers, and they went on to capture the symbolic Wooden Shoe of the CUNY tournament. Against Queens in that tourney, Alan Zucker­man had his worst night of the season as he scored only eight points.

The Beavers then romped over Bridgesport and Oswego States. After a break for finals, the Beavers lost to Hofstra, as their star Mike Twitty hit for 30 points. This loss was followed by a win over Wagner, and a loss to FDU. The team's record time stood at 10-4 as the Beavers squeaked, by Upsala and Rochester, 78-72, and 77-71, respectively. The Rochester game was a triple overtime thriller. Zuckerman had played a poor game until the overtime periods, when he matched his point total during regulation time by pumping 10 big points through the hoop.

Thoughts of a Tri-state title were on the minds of City fans, but the Beavers lost their next two contests to the one-two leaders of the league, LIU and Rider.

The surprise of the afternoon came in the epee competition. This group has shown real promise, but was shutout for the first time this year 9-0. In the words of a member of the squad, "Navy was just very, very strong." Epeeman Bob Chernick was elected captain for next year's team.
