Rally In Albany (March 16)
February 25, 1976
TO: Members of the Faculty
FROM: Clyde J. Wingfield
The CUNY Student Senate plans a rally in support of the University's budget in Albany on March 16. May I suggest that you omit attendance on the date or otherwise excuse those students who are participating in Albany.

We Demand:
No Tuition No Cuts No Layoffs
Defend Open Admissions
FREE BUS RIDES
Buses Leave at 8 a.m.
Return at 8 p.m.
For more information, call DSSG: 725-3377

Student Government Meeting
By ISRAEL VICENTE
The Student Government held a meeting Thursday during club hours in the Student Center to vote on appropriations of funds for the rally in Albany. It seemed as though this issue would never be discussed or even mentioned. As the members of the Student Government devoted a good deal of the afternoon to talks regarding punctuality at meetings, the discussion revolved around the possibility of adopting a bylaw which would require each and every member of the DSSG to be present at the meetings no later than 15 minutes into the hour of which the meeting was scheduled. Also, once present, no member would leave before the meeting is officially over. This law, according to its advocates, would eliminate lateness, early dismissals and, would allow the assembly to get something accomplished.

In theory, this motion appeared both wise and auspicious. Also, there was no alternative offered. However, looking at it realistically the assembly deduced that the law could not be enforced because:

Students Rally Outside BHE Meeting
By RICHARD WARREN
On Monday, March 8th, thousands of students rallied outside the public library on 42nd Street across the street from a building where the BHE was deciding whether or not to cut the 77-78 budget. The crowd was very enthusiastic as several speakers, members of student government, PSC, students and congressmen spoke. Representative Bella Abzug (D-NY) spoke of the necessity of taking this fight to the streets, as was being done on this day. She also said, "People have talked about New York City having a heart. With these cuts, they are attempting to cut away our heart." Representative Herman Badillo (D-Bx) said, "Last year New York State was given aid by Congress, yet services still were cut. Congress will not give New York any more aid unless we are assured that our essential services are not cut!"

Rep. Mario Biaggi (D-Bx) stated, "I am a member of Congress and a ranking member of the Congressional Committee on Education. When we appropriate funds from Washington, we do not intend to have schools altered." At one point he was interrupted by chants, and one student who had introduced Mr. Biaggi yelled, "Let the man finish his speech," to which Biaggi answered, "I already finished my speech."
Job Offers Pick Up

By DEAN SELLO

Drama is the keynote of this issue of The Baccalaureate. It seems that wherever you turn, there's a new offering for a particular student. Whether it's a full-time job, a part-time job, or even a scholarship, there are plenty of opportunities available. And if you're looking for something more permanent, there are even more chances to be had.

The School to which you belong

The School of Business Administration at the University of Illinois at Urbana-Champaign offers a variety of courses and programs. You'll find everything from business administration to accounting, finance, and marketing. And if you're looking for something more specialized, there are also options available in areas like law, economics, and computer science.

For Your Own Good

Sociology majors and others

The Sociology Department at the University of Illinois at Urbana-Champaign offers a variety of courses and programs that are designed to help you develop critical thinking skills. Whether you're looking to pursue a career in sociology or simply want to learn more about the world around you, there are plenty of opportunities available.

The Sociology Department is home to some of the best scholars in the field, and its faculty is dedicated to helping you achieve your goals. Whether you're interested in pursuing a career in academia or in the business world, there are plenty of opportunities available. And if you're looking for a more hands-on experience, there are also opportunities available in fields like psychology, anthropology, and political science.

The Sociology Department is located in the Alden Library on the Urbana-Champaign campus. For more information, please visit the Sociology Department website or contact the department office at 317-333-1470.

The phenomenon that left me drinking

It was a Saturday night, and I was at a party with some friends. The music was loud, and I was feeling a bit out of place. I decided to go outside for some fresh air and caught a glimpse of my friend, who I knew was a heavy drinker. I saw her the next day and asked if she was okay, and she told me that she had been drinking quite a bit recently. I was shocked when she told me that she had even tried to quit drinking, but she couldn't do it. She said that she felt like she couldn't control her drinking.

She told me that she had been thinking about quitting, but she wasn't sure if she could do it. I told her that I would be there for her, and that I would help her if she needed it. She thanked me for being there for her, and we talked for a while longer. She said that she had been feeling so much better since she had started drinking again.

I was really happy that she had started drinking again. I knew that she needed it. I told her that I was proud of her, and that I would be there for her no matter what.
**B.T.O.: Alive And Kicking**

BY LOUIS CORBETT

Over the last two years, CB radio has become a serious, competitive and frequently very frustrating hobby for many people. It is estimated that there are over 300,000 CB radio operators in the U.S. and this number is growing rapidly. The growth of CB radio has been so rapid that it is now considered one of the most important forms of communication in America today.

**Movie Review:** Grey Gardens

Grey Gardens, a 95 minute documentary film directed by David and Ellen Maysles, tells the story of two women who live a secluded life in an abandoned mansion in the Hamptons.

Grey Gardens is a true story that is both moving and informative. The film focuses on two women, Edith and Albert Mayes, who live in a large house surrounded by gardens and trees. The house is filled with antiques and the women are known for their eccentric behavior.

The film starts with a scene of Edith Mayes, who is seen wearing a black dress and holding a cane. She is accompanied by Albert Mayes, who is holding a guitar. The two women are seen walking through the house and talking to each other.

As the film progresses, we see more of the women's life and how they interact with each other and with the people around them. We also see footage of them in their backyard, where they grow their own food and tend to their garden.

The film ends with a scene of Edith Mayes, who is seen sitting on the porch of the house. She is accompanied by Albert Mayes, who is holding a guitar. He is playing a song for her and the two women are seen enjoying each other's company.

Overall, Grey Gardens is a well-made film that tells the story of two women who lead a unique and interesting life. The film is both entertaining and informative, and it is a great reminder of the importance of understanding and appreciating different cultures and lifestyles.

**Horseback Riding**

Horseback riding is a popular among children and adults. There are many clubs and organizations that offer riding lessons and competitions. Horseback riding is a fun and exciting activity that can be enjoyed by people of all ages.

There are many benefits to horseback riding. It is a great form of exercise that helps to improve physical fitness. It also helps to improve balance and coordination. Horseback riding can also be a great way to relieve stress and increase relaxation.

Texas Instruments electronic calculators. More math power for your money.

Why TI calculators are quick and easy to use.

All TI calculators are表扬 generous. This allows you to employ the most effective calculations and save time. TI calculators are designed to be easy to use.

**TI-1200 and TI-1250... real-time in low-cost calculators with replaceable memories.**

The TI-1200 gives you the power you need. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$19.95* (AC adapter optional).

**TI-2550-II... a versatile powerhouse with replaceable memories.**

The TI-2550-II is a versatile calculator that is designed for professional use. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$39.95* (AC adapter optional).

**TI-2550-III... a versatile powerhouse with replaceable memories.**

The TI-2550-III is a versatile calculator that is designed for professional use. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$39.95* (AC adapter optional).

**SR-50A... side-nite calculator.**

The SR-50A solves complex scientific calculations as easily as you can with a pencil and paper. It has a space-saving, self-contained system. The SR-50A is a versatile calculator that is designed for professional use. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$39.95* (AC adapter optional).

**SR-56A... a versatile calculator.**

The SR-56A is a versatile calculator that is designed for professional use. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$39.95* (AC adapter optional).

**Other models you can choose from...**

The TI-1500... a versatile calculator. It has an automatic constant, automatic integration and integration for performing repetitive calculations, full-floating decimal, and dual display. You can carry it in the case of less power.$39.95* (AC adapter optional).
