The Italian Society on Italian Week: A Memorable Week

by Rosemary DePersia and Jim DeLuca

The Italian Society on Italian Week was a success—a good way for a half-term's hard work and preparation. For those who were not a member of the Society, we hope that it was something to remember. And if nothing else did much to entertain those in attendance.

The week was initiated by Professor Gambino (faculty of Business) who presented a lecture dealing with the "problems of the Italian in America." A Fellini film, "La Dolce Vita," was shown on the agenda for Tuesday. This film, according to Professor Gambino, was a very educational film. It is a credit to the entire industry because it was produced as a joint American-Italian production.

The Editing Award went to a company called "La Selva." Its "Concertino" was scheduled for Thursday afternoon—an event which coincided with one of two surprises for that day. "Il Concertino" is Italian folk music, in our case, accompanied by dancing. What led to our surprise was the enthusiasm it provoked among the students at Baruch, many of whom were not Italian. We were confronted by one Routes. Nobody had told us that it was nice to see the students participating in the culture of that nature; it doesn't happen every day at Baruch.

The second of our surprises for that day took place at our Italian Food Festival. It was a catered affair with food ranging from simple Italian pastries to baked bacal; what was so unexpected was the length of time the food lasted. It may just well be the first food festival in Baruch's history that the food lasted until the last day. A pleasant sight is an expression of contentment and understanding.

It was a very successful week. For those in the Italian Society, it was a great way to start our second year. The students participating in the Italian Society did much to entertain those in attendance and to demonstrate the culture, music, and food of the Italian in the community and the school. The purpose of "Italian Week" was not only to present to the faculty and student body some aspects of the Italian heritage, but also make palpable the fact that Italians can play a dynamic role in the culture of this country. The Society on Italian Week has other members of the school and community to remember. For those in attendance, the week is considered a success—good way for a half-term's hard work and preparation. For those who were not a member of the Society, we hope that it was something to remember. And if nothing else, did much to entertain those in attendance.

**The Outsider: Solutions To Crisis in Race and Government At Baruch**

Democracy is, at best, an anemic institution, under fire from all sides. It has never been more susceptible to shoddy government. And here they are: A Democratic administration, a majority of the American people, the media, and the Supreme Court all working to undermine it.

Baruch can no longer afford such incomprehensible errors. There is no democracy in America. There is no free press in America. There is no public opinion in America. There is no government in America. There is no country in America.

A Democratic administration has come to power in a time when the country is in crisis. The country is in crisis. The country is in deadly crisis.

Baruch has always been an apathetic institution. It has always been a place where nothing much happens. Now, with a Democratic administration, Baruch is in a state of crisis. The city is in crisis.

Baruch's administration has been unable to handle the crisis. It has been unable to deal with the crisis. It has been unable to solve the crisis.

**The Pathos & The Pitny**

The Daily News. One of the most successful newspapers in the city. A newspaper that has been a part of the city's history for over 100 years. A newspaper that has been a part of the city's culture for over 100 years.

The newspaper has a long history of publishing articles that have been both influential and controversial. The newspaper has been a voice for the people, a voice for the underdog, a voice for the voiceless.

**The Analyst's Ear**

By Vincent Bryan

**Question:** I think I am going to be sick. My stomach feels weird. I don't know if I should go to the doctor or just rest at home.

**Response:** It sounds like you might be experiencing symptoms of an illness. I would recommend seeing a doctor to get a proper diagnosis and ensure you receive the appropriate treatment. In the meantime, keeping hydrated and resting can help alleviate any discomfort you may be experiencing.

The requirement of a course in swimming for a BBA degree is absurd. Not only is it discriminatory against people who cannot swim, but it is also a waste of time and resources.

There is no logical reason behind such a requirement other than the employment of the swimming staff. The obligation is older than Baruch College; older than even the Baruch School of Business and Public Administration.

The requirement is outdated and discriminatory. It is time for change. It is time to reconsider this requirement and replace it with something more relevant and inclusive.

**Ethnicity and Student Government**

By Rosa Cervantes

A month ago, I asked the question of whether or not the requirement should be replaced. Now, it is time to ask the question of whether or not the requirement should be replaced.

The requirement is outdated and discriminatory. It is time for change. It is time to reconsider this requirement and replace it with something more relevant and inclusive.

Letters submitted to TICKER may be edited for length, clarity, and grammar. Letters from the Editor will be withheld upon request.

Dear Editor,

I heard you talk into the microphone from the radio. I heard you say that the requirement should be replaced. I heard you say that the requirement should be replaced.

I heard you say that there is no logical reason behind such a requirement other than the employment of the swimming staff. I heard you say that.

I heard you say that the obligation is older than Baruch College; older than even the Baruch School of Business and Public Administration.

I heard you say that the requirement is outdated and discriminatory. I heard you say that.

I heard you say that it is time for change. I heard you say that it is time to reconsider this requirement and replace it with something more relevant and inclusive.

I heard you say that.

I heard you say that.

**The Thought That Counts**

The Board of Higher Education recently approved a proposal to establish an advanced training program in the field of education. The program is designed to provide teachers with the knowledge and skills necessary to meet the needs of students in the 21st century.

The program will offer courses in areas such as technology, curriculum development, and educational research. It will also provide opportunities for teachers to earn advanced degrees.

**Why Swimming?**

By Sheryn Kramer

Business students are required to take a course in swimming. This requirement is unfair and discriminatory. Students are not required to be in a pool and this requirement is patronizing.

Conference On Career Prospects Begins

The Student Activities Office in cooperation with the Day Session Student Government, the School of Liberal Arts and Sciences and the School of Business and Public Administration has planned this Career Conference. Its purpose is to acquaint Baruch students with a broad range of career opportunities.

There are two aspects to the Conference: An Information Center located in the Alley Lounge of the Student Center will be open for the duration of the Conference. Pamphlets and brochures from professional associations will be distributed as well as resource materials.

Informal Group Discussions on careers in specific disciplines will be led by Baruch faculty members, speakers from other educational institutions, government agencies, and industry. They cover a wide range of topics and will deal with the following issues:

- A realistic assessment of the various career opportunities in each field.
- Necessary undergraduate courses.
- Graduate education if required or helpful.
- Entry level positions.
- Opportunities for advancement.
- Lifestyle (what is the daily routine for a person in this profession?)
- Salary levels.

It is hoped that the Conference will serve to stimulate the interest of those who participate. The Offices of Career Counseling and Placement, Curricular Guidance and Counseling and Testing are available to answer questions which may arise as a result of the Conference as well as to provide additional information.

Sincerely,

(Mrs.) Linda Brown
