Board of Regents Approves Baruch College; Dean Saxe Appointed Acting Provost by BHE

Term To End On June 30

Dean Emanuel Saxe was appointed Acting Provost of the Baruch College last night by a decision of the Board of Higher Education.

Beginning his term March 1, the dean is "deemed to have all duties and responsibilities of the President" until his term expires pending the appointment of a President or no later than June 30.

According to the resolution introduced by the baruch college, "the board of the board of higher education deems departments of the Baruch College to be "deemed departments of the Baruch College.""

The board also said that the chief administrator will be most concerned with faculty, space, budget and students.

All Baruch and City College departments were authorized to be set up as separate entities "with the boards of the board of the board of the Board of Higher Education."

It was further resolved that all Baruch departments are to "be deemed departments of the Baruch College." A committee of Personnel and Budget was also established in the board resolution.

Dean Saxe is to receive a salary of $25,000 per annum in his new post, while he was granted a leave of absence as a professor of accounting and Dean of the School without pay.

Having served as Dean since 1956, Dr. Saxe was previously chairman of the Accounting Department and Secretary of the Faculty.

The faculty of the new college will be composed of members.

Dean Emanuel Saxe Appointed Acting Provost

of all business departments and those members of liberal arts departments who have decided to remain with Baruch.

The board of the board of the board of the Board of Higher Education's Committee on Liberal Arts Faculty now teaching in the Baruch School.

Dean Frank Saidel

Chair of the Committee to do so.

The following assurances would have been made by Dr. Fred Newman, chairman of the committee, did not disclose the exact number of students but estimated that "about a half-dozen filed applications."

Dean Saidel said that the committee would meet at the end of March to review to applications. A decision is reached by a majority vote. The other committee members are Dean David Newton, Professors Aubison H. Burtell (Chem.), Morris Chonofsky, Acct.), Andrew Lavender (Sub-chairman, Eng.), Edward Rothman (Law) and Bernard Ullit (Regis.

The committee, which reviews

Students File Complaints With Course and Standing

Several students whose original philosophy grades were allegedly changed have filed complaints with the Committee on Course and Standing.

By the time most girls get to the sophomore year, they will have been discouraged from working in the hospitality industry as a career. For one thing, the working environment is not considered to be attractive. For another, the job opportunities are limited. For example, in most restaurants, the only jobs available to women are those as waitresses, hostesses, or kitchen help. These jobs are usually regarded as low-status occupations and are not considered to be good preparation for future careers.

Colleges and universities with hospitality programs have recognized this problem and have taken steps to address it. Many colleges have established programs to prepare women for careers in the hospitality industry. These programs include courses in hotel and restaurant management, food service operations, and other related areas.

The role of women in the hospitality industry is becoming increasingly important. As the industry continues to grow, more and more women are becoming involved in leadership positions. Women are taking on responsibilities in areas such as sales, marketing, and operations.

Despite these advances, however, women still face many challenges in the hospitality industry. They must continue to work hard to overcome stereotypes and discrimination. However, with continued effort, women can make their mark in the hospitality industry and achieve success.
Administrative Philosophy

BY DR. FRED NEWMAN

The portrait of an old man’s face for me was a young boy in a gym suit running from the football field in the rain. The portrait of an old woman’s face for me was a young girl sitting cross-legged on the floor of a classroom reading a book. The portrait of an old man’s face for me was a young boy walking along the campus path in the sun. The portrait of an old woman’s face for me was a young girl standing at the ballot box on election day. The portrait of an old man’s face for me was a young woman holding a baby. The portrait of an old woman’s face for me was a young girl making a speech in front of a crowded hall.

I have spent my life studying these portraits and trying to understand them. I want to learn what makes these faces beautiful and what makes them ugly. I want to learn what makes these faces happy and what makes them sad. I want to learn what makes these faces strong and what makes them weak. I want to learn what makes these faces young and what makes them old.

Liberal Arts Education

Liberal arts education is a form of education that focuses on the development of critical thinking, analytical skills, and creativity. It is designed to provide students with a broad understanding of the world and its cultures, and to prepare them for a variety of careers and future endeavors.

The liberal arts curriculum typically includes courses in literature, history, philosophy, art, music, and science. The goal of this education is to foster intellectual curiosity and the ability to think and reason independently.

Graduate School of Business Administration

The Graduate School of Business Administration is a leading institution for business education and research. It offers a wide range of graduate programs, including MBA, PhD, and executive programs, in areas such as finance, accounting, management, and information systems.

The school's faculty includes accomplished scholars, practitioners, and researchers who are dedicated to delivering high-quality education and conducting cutting-edge research.

Business Administration News

The following are recent news headlines from the Graduate School of Business Administration:

1. "New MBA Program Launched" - The school has introduced a new MBA program that focuses on sustainability and social responsibility.
2. "Alumni Event in New York" - The school is hosting an alumni event in New York to celebrate its 50th anniversary.
3. "Faculty Publish New Book" - A faculty member has recently published a book on leadership and management.

Letters to the Editor

The Ticker

Vol. LVIII, No. 5

November 20, 2023

Dear Editor,

I have recently begun reading The Ticker, and I must say that I am impressed by the depth and breadth of its content. As an undergraduate student at Baruch College, I appreciate the opportunity to stay informed about the latest developments in the world of business and finance.

Sincerely,

[Name]

Underprivileged Youngsters Tutored by Baruch Students

The Baruch College Student Senate has launched a tutoring program aimed at helping underprivileged students in the New York City area. The program is designed to provide one-on-one tutoring sessions to students in various subjects, including math, English, and science.

The tutoring sessions are facilitated by Baruch College students, who are paired with underprivileged children based on their academic needs and availability. The program is intended to improve students' academic performance and provide them with a positive role model.

The tutoring sessions take place at various locations around the city, including libraries, community centers, and Baruch College itself. The program is open to all underprivileged students in the New York City area, regardless of their background or academic standing.

For more information, please contact the Baruch College Student Senate at [email].
If your major is listed here, IBM would like to talk with you March 15th.

Sign up for an interview at your placement office—even if you’re headed for graduate school or military service.

What you can do at IBM

The major function of the committee— which meets on an irregular basis— is to review programs. The major criteria that is expected to be used in evaluation is that programs must meet the normal entrance requirements. Non-honors students may be admitted to the College if the College’s standards are the major criteria that is expected to be used in evaluation. If your major is engineering, you can do a lot of good things at IBM.

What to do next

We’ll be on campus to interview for careers in Marketing, Computer Applications, Programming, Research, Design and Development, Manufacturing, and Finance and Administration. If you can make a campus interview, send an outline of your experience and educational background to J. J. Hookham, IBM Corporation, 425 Park Avenue, New York, New York 10022. We’re an equal opportunity employer.

**IBM**

If you’re in something as far afield as Music. Not that we’d mind. Liberal arts and business majors. We’d like to talk with you even if you’re not in something like that.

Not true.

The point is, our business isn’t just selling computers. IBM. Change the work. Every time you go to work, you work with people. Not machines.
Late St. Francis Rally Downs Beavers, 77-60

By LARRY BROOKS

A twist of an ankle may have cost the City Hoostaters their fourth victory of the season in their February Armory.

The Beavers led the Terriers, 37-34, at the half but Joe Mulvey, who looked so good against Hartford with 21 points and had 8 against St. Francis, twisted his ankle in the second half and had to leave the game. The Beavers thus go into the City University Tournament with a 9-13 record. As defending champions, they are the Lavender to play in the second game of Friday night's semi-finals with the Hunter Hawks (8-8) providing the opposition. The Lavender meet Queens in the second half with the lead changing hands on eight occasions.

Following Keizer's bucket, Doug Smith, as a consecutive markers which gave the hosts an 8-point lead, 62-54. Keizer then added 2 for free throws John Conforti as City led at 64-59 with 4:29 remaining.

The hosts, however, raced off the next nine minutes and out-scored the Lavender 19-1 for the remainder of the contest to gain their 17-point triumph.

Leased by Keizer, Barby Gelber and Richie Knebel, who played with a bandage covering stitcher under his chin, the Beavers overcame an early 15-7 lead to take their three-point half-time advantage. Keizer's unfortunate ankle-turn.

Keizer led the Lavender with 32 points, most by a City cager since Dick Kuncsman scored his record 35 in the last game of the 1953-54 season. Jeff, averaging 13.8.5, j of 10:31.0 Don Davis was fourth in their semi-finals with 19 points. Tom Lavender will play in 17 consecutive markers which gave Mulvey, who looked so good u

the second game of Friday night's Met Championships. The field events, held Tuesday, preceded Friday's events which took place at the 168th Street state armory.

The meet was taken by St. John's. The Redmen's 54 points topped defending champ, Manhattan, by seven counters.

Karl Birns placed seventh in the 80-pound weight throw on Tuesday with a toss of 45 feet 7 inches. No other Beaver fieldman fashioned a significant showing. Both Skip Johnson (60-yard dash) and Harold Sharps (60-yard hurdles) placed second in their respective trial heats. Both runners were eliminated, however, in their semi-finals with Johnson placing fourth in 6:1.5 seconds and Sharps finishing fifth in 6:1.5.

Andy Ferrara placed fifteenth in the two-mile run with a time (IC4A) Championships on March 24 Goldstein, 124.12; 6.5 Kessler, 8:34.2; 2:33.3. The two-mile relay team of Peter Schon, Sam, Allan Steinfield and Marty Brill came home with a time of 8:34.2 to eighth with a time of 8:34.2 to

Facing the mightiest track powers in the Metropolitan Area, City's harriers came up with a blank in Friday night's Met Championships. The field events, held Tuesday, preceded Friday's events which took place at the 168th Street state armory.

Bernie Samuel was fifth in his section of the 1000-yard run in 2:33.3. The two-mile relay team of Peter Schon, Sam, Allan Steinfield and Marty Brill came home eighth with a time of 8:34.2 to New York University, which won in a meet-record of 7:42.7. The mile relay squad of Gary Ramer, Ivan Black, Johnson and Dave Davis finished second in their section while being timed in 3:45.5.

The Harriers will next compete in the Intramural Amateur Athletic Association (IC4A) Championships on March 9.

Bearing this in mind, you cannot possibly imagine these actions in the midst of an attack on the government. Instead of reporting the reasons that officials give for these actions, you sarcastically stated, "After all, most of them are doing so to avoid the draft."

I believe the time has come for you to review your editorial policies before this trend gets completely out of hand. For if and

You may have the experience that the supervising pides projects of Alpha Delta Sigma are helpful to a comprehensive understanding of the profession."
