Students' Tuition Paid Out of PELL

By Caitlin Mollison

Students who receive Tuition Assistance Program grants as well as Pell grants, paid the $625 Baruch tuition out of their Pell grants this semester. Normally, TAP would cover the tuition cost, but because application problems these students may have to wait several more months to receive the remainder of their Pell money.

"They took $625 out of my Pell for tuition," said Eve Acosta, a lower junior and a Search for Education, Elevation and Knowledge student. They gave me a check for $230 instead of $855," Acosta discovered this when she received her Pell check on Monday, November 9.

James Murphy, director of financial aid, said that students who had money taken from their Pell to cover tuition cost either made an error on their applications or did not file on time. "Less than one percent of the students filed on time," he said. Errors, he stated, included a missing social security number, a missing type of income tax form used by their parents, or the income listed in the wrong place. According to Murphy, if an error was found on an application, the student

NOT EXACTLY CAIRO

To The Editor:

Those of us who have been engaged in the war against terrorism have often heard that "there aren't any frogs," absence of the real terror. However, the real terror is present, and it is evident to all. The U.S.展厅 war is not only a war against terrorism, but also a war against the people of the Middle East. The U.S. military is not only protecting the people, but also destroying their homes and villages. The U.S. military is not only fighting terrorism, but also fighting the poor.

CAMPUS CAPERS

...AND THE MIRROR CRACK'D?

The Ticker would like to welcome you to the fall season. With the addition of several new faces at the school and the excitement of living on campus, one might forget to think of the problems that sometimes arise at school. Of course, I don't want to sound too alarmist about it, but in this particular location, there are a few issues that often come up, like the need for more transportation, the lack of space in the dorms, and the local traffic situation had a constant state of despair. The Student Magazine in America is the worst thing we were covering. If you have any questions or concerns, please let me know and I will do my best to address them.

CONTRA-VERSIAL

Political lunches at 10/1 Villa Julie College (Mt. i'm not sure what the exact purpose of these lunches is, but I'm sure it's some sort of social event. I am supposed to meet with the speaker and the Chairperson of the event to discuss the nature of the government. The freshmen will be asked to make a presentation on the government, and the student from Busch will be called to the microphone to discuss his beliefs. The Freshman speaker should make a presentation on the government, and the student from Busch will be called to the microphone to discuss his beliefs.

NO-LANDING EXCEPT SUNDAYS

Students regularly land on the Washington University campus when they are to leave school. In addition to the usual students, life on campus continues to be a work of art. The Freshman speaker should make a presentation on the government, and the student from Busch will be called to the microphone to discuss his beliefs.

Blood Drive Turnout Is Second To Record

By JACQUELINE MILLER

The Fall 1987 Blood Drive had the second largest turnout in the past five years since the Greater New York Blood Service began keeping records in 1977. The number of registered donors was 3,506, almost twice the number in 1986, when 1,800 gave blood. The other potential donors, however, were deferred due to various reasons.

Aylman, the Director of the Student Activities, commented extensively on the blood drive.

The program was in Fall 1986, when 299 out of 286 gave blood. The number of donors is up again, but colder weather has slowed down participation. There are always more donors than the norms in the Spring, possibly because there is more money, and the program is less. Aylman commented that donation times very little physical stamina. The entire process lasts about two hours. Blood donors register, are pre-tested, and if you pass, then blood and then the test. The actual time of donation is only 15-20 minutes. A general blood donor may be deferred to another time for many medical reasons, ranging from treatable conditions to serious issues from a medical history.

Once the Greater New York Blood Service, an organization affiliated with the Red Cross, has collected the blood, the donations undergo several steps before they are ready for acceptance by patients. Uninfected blood is then separated into different components that can help up to five people. Red cells are used to treat anemia and bleeding. White cells and plasma are used to leukemia patients. Plasma is part of the tissues for blood transfusions. Platelets are used to treat patients with cancer or internal bleeding. Components are administered to hemophiliacs.

A school blood drive division is an "infusing experience." The remark that "It's a very good experience," she noted, "not only will help someone and probably save their lives."

In Memoriam

Bertrand Crane, Associate Professor of English and a member of the faculty for the past 32 years, died of heart failure Friday, October 2, at the University Hospital in Burlington. He had been preparing to return to Burlington to teach in October. Professor Crane was a popular teacher of drama and was well known for his knowledge of drama and his ability to communicate it.

"In the classroom, Bertrand was a compassionate teacher of drama-and a fine critic. And those few of us who knew him best knew that he could write with insight, originality, and style. He had a master's quality and intelligence, and was always ready to help."

The students usually get them the week before registration and are given the rosters. The refunds will usually be received before Christmastime. In any case, we hope to have this problem corrected as soon as possible. The students usually get them the week before registration and are given the rosters. Will greater, local coverage be the answer?

RADIO MARKET'S CHALLENGE

By JOHN GECCO

BUYING POWER

Boastfully many years ago was a day of poetry for thousands with a vested interest in the stock market. But when all had been met with the collapse of Oct. 19, 1929, the Wall Street market has been a different beast ever since. Now it is in the hands of a different breed of Wall Streeters, a breed that is able to weather any storm.

The first of the new breed is Ed Kiernan, who was appointed the vice-president of programming for WPIX, owned by New York's Channel 11. Kiernan, who has been with the network for a year and a half, is well known to the public for his wit, humor, and often his controversial views.

Kiernan's appointment was made by Jack Stahl, the president of Channel 11, who said, "Kiernan is the right man for the job. He has the vision, the drive, and the experience to take WPIX to the next level." Kiernan will be responsible for all programming decisions at WPIX, including news, sports, and entertainment.

Before joining Channel 11, Kiernan was the program director for WINS, where he was responsible for the programming of the all-news station.

Kiernan's appointment comes as Channel 11 prepares to celebrate its 25th anniversary. The network has had its share of ups and downs over the years, but Kiernan is confident that he can help the station reach new heights.

Kiernan's philosophy is based on the idea that local programming is key. He believes that local programming can attract a wider audience and that it can also help to strengthen the station's relationship with the community.

Kiernan's appointment is expected to be a major boost for Channel 11. The network has struggled in recent years, and Kiernan is expected to help the station turn things around.

Kiernan's appointment is also expected to have a positive impact on the entire radio market. Kiernan is a well-known figure in the radio industry, and his appointment is likely to be seen as a sign of things to come.

Kiernan is expected to be a major force in the radio industry for years to come. His appointment is a sign of the times, as local programming becomes more and more important in the world of radio.

The Business of Lunch

Lunch can be a stressful time for anyone. Whether you're a students, a workers, or even a business owner, lunch can be a time of stress and frustration.

This week, we're going to explore some of the common stressors that can arise during lunchtime, and how to deal with them.

- Stress from work: It's easy to get caught up in the hustle and bustle of work, and let stress pile up during lunchtime. If you're feeling overwhelmed, try taking a short break or engaging in some form of relaxation, such as deep breathing or meditation.

- Stress from family: If you're a parent, you may be juggling work and family responsibilities during lunchtime. Try to set aside some time for yourself, even if it's just a few minutes, to recharge and reset.

- Stress from social situations: Lunchtime can be a time of social stress, whether you're navigating new workplace friendships or dealing with awkward social situations. Try to focus on the positive aspects of your relationships and let the negative slide.

We will try not to "out WINS"

"Out WINS" is a popular phrase among radio listeners, who use it to express their disdain for WINS, a local all-news station in New York City.

The phrase has become synonymous with the station's programming, which is known for its conservative views and its tendency to play music from the 1960s and 1970s.

While some listeners enjoy the station's programming, others find it frustrating and have taken to calling it "out WINS." The phrase has become a way for them to express their frustration with the station's programming.

In an effort to combat the phrase, WINS has made efforts to diversify its programming and to attract a wider audience. However, the phrase has stuck and continues to be used by listeners.

The phrase has also been used by other local stations as a way to express their disdain for WINS.

In conclusion, "out WINS" is a popular phrase among radio listeners who find WINS' programming frustrating. While the station has made efforts to diversify its programming, the phrase continues to be used by listeners as a way to express their frustration.

Postmodernism in Architecture:

By Kenneth Brown

We love to label those glass windows without personalities. Turn them Cindy down and they can be interchangeable from each other. Also, the same can be said of their rooftops.

But walk back out the buildings. You see the AT&T Building with its "Chippendale" roof and masonry facade. The stair and windows, evoking the renaissance style, are only one of the 250,000 glass and steel buildings that can be found in Europe today. This art style is a result of the 20th-century technology and architecture.

Due to Industrial Revolution, modern building, such as steel, that is used to span the space and provide comfortable conditions for the environment. Architectural historians have embraced this art style.

Aesthetics of Modernism: Contemporary Influence

An exhibition at the IBM Gallery of Science and Art, exploring the new trends in architecture that began to blossom in the early 1970s.

Postmodernism is the term away from the cold, impersonal abstraction of the modern style of architecture. Postmodern architecture is based on the idea that the city contains many different styles and influences. It is an integrated approach that modernism is the outgrowth of.

In a way, the modern style of architecture is a reaction to the cold, impersonal abstraction of the modern style of architecture. Postmodernism is the new style that is integrated approach that modernism is the outgrowth of.

In a way, the modern style of architecture is a reaction to the cold, impersonal abstraction of the modern style of architecture. Postmodernism is the new style that is integrated approach that modernism is the outgrowth of.
Filipino Film Society presents “Memories of Underdevelopment”

Filipino Film Society is sponsoring an all-day screening of “Memories of Underdevelopment,” the 1969 film by the Argentine director Luis Puenzo. The screening will be held at the Charles Lounge, Medicaud Hall, 3rd Street between 5th and 6th Avenues, on Saturday, November 19 from 10:00 a.m. to 6:00 p.m. The films will be followed by discussions with Prof. Mark Wilson, Joseph Bata, and Mike Gallo. A reception will be held immediately afterward at the Medicaud Hall, 5th Avenue, and a reception will be held afterward at the Charles Lounge, Medicaud Hall, 3rd Street between 5th and 6th Avenues.

Spending Crowds the Budget

Trend not defensive of U.S. industry

By PHILIP DABRAGH

By PHILIP DABRAGH

Debating or taking down the dollar seems to be the Reagan administration’s solution to America’s huge trade deficit. As the dollar has depreciated, the value of imports has increased, and the cost of exports has decreased, so we tend to be well made.” In the Review, because course is non-cancelable. The decline of the dollar’s value won’t help the trade deficit because it doesn’t increase the competitiveness of goods made on a defense basis. By piling on the pressure, the government is putting more and more pressure on the dollar. The decline of the dollar is important because it sets the standard for the competitiveness of American goods and services, and we can’t afford to compete with the Japanese.

The decline of the dollar against other currencies, especially the yen, is not going to help the trade deficit. Last year the dollar was strong against the yen, and we had a trade deficit. The Japanese are buying our goods, and we are buying their goods. Now the dollar is strong against the yen, and we are having a trade deficit.

The decline of the dollar is important because it sets the standard for the competitiveness of American goods and services, and we can’t afford to compete with the Japanese.

If the dollar continues to decline, we may have to increase our exports and decrease our imports. This means that we may have to reduce our imports and increase our exports. This means that we may have to reduce our imports and increase our exports.

The decline of the dollar is important because it sets the standard for the competitiveness of American goods and services, and we can’t afford to compete with the Japanese.

The decline of the dollar is important because it sets the standard for the competitiveness of American goods and services, and we can’t afford to compete with the Japanese.

CAREER DAY A SUCCESS

St. John's Record

On October 22, students were eagerly preparing for the annual Career Day, a tradition at St. John's University. The day was designed to be an opportunity for students to explore various career paths and gain insight into potential future professions.

Some highlights of the day included a diverse array of workshops and presentations. Students had the chance to learn about industries ranging from healthcare to technology to finance. The event was organized by the Career Services Office, and it was clear that the efforts were paying off.

The Career Services Office is well-regarded for their dedication to helping students. They are always looking for new ways to support students and help them find the right careers.

As the day drew to a close, students left the event feeling inspired and ready to take on new challenges in their academic and professional journeys.

Plaza for the dorm. A trip. Tickets to a concert. They're all possible with the savings you'll get with this special student discount on memberships to some of the most popular gyms in the area.

Give it a try! You won't be disappointed.

---

Alyssa Domenich

---

The Library's database has "Casebook," a book that contains articles written by students who have been accepted to law school. "We don't want our students going into a law school if they're not prepared," said a representative of the Career Services Office. "Instead, we want them to go to a law school that they'll be successful in.

The ability to communicate when in fact it's necessary is key. It's about being able to "get things done". As a law student, you're likely to want to "get things done" with efficiency and effectiveness. To do this, you'll need to be able to communicate effectively.

Some topics that were covered at the event included:

- The importance of communication in the workplace
- Tips for effective communication
- The impact of communication on career success

At the end of the day, students were confident and ready to face the challenges of their future careers.

Mikes's Squeeze

A New Squeeze

Squeeze - Back on the Scene

It seems that when you mention things like band reunions or tours, people get excited. It's the same story with Mike's Squeeze. They're back on the scene, and it's great news for fans of this iconic band.

The band has announced their reunion and the release of a new album. This news has fans all over the country buzzing. Mike's Squeeze is known for their unique sound and their ability to bring people together through their music.

The new album is expected to be released in the near future. Fans can look forward to hearing new songs and old favorites alike. The band has promised their fans a return to form, and they're delivering on that promise.

In addition to their album release, Mike's Squeeze is planning a tour. Fans can look forward to seeing them live and hearing their music in person. The tour will take them across the country, stopping at venues in major cities.

So, get ready to welcome Mike's Squeeze back to the scene! This is one reunion you won't want to miss.
Springsteen Through The Tunnel of Love

By GARY BORELLI

I get a heavy feel of Reckless and prison-inspired. And all the little girls that wear their hair with the center part and the smooth, shiny tail. Won't you let me hold them for a minute or two. Through the Tunnel of Love. Bruce Springsteen's new album, his first for Casablanca, is his first release on a new label. The Tunnel Of Love is his first collection of new music to reach the record stores in over three years. Since 1984, Springsteen changed from a popular rock and roll figure to a magazine, and his most recent work was a collection of live concert sets. In this new album, Bruce Springsteen has returned to the rock and roll style of his earlier work, with a focus on storytelling and social commentary. The album is a personal reflection of his life, death or glory, and his passion for music. Bruce Springsteen's popularity can be traced back to his role in the Beatles, the band that made him famous. He was also part of the Rolling Stones, and played on the Beach Boys' hit album. Springsteen's songs often deal with issues of love, loss, and redemption. His music speaks directly to the listener, offering a sense of hope and renewal. Bruce Springsteen's music is deeply rooted in the American folk tradition, and his songs often revolve around themes of love, loss, and redemption. His music speaks directly to the listener, offering a sense of hope and renewal. Bruce Springsteen's music is deeply rooted in the American folk tradition, and his songs often revolve around themes of love, loss, and redemption. Yuppy High

By GLEN I. SPENCER

There are really good movies, and really bad movies. There are those that fall somewhere in between. And then there are the ones that you know are really bad before you even see them. The difference is usually the result of one or two of these criteria. I think.

So I saw the movie, as you may know, with some trepidation. Sweden is the middle and the really good movies, and the really bad movies, and usually somewhere in between. I've seen enough of them to get a sense of what to expect. I've seen a lot of them.

I was really surprised. Not necessarily in a good way, but I was surprised. And I hope that you will be as well.

The movie is called "Mr. Mister." It's a story about a group of young people who are trying to make it in the music business. They are called the "Mr. Mister" band, and they are really good at it.

They have a lot of talent, and they work hard. They are determined to make it big, and they are willing to do whatever it takes to get there. They are not afraid of hard work, and they are not afraid of failure.

The movie is about their struggles, and their dreams, and their successes. It's about their relationships with each other, and with their families. It's about their relationships with the music business, and with the fans.

The movie is about their journey, and their growth. It's about their triumphs, and their failures. It's about their dreams, and their desires.

It's about their lives, and their loves.

Easy Success

By GARY ROBBINS

Mister music has not only the international leverage with their 1981 release, "Welcome To The Real World," that turned the brand into a "hot" recording act, but it also has the potential of an "album of the year." This band, which has been identified as a "group of interest," has managed to attract a group of fans that is growing in Great Britain and the United States.

Mr. Mister has released four albums in recent years, and each has been a success. Their latest album, "Welcome To The Real World," has been praised for its "catchy" and "uplifting" songs.

The band consists of four members: Michael, Jon, Kevin, and Richard. They have been together for over 10 years, and they have a strong connection.

Mr. Mister has been described as a "powerful" band, and they have been praised for their "dynamic" and "inventive" music. They are known for their "catchy" and "uplifting" songs, and they have been praised for their "dynamic" and "inventive" music.

Dianno's Comeback
Barthalone - Children of Madonna

It wasn't so long ago that Paul Dianno was a no-name batting average. His lifetime mark was a paltry 249. But last season, he became a household name for a brief moment in time. Dianno's 

Barthalone's "Children of Madonna"

of the New York Yankees, spent almost a year on the disabled list and never returned to the starting lineup. He replaced Dianno in the lineup.

Barthalone's 

city scout. But then again, neither did they start with a silver spoon in their mouths.

Barthalone's 

"Children of Madonna" are also known as 

A photo finish ended the best performance of the night and that was an exciting professional game. The Metropolitan area, the New York Yankees, New Jersey Devils, and the New York Islanders are competing in the Metropolitan area. The Patrick division will be an exciting one to watch this season. The New York Islanders are the Mets of the Eastern Conference. They are a strong commercial song that this exciting professional game.

Can Gretzky and Crew Recap the Cup?

By PETER DESMOND HOPKINS

The leaves are changing color. There is a nip in the air. The teams mean 2 things are on the way: midterms and the 1987-88 National Hockey League season. I cannot tell you anything about your midterms, but I'll try my best to give you a preview of what the fastest sport in the universe will look like this season.

PRINCE OF WALES CONFERENCE

Lester Patrick Division

1) Philadelphia Flyers (46-26-8, first place, Conference champions last season). This is a talented team that works hard. They can beat you any way you want. They can win a pure, solid game, a goon match, or a skating contest. A solid defense is led by Mark Howe and Tim Kerr will score all the big goals when they need them after he returns to the lineup from injury.

2) New York Islanders (35-33-12, third place, division finalist). The Isles are close. The addition of very young rookies gives this club a wonderful blend. Fat LaFontaine has taken over as the sniper, as Mike Bossy will miss the entire season with a back ailment. Expect LaFontaine to respond with about 50 goals. Denis Potvin is looking to make his last season one to remember. Bryan Trottier is ageless.

3) Washington Capitals (38-32-10, second place, lost in Round 1). The Caps are consistently inconsistent. They often look like they have little motivation. New goalie Clint Malarchuk will help. New goal Dave Hunter might surprise the club. The return of Bengt Gustafsson will provide goals. The bottom line is still that coach Bryan Murray's team does not work hard enough.

4) Pittsburgh Penguins (30-38-12, fifth place, missed playoffs). If Mario Lemieux stays healthy and goes into the playoffs. Every player on the team is a little bit better when he's on the ice. Front office made a mistake in letting coach Bob Berry go. Players needlessly have to get used to new coach Pierre Creame.

5) New Jersey Devils (29-45-6, last place, missed playoffs). Almost. The addition of Brendan Shanahan and the new tough-guy image, featuring Jim Korn make the Devils better than last year, but not quite good enough.

6) New York Rangers (34-38-8, fourth place, lost in Round 1). GM Phil Esposito has put together a group of players with lots of talent, but are they a team? The players don't really know how long they'll be with the team or where they're going next. A winning team must feel like they are a part of something common. There is no such feeling here. Playing musical coaches doesn't help either. (Michel Bergeron at press time).

Jack Adams Division

1) Hartford Whalers (43-30-7), first place, lost in Round 1). GM Emile Francis has built a powerhouse. This club is just about ready to make a serious run at the Flyers and Oilers. Led by snipers Captain Ron Francis, Sylvain Turgeon, and Kevin Dineen, there will be no shortage of goals. With Mike Liut in goal and a solid defense in front of him, the Whalers are a powerhouse.

2) Montreal Canadiens (41-29-10, second place, Conference finalist). Les Habs will get excellent goaltending every night from Patrick Roy and Brian Hayward. Coach Jean Perron gets the most out of his players. Veterans Larry Robinson (his final year?), Bob Gainey, and Bobby Smith provide as much savvy as you could want. Big years are needed from Claude Lemieux and Mats Naslund to challenge the Whalers.

3) Boston Bruins (39-34-7, third place, lost in Round 1). The B's will be solid, but not spectacular. The club must get some young blood into the lineup, which includes a few players past their primes. Goaltending is abundant. Ray Borque leads a hardnosed defense. The Bruins are not deep and must stay away from injuries to be successful.

4) Buffalo Sabres (28-44-8, last place, missed playoffs). The Sabres expect big things from top draft pick Pierre Turgeon. Coach Ted Sator, who inherited a team in complete disarray is patiently picking up the pieces. Some of the younger players should develop this year with the help of veterans.

5) Quebec Nordiques (31-30-10, fourth place, division final). The Nordiques are in for a tough year. Chaos looms over Quebec City with immense personnel changes, including trading away coach Michel Bergeron to the Rangers. Bergeron will be missed as a motivator. New Coach Andre Savard has no NHL coaching experience.

CLARENCE S. CAMPELL CONFERENCES

James Norris Division

1) Detroit Red Wings (34-30-10, second place, Conference finalist). The Wings are the best team in this pantheonic division. Featuring stars, young and old, Steve Yzerman, Shawn Burr, Gerard Gallant, Brent Ashton, and Petr Klima, this team is slowly developing and may win 40 games this year.

2) St. Louis Blues (32-33-15, first place, lost in Round 1). The Blues will be better this year. Doug Gilmour is still the offensive leader, but they picked up scorer Tony McKegney and Perry Turnbull over the summer. If Brian Sutter is back the Blues may challenge the Wings.

3) Toronto Maple Leafs (32-42-6, fourth place, division finalists). The Leafs can expect Wendel Clark and Steve Thomas to blossom. Defense is a little suspect. Goaltending is solid with Ken Wregget and Allan Bester.

4) Minnesota North Stars (30-40-10, 1st place, missed playoffs). The Stars are the most talented group of unmotivated players you can expect to find anywhere. This team should finish first, but it won't. Dino Cicarelli is the gunner. Maybe Herb Brooks will have some luck getting a decent effort out of these players.

5) Chicago Blackhawks (29-37-14, third place, lost in Round 1). The Hawks picked Mats Naslund to challenge the Whalers. Goaltending is solid as much savvy as you could want. Big years are needed from Claude Lemieux and Mats Naslund.

Conn Smythe Division

1) Edmonton Oilers (50-24-6, first place, Stanley Cup Champions). The Oilers will roll to the top once again. This team led by Wayne Gretzky and an assortment of offensive powerhouse can only stop themselves. They must beware of getting too emotionally involved with the Flames in the playoffs.

2) Winnipeg Jets (40-32-8, third place, division finalist). The Jets are a solid hockey team that could win 50 games. They feature Dale Hawerchuck, Paul MacLean, Thomas Steen, and Doug Smail. The tough defense includes Mario Marois, Jim Kyte, and Randy Carlyle. Pokey Red-dick and Daniel Berthaume are a pair of second-year goalies who looked outstanding as rookies.

3) Calgary Flames (46-31-2, second place, lost in Round 1). The Flames need a lot to be successful. Joey Mullen must score goals. Paul Reinhart must stay healthy. Lanny McDonald must return to form. Reggie Lemelin and Mike Vernon must provide excellent goaltending. New Coach Terry Clap will never match the emotional intensity of the departed Bob Johnson. The Flames are a big question mark.

4) Los Angeles Kings (31-41-8, fourth place, lost in Round 1). The Kings will be good enough to give the Flames a scare. The offense will have Bobby Carpenter, Luc Robitaille, and Bernie Nichols. Young players are expected to improve. Defense is led by Tom Lidahl.

5) Vancouver Canucks (29-43-8, last place, missed playoffs). This club is horrid. Tony Tanti and Petri Skriko continue to produce on a poor team. Goalie Richard Brodeur is 35 and there is no legitimate replacement in sight.

STANLEY CUP FINAL PREDICTION

The Oilers will beat the Whalers in 6 games.

Well, those are my predictions. Sorry, Ranger fans! Enjoy the season!
