Students to Participate in BHE Committee

A representative of the Student Council was invited to meet with the Baruch Committee of the Board of Higher Education to hear suggestions and opinions concerning the selection of a president for the Baruch College.

The announcement came in a letter from Francis Keppel, chairman of the board's committee, sent to Council's president, Max Berger '68.

The committee is "extremely anxious to consider suggestions and opinions which you have concerning the criteria to be established by the Baruch Committee and individuals who may be considered as candidates [for president]," said Mr. Keppel.

Those students and faculty attending the meeting may do so only in an advisory position, according to a B.H.E. by-law prohibiting non-board members from serving on a committee.

In response to this letter, Mr. Berger noted, "The committee has shown the student body of the School that the Board of Higher Education views students as having a responsible voice in the establishing of a new institution."

Mr. Berger indicated that he will be the student who attends the committee's meetings.

Other members of the board committee are David Ashe, Louis Nunes, Edward Be and the Chairman of the B.H.E., Porter Chandler, who will act as an ex-officio member.

The first meeting of the Baruch Committee, to which Mr. Berger has been invited, will be held November 28 at the board's headquarters located at 200 Water Street.

Chancellor Proposes 'University College'

A proposal that would "drive towards excellence [the City University doctoral program] now requires consolidation and central authority" was forwarded by the Chancellor's office in September.

The new University College would be housed at the Graduate School of Business at West Forty-second Street under the control of a president—a position to be taken from the University's post of graduate dean.

Programs in the "equipment-related" fields—those requiring extensive laboratory facilities—would remain at five senior colleges, but would come under a tri-centre or central control by the University.

Criticism of the proposal has included such arguments as those that "if I did it, I would have put it on the market for the new college," was the possible location forwarded by Nelson Olen '68.

While Benny's decision to run in the December 6 executive elections must obtain fifty signatures and return their petitions on or before November 27.

Benny was chosen "because he is intelligent, industrious and on the seal of the City of New York," noted Professor Irving Rosenthal (Eng.) who helped choose the mascot.

Adolf Peterson, Student Center custodian, arrived at the conclusion that the Beaver was stolen Thursday morning at 11:30.

"The night porter was sent to the main building at 2," stated Mr. Peterson. "Bill Cleary, an engineer heard what he thought was the maintenance man scuffling at about 2:15 — that's when they did it."

"They had a key," added Mr. Peterson, who said that "you should usually smell people in the building — especially those hoodlums."

Dean Newton, "is not at all impressed with student power" and will "have to call in the police especially if students didn't take the Beaver, which cost the School $100."

But if the dean wants Benny back he has to "get up one hundred dollars in small bills," according to a ransom note.

"Having read the note, I feel that the kidnapper has certain sexual problems that are better not discussed in a family-style newspaper," commented Professor Benewitz, who recommended that the kidnapper see a psychiatrist.

In an effort to encourage and promote greater student participation in student activities, the Student Council, meeting 4:30 in 303 Student Council Monday, November 17 at 3:30, will discuss the question of whether or not to eliminate a committee system in the Student Council.

Student Council President Dennis Neier has called for a joint meeting of all standing committees to discuss the proposal. Neier said that the meeting would be held Monday, December 1 at 4:30 in Aronow Concert Hall, Finley Student Center.

Neier said that the proposal is likely to be supported by the Student Council and would be presented to the Board of Governors for consideration.

According to Neier, the committee system has become a point of conflict in the Student Council, as some members feel that the system is too inefficient and cumbersome. He added that the elimination of the committee system would allow for greater efficiency and effectiveness in the Student Council's operations.

The meeting will be open to all students and will provide an opportunity for students to provide their input and suggestions on the proposal.

Why a Referendum?

The New York Times December 1st issue contained an article by John S. Martin, "The Power of the Referendum." The article states that the power of the referendum is both a positive and a negative force, but that it is not a solution to all problems. The referendum is a democratic tool that can be used to initiate a public debate and to give citizens a voice in decisions that affect their lives. However, it is also true that the referendum can be misused and that it can lead to decisions that are not in the best interests of the community. Therefore, it is important to use the referendum responsibly and to ensure that it is used for the benefit of all citizens.

Concert Cancelled

In the middle of October it was announced that the concert scheduled for November 1st at the Grand Ballroom would be cancelled. It is believed that this decision was made because of the conflict with the Student Council's referendum campaign. The Student Council was holding a series of meetings during the week of the concert to promote the referendum, and it was feared that the concert would be negatively affected by the presence of the Student Council's members and supporters. However, it is important to note that the Student Council's activities do not have the power to cancel concerts, and that the decision to cancel the concert was made by the New York Times management. The New York Times management is responsible for making decisions about the programming of events, and it is important to respect their decisions.

Letters to the Editor

To the Editor of The Ticker:

I strongly disagree with your recent article, "The Power of the Referendum." The article states that the power of the referendum is both a positive and a negative force, but that it is not a solution to all problems. However, I believe that the referendum is a powerful tool that can be used to promote democracy and to give citizens a voice in decisions that affect their lives. Therefore, I urge you to retract your article and to publish a corrective statement.

A Right Move

The Student Council has taken the right move in sponsoring the referendum on the Student Council's amendment to the Constitution. The referendum will give the student body a chance to vote on the amendment, and it will give the Student Council a chance to gauge the student body's support for the amendment.

Joe Slater, the vice president of Student Council, has been a strong proponent of the referendum. He has argued that the referendum is a necessary step in ensuring that the Student Council's amendment is in the best interests of the student body. Therefore, I urge the student body to support the referendum.

Larry Levitas '69
Managing Editor

A Wrong Move...

In my opinion, the Student Council's decision to sponsor the referendum on the Student Council's amendment to the Constitution is a mistake. The referendum will not give the student body a chance to vote on the amendment, and it will not give the Student Council a chance to gauge the student body's support for the amendment.

Joe Slater, the vice president of Student Council, has been a strong proponent of the referendum. However, I believe that the referendum is not necessary, and that the Student Council's amendment should be approved by the Student Council without further delay.

School lunch managers

School lunch managers, noted as the most continuous and responsive group of workers in the school lunch industry, have been the target of various educational programs aimed at improving their skills and knowledge. These programs, which are usually funded by the federal government, have been successful in increasing the overall quality of school lunches and in reducing the number of foodborne illnesses among students.

Junior Rings

The Junior Rings Committee is pleased to announce the selection of the 1968-69 Junior Ring design. The ring features a N-Y-C campus scene and is designed to symbolize the student's connection to the college community.

Senior Rings

The Senior Rings Committee is currently working on the selection of the 1969-70 Senior Ring design. The committee is soliciting input from students and alumni to ensure that the ring design reflects the spirit of the graduating class.

Parker House Wins

(Continued from Page 1)

PARKER HOUSE VICTORY

THERE was a great deal of excitement in the student body after the Winter Dinner Event, which was held in the Parker House. The event was attended by a large number of students who came to enjoy the food and the company.

SCHOOL LUNCH MANAGERS

School lunch managers are an essential part of the school lunch industry, providing nutrition education, meal planning, and supervising food service operations. They are responsible for developing menus, ordering supplies, and coordinating with vendors to ensure the delivery of high-quality meals to students. School lunch managers must possess strong communication and organizational skills, as well as the ability to work efficiently under pressure.

Think what a near-photographic memory would mean to your Grades!

World's Greatest Memory Expert WILTON Kemp Offers to Teach a Class in New York City October 21, '68. If you have a poor memory, limited retention or weak grasp on a subject, it will be interesting to find out what causes this. Why not be a part of this Important class designed to assist people in all walks of life.

The only requirement is a desire to know and understand the principles of memory and learning. You don't have to memorize anything. You don't have to read anything. You don't have to travel anywhere or take a test. WILTON KEMP will do all the teaching and explaining. He will show you how to remember and understand what you read, hear or see. It's fun to learn. It's good for you. It's worth the time.

WILTON KEMP is a psychologist who understands human learning. He has been teaching memory and speed techniques for over 35 years. His pupils have included the stars of Hollywood, the heads of major businesses, and the world famous memory researchers, Dr. Alice Silverstein and Dr. H. M. Frisch. His teaching has been featured in all the leading magazines of the world. He has traveled to over 30 countries and has given over 1,000 classes. He has taught both adults and children. He has taught in schools, churches, clubs, hospitals, etc.

He knows how to help you. He will show you how to remember and understand what you read, hear or see. It's fun to learn. It's good for you. It's worth the time. The only requirement is a desire to know and understand the principles of memory and learning.

He offers this class free of charge to you in New York City. He will show you how to remember and understand what you read, hear or see. He will show you how to learn faster, study more easily and achieve higher grades. The class will begin October 21, '68. You may attend at no cost. It will be held at the Wilshire Hotel, 27 East 22nd St. (corner of Park Ave.) at 7-9 p.m. Please come and bring your friends. It is an experience of giving.

Andreas Papadopoulos fired home six goals, a College record, in leading City's soccer team to a 7-0 rout of rivals Brooklyn, Election Day at Lewishohn Stadium.

The 23-year old junior led the suddenly high-powered offense as the Lavander scored its first conference victory in six outings. Until the Kingsmen came to town, the Beavers had scored but once in league play. The Beavers have yet to record a conference success.

The last two came off passes from Dimitri Hameles and Gregory Sia with number-three a penalty kick at 21:30.

The Beavers pressing, they forced squad's overall mark now at 3-4-1.

In number three a penalty was awarded against a strong Manhattan defense and three goals were scored coming from Mike Heinz Minnerop and Cliff Soas thereby. With less than five minutes remaining of the first quarter, Papadopoulos scored the College's first six goals, with three coming within seven minutes of the opening whistle.

Brooklyn
City
0 0 0 0 0
0 2 1 1 7

Two wins are needed in order to avert a losing season with the squad's overall mark now at 3-4-1.

The Baby Booters were equally flabbergasted ripping Brooklyn in the second and third quarters, respectively, with 102 and 105. City was next with 110.

Kings Point, which placed all of its scorers among the first twos, finished with the title with 40 points. Brooklyn and Queens were second and third, respectively, with 102 and 105. City was next with 110.

City, which had been expected to walk away with runnerup honors, "Our place was one of the toughest to get," Willis Reed, the frontrunner. Willis Reed—

The Kingsmen was the team that Collins and Murphy, the two senior starters, were won by Walter Gants of Brooklyn in 37-35-5. Santa, a season's record, from start to finish in the cloister finals as the favorite to take individual laurels in this Saturday's CUNY meet.

Other-Lavander scorers were Marty Brill, 16th in 30.03; Bernie Fick, 18th in 31.90. On, 27th in 31:10 and Norberto Valle, 37th in 31:42.

City's Jeff Wildkamp was sixth in the freshman division, running 16:58 for the three miles. The Beavers, 78 points, was good enough to gain them fourth place.

The City College rifle team beat the University of Pennsylvania, 46-6, in Saturday's CUNY Rifle League.

Harriers 4th in CTC Championships: Struggle Expected in CUNY Contest

By MARC BLOOM

The Beavers' hopes of a City University cross-country title were diminished Saturday at Van Cortlandt Park in the Bronx as Castro's Cavaliers were edged by rivals Brooklyn and Queens in the Collegiate Track Conference championships.

Polansky Notes Changes
As Cage Club is Molded

How many Beaver hoosiers can you name? Richie Knell and Jeff Keizer. Easy. Mike Pearl. Not. He and nine others have departed. Beaver basketball fans had better familiarize themselves with the likes of Joe Mulvey, Tommy Richardson, Marty Hutner, Barry Globerson, Barry Goldstein and Craig Marshall for these are the men who, along with Knell and Keizer, will make up the bulk of load this year.

Evaluating last Tuesday's scrimmage against astrong Manhattan five, Coach Dave Polansky said, "The team (C.C.N.Y.) looked better than I expected."

The coach revealed that four starting positions have been "won" with the fifth looming as a battle between four men.

Papadopoulos that in Captain Knell and Keizer he has "two starters equal to that of any in the city." Rich, who has last year's sixth man, has a great outside jump shot and will be playing either forward or guard. The mentor calls this Baruchian "the most improved player on the squad.

Keizer, deadly from the corner, started for last year's team in the forward slot. This year he will divorce his time between the corner and center. When Jeff, at the corner, Gary Zuckerman will probably be in the pivot.

Richardson and Mulvey are the two sure starters. Tommy, a hunter transfer, has come from virtually nowhere to gain a starting berth. He's a forward and according to Polansky, "makes the strongest move on the team."

Mulvey is being counted on to bring up the ball and set up plays. A fine shooter, he needs more experience in which to gain.
