THOUSANDS RALLY

In a demonstration of University cooperation rarely witnessed in the past four years a crowd of students and faculty members from all parts of the City University of New York last Thursday demonstrated around City Hall Plaza and Murray Street. Unofficial police estimates of the size of the crowd stood at 4,000. Leading the angry but well-controlled protestors was Mr. Jay Hersheenson, Chairman of the University Student Senate and Dr. Belle Zeller, President of the Professional Staff Congress. Also in attendance was University Faculty Senate Chairman David Vainiksky. Dr. Vainiksky is Chairman of the Department of Statistics at Baruch College.

Leading the Baruch College contingent of 200 were Day Session Student Government Chairman Lewis Tucker, members of his Executive Board and many of the usually active students.

Commenting upon the protest Mr. Tucker said, “this is really great, totally unexpected.” Vice-Chairman for the School of Liberal Arts and Sciences Allan Jacobs said, “I can’t believe that this many people showed up.”

This reporter was impressed with the motivation and emotion displayed by the students and faculty. One student said, “it’s like 1970 all over again.”

After circling City Hall several times the protesters moved to Murray Street off the Plaza where a sound truck had been set up. The students roared their approval as speaker after speaker demanded that Mayor Abraham D. Beame trim the fat from his political appointments before he fires University personnel.

Assistant Chief Inspector McDermott, police commander on the scene at City Hall Plaza, declined to estimate the size of the crowd and refused to say how many police were on duty.

One student, reportedly from Herbert Lehman College, was arrested and taken to the 1st Precinct in lower Manhattan. USS Chairman Hersheenson immediately left by car to go to the precinct. The nature of the charges are, at this time, unclear.

Beta Sponsors Speakers

By Frederic Greenblatt

Beta Gamma Sigma will sponsor its first in a series of Distinguished Guest Speaker Luncheons. The luncheon will be held on Thursday, December 19, 1974 in the Faculty Lounge, Baruch College Annex, 155 East 24th Street. The luncheon is open only to Beta Gamma Sigma members who have secured admission tickets. However, the president of Beta Gamma Sigma, Professor Leonard Lakin, along with the officers, senior Vice-President Alan Waller, Secretary Professor I. Robert Parket, Treasurer Mr. William Rosen, and immediate past-president and member of the Executive Committee, Professor Edward Rothman welcome the entire Baruch Community to attend the lecture which will be held in 4 South from 1-2 P.M.

The distinguished speaker for the first luncheon will be Mr. Walter E. Hanson, senior partner of Peat, Marwick, Mitchell & Co., one of the largest international accounting firms. Mr. Hanson serves as the Chief Executive of the partnership and as Chairman of its Executive Committee. A graduate of Lafayette College with an A.B. degree, he is a Certified Public Accountant in New York and a number of other states. He is also an honorary member of Beta Alpha Psi.

Mr. Hanson comes to Baruch with a prestigious background. He is a member of the Board of Directors of the Institute of Certified Public Accountants; and a member of the New York State Bar Association’s Joint Practice Committee of Lawyers and Accountants. In addition, Mr. Hanson serves on the Board of Trustees and the Executive Committee of the U.S. Council of the International Chamber of Commerce. He is also a member of the Board of Trustees of Lafayette College.

Mr. Hanson is therefore well acquainted with the problems and challenges to the ac-

Deodato and Fresh Flavor in Concert

Friday December 13th Deodato and Fresh Flavor appeared in concert to a full house at Baruch. Murray the K, the M.C., began the concert at 8:30 p.m. by introducing Fresh Flavor. Among their selections was “Without You Baby, I’m a Loser”, a single which is now hitting the charts. They also played popular songs from the 50’s and 60’s, and 70’s. Richie Havens, who is Fresh Flavor’s producer, appeared as a special surprise attraction, doing the background as he does in their hit single.

Deodato provided a striking contrast to the traditional mild rock of Fresh Flavor with the unique sounds of “2001: A Space Odyssey”, “Rhapsody in Blue” and other compositions. This event was sponsored by the Concert Committee of the Student-Faculty Program Board.

The veterans cannot believe what has happened to their benefits, but here you go anyway. Mr. Newcomb, the President of the Veterans Advisory Council, met with the Department of Veteran Affairs. We have not really been informed of all the paper work for you.

In order to get the Department of Veteran Affairs to act, you cannot recommend a veteran or anything like that, only you need to present them with your records and pay the proper fees. After all of the above the Department of Veteran Affairs will notify you for reimbursement to the federal government.

Next you pass the course. It is not as bad as you think it is. The Vet Association's Exam is "not the end of the world." The department has mentioned the aid of P.T. CANAL KNOWLEDGE, in order to cut the paper work. This article, was somehow deleted and the entire last page of the article, was somehow deleted and you cannot find one on your pages. All three guests mentioned. All three guests were the highest academic honor to know when they will receive the Tactical aid. Nothing great has happened to know the show as one of the best. A lot of vets do not check, of the survey. Rick said to me, "I think a lot of vets do not even care."

You need to know about, or are aware of the Veteran Affairs. You need a tutor in a subject like this. Ask for the tutorial aid. Warning Signals of Breast Cancer

By Richard Rodriguez

Over the last few years, increasing number of women have been seeking medical attention for what may appear to be breast cancer. While many of these people are extremely anxious, an increasing number of patients are having the disease detected by the women themselves. This trend is due to the increasing prevalence of mammography screening programs, which have been shown to increase the detection rate of breast cancer markedly. However, the widespread use of mammography screening also has been associated with a number of side effects, including radiation exposure and false positive results.

Breast Cancer Warnings...

(continued from page 1)

To detect breast cancer, it is important to understand the warning signs and symptoms, especially in the breast, lip, tongue, or anywhere on the body. This usually takes place during the later stages of the disease, although disease is no way of describing cancer, but it will suffice.

Here I shall list the main cancer signs: EVERYONE SHOULD BE FAMILIAR WITH ALL OF THEM.

1. Any lump or thickness, especially in the breast, lip, or tongue.
2. Any irregular or unexplained bleeding; any bleeding during, the later stages of the disease; although disease is no way of describing cancer, but it will suffice.
3. Persistent hoarseness, or discharge, or any bleeding.
4. Persistent indigestion.
5. Persistent change, in the breast, lip, tongue.
6. Noticeable changes in the color or size of a wart, mole, or a freckle.
7. Persistent hiccups, cough, or difficulty in swallowing.

Please Note: Pain is not usually an early sign of cancer. Always see your doctor if you have any of the above signs, and do not dismiss it from your mind. Not all lumps are cancerous. A number are harmless and can be discovered that will necessitate surgery, thus delaying their diagnosis. This refusal to face the possibility of a breast malignancy needlessly endangers the lives of many women, and a mammogram of their symptoms is certainly in order.

Breast Cancer is the leading cause of death of women. Cancer signal #2 is used to determine if there is anything unusual about your body. This usually takes place during the later stages of the disease. The majority of these signs apply to you, you should go to your doctor right away.

Breast Cancer Warning Signs:

A) Immediately after the menstruation period has ended, when the breasts are normally soft, look into a mirror and raise both arms over your head so that the sides of the breasts are visible. Study the breasts carefully. If you notice any small lumps, do not dismiss it from your mind. Not all lumps are cancerous. A number are harmless and can be discovered that will necessitate surgery, thus delaying their diagnosis. This refusal to face the possibility of a breast malignancy needlessly endangers the lives of many women, and a mammogram of their symptoms is certainly in order.

B) Using the right hand on the left breast and vice versa, push the breast back gently against your chest and feel for any unusual lumps.

C) Feel the armpits for any swelling.

Galiber Scholarship

A Pamela Galiber Memorial Scholarship Fund has been established by the Board of Higher Education of the City University of New York. The designee of State Senator and Mrs. Joseph L. Galiber of the Bronx, Miss Pamela Galiber was employed by the City University. The Fund will award a scholarship annually to a student at the university's Graduate School in support of research for a dissertation that investigates and provides realistic solutions to a problem in the Black community. The recipient will be selected in consultation with the American Council on Education. For more information, you may contact the American Council on Education in your area or visit their offices and testing centers. You can also obtain information through the Health Sciences Society in your area.

On debating whether or not to pay the ransom, his advisor, “At least you’ll get 18 votes!” That’s the way the movie went. If you like seeing New York City come across as a cheap, suspense, then you’ll pay the цена to see it, as I did.

Dear Member of the Class of June & August 1975 and M.B.A. Candidates,

As a student who is approaching graduation you are undoubtedly concerned with the career opportunities that will be available to you at that time. The Office of Career Counseling and Placement is actively engaged in a program of career planning and job exploration. One part of it is the On-Campus Interviewing Program. Its purpose is to expose graduating seniors and M.B.A. candidates to career opportunities before graduation. This is accomplished by arranging specific interviews with representatives of nationally known and prominent local firms as well as government agencies.

In an endeavor to service the greatest amount of students in the fairest way possible this office has carefully designed an On-Campus procedure. This procedure will result in a more equitable distribution of counseling time you will be given all details regarding the program.

P.S.

P.S. if you know of any other Baruch students who will be graduating in June or August, and who are interested in the On-Campus Program, please tell them to contact this Office.
