P.R.I.D.E. Speaks

By PATTI McGURK

On Thursday, March 21st, 1974, the P.R.I.D.E. Committee of Baruch College hosted the first ever P.R.I.D.E. Conference. The conference was held in the Student Center and was attended by over 100 students from various backgrounds.

The conference was organized to address the needs of Puerto Rican and Latin students at Baruch College. The P.R.I.D.E. Committee, which stands for Puerto Rican and Latin Student Organization, has been working diligently to create a supportive environment for these students.

One of the main topics discussed at the conference was the need for better representation and recognition of the Latin community in the student government and administration. The students felt that their voices were not being heard and that their needs were not being met.

Another important aspect highlighted at the conference was the importance of cultural awareness and sensitivity. The students emphasized the need for educational programs and workshops to educate the broader student body about Puerto Rican and Latin culture.

The conference also served as a platform for students to present their own ideas and initiatives. A variety of proposals were put forward, ranging from cultural events to educational programs and community service opportunities.

The P.R.I.D.E. Conference was a success, bringing together students, faculty, and administrators to discuss and address the challenges faced by the Latin community at Baruch College. The conference was an important step towards creating a more inclusive and supportive environment for all students.

AMA Conference a Success

By PATTI McGURK

On Thursday, March 21st, 1974, the AMA Conference was held at Baruch College. The conference was attended by over 100 students from various backgrounds.

The conference was organized to address the needs of Puerto Rican and Latin students at Baruch College. The P.R.I.D.E. Committee, which stands for Puerto Rican and Latin Student Organization, has been working diligently to create a supportive environment for these students.

One of the main topics discussed at the conference was the need for better representation and recognition of the Latin community in the student government and administration. The students felt that their voices were not being heard and that their needs were not being met.

Another important aspect highlighted at the conference was the importance of cultural awareness and sensitivity. The students emphasized the need for educational programs and workshops to educate the broader student body about Puerto Rican and Latin culture.

The conference also served as a platform for students to present their own ideas and initiatives. A variety of proposals were put forward, ranging from cultural events to educational programs and community service opportunities.

The AMA Conference was a success, bringing together students, faculty, and administrators to discuss and address the challenges faced by the Latin community at Baruch College. The conference was an important step towards creating a more inclusive and supportive environment for all students.
The Truth of the Matter

This was not a two-week delay, but four weeks. The reader is referred to the "Letters" column in this issue. As a journalist, I feel that the title of "Day Session Jewish Government" is inappropriate. Here we have to realize that most of the committees have not been elected, and that they did not deserve any of it. They did not carry their responsibility as the means by which student activities are financed. The utilization of this fund by all students would be a more important issue that would involve everybody. Also, some of the statistics in the editorial are incorrect. For example, I mentioned that there were four weeks late and exceeded the limit set for everybody. Anyone who would have put together a budget for their club would have known better than to generalize such statements. The majority of the committees are doing a good job, and they are looking for the short end that when they put together a budget for their club, it is as if they were cutting it as if they were cutting it for the benefit of the club. The majority of the committees are doing a good job, and they are looking for the short end that when they put together a budget for their club, it is as if they were cutting it. It is as if they were cutting it for the benefit of the club.

Joyce Rosenberg:

The phantom writer implied that there has been some kind of self-interest in the editorial. The author should have known better than to generalize such statements. The majority of the committees are doing a good job, and they are looking for the short end that when they put together a budget for their club, it is as if they were cutting it. It is as if they were cutting it for the benefit of the club.

Letters to the Editor

To the Editor:

I am sorry to hear that the students of Baruch College who cared enough to vote. It is difficult to reply to this letter. I decided to investigate and find out what the majority of the committees are doing a good job, and they are looking for the short end that when they put together a budget for their club, it is as if they were cutting it. It is as if they were cutting it for the benefit of the club. The majority of the committees are doing a good job, and they are looking for the short end that when they put together a budget for their club, it is as if they were cutting it. It is as if they were cutting it for the benefit of the club.

**The Truth Of The Matter**

(Continued from page 2)

cubs, and mix them with religious clubs, then why doesn't the editorial also assume that the Christian Club, Italian Society, American Irish, Newman Club, French Club, Colbahn Society, etc. are all Christian clubs? Is it not true that these are language, cultural, and religious clubs, and they do attract students to them by displaying their identity? They also allow, or perhaps require, language and cultural clubs to receive and use the total money they receive, and pay out to various charitable groups and and specific groups. There are many other statistics you can find out; for example, the money received by these clubs: Haitian Students' Club, Polynesian Club, etc. They received $350,000 from all the clubs. How many students do these clubs represent? I am not attacking any of these clubs; I am saying that we can not forget that the average, general student, adding up the total money they received and giving them to (as a statistic).

This is not the editors' fault. It is the fault of the people who try to hide the above facts. I mentioned.

**For Your Own Good**

The Curriculum Guidance Office has been unusually busy this past month and hope that our students (as well as the Postal Service) have benefited. First of all, we have sent warning letters to students, whose grade average fell below the C last semester and offered them guidance. We have asked the Guidance offices for the names of students in danger of failing and sent each of these students a mailed, unmarked, form asking the student to come in for help.

While we have done direct help in Spanish, Math, or History, we can send the student to tutor's classes, or, better, have the student try to straighten themselves out as they can.

We can also prevent problems. For example, we have not offered these student aid to the social clubs, saying they are not doing the best job of helping students, and we are not trying to stimulate their aid, but rather, to help them.

**P.R.I.D.E. Speaks ...**

(Continued from page 2)

Amonds of the Latin American students are being denied from school, and others are being transferred. We feel that as Latin and Puerto Rican, we must continue to develop and grow, to become part of the human service system.

As the P.R.I.D.E. (Puerto Rican) statement, "We want to express our thanks to all the students, faculty, and staff who have been involved in the situation. Our thanks to all those who have supported us."

**Letters To The Editor**

To the Editor:

In reference to a Ticker editorial titled, "Day Session Jewish Government," dated March 26, I was quite disappointed in the language chosen.

The whole point of this article is to urge all Lower Juniors and Lower Seniors who have not seen the Jewish TICKER to read it. I certainly recognize the right, and wish to back such views Ticker found in the TICKER (the guardian of the Jewish students), as well as the Jewish TICKER, as the Journal of the Jewish Students section. If I understand it, the TICKER feels ungrammatical, and I am using this column to express my own views on the matter.

---

**וזוberger**

Dear Ticker:

It is with shock and dismay that I write this letter, the week's editorial entitled, "Day Session Jewish Government." The editors of the TICKER, as well as the Jewish students section, feel that the TICKER (the guardian of the Jewish students), is responsible for the views expressed in this editorial. We feel that the TICKER is responsible for the views expressed in this editorial. We feel that the TICKER is responsible for the views expressed in this editorial.

**Frazier Will Be There**

(Continued from page 3)

I agree that the responsible party has seen his or her error, and will think twice, three times, even ten times, before publishing a statement wherein the facts are not correct. Also, if this is the case, the responsible party should have the facts printed as a correction, or, if printed, would be published before it appears in printed form.
