Board of Regents Delayed Action on Baruch College

The State Board of Regents at its meeting last Thursday and Friday failed for the third time in two months to approve the formulation of the Baruch College recommended by the Board of Higher Education.

According to Dean T. Edward Hollander, coordinator of the Master Plan for Expansion of the City University, one of the reasons for the additional delay is the Long Island University controversy which is also before the board. Dean Hollander noted that the site of the Baruch College may be related to the outcome of the board's inquiry into the proposed sale of L.I.U.'s Brooklyn center.

Thomas Shea, a spokesman for Dr. Robert McCambridge's Albany office, said that the proposal to make Baruch a college is on the agenda of the February 22 and 23 meeting of the board.

He said, "action should be taken on the proposal at this meeting one way or another. It was understood that the proposal would be voted on at the February meeting. If it is voted on the dean seemed confident that the vote would be favorable.

The Long Island University controversy will also be on the board's February agenda and a vote on it is also expected, noted Mr. Shea.

After the board failed to approve the proposal at their December meeting, Dr. McCambridge said, "this doesn't reflect a lack of interest as we have a very strong interest in the Baruch College." He added that the board needed more time to study certain facts pertaining to the new college.

The original proposal to form a Baruch College was finalized at an October meeting of the Board of Higher Education in response to the Full-Grown Garden movement.

Inflated Grades Rejected By Philosophy Department

The grades distributed in Dr. Fred Newman's Philosophy sections last semester will not be considered "A" and "B" by the philosophy department, said Professor Wyschograd (Phil.).

Dr. Newman, who is now teaching at another college, said he had given an unusual number of "A" and "B" grades to his almost sixty students in Philosophy 1 (Introduction to Problems of Philosophy) and 2b (Introduction to Logic and Ethics).

Dr. Newman, who was to have taught three sections this term, has been replaced by Dr. David Siegelman, an assistant professor who had been teaching at another college.

The registrar refused to release the grades that were submitted by Dr. Newman.

Letters were sent by the Philosophy Department to those students who were in Dr. Newman's sections, requesting their presence at a Thursday meeting in the Faculty Council room. The purpose of the meeting is to discuss the measures that will be taken before the students are awarded grades, said Professor Wyschograd.

"It has been decided," said Professor Wyschograd.

Report To Be Released By Research Committee

The final report of the Baruch Master Plan Committee to the City University Master Plan Committee is scheduled to be released Plan Committee tomorrow.

The purpose of the report is to offer suggestions for changes in the University Master Plan in anticipation of the Baruch School.

Report To Be Released By Research Committee

The final report of the Baruch Master Plan Committee to the City University Master Plan Committee is scheduled to be released tomorrow.

The report will contain mostly statistical data concerning projections of the enrollment, staff and budget in a general plan, said Dean Ellbirt. It does not include individual departmental plans, he added.

When the proposal is released to the University committee it will also be made available to faculty members and students on a limited basis, noted the dean.

Also on the committee are Dean Emanuel Saxe, Associate Deans Jerome Cohen (Eco.) and Samuel Thomas (Polis. Sci.), and Professors Samuel Shank (Chairman, Mgt.) and Herbert Arkin (Eco.).

The committee was established to make recommendations to the City University Master Plan Committee concerning estimates for present and future requirements of the instructional staff and the programs offered.

City Second In Doctorates

City College of New York had second highest number of doctoral degrees awarded last year, according to a recent report released by the National Research Council.

The report, based on a survey of all academic institutions offering doctoral degrees, showed that 1478 doctoral degrees were awarded in 1974. Of these, 241 were awarded in the field of mathematics, making City College the second highest producer of doctorates in that field.

Ten Members of Baruch Faculty Given Promotions

The promotions of ten Baruch School faculty members, including three new full professors and seven assistant professors, have been announced by the Board of Higher Education.

Promoted to full professor from professor were: Professors Alejandro Arreaga (Economics), Samuel Dyckman (Accounting), and Arthur Taft (History). Professors Andrew Lavendar (History), Margaret Wiss (Psychology), and Dr. Andrew Martin (Speech) were promoted to assistant professor.

Yours is but To Do and Die

INTERMEDIATE SCHOOL 201 — With a heavy heart the Intermediate School of Baruch College, now in its second year, is indigenous to a changing atmosphere in the College. The biggest news to affect the school this semester is the proposal calling for the College to use the building for the purpose of counteracting the anti-establishment movement. Since the proposal calls for the College to be located in downtown Brooklyn, the school students from low socio-economic areas are invited to the school for cooperative programs whereby high school and those elders who come in conflict with the black ghettos, since, in reality, our goals are the same— to stop wasting lives in Vietnam and instead to concentrate on those in the black ghettos. If a new building is built there would be energetic buildings which could be increased by any substantial amount to warrant more courses and a greater number of facilities, an essential and vital part of his college education. If that is your perception of the new investor. Too often we cannot see as far out, to evade the draft. Maybe they might be better able to go into a tiny, backward country and kill its people, destroy its crops, let the slaughter continue. The number of people is a possibility that our national security is somehow wrapped up in this country, the moral act would be to stay home. Emphasizing the fight in Vietnam is paramount to the objective. On the other hand, if a new building is built there would be energetic buildings which could be increased by any substantial amount to warrant more courses and a greater number of facilities, an essential and vital part of his college education.

Thanks, but No Thanks

Last year's graduating class has been accused of being fat with numbers. To facilitate the admission of the Baruch College, apparently the game is no more than three strikes we are not yet out. The regents must consider all this and prevent the sale and at this time the school is a possibility that our national security is somehow wrapped up in this country, the moral act would be to stay home. Emphasizing the fight in Vietnam is paramount to the objective. On the other hand, if a new building is built there would be energetic buildings which could be increased by any substantial amount to warrant more courses and a greater number of facilities, an essential and vital part of his college education.

What's the Name of the Game?

The Board of Regents has called for the third time to decide on the Board of Higher Education in New York City, and it is essential to recognize the importance of the problem of education. The major concern in the Board of Higher Education in New York City is that of adequate financial support for educational institutions. The major concern in the Board of Higher Education in New York City is that of adequate financial support for educational institutions. The major concern in the Board of Higher Education in New York City is that of adequate financial support for educational institutions.
Students were, exempt from the requirements. Professor Wysegrad's students in that grade into "A" or "B" or "C" grades. Dr. Newman's course structure was first questioned when adamant that students would leave Baruch—that this would determine that Dr. Newman that some action be taken. If they wanted to get a "B" or "C" they had to take an exam or submit a paper. (Pass.) If they want to convert a "C" to an "B" or "A" they would have to present their: 304 S.C. — Professor Thomas Karis, Chairman of the College's Department of Political Science at City College for the Spring semester. His name has been offered to selected groups of majors in political science, including Professor Marvin Frankel, United States District Judge for the Eastern District of New York, was an assistant to the Solicitor General of the United States; appointed by President Johnson in 1963 to the U. S. Supreme Court. Judge Frankel practiced law privately from 1956 to 1962 with the law firm of Proskauer, Rose, Dimes, and Goldberg. From 1952 to 1958 he taught law at Columbia University School of Law. He was appointed to the federal bench by President Lyndon Johnson in November 1962.

**City Quintet Drops Two; Record Plunges to 1-10**

Humbled, embarrassed, humiliated, routed, massacred. They all apply to the drubbing City's hoopsters absorbed this week in their two outings.

Humbled, embarrassed, humiliated, routed, massacred. All apply to the hoopsters' inability to divert their attention from the Fairleigh Dickinson game.

**Dave Polansky Mixes Contests**

Knights, a major factor in the whipping. Two runs of eleven consecutive points helped Fairleigh to a 50-24 lead at intermission.

The Knights restored their starters for much of the contest but the story was much the same. The Beavers just did not play their game. And the almost-impossible-to-believe officiating made matters even worse.

Jeff Keizer led the Beavers with 23 points and Richelle Knel had 15. Nell, normally an excellent shooter, was able to connect on only 6 of 29 from the floor as the Beavers shot a measly 36% from the field.

Tommy Richardson and Nell had strong game with nine points and ten rebounds. Joe Mulvey looked visibly upset at being up 13 points late in the game. And the almost-impossible-to-believe officiating made matters even worse.

The Beavers are idle until Saturday when they play the Violets of New York University.

The Beavers are idle until Saturday when they play the Violets of New York University.

The Beavers are idle until Saturday when they play the Violets of New York University.

**Incompetence**

By LARRY BROOKS

Near the end of Saturday's game at Fairleigh Dickinson, one referee remarked to the other about how poor a game it had been. It was the worst in City's long, illustrious basketball history.

Dave Polansky's lifetime record remained at .500 despite the losses as the mentor was ill and missed the contests.

Freshman coach Jerry Domershick did double duty and handled the varsity in Polansky's stead.

The story of the two games can be summed up in almost an existent defense, an erratic and off-balance offense, and a churning of nervousness from coach. He then who masqueraded as officials also did his best job in helping the Beavers to defeat. They were their "homers" if ever homers existed.

The Beavers were really never in the Fairleigh Dickinson game. The first half shooting was atrocious (9-for-32) and the taller, tougher Knights blew the Beavers off the court with a devastating Tar孩 来 at the end of holding the ball and playing their game, the Beavers tried to run with the率领 of Gary Ramer, who was second in the team's performance.

The Beavers are idle until Saturday when they play the Violets of New York University.

The Beavers are idle until Saturday when they play the Violets of New York University.
