All students are urgently requested to read the following description of the proposed new academic calendar. The staff of the Ticker has endeavored to spell out as clearly as possible the advantages and disadvantages of this proposal. The passage of this new calendar by the Baruch Community could have tremendous impact on the College and, perhaps more importantly, on each individual student, faculty member, and administrator. By the same token, should it be decided to turn thumbs down on the proposal, it is extremely important that such a negative decision be based on knowledge of all the facts and clear intelligent thought.

An impromptu meeting was held in the Auditorium on Thurs., 3-11. There were no more than two hundred students present at any one time during the two hour session. It was announced that the faculty was to have voted on this proposal on Monday, 3-18. A negative vote by the faculty at that time would have killed the proposal for good before the student body even had a chance to look at it. When the students attending the meeting in the auditorium heard this, they were outraged to find that a matter of such importance had apparently been kept secret. The students insisted that the faculty postpone its vote until the entire student body was given an opportunity to familiarize itself with the proposal, evaluate it, and express its views.

Therefore, we urge you to give this matter very serious consideration. It is not often that the student body has the chance to voice its opinions in a policy matter of such tremendous importance. Read about it. Discuss it with your fellow students. Hopelessly, the student body will be given the opportunity to vote before the faculty makes its decision at their rescheduled meeting on the first Friday of next month.

Here is the proposal: Under the new calendar the academic year will consist of four semesters. To illustrate the way this would work we shall use the following examples:

- 1971-72
  - First Session-September 9-November 20-15 class sessions.
  - Second Session-January 10-April 21-15 class sessions.
  - Third Session-May 1-June 15-15 class sessions.
  - Fourth Session-June 26-August 15-15 class sessions.

**ADVANTAGES:**

1. Students who wish to accelerate their studies would be able to complete their baccalaureate degree in three years.
2. Students who enter college with serious academic deficiencies can enroll in remedial work during the fourth session presented during their freshman and sophomore years.
3. Students who are required to work while attending college may choose to complete one or more courses. Those students who would normally expect to complete college in five years will be able to complete their course work in five years.
4. Evening session students enrolling normal evening session course loads could complete their course work in five years.
5. There would be increased salaries for teaching during the first and second sessions since faculty attendance during those sessions would have an unchanged academic significant.
6. Teaching one or both summer sessions at Baruch College would carry a reduced tuition rate. The Board's existing program (if it is adopted) will provide an increased family supplement.
7. The overall operating cost per FTE student would drop slightly in summer sessions enrollment increased as a result of the accelerated calendar. Summer sessions would provide a normal load of the operating costs of the Fall and Spring sessions.

**DISADVANTAGES:**

1. The work load of the administrative staff would increase appreciably and the same would be true of the registrars office.
2. The academic year would be divided into semesters. This would result in increased costs for non-exempt employees. In particular, the Baruch Community could have tremendous impact on the College and, perhaps more importantly, on each individual student, faculty member, and administrator. By the same token, should it be decided to turn thumbs down on the proposal, it is extremely important that such a negative decision be based on knowledge of all the facts and clear intelligent thought.

In order to get a green light on the new calendar the administrative staff would have to be provided with non-exempt employees who might be required to work on days now designated as holidays. The College could establish a comparable program.

**OTHER CONSIDERATIONS:**

1. A basic assumption underlies the plan, namely that more students will enroll in the third and fourth sessions and for six holidays during the first session, none during the second, none during the third, and one holiday during the fourth session.
2. An experiment is successful, one program will be affected. Think about it!
Mr. Alexander A. Deja Coe will speak at Memorial Union Thursday between 11:30 a.m. and 1:30 p.m. in the Oak Room. Deja Coe is a retired professor of mechanical engineering at the University of Illinois, and a well-known expert in the field of heat transfer.

For those interested in attending, please contact the Office of Student Activities at 645-3211.

Oriental Skill Techniques

Oriental Skill Techniques is a new student organization on campus. The purpose of the group is to promote an appreciation of Chinese culture and to provide opportunities for students to learn and practice oriental art forms.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

Purnell Lounge

BOUNCE FOR BEATS

Bounce for Beats is a new student organization that promotes physical activity and social interaction through dance and exercise. The group meets every Tuesday at 7 p.m. in the Student Union Ballroom.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

City University on the Air

City University on the Air is a new student organization that promotes the spread of knowledge and information through radio programming. The group meets every Thursday at 4 p.m. in the Student Union Auditorium.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

Purification of the Arts

Purification of the Arts is a new student organization that promotes the spiritual and artistic development of its members. The group meets every Friday at 5 p.m. in the Student Union Chapel.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

Celeste

Celeste is a new student organization that promotes cultural diversity and understanding through music and dance. The group meets every Saturday at 8 p.m. in the Student Union Ballroom.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

The Amazing Grace of Poetry

The Amazing Grace of Poetry is a new student organization that promotes the appreciation and study of poetry. The group meets every Tuesday at 6 p.m. in the Student Union Library.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

Voter Registration

Voter Registration is a new student organization that promotes participation in the democratic process through voter registration and education. The group meets every Thursday at 4 p.m. in the Student Union Auditorium.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

DUKE RADIOS WEEKEND

Duke Radios Weekend is an annual radio festival that promotes the appreciation of radio programming and music. The festival takes place on the campus of Duke University. More information is available on the festival website.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

Mandinka Tribe

Mandinka Tribe is a new student organization that promotes the study and appreciation of Mandinka culture. The group meets every Friday at 5 p.m. in the Student Union Library.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.

ICEMAX

ICEMAX is a new student organization that promotes the appreciation and study of ice hockey. The group meets every Thursday at 6 p.m. in the Student Union Gymnasium.

For more information, contact Tony Ermilio, Dean of Transportation, at 645-3131.
Baruch Peace Committee

There is a dangerous escalation going on right now. It's very important that we stop it, that we put an end to it. We have a very clear idea of what we want to do. We want to put an end to the war. We want to put an end to the war in Vietnam.

To save thousands.

We know that we can do it. We know that there are a lot of people who want to do it. We know that the American people want to do it. We know that the American workers want to do it. We know that the American students want to do it. We know that the American soldiers want to do it.

We are going to do it. We are going to put an end to the war. We are going to put an end to the war in Vietnam.
Basketball Tournament

The basketball tournament that the Baruch Knights, successful in winning the intercollegiate basketball series last year, is again in progress. This fall, however, the Baruch Knights face a much more difficult challenge. The Baruch Knights are members of the A.A.C. basketball association, and this year's competition promises to be one of the most exciting in the history of the Baruch College basketball program.

Each team in the A.A.C. basketball association is required to have a minimum of five players, and this year the Baruch Knights have met this requirement. The Baruch Knights are divided into two teams, the A-Team and the B-Team. The A-Team is composed of the best Baruch players, while the B-Team consists of the less experienced players. Both teams are well-coached and have the ability to compete with any team in the A.A.C. basketball association.

The Baruch Knights have been working hard to prepare for this season. They have been practicing twice a week, and have been working on their individual skills. The Baruch Knights have been working on their team skills, and have been working on their defensive skills. The Baruch Knights have been working on their offensive skills, and have been working on their shooting skills. The Baruch Knights have been working on their passing skills, and have been working on their decision-making skills. The Baruch Knights have been working on their rebounding skills, and have been working on their blocking skills.

The Baruch Knights are looking forward to the challenge of this season. They are looking forward to the opportunity to compete against the best teams in the A.A.C. basketball association. They are looking forward to the opportunity to show what they can do.

The Baruch Knights are confident that they can compete with any team in the A.A.C. basketball association. They are confident that they can win some games. They are confident that they can lose some games. They are confident that they can have a good season. They are confident that they can have a successful season.

The Baruch Knights are looking forward to the challenge of this season. They are looking forward to the opportunity to compete against the best teams in the A.A.C. basketball association. They are looking forward to the opportunity to show what they can do. They are looking forward to the opportunity to have a good season. They are looking forward to the opportunity to have a successful season.
ABORTION SAFETY RECORD

Without a single serious complication, both major and minor, 24,500 women have been counseled and placed for abortion in New York State by the Abortion Information Agency research report released today. Covering the 5-month period from January 1 to May 31, 1971, the information reveals that about 80 percent of the women placed were unaccompanied, and nearly half of these women were under 21 years of age. The report also details the effectiveness of the products.

One of the more positive reports was the discovery that one of the sprays, ABONE, will kill cockroaches.

Seligland, 17, did not submit his column this week; here's a suitable substitute:

Jazz at Baruch

The jazz society at Baruch has finally announced the name of its new leader and president of the club is Joseph Lake. Tony Frayer, Beverly Davis, and Paul Elgin are three of the first year class who have been chosen to participate in the workshop.

The jazz society was organized so that students with interest or talent can express themselves as they wish. The club is open to anyone who wishes to participate in the workshops or play at the club's concerts or other events. For further information, please leave your name and telephone number at the secretaries in the Music Department or at the office of the Baruch Academic Records Office.

In this, the thirteenth year of the Grammy Award presentations, the annual award classification was in the rhythm and blues category and the award went to Very Useful in the rhythm and blues category. The award went to Very Useful for his personal contribution to the music industry. The award was presented to Very Useful at the annual Grammy Awards which were held on Thursday, February 27, 1971.

The founder and president of the club is Joseph Lake, Tony Frayer, Beverly Davis, and Paul Elgin. The club's goal is to provide a forum for all students interested in music to express their talents and to provide an opportunity for students to play with professional musicians. The club meets on Thursdays between 3 and 5 p.m. in the club house. The club house is located on the corner of East 2nd Street and 3rd Avenue. The club house is open to all students interested in music. For further information, please leave your name and telephone number at the secretaries in the Music Department or at the office of the Baruch Academic Records Office.

The Carpenters were named best group of the year in the music industry. This is the second year in a row that they have been named best group of the year. The Carpenters' album, "Bridge Over Troubled Water," was the best-selling album of the year. "Bridge Over Troubled Water" is a compilation of songs written by Carole King and Gerry Goffin. The album was released in November of 1970 and has sold over one million copies. It is the first album by a female artist to reach the number one spot on the charts.

The Carpenters are a husband and wife team consisting of Richard and Karen Carpenter. They have released six albums since 1969 and have become one of the most successful groups in the music industry. Their music is characterized by its harmonies and the use of background vocals.

The Carpenters' music has been praised for its emotional depth and its ability to reach listeners on an emotional level. Their album, "Bridge Over Troubled Water," is a collection of songs that deal with themes of love and heartbreak. The album features songs such as "What A Wonderful World," "Yesterday's Love," and "Close to You." These songs have become some of the most popular in the history of popular music.

The Carpenters' success has been attributed to their unique blend of music and their ability to connect with listeners. They have been praised for their ability to write songs that are both heart-wrenching and relatable.

In conclusion, the Carpenters' "Bridge Over Troubled Water" is a testament to their musical talent and their ability to connect with listeners. It is a timeless album that continues to be enjoyed by fans around the world.
by WJ. Alexander

Two weeks ago, out of boredom, I decided to read a science-fiction novel. I had been dedicated to my work, and had not felt the need to read anything for a long time. But I couldn't resist. I picked up a copy of "Andromeda Strain," and began to read.

I was immediately captivated by the story. The setting was the earth, as we know it, and the events were unfolding in the present day. But the plot was so complex and the ideas so provocative, that I found myself becoming immersed in the story.

As I read, I began to appreciate the power of fiction to convey complex ideas. The author, Robert A. Heinlein, was a master at using the medium of science fiction to explore important issues of the day.

For example, he used the story to explore the concept of
