University Student Who?

BY DAVID P. SHRACK

There are a month-mostly the month of December-coming up in a month and a half, at least, at the University of the City of New York. And on that clock, the examination period will begin. The University Student Senate is an organization of students, the only student government on the campus of the University. It is the only student government of any organization of the City University, as far as I know, that operates independently of the administration of the University. The Senate has been functioning on the campus of the University for over 20 years. It has been functioning as an independent student government, and it has been functioning as an independent student government because it has been functioning as a student government. The Senate is the only student government on the campus of the University. The Senate is the only student government on the campus of the University that operates independently of the administration of the University.

This Thursday! Be There!

Because Student Government assures the public its production will be second to none.

To Whom It May Concern:

I am writing to express my concern about the recent evaluation of our project. I believe that the committee on P and B Committees has not adequately considered our contributions. I have worked on several points because I have tried to be as objective as possible. I hope you will take this into account when making your decision.

Yours sincerely,

The Myth About Business People

By Rosa Cortes

It will probably always be the same story in any society, though it may be more outrageous in some than in others. It happens because business people have not been called the one percent. They are called the one percent, and they have a monopoly.

But people who work in business have done good things for society. They have created jobs and opportunities for others.

In my opinion, business people are the ones who create the wealth in society. They are the ones who run the machines that produce the goods and services we need.

The Lamport Leaders Workshop

By Kim Lee

There was a letter addressed to me dropped off at Lamport that contained a complaint about the workshop. The writer said that I had not included certain topics in the workshop.

I must say that I was surprised to hear this, as I had included the topics that were requested. I hope that you will take this into account when planning future workshops.

Castles Burning

By Kim Lee

The book was a disappointment. It was not what I had expected. I would not recommend it to others.

---

The Outsider

By Kim Lee

I do not recommend the book "The Outsider" by Mark Twain. It was not as interesting as I had hoped. I would not recommend it to others.
