What's New in the Past?

BY ROSA CERRATO

One might ask why any sane man would may study the past. When we read about the past, we see the events as they happened. We see the past as an entity, a whole, a finished product. But when we study the past, we are not just looking back at the past, but looking forward to the future. We are not just looking at what happened, but looking at what could happen.

The past is a mirror for the present. It reflects the present back to us. It shows us what we are doing and what we are not doing. It shows us what we are doing right and what we are doing wrong. It shows us what we can do and what we cannot do.

The past is a guide for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a lesson for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a warning for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a testament for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a source of inspiration for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a resource for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a reservoir of knowledge for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.

The past is a repository of wisdom for the future. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do. It shows us what we can do and what we cannot do.
**ARE WE DOOMED?**

Another long and late of studies, we've been below the heat and the dust is rising. Why?... The new, I mean, we will be the last. It's too bad, we will be the last. We're too good to be true.

**WAKE UP!**

The revolution's about to start! You're all going to be cut off. You're all going to be cut off. You're all going to be cut off.

**VOICE**

by Mario Franchitti

"All evil vanishes from life for him who is active in school affairs being the president of the student center I offer a description."

**HELP HPA SEND A MOUSE TO COLLEGE**

The Freaky Philo
Chairman Mao Comes to Baruch

Chairman Mao, the leader of the Chinese people, visited Baruch College on March 14, 1972. Mao's visit was significant as it marked the first time a Chinese leader had set foot on American soil. Mao's stay was brief, but his presence had a profound impact on the Baruch community. Mao's visit was arranged through the efforts of the Chinese government and was seen as a gesture of goodwill between the United States and China.

Why Is There Silence After the Apples Turn Brown?

The silence that follows the discovery of brown apples is a common experience that many people can relate to. It is a moment of realization that something has gone wrong, and it often leads to a desire to seek answers. In this case, the question "Why is there silence after the apples turn brown?" is a metaphor for the human experience of silence and the search for understanding.

A Time to Act

The phrase "A Time to Act" is a call to action, urging individuals to take steps towards making a positive impact. This could be in the form of advocating for change, supporting a cause, or taking personal responsibility to make a difference. The phrase is often used in contexts where there is a sense of urgency or crisis, highlighting the importance of taking immediate action.

TRANCE IS COMING

TRANCE is a state of altered consciousness where individuals may lose touch with their surroundings and experience a heightened sense of detachment. It can be induced through various methods, such as meditation, hypnosis, or drugs. This state is often associated with relaxation and can be a means of escape or a gateway to deeper levels of understanding.

LAB ONE

LAB ONE is a laboratory or workspace dedicated to a specific field of study or activity. It is a place where experiments, research, or creative work can be conducted. The specific type of LAB ONE can vary depending on the context, whether it is a scientific research lab, a music studio, or a workshop for a particular craft.

COLLEGE STUDIES IN ISRAEL

COLLEGE STUDIES IN ISRAEL offers educational programs that allow students to study abroad in Israel. These programs provide opportunities to engage with Israeli culture, history, and society. Students can earn college credits while exploring the rich academic and cultural landscape of Israel.

COUNSELORS

COUNSELORS play a vital role in providing guidance and support to students. They help individuals navigate academic challenges, career planning, personal development, and emotional issues. Counseling services are often provided in university settings, offering students a confidential space to explore their concerns and find solutions.

Bob Barrett, We all wish you a speedy recovery.

Planning Ahead for Backpacking

Camping season is here for those marvelous campers, but if you want to have fun, you need to have a plan. This is a simple guide to planning your next backpacking trip.

1. Decide where you want to go: Choose a destination that you enjoy and that is accessible for your level of experience.
2. Plan your route: Determine how you will get to your destination, what kind of trail you will hike, and how long it will take.
3. Pack appropriately: Make sure you have the right gear, including a tent, sleeping bag, cooking supplies, and first aid kit.
4. Know your limits: Be realistic about your abilities and the conditions you will encounter.
5. Leave no trace: Practice Leave No Trace principles to protect the environment.
6. Be prepared: Always have a backup plan in case of emergencies or unexpected weather.

Remember, safety is the most important part of any backpacking trip.

The Board of Higher Education has decided to develop a new quota system for City University. This system will be based on the economic status of applicants. The Board believes that this will help to ensure a fair distribution of resources to all students.

The quota system will be implemented through a lottery. Students who meet the economic criteria will be eligible for this lottery. The lottery will be conducted by a computer. The Board will not be involved in the selection process.

The quota system will be phased in over several years. Initially, 50% of the quotas will be allocated to students from economically disadvantaged backgrounds. This percentage will increase to 100% by the year 2000.

The quota system will not be used to discriminate against any group of students. The Board of Higher Education is committed to providing equal opportunities for all students.

What will happen to students who do not meet the economic criteria? They will be encouraged to apply for scholarships or other forms of financial aid. The Board will continue to review the quota system to ensure that it meets the needs of all students.

The quota system is part of the Board's efforts to improve the quality of education at City University. The Board believes that this system will help to ensure a better future for all students.
Tennis Team Announces Schedule

The Baruch College Fencing Team, in its first year of organization, completed a highly successful 5-win, 1-loss campaign by defeating St. Peter’s College of Jersey City by a score of 17-10.

The Baruch swordsmen experienced little difficulty in winning their fourth straight victory since their only loss to Pratt Institute in their second meet. Baruch reeled off ten straight bout victories before losing one and clinched the meet when the bout score was 144. In fencing the team that reaches the magnificent FOURTEENTH bout wins the meet with the remaining bouts having no effect on the outcome. When Baruch reached this fourteenth bout, coach Al Perlado substituted freely and cleared his bench for the remaining bouts.

Rogelio Vernon, who only started fencing last October, won all three on his foil bouts. Steve Smith, Rafael Benjamin, and Al Mira each won two bouts without a loss.

Coach Perlado said he was very pleased with the results of this season’s matches and looks forward with anticipation to next year’s schedule which includes Rutgers and the remainder of the A Section.

The team members on this year’s squad were:

</tbody>
</table>

The coach feels that all of the above with the exception of a graduating Sam Pollard will provide a sound base for next season’s squad.

FOILED ENEMY

The Bowling Team which has led the Bowling Conference, New York Division since the season with a big margin is starting to slip a bit. After being bowled over by Pace College, Baruch, the Pin Fall position; 5-2 and just recently 4-2. Our boys still hang in, with a 2-point margin in the win column, according to St. Francis 7-6. On March 12th, we meet Pace for another match. We won’t be doing any damage this time, as we’ve been losing more of the damage to St. Francis, which if you remember, is only a couple of miles away and does happen in the world of bowling.

The Bowlers are Eastern Intercollegiate Doubles Champions. Allan Theus and John Polstein went 9-0 in singles and doubles. Polstein was also added. All three will play in the Met. College Tennis Championships which take place at the Fleetwood Tennis courts in the Bronx on April 15 against Pace. Other home contests are with New York Tech, St. Francis and Hunter.

Last year Baruch defeated New York Tech, Roger Williams and Pratt while losing to Lehman, City, Brooklyn Poly, C.W. Post and Hunter.

Coach Givone has his entire squad led by captain Harold Sodnick, Mitchell Polstein and Jack Weiner. Givone went 7-0 in singles play.

The schedule:

Mar. 29 - Brooklyn City	Away 3:00
Mar. 30 - City	Away 11:00
Apr. 1 - Lehman	Away 1:30
Apr. 6 - Brooklyn Poly	Away 3:00
Apr. 7 - Queens	Away 1:30
Apr. 16 - Manhattan	Home 3:00
Apr. 19 - Brooklyn Poly	Home 3:00
Apr. 22 - St. Francis	Home 3:00
Apr. 24 - LIU	Away 1:30
Apr. 26 - New Paltz	Away 6:00
Apr. 28 - C.W. Post	Away 3:30
May 3 - Pratt	Away 1:30
May 3 - New Paltz	Home 3:00
May 3 - C.W. Post	Home 3:00
May 3 - Gargi Point	Away 3:30
May 10 - Hunter	Home 3:00
May 13 - Jersey City	Away 3:00

Bold indicates Metropolitan Conference matches.

Individual Basketball Carnival

This semester’s Individual Basketball Carnival, held on Thursday, February 28th, was the highlight of the Baruch College activities. In addition to the regular basketball games, the students were treated to a variety of activities such as a game of "Basketball Golf," a game of "Basketball Pool," and a game of "Basketball Monopoly," all of which were sponsored by the Baruch College activities. The Baruch College activities were very successful, with a large number of participants taking part in the various activities.

The individual basketball competition, known as "Basketball Golf," was held on March 1st. The competition was open to all Baruch College students and was divided into two sections - the "Open" and the "Invitational." The "Open" section was open to all students, while the "Invitational" section was open to all students who had previously won a match in the individual basketball competition. The "Open" section was won by a student from the "College of Arts and Sciences," while the "Invitational" section was won by a student from the "College of Business Administration." The Baruch College activities were very successful, with a large number of participants taking part in the various activities.
