College Shuts Down Elevator

By DIANE LEFPEK

The elevator in the Student Union was shut down for the entire third week of the semester, "It turned out to be a good time to renovate while we are having an intersection," stated Carl Ayham, director of Student Activities.

The renovation was supposed to be done last March, but due to contract problems it was delayed until now. Ayham said, "It was supposed to be done last spring but we had to reschedule until early fall. Now we get a call from Campus Planning saying the renovation will begin Nov. 27." At Zatorski of Campus Planning mentioned the delay was caused by contractual problems on when to start the renovation.

The elevator will be the same size because they will not be replacing the old one. To change the old shaft would take more time because they would have to change the structure of the entire wall that the elevator is in.

The new elevator will be faster than the old one due to new cables. It will also be finished in the same time as the stairs leading to the second floor, "It will give the Student Union a better look," said Zatorski.

Republican Elevator Company, who is repairing the elevator, noticed that the Sky Lift is broken, and advised Campus Planning that the Sky Lift should be repaired within the next two years or else the new elevator will be damaged. The Sky Lift will be temporarily repaired while the bid for a contractor is pending.

Zatorski said the bids on the replacement of the Sky Lift have been

Caricom Receives 9.4 Percent of Appeals Budget "Questionable Bias on Council"

By TONI COLAVITO

The Day Session Student Government approved 9.4 percent of the entire appeals budget for one special event for Club Caricom, according to Wilson Shum, vice president of the DSSG.

The Day Session Student Government approved 9.4 percent of the entire appeals budget for one special event for Club Caricom, according to Wilson Shum, vice president of the DSSG.

"The approval of $2325.50 for Club Caricom," said Shum, "will have a detrimental effect on other club events. Large club events that took place last year will have problems getting the proper funding this year."

He added, "The clubs that sponsor large events like the Black History Month, Hispanic Week, Asian Week, Japanese Week, Caribbean Week and Jewish Week might be forced to fundraise in order to keep projects alive."

The entire appeals budget for 1989 was $25,047. Bridgette Bowie, chairperson of the Appeals Committee, said, "I think it ($2325.50) was too much money for a club that size." Adding, " Clubs who are coming in for appeals are not making any effort to fundraise for anything. They are not being conscientious."

(Continued on Page A10)
Once again, the Campus Planning proves it cannot utilize its time efficiently. Rather than doing its maintenance work during the summer months when student traffic is at a minimum, Campus Planning continues to inconvenience students by working during the semester.

As with the cafeteria fiasco in which the entire fifth floor of 360 Park Ave. So. was shut down to students who paid to use it, Campus Planning now has pulled the cables on the elevator in the Student Center for 10-12 weeks.

Considering that this is the only elevator student are permitted to use, Campus Planning is obviously oblivious to the overwhelming number of students who have to carry food supplies two or three flights of stairs for their end of the semester holiday functions. Not to mention any disabled students who need to use the upper floors of the building. This Scrooge-like attitude toward Campus Planning would have been no Tim taking the stairs. Bah Humbug and a Merry Christmas to you Campus Planning.

FOND FAREWELL

The City University of New York is about to lose one of its finest champions in Dr. Joseph S. Murphy. Chancellor Murphy, who has held his present position since January 1975, will be returning to a teaching career at the Graduate Center. In a letter to CUNY Board of Trustees Chairman James McDonald, the chancellor said, "I've spent 25 years trying to change the world. it's time I tried to understand it."

Chancellor Murphy will most likely retain his position until the 1990/91 Academic Year when a replacement will attempt to fill the shoes of a man who has cared deeply about the students of this university. Among other things, Chancellor Murphy appointed the first African-American female college president and vice chancellor for academic affairs at CUNY and the first African-American medical and legal school deans in the history of the New York State; he established CUNYTV; he obtained funding for a pre-freshmen summer skills program to provide remediation to students who require it; he secured funding for the Robert W. F. Wagner Center for Public Policy and he helped to initiate foreign exchange programs with Puerto Rico; France, Italy, Ethiopia, China and Cuba.

Dr. Murphy has always been an ardent and vigorous advocate for financial aid increases so that many new young New Yorkers could receive a quality education at low cost. He has always had moral strength and an interest in CUNY students that goes way beyond a paper pusher or a bureaucrat; he has also been a real asset to the CUNY system. The Ticker wishes him good luck in his future endeavors, and although it will be difficult, it is hoped that the search committee finds a suitable replacement.

WE THE PEOPLE

If the entire elected government of the United States gave its endorsement to one special interest group—back the back of another—with an equally valid point of view and support, would the government be serving the best interests of "we the people" as stipulated by our constitution? No.

In fact, by doing so, it strips "we the people" of their individuality by imposing on us one common-minded—common opinion.

That is exactly what the DSSG did to their constituency (the Baruch students) when they gave 100% of the students from the STUDENTS TO a pro-choice march in Washington. The DSSG made this decision without affording pro-life students the chance to be heard. In fact, according to Wilson Shum, "The endorsement wasn't even planned out. They just did it. So much for "we the people.""

A truly democratic government passes legislation after hearing all sides. The DSSG made an endorsement on a highly controversial issue without hearing any sides but their own. The vote was passed between pizzas. Without argument. Without debate.

By Wilson Shum saying, "the majority of the students would agree with pro-choice is his own assumption. Maybe students do agree with him, but the fact accomplies that is they have the right to know what will happen, not what happened. This incident brings back memories of when the German Democratic Republic decided to build a wall—then the people deal with it.

During the last week of October 1989, a complicated and unassisted application for legal aid was placed under review. The lawyers will basically provide free consultation to those who are eligible. It is important to note that a distinction must be made between legal aid and free legal advice, as legal aid is a more comprehensive service, including representation in court.

We pay for the Student Center and other necessary expenses, which amount to several thousand dollars per month. The $84,725 goes to the President's office, the Dean's office, the Registrar's office, the Office of Student Affairs, and the Office of the Vice President for Administration. The Office of the Vice President for Administration is responsible for the University's general administration, including the Office of the President, the Office of the Provost, the Office of the Dean of the College, and the Office of the Vice President for Student Affairs.

As a student, I would like to extend an open invitation to the editors of The Ticker to visit our campus and learn more about the opportunities available to students. I believe that a stronger relationship between the Ticker and the student body would benefit both parties. There are several ways in which the Ticker could improve, and I am happy to discuss these with the editors.

Does this sit right with you?
CUNY Allocates $35,000 For Day Care Center

By RAFAEL MARTINEZ

The Board of Trustees of the City University of New York has approved a $35,000 allocation for day care centers at Baruch College. The funds will be used to create a day care center in the fall of 1989.

"This is the first sizable commitment of resources to day care," said E. 22nd St. administration Hospital at 23rd Street and Eileen D. Cruz-Minnis, a student at Baruch College. "We have to find the money from CUNY," she said.

Bick-Duggan, a student at Baruch College, said the college's allocation will help create a day care center at Baruch. "We have to find the money from CUNY," she said. "We have to make sure that the money is coming from the city, and that a day care center is set up." Bick-Duggan added that the college has to find the money from CUNY.

Is there a real problem with having more than one alumni association?

Baruch College, CUNY  Page B1

By Tom Bailey

"Is there a real problem with having more than one alumni association?"

Discriminatory practices on the parts of various administrators have permeated every department of the college. The position of President Segall as it relates to the Black and Latino Alumni Association, is unyielding and discriminatory, and shows a lack of concern toward the black and Latino population of this college."

"We have known that the current alumni association has perpetuated these problems for years."

Segall refused to offer any comments about the issue, saying that she was too busy at the time to address the matter.

The college's position is not new; it is the purpose of the BLAA to bring about change because they want to help students, but rather, that invested in South America, they say they have 20,000 alumni overseas and they say they are in it for the students."

At Last...

A Museum of Contemporary Music

Baruch's "campus," while well known for being a very large and somewhat neglected campus, is also known for its rich history. The college was founded in 1919 and has since grown to become one of the largest institutions of higher education in the United States.

The museum, opened in 2002, is housed in a renovated building on the campus and features an extensive collection of contemporary art, including paintings, sculptures, photographs, and installations.

By Gabriele Portella

The museum's mission is to provide a dynamic and engaging environment for visitors to explore and appreciate contemporary art. It aims to foster a greater understanding and appreciation of contemporary culture and to encourage dialogue and critical thinking.

The museum's collection includes works by prominent contemporary artists such as Jeff Koons, Tracey Emin, and Anish Kapoor, among others. The exhibits are designed to be interactive, allowing visitors to engage with the art and learn more about the artists and their work.

The museum is open to the public on a regular basis and hosts a variety of events, including lectures, workshops, and concerts. It is a valuable resource for students, faculty, and members of the local community, and it continues to attract visitors from around the world.
Males and females are often a very similar kind of activity. Historically, it was considered that the brain was of two types: the brain of a man and the brain of a woman. However, in recent years, the importance of the brain's role in sexuality and gender identity has been recognized.

 monopolistic culture

The first animal models of homosexual and heterosexual orientations were later resumed. The hormone stories began with a fundamental change in how we think about hormones and their effects.

What we look for

To be successful in this program, you must have an undergraduate major in computer science, engineering, mathematics, management information systems, or liberal arts. The program is designed for individuals with a strong interest in pursuing a career in technology and business applications programming.

3. Mail your completed application to:

Merrill Lynch, Inc.
Corporate Systems Program
14 East 57th Street
New York, NY 10022

4. Interviews are conducted on the basis of need and the availability of positions.

The Tickler

Page 82

Merrill Lynch, in the financial services industry, is seeking college students with leadership potential to join the Corporate Systems Program. This 14-week Business Applications Training Class provides you with the business and technical knowledge to become a business applications programmer. Throughout the program, there is a strong emphasis on developing technical skills, but also on developing leadership skills and the ability to effectively work as part of a team.

The program is designed for a select group of individuals with undergraduate majors in computer science, mathematics, engineering, management information systems, or liberal arts, with a serious interest in pursuing a career in computer technology and business applications programming. Evaluation of candidates will focus on proven leadership skills and superior performance in academic, extracurricular, and work settings. We are looking for motivated individuals with the desire and potential to contribute to our technological push into the 21st century.

What We Look For

A student's experience on being a freshman orientation leader

BY HECTOR CANONGE

Receiving a letter of invitation to the role that freshmen leaders play in College are required to take the orientation and usage of the library. The leadership position was the beginning of a series of experiences that freshmen leaders may have had since the beginning of a series of experiences and leadership roles in the student life as a student and as a peer. The first few weeks seemed important and, as a result, I had less involvement in the orientation and usage of the library. I was not supposed to be a leader, but rather to be a partner and coordenator in the orientation and usage of the library. The leadership role was conducted by Dr. Thangaraj, who took care of the orientation and usage of the library.

Instead of Eddie, the director, checking the shot he should have been checking his weak script.

EDDIES FORECAST: A COLD NIGHT IN HARLEM

The Stark Review and Dames Overview!

By MARTIN STARRUCK

Eddie Murphy tries to do the wise thing, but unfortunately his wise thing is to make a bad script worse by muting the good things in it. The set pieces are all fine, including a black light TV show. The movie is marred by some bad acting, something that's true of most movies and not just Murphy and company. And why Murphy and company chose to do MARLEY AND ME in the first place is beyond me. Murphy's most recent film, PRODIGY, was a flop and I think that's a good reason to do a poor movie. The film's script is not very good, and the characters are not very well-developed. Instead of Eddie, the director, checking the shot he should have been checking his weak script.

THE TIEK

No one knows what to do with the score. This film is a blue collar romance in which a... recently widowed poor young woman who loses everything to a released convict who... attempts by Javert, the prison guard who

Diane Varsi, Kathleen Turner, and Michael Douglas this Friday in "War of the Roses"

WE'RE ALREADY DEAD

The 1997 Humphrey Bogart, Peter O'Toole romance has been revised with Robert De Niro and Sean Penn in two escaped convicts who

disappear upon their arrival in a small American town, much to the delight of "Diane Varsi" and her four princes! Oh yeah, Diane Varsi is in this one too, and we know how good she is.

THE WHOLE THING

MOVIES • TELEVISION • RECORDS • BOOKS • CUISINES • CLUBS • REVIEWS • AND OTHER REVIEWS

Les Misérables—The Broadway Theatre, Broadway at 20th Street, Adapted for the Stage by Cameron Mackintosh. 1994 (Productions by Cameron Mackintosh; 1994-1996, starring Mendelstern, leading role. 16,000 seats, including a 15 minute triple intermission.

There are the special effects, so funny at the beginning, which are now just annoying and inaccurate. Scientists have proven that "scifi" movies such as this one have the effect of making people lose interest in other movies. It's not a bad movie, but it's not a good one either.

"And 4. You get the idea"

The Tie is

WAR OF THE ROSES

Oliver and Barbara Reiss have everything, house, on 30th, dog, kid, cat. They are a wealthy couple who are Musically happy until they decide to get a divorce. The 25 minutes after that are an epic poem of passion, love, and total destruction.

New York City, 1915. The 80s are over and the 90s are here! But wait, there's still a whole lot going on here!

The play 1980, a musical version of the 1924 play, is now being presented at New York's Broadway Theatre. The new version has been...夏德森, with whom

The story revolves around Long's heated affair second chance at bat in a movie that stars Paul

But wait! We're not done yet. The Tie is here! It's all about scifi, that's why they're called scifi movies.

So there you have it. The 80s are over and the 90s are here! But wait, there's still a whole lot going on here!

Please, no more.
**NIGHTS**

(Continued from Page B9, column 1)

Murphy, Pryor and Foxx: Three generations of comedy that didn’t hit the laugh track. Audiences got tired of the hype and dropped Reynolds into obscurity. I’m not saying that this fate awaits Eddie Murphy; after all, he still has time to save himself. He is still one of Hollywood’s biggest-box office draws and is much-hyped, and he is still able to write and direct his films.

**COMING TO AMERICA**

Based on his stage play *Steel Magnolias.*

Meryl Streep stars in the title role as Truvy, a small-town beauty parlor owner who becomes the lifeblood of a small Southern town. The story is set in the 20s, when the town is being hit by the Great Depression, and the townspeople come together to support each other.

Meryl Streep is a real winner, primarily because of the talents of the other women in the cast, including Sally Field, Jessica Lange, and Olympia Dukakis. Their performances are simply outstanding, and they all bring their characters to life in a way that is both moving and entertaining.

**THE WHOLE THING**

MOVIES ★ TELEVISION ★ RECORDS ★ BOOKS ★ CLUBS AND OTHER REVIEWS

**STEEL MAGNOLIAS**

Still a funny and touching story, but it’s not as strong as the stage play. The acting is still great, but the script is a bit weak.

**DAD**

A sequel to the 1993 hit, with Robin Williams now in a new role as a stay-at-home dad. The film is a bit predictable, but it’s still a good family movie.

**MOONSTRUCK**

Based on the popular stage show of the same name, this film is a bit overlong, but it’s still a good watch. The performances are great, especially Lloyd Bentsen’s as the father figure.

**THE FIRST WIFE**

A musical about the life of a woman who becomes the first wife of a wealthy man, only to be abandoned when he marries a younger woman. The film is a bit too predictable, but it’s still a good watch.

**THE PRODUCERS**

A musical adaptation of the hit Broadway show, with a cast that includes Nathan Lane and Douglas Hodge. The film is a bit overlong, but it’s still a good watch. The performances are great, especially Lane’s as the producer who brings a new lease on life to a struggling Broadway show.

Murphy is still a good actor, but he needs to find a better role to showcase his talents.

**LATIONSHIPS**

A romantic comedy about a young man who falls in love with a woman who is already in a relationship. The film is a bit predictable, but it’s still a good watch.

**THE BROTHERS**

A musical about a group of brothers who are forced to come together to save their family’s business. The film is a bit overlong, but it’s still a good watch. The performances are great, especially Joel McKinnon Miller’s as the leader of the group.

**THE HAND THAT ROCKETS**

A musical about a group of boxers who are forced to come together to save their boxing club. The film is a bit overlong, but it’s still a good watch. The performances are great, especially McKinnon Miller’s as the leader of the group.

Mickey says: "The guys covered in this game aren't the type of players you'd see at a top school. They're probably better than average, but it could be better."

One positive thing was that Baruch also has an archery team. The 24th greatest heavyweight of all time.  "Johnson Dempsey so far: so good."

Baruch Wins Early Season Hoop Title

By MICKEY KRAMER

The 1989-90 season is underway. After "a grueling" training camp, the Baruch Statesmen are ready to don their blue and white uniforms and get down to real business.

The first few games for Baruch aren't usually that difficult. They don't block shots, with Michael Reid getting four of them.

The Statesmen opened up their season at home against St. Joseph's College in Patchouge (Long Island). As it was the first game, both teams appeared rusty but it was Baruch who made the most of their early opportunities, as they took an 11 point lead into the locker room at halftime.

St. Joe's came out of the locker room after halftime; Baruch took 10 more minutes. St. Joe's came out strong and took the lead. It was short lived as the Statesmen's pressure defense helped spark a comeback. Down two with six minutes left, Baruch went on a tear, scoring the next 19 points. The game turned into a blowout as the Statesmen went on to win 92-79. Tyrone Greaves led all scorers with 33 points, including four 3-pointers. Six different players contributed to the stat sheet. Baruch tied a team record with nine blocked shots, with Michael Reid getting four of them.

Up next was an away game at St. John's University. Last season, Baruch blew away tech by about 60 to 40 points. Now, Tech was home, so things should be different. They looked good early taking a very quick 12-6 lead. But, the "never say die" Statesmen came back and grabbed their first lead 24-22. This time, they didn't let it slip away. Once they took the lead, they kept it for good. The final score was 74-62, but the game was closer than the score indicates. The guards, Cecillio Griffin, Freeman, and Derrick Griffin did a great job of defensively wearing down Tech's guards and applying excellent pressure. "D." Freeman also nailed four 3-pointers.
