400 State of Ticker

Dear Ticker:

I am writing to support the proposal of an All-Faculty Senate. As a member of the Liberal Arts faculty, it is likely that some form of the proposal will be brought to the college. I am writing to express my support for this proposal and to urge the college to consider it seriously.

The proposal of an All-Faculty Senate is important for several reasons. First, it would give all faculty members a voice in the decision-making process of the college. This would be especially important for the Liberal Arts faculty, who are often marginalized in the college's decision-making process. Second, an All-Faculty Senate would provide a forum for the discussion of important issues facing the college, such as budgeting, curriculum, and faculty promotions. Finally, an All-Faculty Senate would help to ensure that the college is responsive to the needs and concerns of all its faculty members.

I urge the college to consider the proposal of an All-Faculty Senate seriously and to work towards its implementation. Thank you for your consideration.

Sincerely,

STUDENT SENATE RAPED AND BLACKMAILED

The student senate of Virginia Commonwealth University has been raped and blackmailed. The rape was committed by a group of white male students who are currently members of the senate. The blackmailed was committed by a group of white male students who are currently members of the senate.

The rapists were all members of the senate and they have been blackmailed by a group of white male students who are currently members of the senate. The blackmailed was committed by a group of white male students who are currently members of the senate.

The rapists were all members of the senate and they have been blackmailed by a group of white male students who are currently members of the senate. The blackmailed was committed by a group of white male students who are currently members of the senate.

I would like to reply to the article "The Black Student's Nightmare" by Dr. Robert King, President of VCU. I agree with his sentiment that the black student is being ignored by the college. However, I would like to point out that the black student is not the only one being ignored. The white student is also being ignored. The college is ignoring the concerns of both the black and white students.

I would like to suggest that the college create a committee to address the concerns of both the black and white students. This committee should be made up of representatives from both the black and white student bodies. The committee should be charged with addressing the concerns of both the black and white students.

Sincerely,

One More Show Comes to Broadway

by Fred Paulin

Hollywood, May 4

Off-Broadway comes to Broadway again. We remember that there is a thing called Off-Broadway. Broadway is considered to be the place where the big money is made, and Off-Broadway is considered to be the place where the small money is made. However, Off-Broadway is also considered to be the place where the best shows are made. The show we are talking about is "Pilgrim: Veteran of World War II," and it is being produced by the theatre group "The Village Theatre." The show is based on the life of a soldier who returns home after World War II and must adjust to civilian life. The show is a realistic portrayal of the difficulties that veterans face when they return home. The show is directed by David Roth and is written by James Fenton. The show is set to run for a limited time, and it is a must-see for anyone interested in Off-Broadway theatre. **End**
