Decision Given On Thursday

The Disqualifications Committee voted Thursday to reverse its decision to invalidate the election results. The winners will take office next semester.

The decision was not announced until Thursday night when David Levinsky '68, president of the Lampert Leaders Society and chairman of the Disqualifications Committee, presented the Committee's report to the Student Council.

Mr. Levinsky stated that "this election was held under unforeseeable circumstances and that the committee did not believe that the outcome of any of the executive board elections would be affected by the irregularities." Next semester's Student Council should, Mr. Levinsky stated, re-evaluate the role of the disqualifications committee, with the hope of making the committee independent of Council. At this time, any student can appeal the disqualifications committee's decision to the Student Council.

Besides Mr. Levinsky, the other members of the committee are Max Berkman '68, president of the Student Council; Barry Haberman '68, president of the Senior Class; Edward Buchholz '68, editor-in-chief of the Student and Booster President Davida Feinstein '68.

The committee was originally called by Neil Lieberman '68, who claimed that the voting irregularities could have affected the possible outcome of the election and, therefore, should be invalidated.

Among the irregularities cited by the Committee when they originally invalidated the election are the following:

* There was only one week between the elections.
* There were at least two instances of "voting", including one in which a student voted twice.
* There was no record of the names of the perpetrators.

Mr. Levinsky said that "this election was held under unforeseeable circumstances and that the committee did not believe that the outcome of any of the executive board elections would be affected by the irregularities."

The decision was reversed by the Student Council, with the hope of making the committee independent of Council. At this time, any student can appeal the disqualifications committee's decision to the Student Council.

RCA Building Considered

Negotiations are under way to evaluate the pros and cons of either leasing or purchasing the R.C.A. Building at Twenty-fourth Street and Lexington Avenue for the Baruch School.

The talks have commenced following the approval by the Board of Higher Education last week.

The B.E.E. resolution gave the City University Construction Fund authority to explore the proposed site to be used as additional facilities for the College.

According to Assistant Dean Samuel Thomas, who is representing the Baruch School, the next step is for the State Dormitory Authority to make a positive proposal to the Fund.

Before this can take place the School and the authority must present concrete plans for utilization of the seven-story building containing approximately 140,000 square feet.

The purpose of the talks is to decide whether the University should purchase or lease the building, stated Dean Telford.

He said that depending on the outcome of the action, the new building will be used.

BEAVER FALLS, May 14—The trial of the alleged thieves of Benny the Beaver has been moved to this vermin-infested whistle-stop town.

Miss Tondawanda Rappaport, special investigator, stated, in an exclusive interview yesterday, "This crime is obviously the work of perverted, deviant minds. In my enlightened opinion, I assume that the vice sheets of almost every major city include the names of the perpetrators of this heinous crime."

Miss Rappaport was retained by the Ad Hoc Committee to maintain the Beaver as the Baruch College Mascot. Her services were retained by the committee to make an investigation by Associate Dean of Students David Newton revealed nothing.

Miss Rappaport ascertained that the Beaver was stolen at approximately seven, on the morning of November 9. Reliable sources disclosed that four students were seen eating breakfast in the Colonial Coffee Shop, directly across the street from the Baruch School, at 6:45 that morning. A waitress, who wishes to remain anonymous, stated, "Well, to the best of my knowledge, they ordered four coffees, two chocolate-layer cakes, orange juice and toasted English, light on the butter. They were very poor tippers," she added.

As for the appearance of the students, the waitress could remember nothing. "One of them did return to get a pair of black gloves he had left behind," she said.

Miss Rappaport's investigation revealed that the time the theft was discovered was at 8 A.M. Mr. Harry Stolzer, custodian of the Student Center, articulated theories, supported by Adolph Peterson, night custodian, which proved ridiculous.

They originally outlined a plot to remove all significant artifacts of the Baruch School. Besides Provost Saxe, the only missing thing was Benny. This has been has been considered suspicious.

The Disqualifications Committee, with the hope of making the committee independent of Council, at this time, any student can appeal the disqualifications committee's decision to the Student Council.

Besides Mr. Levinsky, the other members of the committee are Max Berkman '68, president of the Student Council; Barry Haberman '68, president of the Senior Class; Edward Buchholz '68, editor-in-chief of the Student and Booster President Davida Feinstein '68.

McCarthy Wins Choice Poll in Nationwide Student Vote:

Coastal Strength Key to Victory

Washington, D.C. - Eugene McCarthy, the Socialist Worker candidate, won the Student Association of Student Affairs and Activities (S.A.S.A.A.) election at George Washington University, capturing 55% of the vote against 45% for Ralph Atkinson, the incumbent. The S.A.S.A.A. is a national organization of student affairs professionals on college campuses.

The S.A.S.A.A. election results were announced this morning by Dr. Eugene J. Ricci, the national president of the organization, in a press conference at the National Press Club.

"Mr. McCarthy's victory is a testament to the strength of his campaign and the support of the students," said Dr. Ricci. "He ran on a platform of fiscal responsibility, better student services, and a strong commitment to the campus community. His campaign was characterized by open and honest dialogue, and he was able to connect with the students on a personal level."

Student Initiates Honored

A special awards ceremony was held at BGSU yesterday to recognize the achievements of outstanding students. The event was hosted by the BGSU Student Organization and featured presentations by key figures in education and academia.

The ceremony included speeches by university presidents, educators, and community leaders who congratulated the honorees for their exceptional contributions to the fields of study. Awards were presented to students in various disciplines, including engineering, business, and science.

Student of the Year, Fellow of the Year, and Outstanding Graduate were among the many accolades given out during the event. The awards were chosen by a panel of judges consisting of esteemed scholars and industry leaders.

The Art of Art

"Art is the lies that make us realize the truth," according to Pablo Picasso. The Art of Art reflects this idea, revealing how human beings have interpreted, revered, and even defied their environment through visual means. From the crudest cave paintings to the most refined works of art, this issue of "The Art of Art" highlights the ways in which creativity is the lifeblood of human expression. Whether it's a sculpture of a human being or a landscape that no one has ever seen before, art has the power to inspire, provoke, and challenge conceptions of the world.

This issue of "The Art of Art" includes:

- "The Lies That Make Us Realize the Truth," an article by Pablo Picasso
- A feature on the most significant works of art in history
- An interview with a contemporary artist
- A detailed analysis of the evolution of art from ancient times to the present day

The Art of Art is a publication that celebrates the beauty and power of human creativity through the lens of art. This issue is a testament to the enduring nature of art as a tool for self-expression and reflection.
The Ticker

A Free Press. This past term I have grown firmly responsible for the success of The Ticker. I am yet to find a student who is ever satisfied for anything in life, and I have for many months called the Ticker "a Free Press." I believe that knowledge will soon be forgotten; and the portion that is retained will be of no value unless it is used. The Ticker is a newspaper, a channel of news and outlet for student expression. There are many students who have been motivated to continue their studies because of the Ticker. The Ticker has been a source of information for many years, and it has not lost its importance. I am not going to thank the faculty members who have been helpful to me in my four-year tenure at the Baruch School. They have been my constant support, and I am grateful for their help. I am not going to thank the students who have been helpful to me, either. They have given me many ideas, and I am grateful for their help. I am not going to thank the Ticker managing board. It would be easy to simply write that knowledge will soon be forgotten; and the portion that is retained will be of no value unless it is used. The Ticker is a newspaper, a channel of news and outlet for student expression. There are many students who have been motivated to continue their studies because of the Ticker. ### Inspector Carl Ravens
**Former Baruch Student**

Inspector Carl Ravens of the New York Police Department, a member of the Class of 1935, is known for his outstanding service and contributions to law enforcement. His story exemplifies the importance of education in shaping a successful career. Ravens graduated from Baruch College, the senior college of the City University of New York (CUNY), which offers a range of academic programs and services to its students. Baruch College is located in the heart of New York City, providing students with a diverse and dynamic educational experience.

### Rapid Expansion Marks New Era for the City University

A draft of the 100th Master Plan of the City University of New York (CUNY) marks an important milestone for the institution. This plan, which was completed in 1990, has been developed to accommodate the growing number of students from the present 125,000 to approximately 200,000 within the next 25 years. The master plan will guide the construction of new buildings, expansion of existing facilities, and the development of new academic programs.

The master plan is based on the recommendations made by the Board of Higher Education, which has been working closely with the CUNY administration to ensure that the plan meets the needs of the students and faculty. The plan includes the development of new academic programs, the expansion of existing programs, and the construction of new buildings.

The master plan will be implemented in phases, with the first phase focusing on the completion of the new buildings and the expansion of existing facilities. The second phase will focus on the development of new academic programs.

### GRADUATION

**Students may have up to 30 credits outstanding at a C.U. C. U.**

The Board of Higher Education is expected to make recommendations to the CUNY Board of Trustees for the approval of the master plan. The plan will be implemented in phases, with the first phase focusing on the completion of the new buildings and the expansion of existing facilities. The second phase will focus on the development of new academic programs.

City College Baseballers Split Pair

The City College baseball team assured itself of a winning record in league and overall play last week by splitting a pair of games with Iona College and Hofstra University.

By a score of 6-5, while the Lavender got by the Flying Dutchmen by a 6-4 count. The combination gives the Beavers a 7-6 record overall.

In the Saturday afternoon contest, the Gaels upset the Beavers by a score of 6-5, while the Lavender got by the Flying Dutchmen by a 6-4 count.

The Gaels opened the scoring in the top of the fourth on a hit by their veteran shortstop, Jim Mitchell, but Beavers' starter, Bob Nanes, held Iona scoreless for the remainder of the game.

The Beavers' lone victor was Charlie Kolenik, who is one of the most vocal and controversial players in the league, put St. John's a game ahead of the Beavers.

The Beavers' lone victim was a game to put St. John's a game ahead, and bringing up RPI leader Barry Nanes walked, leading to the bottom of the fifth. In the bottom of the eighth, Rosenblum led off with a walk but was forced at second by Richard Richter, who hit a single to right center. The Beavers then doubled to Richter, moving Rosenblum to third. Barry Martin then delivered the game winning hit, a single to right center, and giving the Beavers the 6-4 victory.

The Lavender went ahead for the first time in the bottom of the sixth and scored what seemed to be an insurance run in the seventh. The two runs proved to be inadequate, however, when Iona parlayed three hits, two walks and a deep Beavers error into three runs to regain the lead.

The Beavers' lone victim was a game to put St. John's a game ahead, and bringing up RPI leader Barry Nanes walked, leading to the bottom of the fifth. In the bottom of the eighth, Rosenblum led off with a walk but was forced at second by Richard Richter, who hit a single to right center. The Beavers then doubled to Richter, moving Rosenblum to third. Barry Martin then delivered the game winning hit, a single to right center, and giving the Beavers the 6-4 victory.

The Beavers then doubled to Richter, moving Rosenblum to third. Barry Martin then delivered the game winning hit, a single to right center, and giving the Beavers the 6-4 victory.

The City College sports program is in trouble. There is a great deal of apathy surrounding it. Apathy not only from the students, but from the administration. I think the C.C.N.Y., intercollegiate athletic Board will call it as it is.

I entered City College as a student-athlete and transferred here in my junior year. The only time I have felt in the school is that of an athlete that is a part of its heritage. When I was Uptown I worked to help pass a referendum to give varsity athletes salaries. Despite the referendum it was defeated. What will happen at the new Baruch?

I hope that intercollegiate athletics on a high level will not be lost to Baruch. Teams and players will be difficult enough with the beginning. Let's work to make it a little easier for the varsity athlete to compete. Let's give Baruch a contingent of teams that can be proud of.

Thirty

By PHIL WAXBERG

This issue of The Ticker marks the end of my rather short and mini-illustrated career as a sports writer. I don't know how many people at the newspapers are openly hostile to the efforts of his team; But he is a school whose academic standards are high, and every woman alive. Barry Poris, who made such a fine contribution to the Beavers, came right back in the top of the fourth on a hit by his second homer of the season.

Jonas scored twice in the top of the fifth, and the Beavers doubled it up with his second homer of the season.

Iona parlayed three hits, two walks and a deep Beavers error into three runs to regain the lead.

The City threatened in the ninth to open the inning, Roseman sac- ficed, and Andy Sebor came in to score the tying run. But the Lavender set it up with his second homer of the season.

The Lavender got ahead of the Beavers.

The Beavers' lone victim was a game to put St. John's a game ahead, and bringing up RPI leader Barry Nanes walked, leading to the bottom of the fifth.
