CUNY And Board of Ed. Partnership

By Nina Dobris

CUNY Chancellor Joseph S. Murphy and Board of Education Chancellor Anthony Alvarado have decided to form a partnership to develop programs for underachieving high school students.

Under the direction of Dr. Joyce F. Brown, Special Assistant to the Chancellor for Board of Education Relations, the City University has proposed and will soon begin a number of collaborative programs with the Board of Education. The major purpose of the programs are to improve academic performance, increase retention, and provide better preparation for college study.

"Although it would be nice if the students came to the university," says Brown, "our major thrust is to be able to develop programs utilizing the expertise of both systems to allow these kids to at least stay and finish high school."

Until now, the programs in existence were geared toward the high achievers. "What's new now is that we're trying to open our umbrella a little wider and bring under it those students who are in academic trouble; who perhaps are not motivated, or perhaps are terribly motivated but don't have the support services it takes to complete their studies."

In March, the new partnership will begin with a mentoring program at Queens College, LaGuardia Community College and Lehman College. Queens will be partnering with John Bowne High School, LaGuardia with Long Island City High School, and Lehman will be working with Walton and DeWitt Clinton High Schools. The first college recruitment phase began February 8 for this particular program.

"This semester, college student participation will be in the form of field work or independent study in lieu of other course work in such courses as math, science, and English."

Day Session Gov't. Creates Student Relations Committee

By Ivan Claterno

The Student Relations Committee (SRC) is an established body of Day Session Student Government, due to a temporary amendment of DSSG's constitution for the Spring 1984 semester.

"Debate the objectives of three DSSG Upper Council members. "A motion moved by Frederick Green, seconded by Nina Vella, to approve the formation of the Student Relations Committee, was passed," according to the minutes of the council meeting Thursday, February 2. The vote was 10 for, three against.

Denise White, President of DSSG, said the committee would help to "decrease student apathy" and get students involved with, and interested about, issues like financial aid, tuition increases, voter registration and the draft.

Concerned about funding, White said it will be effective immediately. White explained that the committee will have two ex-officio members of council sitting in on their meetings. Three members of the SRC would be elected to sit in on council meetings. "This creates more communication between the various committees. This is done for all bodies in student government," White explained.

Fred Gualtieri, a council member, and sole member of the Better Baruch Coalition (B.B.C.) who opposed the SRC, said he did so because "there is no defined membership and it would be connected with the executive branch."

Overially Information Released By School of Business

During early registration, there is a constant threat of being closed out of a course required for completion of a major or minor. The problem is especially acute in the School of Business and Public Administration where approximately 95 percent of Baruch's students are registered.

Associate Dean Bertha Newhouse believes that if students are aware of the procedures involved in such classes and the deadlines for registration, problems can be minimized.

Undergraduates who register early and are closed out of a business course deal with the School of Business Curricular Guidance Office (Room 902, 26th Street) where they may request an overially to enter the closed course. Approximately 1,000 course close-outs were reported during Spring 1984 registration.

The Registrar's office works with the Dean's office by supplying a list of students who were closed out of specific courses. From the list, the various departments are advised of students' needs and additional sections are opened when possible, with first preference going to

Revised DSSG Constitution Planned For Elections

In the Day Session Student Government main concern has been the revision of the Day Session Student Constitution. Concern for this problem had its origins in the administration of last year's DSSG president, Nina Vella Cheda, and has been passed on to the administration of current president Denise White.

Vice-President of Student Affairs Anita Shechter reported that she and White came together to examine the constitution and a proposal they had devised earlier, and discovered a need for change in both. "The constitution that we tried to pass last year is what we've been looking at to see what changes are needed; it's our proposed constitution. But even that does have some problems. After we see the problems of this one, in a way, it's better that (our) didn't pass because now we see the problems of (the current) one, and now what we'd like to do is adopt a really good constitution."

Most of the changes that Shechter discussed about the constitution centered around the operation of the constitution itself. "As we functioning, we realized that there are certain things that, although they are correct in theory, don't work quite so well in practice. There are always certain ways in which you can't follow the constitution, so what we want to do is to present a constitution that we would be able of following without the letter, that would be quite closely adapted to our needs."

Under the current system, the chairperson of the council is determined by the candidate who wins the greatest number of votes in the May election; a revision is being sought where the chairperson would be selected through a vote by members of the council in their first meeting. This year, the chairperson is Po Si, although he is a new member," explained Shechter. "This is a change like if he's done a very good job. A personal representation on the executive council, which consists of the president, the vice president, the secretary, the treasurer, and the chairperson of the Student Relations Committee, which is Shechter."

As a vice-president herself, Shechter expressed concern that perhaps the appointed vice-presidents never work with the council. "In the past, the vice-presidents have never really been on their own. In fact what we'd like to do is incorporate the agenda into the meeting. Next year, the vice-presidents would have a report, just like the ex-officio do. To effect, the vice-presidents would start to work more closely with the committee in the council.

While Beirut Burns

Reagan's most irresponsible and tragic mistake was to convince Gemayel of continued American support, while in fact the American government was preparing to leave Lebanon. As he leaves Lebanon, the Lebanese Muslims consider the major culprit who was more often acting contrary to what the United States had been warning him about. This leaves Reagan with a difficult one to answer: "We warned you not to do this."

As a side note, on Feb. 17, The New York Times had written: "President Reagan has reportedly discovered the bodies of 117 Marines and Phalangists in the mountains of Kafr Matta. It was under the control of the Lebanese Christians and fell on March 15, which was recognized by the U.S. President."

While the American military and political leaders have been trying to discover the identities of those killed, the Phalangists militia in Lebanon has been carrying out massacres of innocent men, women, and children.

Hello, Help-Helpline

By Mike Landnisky

As many Baruch student discover, going to a school with a large population, such as New York City, particularly at Baruch, can bring many social and emotional concerns. However, there is an organization on campus that attempts to deal with those problems — Help-Helpline.

According to Help-Helpline member Miguelacz, "We're a student run group. We run by student and are directly concerned with social and personal problems. In addition, we also give apartment referrals." In trying to help people deal with these problems Help-Helpline members are trained to answer in a way that is helpful for the client. "We are basically a help desk for students who do not know where else to go," says Miguelacz.

The matching helpline is an effective device. However, as Duggan states, "It takes time to get people to the center. Many people are hesitant about coming in for help. We're run by students and it is strictly confidential. There is no one to ask for help. Helping people is our goal." Miguelacz has a lot to offer the students at Baruch and they shouldn't be afraid to ask for help. "Some students' problems are the result of more than just a week. The way students see the problem is often complicated. They are just trying to get help with something. However, that is not always possible." Help-Helpline is an important part of the Inter-Varsity Christian Fellowship's work at Baruch. "Help-Helpline is a part of the Inter-Varsity Christian Fellowship on campus for both believers and non-Christians. The fellowship aims to provide an opportunity for students free of charge. The members of the Fellowship meet on a regular basis to work on a team striving towards a common goal. The fellowship's main goal is to help students in need. We're taking over many of these problems are probably the most interesting thing about Help-Helpline. In viewing the situations, Duggan considers one problem that can be solved quickly but this is also a difficult thing to do. The problem at Baruch is loneliness. Transfer students free of charge." Duggan agrees that this is an important issue. "Help-Helpline's main goal is to help students in need. We're taking over many of these problems are probably the most interesting thing about Help-Helpline. In viewing the situations, Duggan considers one problem that can be solved quickly but this is also a difficult thing to do. The problem at Baruch is loneliness. Transfer students free of charge." Duggan agrees that this is an important issue.

As reported in the January 31 issue of the Helpline, which is a good example of this. In his own words, Duggan states, "It takes time to get people to the center. Many people are hesitant about coming in for help. We're run by students and it is strictly confidential. There is no one to ask for help. Helping people is our goal. As Miguelacz states, "Help-Helpline is an effective device. However, as Duggan states, "It takes time to get people to the center. Many people are hesitant about coming in for help. Statesmen Fencing

By Orest Mandy

Although Baruch's fencing team is small (12 men, 6 women), they are competitive. With five inter-collegiate matches left in the season, the men's squad has already posted a respectable record of 4 wins and 1 loss. The women's team, however, hasn't fared as well and has a disappointing 0 and 5 record.

Baruch's fencing team started around 10 years ago, and is now coached by ex-Olympian Ed Ballinger. He presently ranks fifth in the nation and is eyeing the 1988 summer games.

Ballinger blames the lack of productivity of the women's team on the fact that few have prior experience in the sport. "Three of our starters next season (this season), they've also going through a growing up period." He noted, "Last year's 3 points was advanced to the NCAA (National Collegiate Athletic Association) probably would help." This year's NCAA tryouts are creeping up on Baruch. Baruch will start on March 20 and end March 24.

According to coach Ballinger, "I'm not sure the fencers to participate in outside competitions." He said that by doing so, his players not only get more experience but also receive the morale boosting exposure which is necessary for any athlete to compete well. He added, "My hope is to get at least three guys and one gal to qualify." According to fencer Nell Horner, "I think we've done better than expected, we should have no problem." He added, "The spirit, esprit de corps, youth, and hunger for winning on this team is incomparable.

Each male on the team specializes in the use of a certain weapon, the saber, epee, or foil. Women are restricted to the foil. The weapons are constructed differently and the method of scoring varies from weapon to weapon.

Baruch excels in the epee. David Moya, a foil fencer, pointed out that this was so because the foil squad is entirely new. Leading the epee squad is John McKenzie, in his senior year. He was the best coaching staff around." He added, "The fencing team is competitive. We're not CLUNY champions." According to Moya, the only team with the potential of beating Baruch is City College. "This year we're probably not going to be competing."

The epee squad may have carried the team, but next year when two of their leading fencers, McKenzie and Maurice Carrera, graduate, the epee squad will no longer be as threatening as before. According to Moya, "By next year, our foil squad will be great." The same can be said of the women's squad, as they gain valuable competitive experience.

"We've experienced trouble getting players," said coach Ballinger.

Coach Without A Team?

By Michael Lushinsky

Over the last month Baruch Athletic Director Dr. William Eng has been spending a great deal of his time looking for a new head coach for the Baruch Statesmen baseball team. This is a very difficult task, he may have found a coach for the team. It might turn out that he doesn't have a team.

The strange turn of events which have transpired over the past several weeks leaves the Statesmen's 1984 season in doubt.

According to John Krochak, a former member of the team, and now a sports editor of our paper, "there is a possibility that there might not be a team this season. I'm kind of worried that there might not be a team," said Krochak. "I'd really hate to see it happen." Krochak added that there was a problem because not enough players have shown interest in playing for the team this year. In addition the pool of players has been diminished by recent graduates, and also those students who have been placed on probation.

Before this problem had surfaced Eng had conducted a search for a new baseball coach. This was necessary because last year's coach Michael Becker was released after the 1983 season. Eng said that Becker was released because "we weren't happy with the way the team was run. The team just wasn't competitive."

In searching for the new coach Eng sent out advertisements to other colleges and high schools. In selecting this coach he had several criteria in mind. "We were looking for someone with coaching experience, who also had a baccalaureate degree... In addition Eng wanted a person with good organizational skills. He indicated that organization was one of the teams major flaws last season.

Eng finally found a person who fit these qualifications and offered the job to him. This man, Peter Laddomada, a math and science teacher at St. Frances de Chantal in Brooklyn, a former member of the Baruch baseball team during the years 1976-80. According to Eng the job was offered to Laddomada during the week of February 6th. As of press time Laddomada hadn't got back to Eng as to whether he would accept or reject the offer.

Thus at this juncture the Statesmen's season is in doubt. It is possible that they might have a coach without a team to work with. Therefore when spring rolls around, Baruch might be devoid of that perennial sound of "Play Ball."

BARUCH'S SPRING RECREATIONAL FACILITY HOURS

IBA ROUND UP

By Joseph Fagan

The games leading up to the coveted Intramural Basketball Association Championship Game were far from uneventful. Almost every game came down to the wire. On November 3rd, with 8 seconds remaining, the Gentlemen's Quintet failed to tie the score and lost to the Not Ready for Varsity Players, 58-56. Geral Taylor (17 pts.) led the Not Ready attack, along with Jeff Anderson (7 pts., 9 rebs.) and Derek Hogg (10 pts., 4 q.b.G). was led by Mike Green (16 pts.), Gary Brown (10 pts., 11 rebs.), and Rod Wildgoose (1 pts., 12 rebs.). In the second game, Hoop Connection's Michael McDaniel (20 pts., 11 rebs.) and Marlon Pelle (10 pts.) held off a late second half rally by the Hawks to win, 49-41. The Hawks' offense was spearheaded by freshman George Finley (20 pts., 5 rebs.). On November 10th, the Harwood Hotshots defeated the Independents, 59-54. The Hotshots were led by the game's high scorer forward Kenny James (19 pts., 6 rebs.) and Steve Robinson also added 13 points, with 9 rebounds. The Hawks were led by Marlon Pelle's 10 points and 10 rebounds.

In game two, N.R.V.P. made a late comeback to overcome the Hoop Connection 54-42, N.R.V.P. was once again led by forward Geral Taylor (22 pts.). Forward Anthony Gitty added 14 points. Michael McDaniel (18 pts.) kept the Hoop Connection in the game, along with Ancil Tyrell (10 pts.).

After Thanksgiving recess, on December 1st, in quarterfinal play, the Hardwood Hotshots eliminated the All World Crew, 55-53 in an unbelievable upset. The Hotshots got three players into double figures: Kenny James (15 pts., 7 rebs.), Tony Bolden (12 pts., 6 assists), and Tony Durank (10 pts.). Steve Robinson also grabbed 12 rebounds. Trailing most of the game, Stu Phillips (6 pts.) and Al Lazada (19 pts., 7 rebs.) brought the All World Crew back into the game, but the Crew experienced last turners. Center Bill Davis broke the I.B.A. rebounding record (18 rebs.) and scored 20 points in a losing effort. In game two, G.Q. eliminated the Hoop Connection II, 48-42. Hoop II outground G.Q. (34-26) but had a free throw percentage of 0. Mike Green took control of most of the game, scoring 22 points and grabbing 9 rebounds. Gary Brown added 13 points, with 9 rebounds. For the Hoop Connection, Garland Mitchell (10 pts., 13 rebs.) controlled the boards, but fouled out late in the second half. Michael McDaniel added 16 points and 7 rebounds.

With four teams remaining in semi-final play, on December 9th, Fly Slamma Jamma literally fouled out G.Q., 77-64, to advance to the final. The whole starting five of G.Q. by the game's end had fouled out. Despite the halftime score, the I.B.A. All-Stars beat the Varsity team last year with a buzzer basket, 83-83.
