CSA to Meet On Fees Prohibition

By ALAN MATCOSKY

Rules Affecting Students to Be Codified; SFCSA to Meet On Fees Prohibition

Minister In Charge of the Program

By DR. EDMUND MINISTER

Human Rights Case To Be Examined

The status of the ruling prohibiting religious, political, and social organizations from receiving student fees will be considered by the Student-Faculty Committee on Student Activities tomorrow.

The ruling, originally thought to have been made by the College's General Faculty, was enforced this semester by the Department of Student Life, which is subordinate to the Student-Faculty Committee. This ruling is being examined by the Student-Faculty Committee.

Julian Bond Will Speak At the School Thursday

Julian Bond, who was recently barred from his seat in the Georgia House of Representatives, will speak at the School Thursday at 12:30 in 4S. His appearance is sponsored by the Human Rights Society, The Ticker, Student Council, Sigma Alpha, the Class of '67, the Literary Society, and individual students, faculty, and administrators who signed the advertisement in today's issue.

Student Council's co-sponsorship of Mr. Bond's appearance at the School was approved by the body by a vote of 11-6 at Thursday's meeting.

As a co-sponsor and contributor $35 toward the advertisement was presented by Sandy Brown, a Council representative from the Class of '68 and a member of the Human Rights Movement.

The move to bar Mr. Bond from taking his seat was introduced in the Georgia House of Representatives on January 10, the first day of the 1966 session. After a heated debate, the motion was passed by a vote of 134-12. Mr. Bond had been a member of the first Negroes to be elected to the Georgia House in one hundred years.

Mr. Bond, a communications director for the Student Non-Violent Coordinating Committee, is also known for his public support of that group's statement that civil rights workers be given draft exemptions.

In response to a reporter's question later that day, he further stated that he "admired the courage of draft card burners. However, he is concerned that they would not burn his own draft card.

"It is for this statement that Mr. Bond was found to be guilty of "disorderly behavior." This conviction if being appealed."

The Board of Higher Education decided last night to undertake a "feasibility study" to investigate the possibility of relocating three municipal colleges, including the Baruch School, to part of the site of the old Washington Market in lower Manhattan.

In addition to Baruch, the other schools are the Borough of Manhattan Community College, now at 134 West 51st Street, and the College of Police Science, now at 235 East 53rd Street.

Dean Emanuel Saxe declined to comment on the proposal, saying he did not have advance notice of the board meeting.

Dr. E. K. Fretwell Jr., dean for academic development at the City University, has noted that change of location would be "educationally desirable."

The Baruch School is now an old, crammed building in central Manhattan. It was built as a "temporary" structure in 1948 and is supposed to be replaced by the World Trade Center.

Minister In Charge of the Program

By DR. EDMUND MINISTER

Codifying Rules

Dr. Minister said he hopes to put all the rules and regulations under one cover, and at the same time delete all rules no longer in ef

feet.

At present, if a member of the faculty is a student organization failed because religious, groups desires to locate a ruling in certain upown were obtaining student section with a project, he must obtain a copy of the ruling.

At the Baruch School this fee is $5.

Associate Dean of Students David Newton, who heads the Department of Student Life, noted that the codified body of rules would be useful to both students, so that they would be aware of all the regulations.

Baruch Convocation

Last week's decision of the Board of Higher Education to allow the University to construct a new Baruch School building in midtown is expected by many to be the beginning of a new era for the institution. Many believe that this move will help the school to compete more effectively with other New York City colleges.

However, we also regret that the decision was reached without considering the views of all students. Though we do not doubt that students were well represented in the process, it is important to note that not all voices were heard. In particular, we believe that the concerns of students who are currently enrolled at Baruch have been overlooked.

As a result, we feel that students should be encouraged to participate in future decisions involving the construction of new facilities.

Student Funds

Student Council at its Thursday meeting passed a motion to increase the number of student representatives on the Board of Higher Education to six. The motion was prompted by concerns about the role of student representatives in decision-making processes.

We believe that this increase will help to ensure that student voices are heard in important decisions that affect our institution.

Blood Bank Success

The Interfraternity Council and especially those members who worked so hard on the project, are deserving of praise for making the blood bank a success. As a result, the bank's reserves have been doubled, nearly reaching the goal of $50,000.

In conclusion, we commend the efforts of the Interfraternity Council and hope that their success will encourage others to get involved in similar projects in the future.

Letters to the Editor

Law breaking Deeds

Law is a matter of good and evil. Some believe that the breaking of the law is evil, while others believe that it is a matter of personal morality. In any case, we believe that the breaking of the law is not acceptable.

Therefore, we commend the efforts of those who work to prevent the breaking of the law and encourage others to do the same.

Training Program Planned for Colloquium Leaders

Prospective student leaders for the September freshman training program of the Colloquium are being selected.

This will choose the participants, who will be selected by the Board of Higher Education in consultation with the Board of Higher Education. The program will cover various aspects of the school's management and will be held in the fall of 1963.

Every student with at least a "C" in his freshman year will be eligible to participate in the training program.

The training program will be conducted by the Board of Higher Education and will provide participants with an opportunity to learn about the school's administration.

Vest Virginia, Sex is Obscene

In a decision that is sure to引起 the controversy, the Supreme Court of the United States has ruled that obscenity is a matter of public interest and should be regulated accordingly.

We believe that this ruling will help to ensure that students and citizens are protected from harmful materials.

Allen, Former Candidate, Now Instructs at Baruch

Allen, who was a former candidate for a seat on the Board of Higher Education, has recently been appointed as an instructor at Baruch.

This appointment is a testament to his dedication to education and his commitment to the school's mission.

City Sluggers Open At Columbia

Starting Lineup Is Not Set Yet

The Beaver "nine" opens its season April 4, with Columbia University serving as the opposition. The game will take place at the Lion's Baker Field at 3:00 P.M.

The opening-day lineup, as obtained from Coach William Mishkin, seems strongly loyal: It is subject to change, and only two positions have yet to be filled.

The pitching staff, although described by Coach Mishkin as "inexperienced," seems to hold the most promise. In left and center, William Wambolt and Baruchian Larry Best, and right-handers Ron Rizzio and Tom Teitelbaum impressed during the fall season. Leifer and Rizzio are best bets to become the two starters, while Best and Teitelbaum serving as relievers.

The receiving end of the battery is also in doubt. There is a chance that Sam Rosenbloom, who impressed in the fall season, Baruchian Barry Edelstein is the third baseman.

Coach Mishkin has a fine group of outfielders. The starting batters should be Steve Reccevoli, who hit .300 in center, and Dave Minkoff in right. Backing them up are Alex Mitter and Jimmy La Piana.

The battle for second base should be interesting. Equal opportunities will be given to Jim国务院 and Peter Schor, and both men can win the job.

The rest of the infield is set. Lew Galti, last season's leading hittor, owns first base. Baruch's Barry Mandel, the team's Mt. Con- stant, holds down the position. Bard Edelstein is the third baseman. The team is a prett

Stickmen Defeat Alumni; An All-American Scores

Although the weather was brisk outside on Saturday afternoon, it was not able to decrease the enthusiasm of the alumni and alumni who came out in full force to attend the annual meeting.

All alumni and hundreds of fans and family turned out for the contest which was won by the varsity, 5-3. At first it seems surprising that a seasoned senior class was able to secure the backstop berth, as does

Catcher, Infielder Still Missing

The second City team secured second place in the meet with a total of 1059 points. Dave Keller led that squad with a firing of 273. Mat Cardillo had a 268, Frank Yones a 269, and Pete Brooks rounded out the squad with a 259.

The Easter week is the take-off for the Columbia game. City will take on Hunter College April 6 at 11:00, and in the following day is the date of the initial home contest at Lewishaw Stadium, with the Beaver's meeting St. John's. Game time is 1:00 P.M. The final vacation game is City against Brooklyn at the Kingsman's diamond on April 11.

The team is a pretty good one, although we are the only city school in the conference.

Architecture Or Fencing — Both!

George Weiner

By ALAN WIENER

It was either architecture or fencing, and although you would never be able to tell, Weiner has chosen the former. The one thing which makes it difficult to tell is that George is presently the captain of the Beaver fencing team, and has led the foil team to victory for the past three years.

"Both architecture and fencing demand perfection," George notes, "but if I did not spend more time on my studies, I would have to look for a new occupation." Luckily for the College George was able to bring his marks up to a B average, with any left over to his fencing ability.

Other sports did not attract this five-foot, 145 pound Queensite and former basketball for- five-foot, 145 pound Queensite and former basketball for

George could withstand too much, and I could tell that fencing was my sport," George explains.

With his mind made up he went for lessons under the guidance of Sentelli, the man who coached City fencing. Weiner still takes lessons at the famed Greenwich Village based academy, and views his teacher as "one of the greatest in history."

George was on the Tech squad during his junior and senior years, and in 1962 he captained the team to a PSAL silver medal. From Tech George entered City and en

Nimrods Win in Meet: Teams Are One-Two

The City College rifle team entrants in the International Sectionals held this weekend at Kings Point finished one-two, buoying City's hopes for a high national ranking.

The first team fired a total of 1059, with co-captain Jerry Uretsky leading the Beavers with a score of 279. Bruce Gitlin followed with a 278, as he was trailed by Allen Feit and Paul Kanczuk, who fired 271 and 266, respectively.

All of the scores of the various sectional meets in the country will be sent to the National Rifle Association's headquarters in Washington, where the final standing and the national ranking will be posted. Current leader in the country is West Virginia College who has already fired an 1132.

The final league contest for the nimrods will take place this Friday, as they play host to the shooters from Rutgers University.
