Baruch Holds Splash
No Water, But What a Blast

By Bob Lipson

The Public Relations Society, assisted by Day Session Student Government, staged the annual campus for a day. This year's program was dubbed "Spring Splash '75," which continues Wednesday.

Tickets were sold at 30 cents beginning at 8:00 that morning. Ticket holders were distributed free of charge from the Day Session Office. When the gates opened at 1:00, the crowd was estimated at over 10,000 outside the New York City area. The event has been ideally organized, with a principle of equal opportunities, the principle of open admissions, and the principle of quality higher education.

Mr. Robert Chamblee, the faculty advisor to the Public Relations Society, had this to say. "This event has been an ideal opportunity to promote the quality of our education. We are, also, able to provide the best possible service to our students and the public."

Rank and file student reaction was generally favorable. Ivan Fehrer said, "It's great. We should have it more often. This is the only time we all get together."

The "up and coming" band, Hidden Strength, sounded like a curious blend of Mandrill, Earth Wind & Fire, Chicago, and the J.B.'s. The crowd enjoyed its efforts, as the students were dancing to the music. Much of the credit for the success of the event goes to Mark Friedman, who has coordinated almost every aspect of it. He has been over backwards to create goodwill in the traditional public relations framework. "We finally gave Baruch what it deserves: a campus for a day," he said.

Michael Schlussel, one of Mark Friedman's assistants, said that the hungry mob House of Weenies frankfurters and rolls, proudly observed that "This has been the greatest event our society has seen in years. We don't think it's over yet. We'll try to surpass ourselves next year."

Ackerman further wanted to make sure that these individuals were thanked. "Thanks to Detective Rudy Gianelli, of the 13th precinct, and Captain Waters. Also, I'd like to thank Dean Siegel, Alan DaCunzo, and Charles Bernstein of college relations."

Some people were asking, "What happened to the pool? How can you have a spring splash without water?" TICKER has learned from authoritative sources who wish to remain nameless, that municipal red tape snarled this endeavor. Dealings with Youth Services Administration, and the Parks Dept. were fruitless. Councilwoman Carol Greitzer, who wishes to remain nameless, directed at the Borough President, Mayor, and City Council President cast two votes apiece out of a total twenty votes. The Mayor, Comptroller, and City Council President cast four votes each. Appointments, telegrams, and letters should be directed at the Borough Presidents in order to secure their assistance.

1. A series of visible protests, demonstrations in several union meetings to both our plight and position. In December of last year, we sponsored the most successful spring rally in many years at City Hall. Among the 10,000 participants at the Board of Higher Education's meeting in January, we conducted an Emergency Conference for Baruch. Then, the Budget Cuts in the city, in order to generate some public interest, were the greatest event in the University's history. The event has been ideally organized, with a principle of equal opportunities, the principle of open admissions, and the principle of quality higher education. And the realization of the principle of equal opportunities results from the battles waged by men and women who possess a vision of what a great and responsive university really means.

2. The University community is faced with a problem, and a blast. We are, also, able to provide the best possible service to our students and the public. We are, also, able to provide the best possible service to our students and the public. We can only respond in two ways.

First, by pointing out that we are not only defending the rights of SEEK, and Graduate students. Day and Evening students, lecturers, adjuncts, counselors, staff, campus workers, student's aides, volunteers, had this to say. "This is our education. We are, also, able to provide the best possible service to our students and the public."

Second, our future is directly linked to the constituencies we serve. And it is a powerful one in need. One out of every three New Yorkers is directly tied to the City University, through either members of the community, relatives, employment of graduates, and friendship. We are, also, able to provide the best possible service to our students and the public. They cannot ignore us. In the spirit of providing the most widespread defense of our University in an all-out resistance of massive budget cuts, we wish to share with you the components of our program so that you may add your voice to the battle.

3. In an effort to reach elected officials who possess key decision-making authority over the 1975-76 fiscal budget, we are coordinating a series of "lobby days." On a University-wide level, we are organizing teams of students, faculty, staff, and alumni to meet with members of the City Council. We believe that this kind of activity should also take place at a local campus level, coordinated through student governments and chancellors of each university. The City Council remains a prime target area. An important message to be conveyed is the need for our needs. All City Councilmen can be reached at 654-5003. Key leaders in this regard are Majority Leader Thomas J. Cutie (556-3250) and Finance Committee Chairman Mathew J. Troy (464-4800). Telegrams should be filled out to your local Chairman.

4. Each of the Borough Presidents occupies a seat on the Board of Estimate and yields two votes apiece out of a total twenty votes. The Mayor, Comptroller, and City Council President cast four votes each. Appointments, telegrams, and letters should be directed at the Borough Presidents in order to secure their assistance.

Manhattan — Percy E. Sutton (556-3220). Telegrams should be filled out to your local Chairman.

Richmond — Robert T. Conner (390-5100).

Bronx — Robert Abrams (293-9000).

Brooklyn — Sebastian Leone (643-2054).

Mayor Beame must be reminded through visible and vocal

For Your Own Good

\[\text{[Text not clearly visible due to image quality issues]}\]

Senator John J. Marchi, Chairman

Finance Committee [114]

Special attention was due to fringe benefits, since the reality of the City's fiscal situation demanded a more frugal approach to other benefits. This was especially true of the cost of medical and dental insurance, which was a major expense in the City's payroll. The Council voted to continue with the existing benefit programs, but with some changes.

The methods of generating my matureidal growth poisons, and the "creatures" which are responsible for their existence, are not fully understood. The role of the plants that induce the formation of these poisons, and the effects of the poisons themselves, are still under investigation. However, it is believed that these poisons are produced by the plant material and that the toxins are released by the plant cell walls.

Poisonous Plants

There is a variety of poisonous plants that are known to induce skin irritations. Some of these plants include:

1. Poison Ivy: This plant contains an oil called urushiol, which can cause a reaction when it comes into contact with the skin. Symptoms of a reaction can include redness, itching, and a burning sensation.

2. Poison Oak: This plant also contains urushiol and can cause a similar reaction as Poison Ivy.

3. Poison Sumac: This plant contains a similar oil to Poison Ivy and Poison Oak, and can cause a reaction when it comes into contact with the skin.

The symptoms of a reaction to Poison Ivy, Poison Oak, or Poison Sumac can include:

- Redness
- Itching
- Burning sensation
- Swelling
- Blistering

It is important to avoid contact with these plants and to wash any affected areas as soon as possible to prevent further irritation. If you do come into contact with these plants, wash your skin thoroughly with soap and water, and avoid scratching the affected areas.

Kahane Speaks Out

Submitted By J.D.M. Day

There are two "Palestinian" people and two "Palestine" states that exist today. The "Palestinian" people are divided into two groups:

1. The "Palestinian" people in the Land of Israel
2. The "Palestinian" people in the occupied territories

The "Palestinian" state is divided into two parts:

1. The "Palestinian" state in the Land of Israel
2. The "Palestinian" state in the occupied territories

In the Land of Israel, the "Palestinian" state is a part of the State of Israel. The "Palestinian" state in the occupied territories is a part of Jordan, or other Arab states.

The "Palestinian" people in the Land of Israel are divided into two groups:

1. The "Palestinian" people who are living in the Land of Israel
2. The "Palestinian" people who are living in the occupied territories
