BARUCH HAS A PRE-MED PROGRAM

In Ken Sobolevsky's article, "Baruch Has a Pre-Med Program," the writer discusses the pre-med program at Baruch College. The program is described as being well integrated into the school's curriculum, with students taking courses that are relevant to medical studies. The program is said to be well organized and to have a strong reputation among students.

THE OMBUDSMAN

In "The Ombudsman," the article focuses on the role of the Ombudsman in addressing student concerns. The Ombudsman is described as an impartial figure who helps students resolve conflicts and problems. The article highlights the importance of having a neutral figure to mediate conflicts and protect student rights.

SPS-16

The "SPS-16" article discusses the role of the Student Personnel Services in supporting students. The article emphasizes the importance of providing a safe and inclusive environment for students, with a focus on promoting mental health and well-being. The article highlights the need for continued support and advocacy for students, particularly those facing challenges.

The Student Voice of Baruch College

VOLUME LXXII, NO. 10
TUESDAY, MAY 18, 1976
A FREE PRESS
AN OPEN LETTER TO ADMIN & FACULTY

I am one of the vast majority of students who spend their four or five years in Baruch College in the hope of getting a job, a home, a family, and a future. It is my belief that a four-year university education is a waste of time and money if it does not have an academic component. I suggest that we look at the operations of this College and see how they can be improved. I am not suggesting that we should start a revolution, but I do believe that we can make some changes that would be beneficial to all of us.

I am writing this letter to you because I believe that you are the people who can make the changes that we need. I am not asking for a new administration, but I am asking for a change in the way that we are doing things. I believe that we can make some changes that would be beneficial to all of us.

I hope that you will take the time to read this letter and consider the suggestions that I have made. I believe that we can make some changes that would be beneficial to all of us.

Sincerely,

[Signature]

TEST YOUR KNOWLEDGE
GRIM CONCLUSION: The Fragment Bone

This is a test of your knowledge. You have been given a set of clues about a bone. You must use your deductive reasoning skills to determine which bone it is. The clues will be presented in a series of sentences, each of which provides a clue or piece of information about the bone. You must use your knowledge of human anatomy to determine which bone is being described.

Clue 1: The bone is located in the forearm.
Clue 2: It is a short bone with a rounded end.
Clue 3: It is involved in the formation of the elbow joint.

The bone is:

The answer is:

The bone that matches these clues is the ulna.

By L.F.

The first two students who come up with the correct answers to the following questions will receive a special prize. These questions are related to the bone described in the previous clue.

1. What is the long bone in the upper arm?
2. What is the small bone in the upper arm?

The answers are:

1. Humerus
2. Radius

The answers are:

1. Humerus
2. Radius

By L.F.

The first student who correctly identifies the bone in the paragraph above will receive a special prize. This question is related to the bone described in the previous clue.

What bone is being referred to in the paragraph above?

The answer is:

The bone being referred to in the paragraph above is the ulna.

The Ulna Bone

The ulna is a bone in the forearm. It is located on the medial side of the forearm, just anterior to the radius. The ulna is a short bone with a rounded end and is involved in the formation of the elbow joint. It is connected to the radius by a fibrous joint, and to the humerus by the proximal end.

By L.F.

The first student who correctly identifies the bone in the paragraph above will receive a special prize. This question is related to the bone described in the previous clue.

What bone is being referred to in the paragraph above?

The answer is:

The bone being referred to in the paragraph above is the ulna.

The Ulna Bone

The ulna is a bone in the forearm. It is located on the medial side of the forearm, just anterior to the radius. The ulna is a short bone with a rounded end and is involved in the formation of the elbow joint. It is connected to the radius by a fibrous joint, and to the humerus by the proximal end.

On Film

by Terry Kilkelly

There are few doubts that the award-winning actress, Mercedes McCambridge, has established herself as one of the major talents of her time. Her unique blend of intensity and serenity is captivating on screen, and her performances are always a treat for the audience.

When you get together with friends to discuss the day's events, you can be sure that everyone will be inspired by the incredible work of this remarkable woman.

The weekend will be held Friday and Saturday at 8 p.m. at the 24th St. building, and the Music Department will be hosting this fabulous event. It's a beauty. Mr. Fakas's work has always been of high quality, and we are looking forward to seeing his latest creation.

The cast includes William Atherton as Tod the young artist who falls in love with Ho Chi Minh when it had the power to change the world. The cast also includes John Wayne as the director, and the movie is a major event in the history of filmmaking.

The appeal of the movie is its ability to make us think about the complex issues of our time. It's a timeless classic that will continue to inspire generations to come.

On Film...

The LOUST is an important institution that has contributed to the world's understanding of history and culture. It has been a center of excellence for over a century, and its contributions are still felt today.

The LOUST has changed the way we view the world, and has changed the way we think about history. It has been a leader in the field of academic research, and has produced numerous groundbreaking works.

Still Openings

Summer Caribbean Programs: Still Openings

Applications for the Baruch College Student Library are still being accepted. The breakdown of space is as follows:

- 5th floor- Cafeteria and Student Health Sciences
- 7th floor- Department of Health Sciences
- 10th floor- Department of Political Science

The deadline is May 30. Applications in can be turned in at the new concert hall building, and the Music Department will be happy to help you.

The Weekend Away

by Joyce Connolly

It's that time of the year again, and we're all looking forward to getting out and enjoying the weekend. Whether you're planning a trip to the beach or a night out on the town, there's something for everyone.

The appeal of the weekend is its ability to make us relax and enjoy ourselves. It's a chance to disconnect from the stresses of everyday life and just have fun.

It's a great time of year to get out and explore the world around us. Whether you're interested in history, culture, or just want to see a new place, there's something for everyone.

And when the weekend is over, you can't help but feel a little bit better. It's a time to recharge and get ready for the week ahead.

The appeal of the weekend is its ability to make us feel refreshed and ready to face the challenges of the week. It's a time to take a step back and appreciate all that we have.

The Weekend Away is a reminder to take a little time for ourselves and enjoy the simple pleasures of life.
"Fandango". The new album by "that little ol' band from Texas."
Side One... recorded live—hot, spontaneous.
Side Two... more ZZ Top Bluesrock—pure, dynamic.

"FANDANGO." CAUSE FOR CELEBRATION.
