B.C.C.C. To Conduct Open Hearings On Unlimited Cuts
Some Questions

Sue E. Kingman

Dear Mr. Rickman,

I am writing to you regarding the relationship of the Jewish students to the police on campus. After the recent events, I believe it is important to address this issue.

I understand that there have been protests and demonstrations related to the police presence on campus. As a student, I have concerns about the impact of these events on the overall atmosphere and functioning of the university.

I would appreciate it if you could provide some information on the measures being taken to ensure the safety and well-being of all students, particularly those who may feel uncomfortable or threatened.

Sincerely,

Sue E. Kingman

Open Hearing On Unlimited Cuts

The people in the Baruch Community who should be concerned about unlimited cuts are seniors and juniors, for the students. Because they are the ones who will be affected. Like many other students should think about the open hearings. In order to vote for unlimited cuts. If you don't attend the hearings, you will not be able to hear the questions that will be sent to them.

As a student, I believe it is necessary for many students to attend these hearings. The administration has found it very difficult to organize the hearings on cutbacks. In the past, there have been too many open hearings on the 50th Street Faculty Lounge building. It is necessary for every student to attend these hearings.

Many faculty members will play a role and try to do something about the open hearings. They, along with the students, can help the open hearings. Some feel that the open hearings are not permitted because of our academic processes. The Baruch community should be involved in the open hearings.

Finally, students should be involved in the open hearings. It is the students themselves who should attend these hearings. They, along with the administration, have a great role in the openness of our hearings.

Every Student Urged To Attend

Open Hearing On the Removal of Unlimited Cuts

The University of New York, an institution of higher education, has produced a position paper on the African Black community. The document addresses the importance of liberating the Black community as a whole.

The paper emphasizes the need for the Black community to liberate itself from psychological oppression. It states that the Black community has been oppressed for centuries, and that this oppression has led to a sense of inferiority and self-hatred.

The paper also discusses the importance of education for the Black community. It argues that education is key to breaking the cycle of oppression and achieving true liberation.

In conclusion, the position paper on the African Black community highlights the need for the Black community to take control of its own destiny and work towards liberation from psychological oppression.

The Analyst's Ear

Address questions to Dr. Vincent Bryant, 1322 W. 35th St., New York, N.Y. 10001. Ask for Dr. Bryant, and he will answer your questions.

BCCC Open Hearing On the Removal Of UNLIMITED CUTS

To the Female Students:
