CHRIS NILES CALLS FOR STUDENT UNITY

In view of the fact that the Day Session Student Government elections will take place sometime early next month, President Chris Niles, seeing the possibility of student disparity, has started a drive to remind each and every student that there are still many things their Student Government can promote, still many issues to fight for and many activities that are in need of sponsorship.

In the first phase of the drive, Chris Niles has arranged a Student Government-sponsored dance this Friday in the Prince George Hotel. It is hoped that this will be one of the many actions taken to united the student body.

On last Wednesday, December 1, a break-in was attempted on the 10th floor of 315 Park Avenue South. This act occurred at approximately 7 P.M. while persons were still present on the floor, on which the office of the Dean of Education, some Ed. classrooms and a lab are located.

According to reliable sources, Baruch College security guards at the scene failed to file a report on the incident with Max Linden, head of Security. No apparent damage was left by the vandals.

C.C.N.Y. — WHAT'S GOING ON?

In the last issue of THE TICKER a story appeared relating to the plight of CCNY's newspaper, The Campus, and the senate's attempts to stop its publication.

Although the matter appeared to have been resolved, the senate again voted to stop it from publishing. Last Thursday the president of CCNY reprimanded the senate and overruled their vote to stop the paper.

The following day the senate made known its intentions to pursue the matter and take action against The Campus.

NILES APPROACHES PRESIDENT ELECT

Last week Chris Niles, President of DSSG wrote to President Elect Carter requesting a meeting for CCNY student leaders. When contacted, Mr. Niles said he was concerned that groups from all segments of the New York community have met with and discussed their respective problems, but that student voices had not been heard on the issue of CCNY. This was more significant since President-Elect Carter has stated that he plans to create a separate Education Department.

QUEENS SURVIVAL FORUM

This coming Thursday, December 9, Queens College will hold a forum dealing with the future survival of the CUNY system. The meeting will take place at 8 P.M. in Room 410 of the College Union Building, Queens College, in Flushing.

F.B.I. VICTIMIZES CITIZENS

By Richard Warren

Last Friday afternoon, numerous students who were present at the Senate meeting for the election review committee (BHE Bylaw 15. Thornhill, Niles, Ishmail Bailey, who has worked as an insurance agent and often made routine checks on his clients at the local police department, decided it would be fun to check with the police to see what sort of file they had on her. She had never been arrested, not even a speeding tickets, yet the police maintained a dossier on her. She had been living, where her parents lived, what clubs and organizations she had been in, her sex life. Her date said she was an insurance agent and often made routine checks on his clients at the local police department, and claimed it was an insurance agent.

The woman, a highly qualified insurance agent of the FBI that she was arrested for allegedly having a drug in her possession. Her possession was alleged by a drug dealer who lost the chance to sell her a drug. She was reported to the police chief that he would have to await for the laboratory to salvage her trial and pay $200 bond and complete a 90-day self-probation and there would be no record of his arrest. He later found that the FBI not only had a record of his arrest, but showed him guilty of the offense.

A report from a medical doctor from the Los Angeles area, Doctor Doris Scott, who obtained her files through using the Freedom of Information Act, showing FBI information about an affidavit by Donald Scott, the National Crime Information Center, that the FBI did not enter data bank, showed that Dr. Scott was arrested and charged with conspiracy, yet information was never entered into the computer showing obstruction of that Dr. Scott was acquitted. According to her affidavit, Dr. Scott was fired from her job following the arrest and now cannot work, even though all the things she applies to tell her she is qualified and that she's going to get the job she gets it.

"In this case, the doctor's record was falsified in that it showed only her arrest and not the most important fact, that she was acquitted, and her entire record and reputation has been ruined." Friedman said, "Prior to our interview, a report was put up by the FBI mainly concerned itself with gross irregularities and dirty tricks against famous people and well known groups. The important fact that was left is that has been evaded is that the FBI's dirty tricks affect every man, woman and child in the States."

In talking about the purposes of the NCLE, which is sponsored by the Church of Scientology, Friedman said, "The purpose is centered with the average American citizen who has been imprisoned, intimidated, controlled and frightened by the FBI through false records."

Students and Mintz Clash Over Baruch Elections

By Richard Warren

Last Friday afternoon, numerous students who were present at the Senate meeting for the election review committee (BHE Bylaw 15. Thornhill, Niles, Ishmail Bailey, who has worked as an insurance agent and often made routine checks on his clients at the local police department, and claimed it was an insurance agent.) The woman, a highly qualified insurance agent of the FBI that she was arrested for allegedly having a drug in her possession. Her possession was alleged by a drug dealer who lost the chance to sell her a drug. She was reported to the police chief that he would have to await for the laboratory to salvage her trial and pay $200 bond and complete a 90-day self-probation and there would be no record of his arrest. He later found that the FBI not only had a record of his arrest, but showed him guilty of the offense.

A report from a medical doctor from the Los Angeles area, Doctor Doris Scott, who obtained her files through using the Freedom of Information Act, showing FBI information about an affidavit by Donald Scott, the National Crime Information Center, that the FBI did not enter data bank, showed that Dr. Scott was arrested and charged with conspiracy, yet information was never entered into the computer showing obstruction of that Dr. Scott was acquitted. Rodriguez Refuses
"Deceitful" Ad

BY RICHARD WARREN

The ad in question was the one that appeared in the December 8, 1976, issue of The New York Post, in which Herff Jones, a company that sells yearbooks, was depicted as ripping off students by using "deceitful" advertising methods. The ad was not authorized by the company's president, Michael Rodriguez, who has denied the charges. Instead, the ad was created by an undergraduate at Baruch College, and it was later removed from the Post's website.

BY DOUGLAS E. ARNOLD

The students involved in the case are still waiting for the resolution of their complaint. Herff Jones has refused to accept the ad, and in turn, the students demanded a place in the company's Yearbook directory, which they were denied. The students have decided to take their case to the United States Supreme Court, to give the students an equal opportunity to be heard.

Baruch Accounting Students Honored

BY PHILIP V. DIVETRO

The students were honored for their academic achievements and their contributions to the university. They were presented with certificates and trophies, and their names were added to the university's roll of honor. The ceremony was attended by the students' families, faculty, and administration, who praised the students for their hard work and dedication.

Fun And Games At Financial Aid

There will be a Ticker Association networking Friday p.m. Room 307.

By the same author

The students were celebrating the end of the semester, and they were enjoying themselves with games and activities. The Ticker Association organized the event, and it was held in the Financial Aid Office's conference room. The students were divided into teams, and they competed in various games, such as a potato sack race, a tug of war, and a relay race. The winner team received a trophy, and everyone had a lot of fun.

They were presented with certificates and trophies, and their names were added to the university's roll of honor. The ceremony was attended by the students' families, faculty, and administration, who praised the students for their hard work and dedication.
To the Editor: I read with shock the article in the Campus Advocate entitled "The Baruch Campus." I had previously heard about and read about the newspaper's decision to close the Baruch campus but was unaware of the full extent of the effects of this decision. As a student at the Baruch campus, I have been involved in various student activities, including the student newspaper, which has been a source of inspiration and support for me. However, the decision to close the campus has left me feeling disheartened and uncertain about my future at the college.

The closure of the Baruch campus has had a significant impact on the student body. Many students have lost their sense of community and are unsure of how to navigate their academic and personal lives. This has led to a feeling of isolation and a lack of direction.

I believe that the decision to close the Baruch campus was made without considering the students' interests and needs. The students who are affected by this decision are often the ones who are the most vulnerable and have the least amount of power. The closure of the campus has caused a great deal of stress and anxiety among the students, and it is important that the college takes steps to address these issues.

I applaud the efforts of the students who are fighting against the closure of the Baruch campus. They are working tirelessly to raise awareness about the impact of this decision and to find alternative solutions. I urge the college administration to consider the students' voices and to work towards a resolution that is fair and just.

Sincerely,
[Your Name]
Hollywood may not have been defenses. The Motown brown, yellow, red green, purple of Oz. Scott. dramatic verse play by Ms. remains the same as it was bow is Enuf. Then came Diana Ross' love. A bare stage with tools by black playwrights, and as one-dimensional political. Phillips and her beauty from several angles. The New York art scene since the 1930s. Mr. Lewis' paintings will for Sharon/' comparing their. Cameron's camera. He whispered something into everyone's ear the end of the play and is an especially moving. This scene alone is an. We know that we have to ap...

The famous poet, William Shakespeare, had a reputation for being a bit of a ladies' man. He is known to have had several affairs, and some even speculate that he may have been involved with a few princesses. Despite this, his work continues to be celebrated and studied today. Shakespeare's plays, such as "Othello" and "Hamlet," are still performed and taught in schools around the world. His influence on the English language is immeasurable, and his legacy continues to inspire new generations of writers and actors. Some of his most famous quotes include "To be or not to be," and "Neither a borrower nor a lender be." His work has truly stood the test of time, and his contributions to literature and theater will always be remembered.
Splash Party

By CHARLES ROTHMAN

Standout performances by Chris Raheb and Joe Seward accounted for intense yet friendly competition and an increase in participants denoted the second half of the intramural swimming tournament held last Thursday in the 23rd Street pool during club hours.

Miss Raheb, who had previously won the women's 40-yard freestyle and 20-yard butterfly during the first half of the tournament, completed her amazing sweep of all ladies events with devastating record-breaking triumphs in the 40-yard breast-stroke and the 40-yard butterfly.

Although not quite quick enough to outdistance Raheb in the 20-yard butterfly, Marc Seward captured that event with a time of 29.93 seconds, obliterated the old standard of 35.6.

Four of the eight meders were represented by only three seconds. Lenny Chudnovski won a trophy with his second place finish; for that matter, the first two finishers in every event earned a trophy.

- Intramurals coordinator Tom Craciouca indicated that he was glad to see the larger turnout. "I've been прогнозized by Ms. Lynne Gordon, the first professionally known female hypnotherapist in the United States. It's a very relaxing experience, yet I really don't feel like I had been прогнозized at all. I was conscious of everything around me — street noise, my tight shoes, my glasses slipping down my nose. I was not unconscious. Just quite relaxed." This is the key — a person cannot be прогнозized without the hypnotist's acceptance.

Even in the mixed medley relay style, and, with the exception of Tong and Howie Gursky — all of whom also swim in the freestyle category, the victors had to earn their spoils. As evidenced by Kennion's win over eleven rivals, and the sextet-contested men's 40-yard butterfly, Mark Raheb, who last time swam unopposed, was forced to repel challenges from Susan Cambria and Lorraine Meeks.

Disco...

(Continued from Page 6)

Lambert, Hendricks and Ross. Can you imagine Glenn Miller playing in a discotheque? "I'll Play the Fool," boasts lyrics to a silly little lop song that Paul McCartney wishes he could write. "Ain't it funny what love can do/better than poison/stronger than glue."

Hypnosis:

Not What You Think It Is!

By LINDA PACHECO

You are in a dark room illuminated by the soft light of one candle. You are asleep. A man with a black cape dangles a plastic eye from a chain, repeatedly saying, "You are sleeping, very, very sleepy."

For all that, Hypnosis is not the mummy-jumbo that you think it is. It's not even medical. It is simply stated, a relaxation of the mind and body so that the hypnotist can talk the hypnotized into use form of self-improvement or another.

I've been прогнозized by Ms. Lynne Gordon, the first professionally known female hypnotherapist in the United States. It's a very relaxing experience, yet I really didn't feel like I had been прогнозized at all. I was conscious of everything around me — street noise, my tight shoes, my glasses slipping down my nose. I was not unconscious, just quite relaxed. Aside from the elevator scene in The Hot Rock, in which, in a scene made famous by Saks, the hypnotist revealed the hypnotist (what else?) the best example of true hypnosis is in The Exorcist (Remember that one, where the kid is possessed by the devil and throws up pea soup all over everyone?) The hypnotist asks a seated Regan, "Do you want to be прогнозized?" This is the key — a person cannot be прогнозized without the hypnotist's acceptance.

This little-known process is widely used by psychiatrists and medical doctors to aid people with a lack of confidence, insomnia, stuttering, poor study habits. Impunity, weight problems, and a multitude of other problems. The hypnotist will vary his/her method and style according to the case at hand, but it is essential that the person with the problem is willing to concentrate on correcting whatever it is, even while not under прогнозization. According to the Barnard Bulletin (10/3/68), "A functional cardiac patient was able to avoid further heart attacks so successfully after прогнозism that he was able to quit smoking life insurance without adding penalty premiums." A Columbia professor received treatment to learn to be a better teacher. These are just two of the uncountable number of successes attributed to прогнозism. Hypnosis is quite an interesting process. It is an unforgettable experience that everyone ought to have the chance to have. Now, if we can induce some top officials...
