Baruch Turned On: At Drug Symposium

By Viva Stein and Wendy Erde

On Thursday, December 11, Baruch College became the site of a drug symposium. An estimated 200 members of the student body attended the session, organized by the Committee on Higher Education and Development at the college. Speakers included Mr. Luis Gallego, the assistant director of the Alcoholism Research Foundation; Mr. Jon S. Jonas, the New York State Assemblyman for the 37th Assembly District; and Dr. Bryan B. K. W. Porter, the director of the Alcoholism Research Foundation.

Mr. Gallego, in his remarks, stated that the college should not be used as a place for drug experimentation. "The college is a place for learning, he said. It is not a place for experimentation on our physical and mental health."

Mr. Jonas spoke of his experiences with the effects of drugs on the human body. "After each attempt at rehabilitation, he said, "I would end up on the streets." He mentioned how the use of drugs can lead to a cycle of despair and hopelessness, and how the college can play a role in breaking that cycle.

Dr. Porter discussed the effects of drugs on the brain and how drug use can lead to serious brain damage. "The use of drugs can lead to a lifetime of dependency," he said. "It is not worth the risk." He also spoke of the need for more research into the effects of drugs on the human body.

The symposium was held in the Student Life Center and was attended by students, faculty, and members of the community. It was organized by the Committee on Higher Education and Development at Baruch College.

The question is, are they willing?

As Student Council President, I urge its members to involve itself in the development of the students.

The only major snag in the process could be re-
