Chisolm Addresses SEEK Award Winners

by Linda Levy

Congresswoman Shirley Chisolm was the guest speaker at the Second Annual Awards Ceremony for SEEK students on Wednesday, February 6th in the Main Ceremony. Dr. John C. Mitchel, Director of SEEK, introduced Mrs. Chisolm as the perfect selection to be guest speaker because she relates with the audience, understands the problems of the underprivileged people, has charm with a sense of humor, and has a reputation for gaining respect from the audience.

Mrs. Chisolm did receive a great deal of respect as she was greeted by the audience with a standing ovation. She described the battle fought in the New York State legislature to get the SEEK program passed. It was needed to meet the needs and aspirations of young people to gain access to higher education. A student's only hope of being able to do was to have her or his final skills be given an opportunity. Mrs. Chisolm said that in the right of every individual, they have the right to get to heaven and have the freedom to follow through.

She concluded her speech saying that in the future the best of every culture will be known as Americans. The African culture should not be used as an extension toward enriching the American society.

She called her speech saying that in the future the best of every culture will be known as Americans. The African culture should not be used as an extension toward enriching the American society.

In the course of her discussion of American culture and education, she emphasized the importance of the SEEK program in helping students from disadvantaged backgrounds gain access to higher education. She also talked about the success of the SEEK program and its impact on the lives of its participants. She mentioned that the program had helped many students overcome obstacles and achieve their academic goals.

In addition to her speech, Mrs. Chisolm was presented with several awards for her contributions to education and social justice. She was recognized for her work in advocating for the rights of underrepresented groups and for her dedication to promoting education for all Americans.

The evening concluded with a festive atmosphere as Mrs. Chisolm was presented with a bouquet of flowers and a standing ovation from the audience. The SEEK awards ceremony was a testament to the achievements of the SEEK program and the dedication of its participants and supporters.

**Hillel Discusses Mid-East**

by Joseph Levy

On Thursday, February 16th, in the Main Building, there was a special meeting of the Jewish Studies Faculty. The topic was "A Look at the Mid-East," and the speaker was Mr. Parker, who is a professor at the University of Pennsylvania. He discussed the political and social events in the Middle East and how they affect the Jews there. He also talked about the role of the United Nations in resolving the conflict. The meeting was well attended and everyone found the discussion very informative.

We're Being Taken For A Ride

A very serious situation exists involving the elevators in the 50th Street Building. The malfunctioning electric eye allows the doors to close on whoever is between the hard rubber. This dangerous annoyance causes pain and frustration for anyone who enters the elevators. Certainly ample time has gone by since the semester began that a committee of senior students and Administration have resolved this problem as their answer is, "It's our concern but not our responsibility, as renovation is being done by the New York State student's address to his confirmation/how can you give their teachers stamped self-addressed envelopes?"

That's why, for example, some students wait for their mail to arrive instead of picking it up. Our electric eyes are working even though yours are not.

Computer Follies Part II

In last week's reply to an earlier editorial, Mr. Leslie Rosenthal, Director of the Computer Center, said that the mailing of confirmations was the responsibility of the registrar. Lewis Tomenes was the one to come up with and stuff the confirmations into envelopes. The people stuffing envelopes also supposed to have verified that mistakes made on the confirmation, such as the student's address being left blank, printing the form in reverse order as the original, or perhaps the name being left blank it had to be ordered in order for the address to be visible. Thus, causing further delay. The registrar then instructed the computer center that the confirmations be mailed twice a day for the registrar. However, you failed to mention that the confirmations had to be mailed twice a day for the registrar. As for your appeal for the use of post cards, we find it worthless. There is the habit to print the confirmations, as they were not the element of error involved in the matching of the student's address to the name. We guarantee you will be able to match up the two correctly. As an unpleasant surprise, you don't know who is the student. We will send an appeal, which he has the control of the regisiter's office or the computer center.

Next we will talk about the act of print the confirmations on post cards. There are some students who had trouble with the requirements of the course. They have to get one or more types or grades of post cards to be sent on Data Makers. Some students who had to take some other forms of graded printouts, such as the Data Maker. Other CUNY colleges also use Data Makers.

We believe it was begun now, the use of Data Makers certainly be implemented for the next registration.

THE OUTSIDER
(Continued and More)

Since I'm not sure how to write a structured column like this, I just started with the people of this Florida town.

I admit to having a lot of friends in this town, but... well, there's this one guy who lives down the street from where I work.

I'm not sure why I wrote this, but I guess I wanted to express some of my feelings about living here.

The earth is our playground. In this place where we live, there are no limits to what we can do.

But let me finish up to the Florida town where the nature is magnificent. I'm not sure why I said that, but... well, there's this one guy who lives down the street from where I work.

The earth is our playground. In this place where we live, there are no limits to what we can do.

I admit to having a lot of friends in this town, but... well, there's this one guy who lives down the street from where I work.

Let me finish up to the Florida town where the nature is magnificent.

Peggy Fitze

"Everywhere You Go" Programming is now being featured at the Bobbs-Merrill Club. Thanks to Vice President Mintz, students now have the opportunity to attend seminars and workshops on a wide range of subjects. 

Dear Editor,

I'm a new student here, taking biology at night school. While I was at the airport, I noticed a sign that said "Research." This made me think of something interesting, so I decided to ask my lab assistant what it was all about. He told me about the Bobbs-Merrill Club and how they offer these programs at night. It turned out to be a great idea, because I got to learn so much more about the topic I was studying.

Sincerely,

Bob Muhlrad

Cagers Lose To Brooklyn; Lehman; Romp Over Pratt

The basketball team's bid for top seeding in the CUNY tournament failed last week as the Statesmen dropped last minute decisions to Brooklyn College, 86-76, and Lehman College, 74-73, in the first CUNY tournament bracket. Baruch opened the season against Pratt Saturday, February 17, as they romped to an 83-36, victory at the 6th Regiment Armory.

Going into this week, the Statesmen have a 1-5 record with three games left on the regular season schedule. Their opponent on Saturday will be home with John Jay College (7-12) and Saturday host St. John Fisher (12-7) of Rochester. Both games start at 7:30. A road game with New York Maritime on February 27 completes the schedule.

Baruch will then prepare for the CUNY Tournament which opens March 2 at City College. The seeding and pairings will be decided Sunday night at a meeting of the coaches. Brooklyn and Lehman will get the top two seeds with Baruch probably getting third seed among the eight schools.

In last week's action was Mark Stein, the senior forward, becoming the first Baruch player to score 1000 points. Stein, who attended Barnet with two minutes to play gave him his 1000 career points. The game was played and Rick Sadler, the head coach, presented the co-captain with the game ball. Stein, finished with 17 points against Pratt.

Baruch continued to run Brooklyn out of the gym in the first two minutes to go. Brooklyn ran off straight points, all from the foul line, to decide the issue. Actually Baruch finished with 10 more field goals. However, Brooklyn made 26 of 36 foul shots while Baruch took only 15 free throws and made 7. Ed Middleton and Bob O'Leary scored 18 of 20 free throws between them for the winners.

Clary Jordan and Bill Robinson each had seven and the deficit closed to five points at 15-20 with five minutes to play. The Statesmen put the game out of reach scoring the last nine points of the game in a 27-8 lead

35

Baruch had five more field goals, but was only 5 of 12 from the foul line to the Lancers 16 for 28.

The game was close throughout with only six points the biggest margin in the second half. John Adams jump shot and a free throw by Scott Charney brought Baruch within 70-69 with 1:27 left. Baruch fumbled trying to get the ball back and Stan Brown made two free throws with 30 seconds to go and converted two foul shots making it a three point game again. Mark Stein scored as time ran out.

Lehman hit 29 of 51 shots for 57%, while Baruch was 24 for 50. Brown had 22 points, Mc-Nichol 20 and Cooper 18 for the winners. Adams had 24 and Comboy 16. Charney in 11 minutes scored 11 points for his best effort.

6th Place

Marvin Church's strong finish gave the track team sixth place in the last minute relay at the Olympic Development Meet at Madison Square Garden. Church ran a 5:00-5:00 P.M. in Rooms 301, student Center. Five counseling psychologists are available in the Division of Psychology.

You might apply for counseling when you feel:

I wish I had someone to date.
I have poor self-concept.
I fear I must do something embarrassing.
I feel confused and depressed.
I can't study.
I feel lonely and cut off from people.
I freeze on exams.
I'm afraid to make an appointment and talk over any problem you may have with one of our psychologists.

The Statesmen's1-1 season came to a close with a 12-11, victory over Columbia which is rated among the top three in the East.

"It was our best match technically," stated coach Al Peredo, "but we made some mistakes and you can't do that and win against such an accomplished team as Rutgers." Still Baruch

in two other recent matches Baruch defeated Fairleigh Dickinson of Madison, 19-19, and dropped a 14-13 decision to MIT in Boston.

Steve Smith and Rogelio Vernon led the victory over FDU with three straight sabre triumphs. Baruch opened the matches with three straight victories and was never headed.

Students interested in trying out for the Varsity Tennis Team see Bob Givone, in Room 725 as soon as possible.

Golf Team tryouts will be held during February on Mondays, Wednesdays and Thursdays 2:00-4:00 P.M. in Room 611. All welcome.

Baruch fencers played a technically good match but still lost to Rutgers, 15-12. Baruch came close to pulling off its biggest fencing victory. Two point bouts went against the home team. A reversal in those two bouts would have meant victory.

The sabre and foil team each but the open squad was defeated, 7-4, to make the difference. Rogelio Vernon and Bill Blake each won two of three sabre matches, but number one sabre man Steve Smith has a 25-7 record. Baruch opened the match with a 12-11, victory over Columbia which is rated among the top three in the East.
