Two School Structure Requested By Faculty

The faculty of the Baruch College to President Weaver a two-school institution. The action came at a closed meeting last Saturday in the auditorium of the Criminal Justice Office.

According to an announcement made publicly by President Newton, the faculty indicated its preference overwhelmingly in favor of the establishment of a School of Business Administration and a School of Liberal Arts. Its most important than the decision," said President Newton. "If the Board members of the faculty were asked to vote, opinions and preferences are not the new president, Dr. Robert C. Weaver, who attended the session.

The opportunity was offered by the faculty of Dr. Weaver augers well for the future of the Baruch College.

The Faculty action will be forwarded to the College President, who will then make a final recommendation to the Board of Higher Education.

Dean David Newton requested the assistance of the Board of Trustees in the establishment of a School of Liberal Arts. Students must be given the opportunity to choose among different disciplines.

The dialogue thus opened between the president of Baruch and the faculty will be of consequence in the establishment of a wise and judicious administration of the Bernard M. Baruch College.

Eighteen Proposals

The faculty had considered this plan, as well as fourteen others, at the request of Dr. David Newton, who was first, as Assistant Dean in 1957 and has worked on the college since last February 26.

Provost Samuel Thomas, who has been Assistant Dean at Baruch since 1957, has been appointed to the Board of Higher Education.

The faculty will make final decision.

The Ticker, founded in 1917, is published by the Student Center. Representatives of the editorial board are students in their senior year. Students running for class offices and the Ticker Association require 50 signatures. Petitions must be returned on October 1 at the Election Office.

The Ticker is published on the third floor of the Baruch Building. The first floor of the Student Center is the Information Desk in the lobby of the Student Center. Representatives of the editorial board are students in their senior year. Students running for class offices and the Ticker Association require 50 signatures. Petitions must be returned on October 1 at the Election Office.
A Student's View

The Democrats in Chicago

By DOROTHY ADAMS

Editorial Page

Chicago is the capital of the U.S. and the home of some of the world's most famous political leaders. It is a city that has seen its share of political upheaval, from the labor strikes of the 1930s to the civil rights protests of the 1960s. It is a city that has witnessed the rise and fall of many political figures, from the powerful Tammany Hall machine to the more recent campaigns of the Democratic Party.

The city is also home to some of the nation's most prestigious universities, including the University of Chicago and Northwestern University, which have produced many of the city's leading politicians. It is a city that is well known for its strong political parties, with the Democratic Party being one of the most dominant.

The Democratic Party has a long history in Chicago, dating back to the early 1900s. It was founded in 1868 and has been a force in local and national politics ever since. The party has been led by some of the city's most influential figures, including Abraham Lincoln, who was the first Democrat to hold the presidency.

In recent years, the Democratic Party has faced challenges in Chicago, with some members of the party feeling that it has become too narrowly focused on labor issues. However, the party remains a powerful force in the city, and its leaders are committed to继续推动进步。

MISSIONS, one Registrar, and the right of many arguments, not the least of which is accreditation, to continue a two faculty structure will effect students for years to come. It is important to point out that the structure of the new College shall ultimately be responsible for establishing the goals of the new College.

An increase in the degree of student participation in the curriculum and the action Council takes will effect your future. You owe it to yourself to attend and explore a portion of our musical heritage. (Jazz, progressive rock, and classical.) What people are doing in other fields today will have a direct effect on your world tomorrow.

You Are Wanted!

We were a little surprised at the lack of attendance at last Thursday's Student Council meeting. Despite several invitations, club presidents and student council officers still did not show up.

This week Council's agenda will include appointments to the Disciplinary Committee, the election rules, and budgets. There will also be a discussion of Saturday's Faculty Ticker, Student Council and the students of the new Baruch College.

The actions Council takes will effect your future. You owe it to yourself to attend and be a part of the formation of all the integral parts of the new Baruch College.

It is important to point out that the structure of the new College shall ultimately be responsible for establishing the goals of the new College.

The new Baruch College — three or four broad areas permits the students to take electives in any area of the curriculum and provides significant flexibility to the students. Each faculty should determine the requirements for the specializations it offers. What ever effort should be made to provide for a large number of courses. Instead of a 60% to 70% distribution of the students, Liberal Arts should be at the students discretion and the broadest area is the student's decision. There is a variety of options for students in the new college. Each faculty should determine the requirements for the specializations it offers. What ever effort should be made to provide for a large number of courses. Instead of a 60% to 70% distribution of the students, Liberal Arts should be at the students discretion and the broadest area is the student's decision. Meet "smells like death and emotion that salute from the American publisher Taul. Clearly a substantial amount of shit," Yippie leader Abbie Hoffman put it, "no permit to the system." As refrains of "I Ain't Gonna Work on the plantation's" echoed off Michigan Avenue, the presence, in their own eyes and in the eyes of millions of TV viewers, witnessed the blood flow
