There is a student revolt in a town somewhere. That is an interesting fact, as it is not unusual these days. The people of this world are in revolt somewhere. You may think of it as a great event or as a minor one. That city is revolted, but the world is not. There is no revolt in the world. That is the great event.

HOW TO GET UP WHEN YOU ARE REALLY DOWN.

My friend told me these tips, and they work.

1) Say: "Yes, I know this is true."
2) Say: "No, I don't know this is true."
3) Say: "I take a long rest before I wake up."
4) Say: "I don't want to wake up."
5) Say: "I'm still asleep."
6) Say: "I'm awake, but I don't want to get up."

When you wake up, say: "I'm awake!"

The next step after erotic art is erotic living! But don't worry, there are always other options.

• My friend told me this tale of utter disaster and then, something happened.

My friend said he had left a freshly cleaned suit in his car overnight and he opened the car the next morning to find it gone, along with spare tire, his flashlight, his schoolbooks. The thief left some roadmaps behind, though.

A day after this, my friend said, he had a bad episode with his girlfriend and he was feeling really awfully upset.

When he punched that incident, he lost his wallet with all the cards and a few dollars.

My friend was feeling terrible until a friend of his called up and said to him, "I left my car at the airport, the battery was dead, I left the lights on while I was out of town over the weekend."

My friend drove his friend to pick the car up at La Guardia, and give it a battery boost. Well, they got to the airport started the car with jumper cables, but the friend's car (is the one of apologies correct?) had another problem: All three belts were broken.

My friend never felt so lucky in his life. Boy, I tell you, when you think you are in the best, look around and start smiling!

STATEMENTS TO DROP AT COCKTAIL PARTIES.

Ways of stimulating conversation:

1) Do you know what the next step is after erotic art? You don't?
   Well, the next step after erotic art is erotic living!
2) Do you know how many positions there are in human sexual intercourse? You don't? Well, there are only two positions in human sexual intercourse; in or out!
3) Do you know how a guy can take a girl wants to have intercourse with him? You don't. Well, if a girl says no, she means no; if she says no, no, she means yes!
4) Try placing this statement into a conversation: There is no such thing as a purely intellectual issue. There is always emotionality involved with everything...
5) If you think someone is playing a "rapier" role in conversation, say, "I believe I smell plastic burning." He nice about it.
6) Say "there are many truths" and they'll believe you are a philosopher.

Continuing along.

I am pleased to report that the spirit of Mr. Keats can be experienced behind the 54 Street Building. On occasion, like every hour, the front elevator (people elevator) in the RCA (as it is Enactus) breaks down and one is huddled to use the rear elevator. Back in the good old days, the rear elevator was used to transport horses (four legged horses not dope) up and down, vertically, that is, and physically. Anyway, I guess the horses must have a strong union never been removed from that rear elevator. Man, does it smell from horses.

On another line of thought, I am happy to be the first person to announce that there is ON-CAMPUS PARKING AT BARUCH!!!

Yes, its true. Daily, I have noticed the likes of a red Volkswagen and other auto's parked in the alley between the Student Center and the Main Building. I believe that this valuable parking space should be either 1) sold on a monthly basis to the highest bidder or 2) be raffled off or somehow fairly distributed in the College community so that those observing the same car parking in the same valuable location each day will not think an injustice is being committed and that someone is taking advantage. Dig?

We're keeping with majors in Business Administration / Economics / Psychology / Marketing / Architectural Design / Mechanical Engineering / Accounting / Computer Science / Traffic and Transportation / Management / Management Engineering / and Industrial Engineering.

Here's where YOU come In. We're looking for bright young people who can accomplish whatever your talents lead you to work toward. That's it. YOU have the opportunity. We have openings. Let's get together and see if our ideas are in the same bag.
