**$2 PIRG Fee Discussed At Meeting**

By Mitch Greenstein

Last Thursday afternoon, the coordinators and members of a Public Interest Research Group (PIRG) got together to plan the strategy for their future. NY-PIRG is now being organized on a statewide basis, to work as a non-political, non-partisan, non-sectarian, non-commercial, non-teacher, and the student and the citizen of New York are looking at it as one of the most important to the general public. If the organization is set up, it will work through a state Board of Directors on a widely divergent area of problems.

As noted in the group’s meeting, the two major questions that are being raised at Baruch are the refundability of the $2 that is being asked to tack on to the Consolidated Fee and the perpetual problem of people from outside of the City. The consolidated fee is being paid by the students from outside of the City, who are looking at it as a perpetual problem of people from the City. The consolidated fee is being paid by the students from outside of the City, who are looking at it as a perpetual problem of people from the City.

The required weekly meetings of the Student Government is made up of a Senate: six students from the schools of Liberal Arts, Business, and Public Administration, and a Vice-Chairman for the Student Government. The Senate is now working on a statewide educational campaign explaining the recommendations of the Keiper Commission, the Brooklyn College Young Democrats, and the United Community Centers of New York. We have our hands full for the betterment of New York State. "A student group from Buffalo would have a greater influence on the votes of legislators from that area than students from the City.

PIRG intends to start an educational campaign for the students at the College this spring. At the same time, preliminary petitioning will start to have PIRG on the ballot. They will need to get the signatures of at least 50 per cent of the students (about 2000) of Baruch in order to get approval for PIRG. To get more information, the group meets today at room 315 of the Student Center.

**Career Conference: April 3-5**

The Student Activities Office in cooperation with the Day Session Student Government, the School of Business and Public Administration, is planning a Career Conference April 3-5. The theme of the Conference is "Career Prospects: Is the World Waiting for You?" The purpose is to acquaint Baruch students with a wide range of career opportunities.

The career center is being set up in the Alley Lounge where brokers, employers, and career opportunities will be on hand. The center will eventually be a resource center for students interested in career opportunities. The group meets today at room 315 of the Student Center.

**CUNY Rally Uneventful**

By Ada Smith

A mass rally was held at the Hunter College Campus in support on a common goal. Each group or organization presented their own educational campaign explaining the recommendations of the Keiper Commission, the Brooklyn College Young Democrats, and the United Community Centers of New York. We have our hands full for the betterment of New York State.

The rally was held at the Hunter College Campus in support of the "Save CUNY" demonstration called by CCNY students for March 27. There was a demonstration against the ouster of veterans and the "no tuition-no budget" demand. The rally was held in support of the Southern Christian Leadership Conference and PUSH (People United to Save Houston). There was a demonstration against the ouster of veterans and the "no tuition-no budget" demand.

Many groups presented proposals. The Third World CUNY Rally proposed two: a) Free tuition at CUNY and b) End tax on open admission. There was never meant to be an end to the open admission, College Discovery and success. The Brooklyn College Young Democrats presented a proposal to open admissions. The rally was held in support of the "Save CUNY" demonstration called by CCNY students for March 27. There was a demonstration against the ouster of veterans and the "no tuition-no budget" demand.

(ALL EVENTS IN THE OAK LOUNGE)

Refresments.
A crisis situation is upon us and free tuition, SEEK, and CUNY itself are at stake. Immediate destruction of free education in the whole State of New York.

...
Debts and Credits

Today's column is based on a lecture delivered Thursday, October 16, 1973, in the Accounting Department of Baruch College. The topic was the importance of accounting in business and personal finance. Here is a summary of the key points covered:

1. **Necessity of Accounting:** Accounting is crucial in both business and personal finance. It helps in making informed decisions, managing finances effectively, and ensuring compliance with laws and regulations.

2. **Types of Accounts:** There are different types of accounts, including current assets, fixed assets, liabilities, equity, and income. Understanding these categories is essential for financial management.

3. **Financial Statements:** The three main financial statements are the balance sheet, income statement, and statement of cash flows. Each provides critical information about a company's financial health.

4. **Honesty in Accounting:** Honesty is paramount in accounting. Misrepresentation of financial information can lead to severe legal and financial consequences.

5. **Accounting Ethics:** Ethical considerations in accounting include conflicts of interest, confidentiality, and professional competence.

6. **Future Trends:** The field of accounting is evolving, with increased emphasis on technology and sustainability.

If you are interested in exploring these topics further, the Accounting Department offers various resources, including textbooks and online courses. Please feel free to contact me for more information.

The fencing team won its fifth straight match and completed its second straight winning season by defeating Jersey City State, 20-7, at Baruch on Thursday night, March 22.

The swordsman finished their second year of intercollegiate competition with a 9-6 record. Last year they went 5-1. This year they went 22-11. This year the margin was 20-11. Last year it was 22-2.

However, the fencing team was on the losing end when they faced the Statesmen in their 10-school division. The Statesmen finished fourth in their 10-season division.

"Our toughest games come right at the start," added Givone. "After City Baruch faces Lehman on Saturday and Brooklyn Monday.

On April 3 the Met Conference action begins when Baruch visits Hunter. Two days later Baruch makes its home debut at the Fleet Tennis Club in the Bronx in a Met Conference match with Pratt.

The conference components will be Manhattan, Pace, St. Francis, Brooklyn Poly, Queens, C.W. Post and New York Tech. Non-league matches are scheduled with NYU, Hoboken, City College, LIU, Newark State and John Jay.

It has been a year filled with ups and downs for the fencing team. The first of the season was a straight match and completed its season opener at City College Thursday.

"We will be lacking experience in the number one position," states Givone. "But I think overall we will be stronger down the line in the three to six positions." We have a lot of players with equal ability, if they play up to their potential we will better last year's record.

Last season Baruch turned in a 9-6 record including a 5-3 mark in its first season in the Met Conference. The Statesmen finished fourth in their 10-school division.
