Smokey Evacuation

On Friday afternoon at approximately 2:15 students were evacuated from the 360 PAS building due to an abundance of smoke. Mr. Max Linden stated that the smoke which billowed out of the building was caused by a faulty exhaust about 4 p.m. making it necessary for all students to leave in the interest of safety. No damage was reported.

Kingsborough Constitution Illegal

It has been discovered that the Student Government (S.A.C.) Constitution of Kingsborough Community College is illegal. Through some oversight, the constitution was never approved by the Board of Higher Education and therefore all by-laws amended in the past are illegal. This led to the apprehension of those responsible before the Student Government, therefore any club registered by the S.A.C. under this constitution is illegal. The S.A.C. would revert back to the original constitution. Student clubs are up in arms because by adopting this former plan, the voting rights of sixty-three clubs have been revoked in accordance with the old rules which allow for only twelve voting members.

Drill Successful

A fire drill was held in the 360 PAS building last Wednesday at approximately 11:45 A.M. All Baruch students exited the building quickly and safely. More of these drills are planned for the remainder of the term.

Help Prevent More Fires

Anyone with information regarding the recent wave of fires that will lead to the apprehension of those responsible should get in contact with Mr. Max Linden, Director of Security on the first floor. Sling Shots At 23rd Street

Professor Tarango's law class in Room 203 of the 23rd Street Building of Baruch College was abruptly interrupted as a result of two shots that landed at its windows. After hearing nothing, the course continued. At first it was thought to be a bullet, but an examination revealed there were no bullet holes in the room and one shot only shattered, but did not break the window. It was believed the shots were fired by a sling shot.

The floor was evacuated as police examined the class, but did not find any evidence. After the police left, classes continued as if nothing happened (as of this writing).

Queens College Site

Last Monday at 3 p.m., students of the Queens College occupied the Academic building and leave 2 p.m. Tuesday. The campus was occupied by the BHE. The member of the BHE that occupied the building left the building. The college administration in support of the occupants was held by fellow students Tuesday afternoon. The actions were very peaceful and orderly, and were run by student government.

Vacation Reminder

Remember, vacation begins this Friday, April 9th. No classes will be held that day. The date for return is Monday, April 19th. Regular classes resume.

Baruch Sea of Corruption

Dear Mr. Greenberg,

In an attempt to manage your finances, the president has extended his hours. All members of our student population, including Catarino Garza the Socialist Workers Party candidate, have been made aware of this activity which was supposedly set up to fund the Socialist Workers Party. Whether it is true or false, it is quite possible that the president is making full use of college funds for personal gain.

Rebuttal

Dear Mr. Greenberg,

In reply to your letter, I wish to point out that the president is entitled to extend his hours if he wishes. However, I believe it is important that the student population be made aware of these activities so that they can make informed decisions about where their money is being spent.

FACULTY MEMBERS

The EFCB has completely changed the student's lives. The administration has provided no explanation for the changes that have been made. I believe it is important that the student population be made aware of these activities so that they can make informed decisions about where their money is being spent.

Baruch Lunar Eclipse

On Wednesday March 31, I arrived at the meeting with Robert Greenberg, a member of the Baruch Lunar Eclipse, with the intention of discussing the matter at hand. However, after an hour and a half of this debate over the last two sessions, the students found that they were unable to come to a decision.

Lahav Hebrew Society Discusses Zionism

By ZEV BRENNER

Much controversy about the true nature of Zionism has been generated in the Baruch college community — both by the UN resolution linking Zionism to racism and by the anti-Zionist article written by Art Fishman last term. Well, the LAHAV HEBREW SOCIETY decided to do something about this situation.

On Tuesday, March 2nd, Professor Robert Brown held a discussion group on what Zionism is really about.

Zionism in its purest form, declared Brown, "is going on Aliyah — to Israel, not remaining here in the exile where another Holocaust may be pending." Zionism — the return to Zion, has been and still is a basic tenet of Judaism. In fact, religious Jews of every country in the world pray daily to return to Zion. Israel means more to Jews than just being another country. It is part of our religious heritage that can only take root in the Holy Land.

In the 1920's, there were roughly the same amount of Jews in Arab countries in what was then called "Palestine." Most Jewish immigrants went to Judea by the Roman Emperor Hadrian in the year 135 to eradicate any Jewish claim to the land. How ironic it is that Judea is theirs!

Women's Softball

By CARMEN PEREZ

The Women's softball team formed five weeks ago. It consists of twelve girls: Mariou Baltazar, Susana Ching, Debra Drakeford, Anna Fauzuza, Linda Fisher, Felicia Hicks, Ileana Jardines, Kitty Kieling, Carmen Pereira, Donna Pinney, Dee Shimose and Juliette Staples.

The girls are being coached by Ms. Debbie Perretti, who has also coached the basketball team and Volleyball team. She hopes along with the girls that they do well this season. They will be the first to represent Baruch College in Women's Softball.

They have been practicing hard and working very hard to make this season a good one. For five weeks they have been at it. As to whom they will compete is still being determined.

Nyro: "Smile"

(review, because I have remained a loyal fan even through her most self-indulgent excesses. It is one thing to accept overdone emotion and another to accept boring drivel. Not that the album is bad, mind you. It is in fact NaBloimiting Nyro, imitating Nyro, imitating Nyro, etc., lyrically and vocally. The only on the album which comes close to holding together is "Money." Its chorus sings "bleed a little, bleed a little till you find your freedom." I happen to enjoy this song. But the rest of the lyric attempts to come running. Meanwhile I'll keep listening to "Hissing of Summertime.")

Jews living in Arab countries were forced to leave penniless from their lands of origin. That small piece of land called Israel was able to absorb all these refugees (in the true sense of the word) while the Arab countries were unable to do likewise. How naive do the Arabs think we are?

The Arabs, and especially the Palestinians, do not really want peace. They are trying to gain as much as possible in the political arena before reverting back to the battle field. Israel is left but with only one alternative — To declare to the world "that Israel is ours, and not one inch of retreat from our land." Those of us in America have an additional task. We must fulfill the simplest precept of Zionism. It is time for us to return home — home to Israel. This is what Zionism is really all about.
