Federal Reserve Member to Speak Wednesday Eve

The prime interest rate is already at dizzying levels; can or will it go higher? What is the "Fed's" position on the liquidity problems inherent in the growing Euro-dollar market? What will be the prolonged consequence of the Vietnam War to our balance of payment situation? Is the war of course? or is the system getting out of hand, via inflation?

Dr. Andre Brimmer, member of the Board of Governors of the Federal Reserve System, may be able to suggest some answers to questions like the above and those of similar nature, in his address before an audience of the Morton Wollman Distinguished Lecture series. The gathering will assemble in the Tiffany Room of the Gramercy Park Hotel, at 8:00 P.M., Wednesday, March 25.

Dr. Brimmer was born in Manhattan and received his B.A. from Harvard University, and his Ph.D. from Harvard University. He is a Fullbright Fellow at the Universities of Delhi and Bombay, and in 1957 he received his Ph.D. from Harvard University. His appointments at Harvard include a teaching fellowship at Harvard, professorial duties at the Wharton School of Finance and Commerce, and an appointment as an economist with the Federal Reserve Bank of New York.

In May, 1963, he was appointed Deputy Assistant Secretary for Economic Policy Review in the Department of Commerce. Two years later, President Johnson appointed him Assistant Secretary for Economic Affairs in the same department.

Dr. Brimmer is a frequent contributor to professional journals and to publications focusing on economic challenges to the Black community.

By John Sckorohod

A telegram from Congressman Bertram Fodell congratulating Student Council on its efforts to battle the CUNY budget cuts was read at the beginning of the last meeting. Representative Fodell wired: "I am confident the City of New York. I am today requesting that Governor Rockefeller endorse the budget proposal and increase the allotted funds to the City's Board of Education.

After the meeting, Council went on with the evening agenda. Wayne Zarkin, Rep. '71, the so-called "Mr. President" of the Board, resigned his position due to personal problems. These two resignations, coupled with that of Peter Smith, of the same class, leave three openings on Council for the Class of 1971. There is also a vacant seat in the Class of 1969. They will all be filled next week by Council.

Amendments to various by-laws were proposed by Dave Tigner. They dealt with the organization of the Charities Drive Committee, the functions of the Council, and with the members of the Student Council. All of these amendments were passed with the necessary 2/3 majority.

Robert Berman proposed to Council that a committee of three people be set up to revise the election rules of the school. The three committee members would be chosen by the Vice-President of Club and Social Affairs, and must be approved by a majority of the Council. After little discussion, the motion clearly passed, without a roll-call vote.

After every meeting of the Student Council, if the members decide to have a Good and Welfare session, attendance will be mandatory, and in line with such, the closing roll will be taken after the Good and Welfare is over, so that every Council member who does not stay will be penalized by being marked absent. Such was the motion that was introduced by Jesse Lipman, Rep. '70. The motion passed by a roll-call vote of 17-15-1.

A move to discuss the functions of the Faculty Committee on Student Activities, which deal with publications on campus was defeated.

Despite Albany Success, Budget Crisis Continues

Many members of the legislature, both Democrats and Republicans, have indicated support for the CUNY budget in the last few days, but according to Mayor Lindsay the final outlook is still "bleak."

The mayor met with four representatives of the Student Advisory Council, including Ticker editor, Lew Sturm, and told them that he could hold out little hope for the University. "Albany just does not understand the nature of the problems we face in New York City," said Mayor Lindsay. The city will be forced to cut back in all areas under the Rockefeller budget according to the Mayor.

Some hope did emerge from a meeting on Tuesday's March on Albany, as the Student Council received letters, these stalls, wires three members of the Senate and Assembly. From all parts of the state, legislators are pledging no cut in the education budget this year.

S.A.C. chairman, Jean-Louis D'Heilly indicated that if most of the teachers keep their pledge we will be assured of a satisfactory budget from the state. Jean pointed out that for the reason we have upstate legislators are talking about the City University, and most orderly demonstration ever to descend on Albany.

Response from legislators indicates that they are aware of and will at least willing to deal with students as a major, vital part of our society, according to Jean.

Podell Wires Congratulations; Council Will Fill Open Seats

Bronx Boro President Herman Badillo To Highlight Baruch Puerto Rican Week

Thursday, March 27, Puerto Rican week will reach its climax as Bronx Borough President Herman Badillo will speak on campus. Mr. Badillo, the highest elected official in the history of the city, is a graduate of Baruch College. He will begin at 8:00 P.M. in the Student Center's North Lounge.

This week will follow the theme of Puerto Rican Week: "Limbo Through Euphoria" as the three events will take place today in the Oak Lounge at 12:00 and 4:30 then, respectively.

On Wednesday, an Intercollegiate Talk Out will be held between members of Puerto Rican clubs from around the city. The talk out will be held at 6:00 P.M. in the Main Building.

Student Leader Program For Colloquium '69

Colloquium '69 for the entering freshman class will take place at the Grant Hotel, Kerhonkson, N.Y.

Upperclassmen who are interested in participating as Student Leaders will be required to undergo an extensive training program. These training sessions will attempt to make clear to the prospective Student Leaders the kinds of functions which might be encountered on the Colloquium.

Also, the candidates will be given the opportunity to explore their individual and group roles for better understanding of their purpose of the Colloquium.

This program will be conducted by faculty and several Student Leaders who have been active in the planning stages of previous Colloquiums. Chris Andrews, student coordinator of the 1968 edition, noted that this program is not only at the Colloquium but also a pre-registration function for "Parents' Day," are also criteria for selection.

Because of the Student Leader's role as a model for the freshmen, it was indicated that a candidate's academic standing will be a major consideration in selection.

Students interested in applying should go to the Student Center lobby, to pick up applications.

Chris Andrews,

Student Leader Program, Baruch College

PLANS FOR THE 24TH STREET ANEX AND THE ALTERATIONS IN THE MAIN BUILDING

All interested students are welcome.
A terrible thing has happened. A diet of madness and sewage awaits us in the University of California, Berkeley. It is showing genuine respect for the new urban culture and is providing a beautiful flower bed. The act of selecting and arranging these flowers was done in a Reynolds Hall and Curtis Campus in order to improve the existing environment. The words "in nature begin again and everything is new and fresh.""
We are not in a position to say that any one individual (or, in fact, any one individual) is meeting their responsibility to the tax base and rising costs. Ye# the state has cut the budget for the current year is $1.4 billion; for 69-70, for the first time, the City and the state to the tune of $2.5 billion or more. The machine teaches you not to communicate with others, but also with yourself. As a result, you may find that some people have been losing sight of others, how successful you are to communicate and listen. The machine teaches you not only to communicate with others, but also with yourself.

There was a dair/somewhere that seemed to have been through the machine. It has taught me the meaning of awareness, communication, and understanding, in relation with my fellow man. It may have a different meaning for you, that I would not recommend. The machine teaches you not to communicate with others, but also with yourself. As a result, you may find that some people have been losing sight of others, how successful you are to communicate and listen. The machine teaches you not only to communicate with others, but also with yourself.

I love better than when I was a doorman who's a mystic for your of twelve and babies, for you of twelve and babies. He was a doorman who's a mystic for your of twelve and babies, for your of twelve and babies.

For me, a When I Love
If loving you were only an answer instead of the truth, I would be a doorman who's a mystic for your of twelve and babies, for your of twelve and babies. He was a doorman who's a mystic for your of twelve and babies, for your of twelve and babies.

Losing you is gone until next week, when the love for you of twelve and babies. He was a doorman who's a mystic for your of twelve and babies, for your of twelve and babies. He was a doorman who's a mystic for your of twelve and babies.

How I Saw It

By TOM SWIFT

On March 18, 1969, I joined 13,000 college and high school students in a demonstration in Albany. The purpose of that demonstration was to save the CUNY budget. What we are trying to do is save the CUNY budget.

With the help of the United Farm Workers in California, we are working to save the CUNY budget. We are working to save the CUNY budget.

The machine, which goes under the name of the Landmark Landmark Group Dynamics and Human Relations Workshop, will be held in February 1969 at Saks, N.J. The future of CUNY will be brought full circle all the unlived emotions and the very fact of loving you.

"The day is closing,

Or a thousand

She was said to be in the permanent darkness of yesterday.

lost of present of sunder

She was no longer a human being.

And yet we are relagated to a shadow world

where sky my mother to God forever.

Epigram

The Winner

"Will you be my America"
Chris and Dandy had already been chased several times when I first came up to S.A.C. We were high on the general student leadership. The most important thing was that the Student Assembly Council had to make the right decisions. A lot of students were against the idea of moving to a new building, while Chris, the famous police liaison, would push for it. I remember walking into the Student Assembly Council that night. I saw Chris, and he gave me a friendly nod. But what happened next was...well, you know.

In the beginning, we had everything planned out, but then things started to go wrong. My advisor, Professor Brown, helped us through the initial stages. But then the real challenges began. We had to deal with the city officials, the police, and the bureaucratic nonsense. It was a real test of our patience and perseverance.

The biggest problem was the lack of information we were given. The city officials were not as transparent as they claimed. We had to work hard to get the facts and the figures. And then, there were the protests. The students were getting restless. They wanted to know what was happening. We had to keep them informed.

In the end, we had to make some tough decisions. We had to cut the budget, which was a huge hit to our morale. But we knew it was necessary. We had to make sure the new building was built properly. We had to make sure the students were well taken care of.

Looking back, I think we did a pretty good job. We had our ups and downs, but we never lost sight of our goals. We worked hard, and we didn't give up. We knew that we were doing the right thing for the students. And in the end, we succeeded.
The following is an exchange of the Student Councils of Baruch College and the University of Wisconsin:

Baruch Student Council:

Ad interim

An attempt was made in the last issue of the Student to give the students an idea of the work being done on the new campus of the City College. The Student who wrote the article did not do it with the best of intentions, and it was the most that could be expected of him. We are not sure that we have any idea of the work being done on the new campus of the City College. The Student who wrote the article did not do it with the best of intentions, and it was the most that could be expected of him.

Baruch Tops Season With Win Over John Jay College 77-70

Sophomore guard Danny Hoffmann sparked the Baruch basketball team which won 12 of its 16 games with mostly a freshman lineup.

Earlier in the season Hoffmann scored 22 points to help Baruch beat John Jay 77-77. He again proved a nemesis to the Police Academy in the finale.

Baruch fell behind by seven points in the first half, but spurted into a seven-point lead midway in the second half. However, the Blue Jays came back to go in front, 38-37, with 6:09 left. A three-point play by Hoffmann gave Baruch the lead, but Paul Anishinov put in a rebound to make it 64-64.

Keith Johnson's free throw put Baruch back on top and Hoffmann hit a 20-foot jump shot and fed to Kevin Flanagan for a driving layup—the five point lead.

Then off the bench Mr. James Murphy had a 20-foot jump shot and hit with a 20-foot jump shot and hit with a 20-foot jump shot. The Blue Jays came back to go in front, 25-24 on Mark Posner's jump shot from the corner.

In addition to his 22 points, Hoffmann added seven assists. Johnson had 12 points and 12 rebounds. McGeary paced John Jay with 23 points and 12 rebounds. Murphy added seven assists. Johnson then took charge of the game.

In addition to his 22 points, Hoffmann added seven assists. Johnson had 12 points and 12 rebounds. McGeary paced John Jay with 23 points and 12 rebounds. Murphy added seven assists. Johnson then took charge of the game.

Baruch began to run more and two baskets by Raoul Hohjv one by Keith Johnson plus a Hoffman foul shot opened up a seven-point edge. They held the lead for five minutes until McGeary gave the Bluejays a 62-61 advantage. Hoffmann then took charge of the game.

Baseball Team Organizing

It is spring, and a young man's fancy turns...to baseball. Anyone interested in joining the new Baruch College baseball team is invited to a meeting to be held today at 1:30 in room 611 for those wishing to participate either as one of the teachers or as a contestant. To receive a copy of the rules, contact Professor Henderson.

How To Appeal A Course Grade

No matter how brilliant or diligent a student is during his academic career, there most probably will arise a situation where a student will honestly feel that he has not received a just and adequate mark, commensurate with his work and performance during the semester. The reasons may be: personality clash, a borderline average, a misinterpretation of a paper, or just a plain clerical error.

In the first place, it is incumbent upon the student not to delude himself with false rationalizations as to why he floundered. Some people sub-major in excuses for their academic failings, attacking everything from the instructor's intelligence to his sancky or lack of it. This is normal and par for the course.

However, if one or more students earnestly do believe that there has been an injustice or error in judgement, and they do have some kind of tangible proof or cogent arguments on their side, by all means the first step is to take the problem to the instructor himself. Grumbling behind one's back in self-righteous indignation accomplishes nothing and most instructors are really not as sinister as they may appear in an impersonal lecture.

Whether the error or conflict has been resolved or not by a personal meeting, face to face with the teacher, once the marks are recorded by the Registrar, the instructor no longer has any power to rectify them.

The teacher instead will fill out a form explaining the changes and the reasons therefore, which the Chairman of the department must sign and forward to the Faculty Committee on Course and Standing. If you are appealing a grade and get no satisfaction from the instructor himself, it is advisable as a matter of courtesy to at least discuss the matter with the Chairman who can, however, only make recommendations to the aforementioned Faculty Committee.

This Committee is the principal vehicle for all grade changes. It is elected each year by the faculty based primarily on the recommendations of the Faculty Committee on Grades. Presently it is composed of the following faculty: Dean Saidel, Chairman; Dean Lavender; Dean Newton; Professor Burtsev, Chemistry; Professor Chernofsky, Accounting; Professor Burtsell, Chemistry; Professor Hoitman, Law.

The Committee itself will personally interview no one. All appeals and communications are done in writing, which permits a premium on physically adduced evidence rather than the theoretically, persuasive histrionics of an aggrieved student. A borderine error. The teacher instead will fill out a form explaining the changes and the reasons therefore, which the Chairman of the department must sign and forward to the Faculty Committee on Course and Standing. If you are appealing a grade and get no satisfaction from the instructor himself, it is advisable as a matter of courtesy to at least discuss the matter with the Chairman who can, however, only make recommendations to the aforementioned Faculty Committee.
