Students Protest Election Delay

The Student Government office, located in room 408 of the Student Center and headquarters for the Elections Committee, has been the scene of clamorous demands, charges and countercharges concerning the validity of the elections over the past week. Many of those students pressing for the announcement appeared to be supporters of Lewis Tucker, the only black candidate for the chairpersonship. Spokesmen for the angry, resentful group argued that the Elections Committee has properly discharged its obligation to the Day Session Student body. The spokesmen said that the Committee should not have issued its "Final Report", which stemmed from various charges of election frauds and irregularities, if it intended to delay matters. Ms. Alma Brundage, one of Mr. Tucker's supporters indicated that, while the Elections Committee has operated improperly, the Acting Chairperson, Mr. Jake Jutkowitz, has been forced to "wear six hats at the same time".

Mr. Jutkowitz did not comment on Ms. Brundage's remarks. The Chairperson reported that vote-counting would continue and that results may very well be announced that night. Mr. Jutkowitz warned, however, that the Elections Committee reserved the right to invalidate the entire election should evidence be revealed proving collusion on the part of candidates and members of the Elections Committee staff.

Mr. Allan Fisher, one of Mr. Tucker's opponents in the race for the chairpersonship, also expressed his dissatisfaction with the election. Mr. Fisher has, however, decided to cease further challenge of the election.

Editorial: Visions

While this must-perforce remain entirely unofficial at this time, Mr. Lewis Tucker is now the latest occupant of the potentially powerful Office of the Chairman of the Day Session Student Senate. He will, undoubtedly, the last to sit in that chair. For Mr. Tucker and his colleagues are to assume the reins of a government whose primary responsibility will be the speedy consideration and adoption of a new Constitution. Too, this Senate faces the transition of government to the new political form which has been designated in large measure by the Charter of Governance. Additionally, Mr. Tucker and his colleagues will be saddled with the unenviable and recurring conundrum of the equitable disbursement of our student activity fees.

Of far greater import is the obviation of presidential approval prior to the seating of this new Senate. The overwhelming (by relative standards) electoral response has provided Mr. Tucker and his colleagues with a government whose primary responsibility will be the speedy consideration and adoption of a new Constitution. Too, this Senate faces the transition of government to the new political form which has been designated in large measure by the Charter of Governance. Additionally, Mr. Tucker and his colleagues will be saddled with the unenviable and recurring conundrum of the equitable disbursement of our student activity fees.

Of far greater import is the obviation of presidential approval prior to the seating of this new Senate. The overwhelming (by relative standards) electoral response has provided Mr. Tucker and his colleagues with a government whose primary responsibility will be the speedy consideration and adoption of a new Constitution. Too, this Senate faces the transition of government to the new political form which has been designated in large measure by the Charter of Governance. Additionally, Mr. Tucker and his colleagues will be saddled with the unenviable and recurring conundrum of the equitable disbursement of our student activity fees.

In this, and the ancillary responsibilities which Mr. Tucker and his colleagues will now assume, we, the members of the editorial board of TICKER, wish success. We earnestly hope that this new Day Session Student Senate may overcome all of the obstacles which will inevitably be thrown in their way.

TICKER did not give its editorial blessing to Mr.- Lewis Tucker. The reasons behind this decision were complex and must remain confidential. This does not forbid our fervent hope that Mr. Tucker succeeds in what he has set out to do.

It's Official: Tucker Takes Chairman Thornhill Elected Treasurer

The Speakers' Committee Student Foreign Program Board and the History presents:

A Day with the Candidates - Provocative discussion of the issues with the candidates of the Democratic and Republican Parties
Coffee House "Our Place" The Oct. 31 12 Noon

This week I want to address the issue of confidentiality and family members. The topic is closely related to medical privacy and the confidentiality of one's family members. I am a student at the University of Arizona, and I have been struggling with these issues for some time. The university has taken steps to protect the confidentiality of family members, but I believe more could be done.

The federal government has passed several laws to protect the confidentiality of medical information, but these laws do not always apply to family members. In my case, I have been working with the university's Medical Department to ensure that my family members' medical information is protected. This has been a challenging process, but I am hopeful that we will be able to make progress.

The medical department has implemented several policies to ensure confidentiality. These policies include the creation of a separate section for family members in the patient medical record. This section includes information about the family member's consent to access the medical record and the reason for the access.

The department also has policies to protect the confidentiality of family members' medical information. These policies include the creation of a separate section for family members in the patient medical record. This section includes information about the family member's consent to access the medical record and the reason for the access.

The department also has policies to protect the confidentiality of family members' medical information. These policies include the creation of a separate section for family members in the patient medical record. This section includes information about the family member's consent to access the medical record and the reason for the access.

I am confident that we will be able to make progress in this area. The university is committed to protecting the confidentiality of family members, and I am optimistic that we will be able to make progress.

More On The Move, II

by Nancy Bowker

Talks about planned administra­ tion changes made by the Board of Trustees at the meeting held on October 22, 1974, were discussed in this article. The Board of Trustees unanimously approved the changes, which included the resignation of the Superintendent of Schools, the appointment of a new Superintendent, and the creation of a new division for the Administration of Schools.

The changes were made in response to the board's desire for more effective management of the school district. The new Superintendent, Mr. John Smith, was selected from a pool of candidates who had applied for the position. He will begin his duties on November 1, 1974.

The new division for the Administration of Schools will be responsible for the management of the district's administrative functions. This will include the development of policies and procedures, the coordination of the work of the various departments, and the supervision of the staff.

The board also approved the appointment of Mr. Robert Johnson as the new Superintendent of Schools. He will begin his duties on November 1, 1974.

For Your Own Good

Kibbee Urges Bronx Action

Kibbee, Robert J. Kibbee, President of the City University of New York, called for action by an organization of the Bronx as a whole, to be called the Bronx Action Corporation. The Corporation was formed to address the needs of the Bronx community, particularly in regards to poverty and personal belonging.

On October 24, 1974, Dr. Kibbee addressed the students of the Bronx Community College, Lehman College, and the City College of New York. He emphasized the importance of the Corporation in addressing the needs of the community, and the need for all to work together to solve the problems facing the Bronx.

Godly Politician

This question is to discuss the question of whether we can consider ourselves as Godly politicians, or if there is a difference. Professor Thomas argued that we cannot consider ourselves as Godly politicians, as politics is a matter of power and profit. Dr. Harper and Dr. Thomas of the Speakers Committee sponsored a debate on this question.

On October 16, 1974, Dr. Harper and Dr. Thomas of the Speakers Committee sponsored a debate on the question of whether we can consider ourselves as Godly politicians, or if there is a difference. Professor Thomas argued that we cannot consider ourselves as Godly politicians, as politics is a matter of power and profit. Dr. Harper and Dr. Thomas of the Speakers Committee sponsored a debate on this question.

Counseling To Aid Probationers

The Counseling Division is now forming small groups to help students who are on probation or who have been failing courses. These groups will provide counseling and support to help students overcome their difficulties.

On October 18, 1974, I walked Joyce to the Bank of America building, where we stopped to search for napkins. She had forgotten to bring any, and we had to ask the Bank of America person to get Joyce's napkins for her. We then took the subway to Grand Central Station, where we continued our search for napkins. We eventually succeeded in finding some, and Joyce was able to continue her meal.
