The Ticker

The Student Voice Of Baruch College

Volume LXXVIII, Number 8

Tuesday, March 30, 1976

A Free Press

By RICHARD WARREN

March 26 - Today, Sentry Editor-in-Chief Mark Friedman and Editorial Board member Ada Solis, along with Socialist Party candidate for president Vaara and Gravas met with President Wingfield concerning the alleged assassination attempt on Friedman and Garza.

President Wingfield stated that it is police wishes to enter Baruch campus to investigate. "I would cooperate fully," Friedman claims police said they needed permission to enter campus. Wingfield said the police had told him they had no reason to believe any Baruch student was involved in the incident and that the firing of random shots is not unusual in the lower east side. Friedman called this a racist form of stereotyping.

By RICHARD WARREN

President Clyde Wingfield stated that he fully sympathizes with the right of all students to be able to express their political views without fear of injury.

Breast Cancer Not For Women Only

By HELEN PBARROW, M.D.

Sentry office runs a clinic offering breast examinations and information about breast cancer. There is some information lacking the importance of the average woman, he said. Statistics were taken from the Symposium on Neoplasms and Reconstructive Problems of the Female Breast edited by H. Fenner, B. Sydneyman and J.W. Vossberg Company, 1973.

Cancer of the female breast is the leading cause of death from cancer in women. Six percent of women are affected and representation of all cancer in women is very important to identify precancerous and premature cases of breast cancer. Seventeen thousand cancers of breast have been reported and 32,000 deaths per year may not seem very impressive. One in every 100 women dies of breast cancer. The fire was extinguished after 15 minutes around the clock in the U.S. about three times as much in Europe. In ten years the incidence of breast cancer equals the total population of the city of Boston. Every 17 minutes one woman dies of breast cancer. Three women died of breast cancer every 128 hours, 11.5 minutes of men. An alloy was produced in 1920 that is 100 percent accurate and to correct our inaccuracies. The Police Deputy Commissioner of Public Information's office has told this reporter that it has not been determined whether or not it was an assassination attempt. Wingfield was angered about Sentry's accusations against Baruch College students and stated he didn't believe a Baruch student was responsible for the alleged assassination attempt. He did not give much weight to the death threats in the Baruch Eye. He also claimed that there was a police officer that has been schooled by the legitimate Baruch College publications who had no respect for the journalism of the Sentry which he described as inaccurate, biased and lacking in credibility. He added that the Ticker is in a similar way, and referred to an ad offering a $100 award for a photo of Dean Senour having homosexual relations with a member of his staff. Later Ticker Editor-in-Chief Richard Rodriguez pointed out the ad had appeared about 6 months ago and Wingfield did concede that Ticker was getting better. At one point Wingfield stated that Baruch journalism was at all-time low. When Friedman and Gravas mentioned death threats they had received on the Baruch campus. Wingfield replied, "I don't know that to be the case." He also stated that these changes could be documented it would lead to federal prosecution.

Breast Cancer: It's Not Just a Woman's Disease

**Editorial**

**Administration Interference With Campus Press**

It is sad to note that we, as students, are having our daily existence threatened by budget cuts right and left, the administration interfering with not only student organizations, but with the student press as well.

Last week, in another attempt to remove Mark Friedman as Editor of THE TICKER, the administration questioned whether or not Mr. Friedman was fit to be the editor of a document containing student views. Mr. Friedman was asked to resign and it is rather unbelievable that the administration could do such a thing.

It is rather unbelievable that the administration could do such a thing.

The Student Voice Of Baruch College

**Poezymy Corner**

**An Adventure About Adam and Ava**

Adam and Ava met at the Baruch College Student Activities Office last Fall. Adam was the marketing manager of the Student Activities Office, and Ava was the administrative assistant. Adam had found himself in a very stressful situation at work, and Ava was there to help him.

So far nothing. And yet every time Adam saw Ava, he felt a little more interested in her. Eventually, he asked her out on a date. She accepted, and they went on a night out. It was amazing.

I questioned the director, one of the editors, about some changes she was making, and he told me not to worry. It was a tough story to make up, but not too bad. I was able to convince him to make the changes, and he went along with it.

**The Love Plot**

The plot line: Green leaves, green grass, and the beautiful scenery.

There was also an added subplot: the love story. It was a simple one, but very heartwarming.

**Poetry Contest**

**Student Essay Contest**

First Meeting of the Ticker Club, Room 307, S.C.

Will select Chairman

By Karen L. Kain

Karen L. Kain is the editor of the arts section. This week, she is taking a look at the music industry and the impact it has on our daily lives.

**Cut Out for a Slice of Life**

By Cito Cruz

Cito Cruz is a student at Baruch College and is writing about the world of music, specifically about the famous band Nazareth.

**NaZAReTH**

By Karen L. Kain

Karen L. Kain is the editor of the arts section and is currently looking at the music industry and its impact on our daily lives.

Queen Band

Thursday at noon. This site was selected because of CBS' lack of sold out concerts at the Beacon of the States doing four days of staying for nine weeks. The song to reach number one where it standing throughout the show.

"Bohemian Rhapsody"

 anticipated.

(Continued from Page 3)

Most of the College Officials seemed unwilling to comment but students were not as reticent. Jack Pasquale, Treasurer of CFD/AVD seemed to sum up the prevailing opinion when he said, "It would seem that once the Treasurer's position as an Assembly person was determined and formal attendance records could be produced to substantiate the claim that there has been an infraction of Article VI, Section 3, Subsection 1, there would be the need for appropri- ation of funds.

Big question now on campus is who is going to be the New Treasurer.

Essay Contest Column

(Continued from Page 2)

Question: Are these subject headings just for books listed in the card catalog?

Answer: No. The specialized periodical indexes index one or more of them. The Education Index, for instance lists articles under Student Self-Government, Student Organizations and Societies and Administration of Schools - Student Participation. The ERIC system uses Student Government and Student Organizations in its index Resources in Education. As in the case of computer-based systems the search terms are short and have no sub-divisions.

Question: Is there a way to find ready-made bibliographies on student self-government?

Answer: Look into Bibliographic Index under Self-Government (in Higher Education). This index reveals bibliographies that are otherwise buried in books or at the end of periodical articles. Why not profit (in this honest way) from someone else's work?

Treasurer "Resigns"

Dean's Office of the Dean of Students, but the Dean was away at a conference in Dallas where she had been conferencing with students. Florence Siegel was unaware of any communication concerning the resignation. Professor Jerold Grodin was of the opinion that the treasurer was not a member of the Assembly and thus the section of the constitution quoted above did not apply to Mr. McGinn. In addition, Professor Grodin expressed doubt that the attendance of the treasurer, Mr. McGinn was ever recorded.

However, Ms. Doris Dixon, Secretary of DSDG, has stated that she is ready to introduce records that show the attendance of the entire Assembly has been recorded for all meetings and that the eight individuals named have been absent for three consecutive meetings without prior written excuse.

Article IV of the DSSG Constitution seems to answer all questions concerning the Treasurer's membership of the Assembly. It reads, "The Assembly shall consist of 29 members elected by a plurality of the votes cast by the Day Session Students and four appointed members as described in the sections of this article. (and goes on to describe the President, Treasurer, twenty-four Assembly persons and three Re-phase-large)."

Most of the College Officials seemed unwilling to comment but students were not as reticent. Jack Pasquale, Treasurer of CFD/AVD seemed to sum up the prevailing opinion when he said, "It would seem that once the Treasurer's position as an Assembly person was determined and formal attendance records could be produced to substantiate the claim that there has been an infraction of Article VI, Section 3, Subsection 1, there would be the need for appropriation of funds.

Big question now on campus is who is going to be the New Treasurer.

Hostos Takeover

BY RICHARD WARREN

March 29 — Five days ago, Hostos students took over the administration of their college. About 500 students participated in the takeover. The other students who continued to attend classes and professors who continued to teach, with students taking over the administrative function.

They hope to mobilize support outside of the campus. There will be a protest in front of CBS, Thursday at noon. This site was selected because of CBS' lack of sold out concerts at the Beacon of the States doing four days of staying for nine weeks. The song to reach number one where it standing throughout the show.

"Bohemian Rhapsody"

anticipated.
