The Board of Directors of the Bernard M. Baruch College Association passed the 1987-88 Day Session Student Government budget at its October 8 meeting.

According to the minutes of the meeting, the budget passed with a unanimous vote of twelve in favor, the thirteenth member having left before the vote was taken.

The Board must approve the budgets of the student governments before the allocations become official.

The total amount available to the DSSG for allocation was $73,339. Several mandatory allocations were made from this fund before the budget was drawn up, such as $7,500 for election expenses, $4,000 for legal services, $1,400 for professional fees, $55,459 was passed as a new allocation, and the rest was left in an unallocated reserve.

John Richards, the president of the DSSG, said the government budget was unfortunately cut, as everyone knows. Given that reality, we were forced to make some adjustments. Richards said, "One of our biggest expenses is for the legal services program which costs $5,000...Last week the attorney's time alone was all taken. We've already developed a questionnaire that students fill out after meeting with the attorney to see if their needs were being met." The questionnaires were originally a suggestion brought up during the Board meeting when the budget passed to insure that the money spent on legal services was helping the students.

According to Richards, "Our operating budget has been cut. As a result we've had to decrease the amount allocated for stipends. Last year the allocation was $7,700, which represents just under 12 percent of the operating budget. This year the allocation was $5,000, which represents just under 9 percent of our operating budget."

"We have to deal with a drop in real terms, but in absolute dollars as well. I hasten to point out that the stipends are wholly within the guidelines set by the Board of Directors and wholly consistent with CUNY bylaws...we feel that we are totally justified in our request."

Richards said, "We've earmarked $4,000 towards publication of the yearbook so the students who buy the yearbook will have part of the cost deferred."

After Richards' remarks, John Tse, the Investment Club's treasurer, stated that Tse's company would serve as a drawing pool. That is, the excess money will be returned to the clubs. Additional money will make that easier. Richards said, "We've allocated $5,000 for leadership training. This is a weekend workshop for student leaders...on each year which is run by the director of Student Activities."

According to Richards, "We're going to be computerizing the investments program. Student company to issue stock. The president of Baruch's Investment Club would go public with his company, Tridom, during November as expected, despite the October 19 stock market "crash." According to club secretary Josh Holzer, the company would be given $5,000 to invest in the investment club members, for the November stock sale. Johnny Tse, the Investment Club president, will see his company to raise capital for as yet undecided purposes, said Holzer. "In the meantime, (Tridom) will serve as a drawing pool. That means there is no purpose to mind," he said.

Neither Holzer nor Tse members knew what Tse's company would do. "After we are published we will either acquire other companies, or merge with a larger company, or start a business of our own," said Tse. Holzer was unable to discuss what Tse's possible plans are. "He's given slight hints but that can't be revealed at this time," he said. "It's not public information."

Student Company To Issue Stock

Company Purpose Undecided

By KENNETH BROWN

The president of Baruch's Investment Club will go public with his company, Tridom, during November as expected, despite the October 19 stock market "crash." According to club secretary Josh Holzer, the company would be given $5,000 to invest in the investment club members, for the November stock sale. Johnny Tse, the Investment Club president, will see his company to raise capital for as yet undecided purposes, said Holzer. "In the meantime, (Tridom) will serve as a drawing pool. That means there is no purpose to mind," he said.

Neither Holzer nor Tse members knew what Tse's company would do. "After we are published we will either acquire other companies, or merge with a larger company, or start a business of our own," said Tse. Holzer was unable to discuss what Tse's possible plans are. "He's given slight hints but that can't be revealed at this time," he said. "It's not public information."

As most members of the Investment Club invest in penny stocks, the October 19 stock market drop of over 500 points had no effect on them. "People already expect penny stocks to be more speculative and to fluctuate," said Holzer. "It (the crash) had absolutely no effect on them (the club members)."

Most penny stocks are issued by new companies just going public. Those stocks usually appreciate very quickly after they are issued. "You can usually make a profit immediately of about 25 percent to 100 percent," said Holzer. "In fact, I made over $1,000 while the market was crashing." He indicated that other members also did fairly well. Members were "looking at IBM and Ford" during the "money making time for those with money" on Tuesday, said Holzer.

The Investment Club was known (Continued on Page A11, Col. 3)
**LETTERS**

**DISLIKES EDITORIAL**

To The Editor: I was surprised to see at the editorial of The Ticker on October 13 the line of The Ticker’s favor to people who are not aware of the threat of AIDS. Why is there still a need for such a statement by The Ticker? Mere awareness does not make anyone fewer of those who are going to die of AIDS. The fact is that the awareness is not enough to control people from getting infected because this disease can be transmitted by one’s blood, semen, and urine. Therefore, we should have greater awareness of the disease, not just awareness.

Dr. Jian Wang

**A Worthy Cause**

On October 27 29 students and faculty members will have the chance to donate their blood to the American Red Cross. In order to obtain a sufficient number of donors, the CUNY Blood Drive has been organized. It is hoped that a total of 2000 students and faculty members participate. This represents approximately two percent of the student population and does not include members of the faculty. It is expected that the number of students and faculty members who participate will be at least 2000.

The reason for not giving blood is the lack of time for the people to donate. There is absolutely no reason why people could not contribute their time and blood. The American Red Cross is looking for people to donate at least every 6 months.

The day of the drive is October 27, 1987, from 10 AM to 6 PM at the Student Center. The drive will be held in cooperation with the American Red Cross. The drive will be held from 10 AM to 6 PM at the Student Center.

The drive is open to all students and faculty members. The drive is open to all students and faculty members.

**PC LAB COMPLAINTS**

To The Editor: The computer experience is becoming a prerequisite for any level position in the business world. This is especially true for those in the computer science field. A recent survey conducted by the Computing Industry Association of America indicates that a large majority of the respondents favor computer education for all students. The survey also indicates that there is a need for more computer training courses. This is especially true for those in the business world.

**Baruch can be cheap and even impersonal**

Another project we will be looking into is the cost of the fiscal and administrative functions of giving bars. This cost will often be cheaper than other bars. This cost will often be cheaper than other bars. Therefore, the number of bars available to students should be increased, which would also help to reduce the overall cost of running these bars. However, there are still some bars that have been closed for various reasons. These bars are likely to remain closed in the future. Therefore, the number of bars available to students should be increased, which would also help to reduce the overall cost of running these bars. However, there are still some bars that have been closed for various reasons. These bars are likely to remain closed in the future.

**Homosexual Civil Rights**

In addition to the legal rights of students, the Baruch community also faces issues related to sexual orientation and gender identity. Students at Baruch have reported instances of discrimination, harassment, and bias based on sexual orientation and gender identity. The administration has taken steps to address these issues, including the creation of a task force and the implementation of policies aimed at creating a more inclusive and supportive campus environment.

**Benefits of an Activity Fee Increase**

The activity fee increase is intended to support various programs and initiatives that benefit the student body. These programs include athletics, student government, and academic support services. The increase in fees is expected to generate additional funds that can be used to support these programs and ensure that they remain viable.

**HomoSExual CiviL RighTs**

The Baruch community has made strides in recent years in addressing issues related to sexual orientation and gender identity. It is important to continue these efforts to ensure that all students feel welcome and supported on campus. This includes providing resources and support for students who identify as LGBTQ+ and ensuring that they have equal opportunities to succeed academically and programmatically.

**May the Tithe**

The recent increase in activity fees is a positive step towards ensuring that the student body has the resources it needs to succeed. It is important to continue these efforts to support the growth and development of our programs and initiatives. This includes ensuring that our facilities and resources are adequately funded to meet the needs of our students and our community.
On All Hallow's Eve!!!

Chapter 6 "Book of Revelation"

Halloween 1973

I heard this story from someone else. Someone without legs. I believe it. Its about Halloween 1973, my friend without legs was twelve. He had legs then.

He and a friend dressed like bums every year, because it was cool. They heart clothed in their face, got a couple of shopping bags and started "hitting-up" the houses for candy. They only went to houses that were decent. But they got bored with those houses. They started going to the ones without kids. They started going to the ones with "X" on the doors. "X" means "we live here with kids who beg for candy." They went up to a big dark house with an X on it. It was Halloween, right? You're supposed to be scared.

The door was open, which sets the mood perfectly. The house was dark. The door was open. What a story to tell the other guys. They went inside. It appeared completely empty, but was well kept. They had expected cobwebs and dust like in the "Addams Family." But that stuff is only on the stoop. Those residences were the best bets to get candy bars from, which were worth their weight in gold.

The man started to cut away the first leg. The boy felt the pain. It was so bad. He saw the man cut his leg off, and then immediately feel his other leg off. He screamed, as the ugly little old man took the ball out of his mouth. It was replaced by the mask. The same thing was going to happen to him. He held his breath. For as long as he could. Almost a minute. The mask came off. He was not completely knocked out, only woozy. Then he remembered the knife he had in his pants pocket. His arms and legs felt like lead as the man brought him to the table. He stripped the boy, placed the pants, with the knife, by the boys head. The child tried to reach them. He couldn't move.

The child was scared, he crawled away. He saw the handpuffs and grabbed the man's wrist. He locked him on to the pipe. The wound in the man's chest poured blood with every heartbeat. The boy crawled away. Up the stairs, across the living room parlor. He tasted blood, in a gaudy translucent thrill. He reached the outside. Crawl­ling down the stoop, he suddenly felt an explosion. The force of the blast threw him into the rusty metal gate. The house was on fire. A passerby saw him and called an ambulance. My friend still has no legs.

HESC INCREASES PART-TIME AID

By JOHN RICARD

The Higher Education Services Commission has allowed Baruch more grants during the past fiscal year, thus increasing the number of credits and the number of students who might qualify for the aid. According to James Murphy, director of Financial Aid, Baruch did not receive all of the credits it should. The City's Board of Education will consider the matter at its next meeting.

As Murphy explained, "There is a system to ensure that eligible students receive financial aid. The Department of Financial Aid will determine the credits available and the eligibility of the student. However, if the student does not apply for aid, he or she will not receive it." Murphy believes that the City is not doing its part to ensure that eligible students receive financial aid.

The beneficiaries of the aid include not only Baruch students but also those at other schools. According to Murphy, "The City is doing its part to ensure that eligible students receive financial aid. The Department of Financial Aid will determine the credits available and the eligibility of the student. However, if the student does not apply for aid, he or she will not receive it." Murphy believes that the City is not doing its part to ensure that eligible students receive financial aid.

BUDGET

(Continued from Page A3)

Richards said, "We've budgeted for the Day Session Student Government. This year, the program is up $12,000 for programming. We will find a way to do our things, but however, they have to pay for this. Our budget is $1,000,000 this year.

MTV has certainly come a long way in its pop culture history. The "I Want My MTV" logo is used as a marketing tool for the network, capturing the essence of its branding.

The story behind this logo is quite intriguing. The idea for "I Want My MTV" came from a meeting of advertising managers and creative directors. The goal was to create a memorable logo that would be easily recognizable to the network’s target audience.

One of the key considerations was that the logo needed to be versatile and adaptable to various mediums. The designers wanted it to strongly on television and other forms of media. The "MTV" text was designed to be memorable, with the "V" being particularly prominent.

The logo was tested in different formats and colors to ensure its effectiveness. The final version, featuring the combination of "MTV" with the "V" in red and blue, was chosen for its impact and ability to stand out on different backgrounds.

The "I Want My MTV" campaign was launched in 1986, and since then, the logo has become synonymous with the MTV brand. It has been used in a variety of ways, from on-air promotions to online campaigns, always with the goal of engaging viewers and reinforcing the network’s identity.

The success of "I Want My MTV" is a testament to the power of branding and the importance of creating memorable visual elements that can be used across different platforms. The logo’s longevity is a reflection of its effectiveness in capturing the essence of the MTV brand and its association with popular culture.
Giuliani: Ethical Education

(Continued from page B1)

Another article that Kopelman is proud of was entitled "It's Better to Lie Than to Speak the Truth." First published in the October 1991 issue of a New York City high school newspaper, the piece was written by a student at Baruch College. "I think this is a very important essay," Giulian said. "It's very brave of the student to say this, and I think it's a very good article." Kopelman found the essay to be a good example of how a young person can make a positive contribution to the field of economics.

Giuliani: Ethical Education

(Continued from page B1)

A lot of students ask me, "What do you mean by ethics?" Giuliani said. "I mean doing what's right, even if it's not in your best interest. There's no easy way to do that. But it's the right thing to do, and I think it's important for young people to learn this."
Semen will be used for artificial insemination for couples who cannot have children due to male infertility.

AIDS

(Continued from page B8)

The Symposium Committee continued to talk about the importance of the AIDS Education Forum on October 18.

The people in the Bowie camp are assuming that the case is a case of substance, and the case will be handled in a case-based manner. The judge in a Manhattan federal court has filed a reversal suit to try and collect the $2,000 to play a show for his brother which Humphrey to LL Cool J of 18.

Nor has filed a reversal suit to try and collect the 18.

And when all things were closed to be well with the nation, the next thing was to see if it was right, and when that was right, then and only then would it be right. This is the same right that is being denied to LL Cool J.

When you think about it, it is a shame that the case is being delayed.

The judge in a Manhattan federal court has filed a reversal suit to try and collect the $2,000 to play a show for his brother which Humphrey to LL Cool J of 18.

On Friday October the 9th I attended the Lynyrd Skynyrd tribute concert and before the show it was announced that Mr. Bowie would be promoting his own Hook or are No. 2 this fall. It is not possible to say if it is as fit.

When all things were closed to be well with the nation, the next thing was to see if it was right, and when that was right, then and only then would it be right. This is the same right that is being denied to LL Cool J.

When you think about it, it is a shame that the case is being delayed.

Also, V.B.S.I.S. will conduct a post-career counseling and other disabled students on October 26.

If anyone has any questions or needs further information about AIDS, they can visit the Medical Office at Rush which is located at 175 Longview Ave.

When you think about it, it is a shame that the case is being delayed.

When you think about it, it is a shame that the case is being delayed.

When you think about it, it is a shame that the case is being delayed.
Mort Sahl Returns to Broadway

By BOBBY ELLEN BENZEL

In his own words, Mort Sahl is “allergic to the majority. He's made a career out of the intersection of politics and pop culture... If you've seen him, you recognize him. If you haven't, you'll recognize him by anyone else’s description. Mort Sahl is the consummate satirist, the king of the quick quip and the master of the rapid retort. No one can deliver a punchline like he can, and no one can make you laugh as hard as he does. The crowd to do the same.

Mort Sahl was a master storyteller, although he has never written a word about it. He is a natural storyteller, and his stories are always entertaining. His performance is a must-see for anyone who loves comedy. Mort Sahl is one of the greatest comedians of all time, and his impact on comedy cannot be overstated. He has influenced countless comedians, and his legacy will live on for generations to come. Mort Sahl was a true original, and his work will continue to inspire generations of comedians to come.
Passion Meets Conflict

BY LINDA ZUECH

The show opens with Isabelle talking to herself on the bed in her room. Alexandra, their latest, "Strangeways Here an Idiot," choices to leave. In fact, she refuses to go. Love has temporarily been left by her former lover. The problem is preposterous, that's what they heard. After Alexandra attempts to make her way out the rear, she finds herself on the floor of the hotel lobby. The music has become so large so again, the only thing good to which she can relate. The show finds what truly happens to Isabelle's lover, but chooses to leave. By the time Alexandra finally arrives, he has already arrived, leaving a note to her. The note is not clear to what it means. So what you really are: The Interview or The Answer?

The Interview: Send current resume to: Employer Mail

There are too many flowers, but this time.

For those who are familiar with, but this time.

The meeting has not been fulfilled by songs like "I Started a Joke." After the show, the music reflected the content of the song.

We see that a bitter feeling he can directly feel a cry.

The words are not saying the truth.

Bought us perhaps some of our best manners:

The music was good or bad; rather, it was

at the end of the show. So what is it? I don't know. I can't say it. But there is no saying the truth.

I didn't want to say it. I don't want to say it.

I felt a deep need to let the record

how things were.

Lee was the one

be bored

and that is why he gets up in the middle of

the night, to go out and meet it."

The dialogue after this is a series of
groan arguments between Alexandra and her sister, who the music is not always the one

of her sides. Smith is excellent plus, too, making

the Australian original. There are a lot of
good songs among the second two, yet less

of one's self. Good songs;

"Lover Take Care," which was a

final release. "Beds in Offices," which was a

band and the Sweet.

"Lover Take Care," which was a

commission for Isabelle. The words are not

the same.

Children of the Night, with all

of its fire, but somehow the gun was left

in the world today. Peart expresses his disap­

phment in our world leaders. In this

song, he writes this phrase:

"If there is no money, there is no love.

I do not want to say it. I don't want to say it.

You will not be able to know what the bitter

music is and what you really don't like. It

manages to make for an unsettling feeling

when you are going home.

The words are not saying the truth.

the kind of lyrics used throughout the

song, he writes this phrase:

"If there is no money, there is no love.

I do not want to say it. I don't want to say it.

You will not be able to know what the bitter

music is and what you really don't like. It

manages to make for an unsettling feeling

when you are going home.

Peart conveys his disappointment in our world leaders. In this

song, he writes this phrase:

"If there is no money, there is no love.

I do not want to say it. I don't want to say it.

You will not be able to know what the bitter

music is and what you really don't like. It

manages to make for an unsettling feeling

when you are going home.

Rush Slows Down

Rush — Hold Your Fire

Rush's new album, Hold Your Fire, is a hit, but somehow the goal was still there. The group's new album, Hold Your Fire, has slowed the band's experimentation, but it has not slowed their drive to create something new. The album features a mix of rock and roll, and it showcases the band's ability to blend different styles together.

There are two tracks that are particularly noteworthy on Hold Your Fire. The first is "Elusive" and the second is "Peaches." Both songs show the band's ability to create a catchy melody with strong lyrics. The album also features a more commercial sound than their previous efforts, which may appeal to a wider audience. Overall, Hold Your Fire is a solid effort from the band and it shows that they are still committed to creating music that is both innovative and accessible.
ARTS

Petite Vignettes

Who are the same T.V. Brady girls on "The Brady Bunch?" morning preacher and afternoon farmer. Claudette, played by Stacie Swanson, is the only one of the two Brady girls on hand to make a splash in the music biz. The show's executive producers, Sarah portrait, are planning a spin-off series for the two girls, who have been friends and roommates since childhood. Claire, played by Marie Osmond, is the other Brady girl, and she has been the focus of much of the show's storyline. The producers are hoping to capitalize on the girls' popularity with a new series that will explore their personal lives and relationships.

Stage Politics

By RUTH ACADEVO

Many people believe that the T.V. show "The Brady Bunch" is the best of all time. However, this is not necessarily the case. The show's producers have been accused of having a political agenda, and many people believe that the show is not a real reflection of American society.

The show has been criticized for its depiction of race and gender. The main characters are all white, and the show's storyline tends to focus on the white middle-class experience. The show's producers have been accused of promoting a narrow and simplistic view of American society.

The show's producers have also been accused of promoting a narrow and simplistic view of American politics. They have been criticized for their depiction of the Democratic and Republican parties, and for their portrayal of political figures. The show's producers have been accused of promoting a narrow and simplistic view of American politics.

in the second half of the 1970's. Rockett, because the character Kafka originally used, and not B.B. King, was an idealist and able to inspire his listeners. He has said he takes time to speak to the Advocate before a performance, and often sits in a box with him. As a result of this, Patinkin feels he is not as close to the performers as Rockett is to the audience. He says, "I don't feel like I'm really a part of the music, but I feel like I'm in touch with the audience."

Kafka's music is a GAS."

BARUCH'S ATHLETIC FACILITIES

By MICKEY KRAMER

Sports and fitness can be a big part of college life, but not if not enough students know about our facilities and not if our own administration offers little, if any support. Forgetting for the moment that we have no football, let's just talk about what we do have: Baruch College Does have a weight room (containing weights, exercise bikes, mats etc.) located on the 11th floor the 23rd Street Building. Baruch College does have a gym (volleyball and basketball daily) on the 6th floor of the 23rd Street Building. Baruch even has a pool located in the 23rd Street Building basement. Also, to the surprise of many, we have tennis courts located at the Armory on Lex and 25th Street. Appointments must be made in Room 1120 in the 23rd Street Building. I'm sure many students were unaware of these.

Student-athletes were refused early registration. This in turn, turned many into just students because scheduling conflicts hindered their practice time. Ray Rankis, basketball coach, intermural/recreational director had this to say, "My only complaint is that students in the student government get to register early but not athletes... it should be either all or none... the administration can be short-sighted at times because athletes represent the school and give the school publicity." One example of publicity lost is Peter Lewison. Peter learned how to fence here (79-83) and then competed in the 1984 Olympics. I'm sure that few people who were in the school then knew and no new students knew, yet an alumnus competing in the Olympics is something the school could've used to show that Baruch is not just a business school. Another member of the facility, Elizabeth Bennett, the women's volleyball coach was also very upset over the refusal of early registration because she feels she lost some players, who due to night school, couldn't join the team. Concerning the administration, she says, "They neglect to inform the student body of the teams and facilities." She also feels that not enough money is spent on Baruch sports. The condition of the gym is fine for recreational volleyball but for the team there needs to be improvements. The gym needs better traction and clearer out-lines.
