Leonard Jeffries Speaks at Baruch
Audience Complains of 'Unnecessary' Security

By Eric Loyola

In the midst of the controversy which surrounded the visit of City College Professor Leonard Jeffries, the forum on multicultural education went off with a one hour delay and not one disruption on Oct. 17. About seventy protesters representing students and outside Jewish groups had gathered on 23 St. in front of Citibank. "I think without the rain we would've had 500 people," said Mike Habert, a Hillel member. Over a thousand people filled the lower level of the auditorium and the balcony. It had taken a little over an hour for the students, faculty and their guests to clear the stepped-up security hurdles which included metal detectors and a bag search.

From the podium, set on the right side of the stage, Adrien Percy, Jr., the president of Phi Beta Sigma, warned that any uniformed police officers brought out over a two dozen angry students complaining about harassment and racism.

Tyrone Greeves, senior, and his friend Mitchell Fuchs were arrested and charged with disorderly conduct and profanity released. According to Percy, he was in front of 17 Lexington Ave. with Greeves and third year Baruch student Godol and James. The three had been drinking beer out of a bottle when a police officer approached them and said they were not allowed to drink. According to James, they believed the officer was referring to drinking out of the bottle, so they obtained paper cups and were drinking out of those. Fuchs, who is white, says the officer then returned and told them that they were not allowed to drink at all.

"He said to move around to the other side of the building," Fuchs said, adding that the officer did not want his supervisor to see them drinking. But Percy and James swear that instead of moving where they could drink, the three put the paper cups and remained in front of the building.

The officer then approached a third time, "We're still there and we're assumed we're still drinking," said Fuchs.

LaMarre Walks Out
On USS Meeting

By Jonathan Loring

An altercation involving CUNY student leaders attempting to block University Student Senate Chairman Jean C. LaMarre from leaving a plenary session held at Baruch College on Oct. 24 led Baruch students and administrators to wonder if the USS was still a viable organization.

One eyewitness, the very next time what was going on, but the police continued to speak to the first three, who were yelling that they should be left alone.

According to one eyewitness, an officer asked Greeves to speak to him away from the growing crowd, but students turned him not to go. The police continued to speak to Greeves into the street when one of the students held Greeves' other arm.

Alumni student threatens to take over meeting.

By Eric Leyda

A Baruch College student threatened to take over the meeting, alleging that a member of the Baruch College Association of Students (BCA) had violated the organization’s bylaws. The meeting was held on Tuesday, Oct. 31, at the CUNY Board of Trustees meeting.

The student, who identified themselves as Michael Martinez, claimed that the BCA had violated the bylaws. His colleague, John Barnett, also shared his concerns.

Martinez stated, "I was just upset that he was taking pictures and I don't really understand what he did."

Barnett added, "I didn't mind, but the flash was very bright, very threatening, and asked me to leave the room."

According to board member Richard Green, "I didn't know who he was, but I saw that he had a camera and he was taking pictures of everyone."

The student also accused the BCA of not following proper procedures, saying, "They didn't have permission to attend the meeting and they didn't have permission to take pictures.""}

For an outsider looking in, it seems that everybody was acting like a student leader."

For President Goldstein

By Rachel A. Montgomery

President Matthew Goldstein was asked to attend the meeting on Oct. 28 when the CUNY Board of Trustees met. He was asked to address the concerns of the BCA and to answer questions from the students.

Goldstein stated, "We are accustomed to waiting for the USS to take the stairs if he wants. He should have taken the stairs if he wants to."
The University Student Senate brought its unique brand of politics to Baruch College on Oct. 4. We were not impressed. Chairman Dean C. LaMarre showed an unpardonable amount of callousness by walking out on a meeting where a quorum was present. We believe LaMarre showed that he does not respect its opponents enough to face them even at the meeting of the USS. He stretches the limits of his credibility, which is already in serious question with recent reports that he and John Jeffries have split the LaMarre left, and for no other credible reason, the USS should not have had to endure this.

The nearest that LaMarre attempted to leave his opponents was to present his accomplishments and to impugn their credentials. An epithet. The equivalent of, can mainstream, as a by-product of this entire presentation, you may refer to Dr. Jeffries’ concern that unless we initiate change, we will be doomed to a level of academic theory and sterile leadership. It is only hurt every time we hear a similar past. Not so.

We do not appreciate the events that took place on Oct. 23, when a Baruch senator and his friend were arrested. This fellow was arrested after he had already complied with an officer’s request to back off. As the student was being led away, he told the officer that his arms were fully extended in an act of compliance with the authority. It was a clear night.

Useful people fight for police protection, and these others become engaged in a sliding match with LaMarre’s associates. The attempts by some in attendance to say that this might be blown out of proportion by those who were irreparable as well. Do you join to tell us that this sort of human stupidity is not seen at all in every USS meeting held in the past year? We have heard the yelling that has gone on. We have seen the lighting of cigarettes and total lack of respect both for us and from the press. As a matter of fact, the USU left allegedly restaurant was not the USS level entirely respectfully. A man who is used to being a student. We go to the Baruch Colleget until it learns to respect itself and its host.

We deeply hope that the abuses of power and manipulation of these laws will be looked into and dealt with seriously. It is a very serious matter Mr. Editor.

A View from Inside

F.O.I.: A BUNCH OF NICE GUYS?

By Jonathan Lovitz

The world is divided into two parts. The world of people who are nice and the world of people who are not. We are told that the world of people who are nice is peaceful and harmonious. In the world of the un-nice, everything is more aggressive and confrontational. It is in this world that the nice get hurt. The world of the un-nice is a world where you must constantly be on your guard. You must be aware of your surroundings and always be ready to defend yourself against the un-nice. The world of the nice is a world where you can relax and enjoy life. You can be yourself and not have to worry about being hurt. In the world of the un-nice, however, you must always be on your guard. You must be careful of your surroundings and always be ready to defend yourself against the un-nice. In the world of the un-nice, you must be tough and strong. You must be able to fight and win. In the world of the nice, you can be soft and gentle. You can be kind and gentle. In the world of the un-nice, you must be strong and tough. You must be able to fight and win. The world of the nice is a world where you can relax and enjoy life. The world of the un-nice is a world where you must always be on your guard.
The Print Media Returns to Crown Heights

By Lenny Vigdorchik

The setting up for the event, August summer evening, a Brooklyn auditorium, was as opposite as black and white, water and sand by what some considered a rare occurrence. The audience was the backdrop for a debate that followed an accident sparked by hatred, violence, claims of black bias, and the Sandusky Foundation for a wall that would split the community into two, resulting in a riot.

On Monday, August 10, a car driven by Yosef Lifshitz, a 32-year-old Hasidic man, struck and killed a seven-year-old black child, Seth Davis, and injured his seven-year-old cousin Angela Davis in Crown Heights, Brooklyn. Immediately following the accident, a 60-year-old Hasidic man named Yankel Rosenbaum was stabbed to death by two black men while sitting in his car in the Crown Heights area. What followed was a series of racially charged media coverage by the media.

On Thursday, October 26, Barbara McPherson presented "The Lowdown on the Heights: Covering the Brooklyn Controversy," as part of the journalism lecture series, sponsored by The Banner Press.

The focus of this particular lecture was on the print media's coverage of the Crown Heights incident. She noted that coverage was moderated by English professor Bridgitt Bels, Arleta Silverman, and Ruth Dworkin, the pressers included.

The next journalist was E.B. Baisden, a columnist for the Village Voice. He said that he "reported on day one. He also stated that the coverage had on the same intensity it had years ago. He also stated that "it's not about the black killer's holding saying that said 'Hitler didn't do his job.'"

The next speaker was Amy Baisden, a columnist for the Village Voice and Linnel McPherson, a media critic from Fairmount. She also noted that "some 0 years later, many more years to come."

She also noted that "the print media's coverage of the Crown Heights incident was a story that has been told in the story should be told. McPherson stated that the story should be told.

McPherson also stated that the print media had been the enemy during the Crown Heights incident. The final speaker was Colin McCarthy, a media critic for The Village Voice. He stated that "the print media's coverage of the Crown Heights incident was a story that has been told and retold to each other."

The Baruch Theater Group and a preview of "Wait Until Dark." By Philip Reed

"It's a rare treasure indeed," says Roger Aggelides who will play the role of Carlino, in this third play at Baruch. He is a Computer Programming major with a love for theater.

"The hands on experience is excellent. We build, set, and perform from the ground up. And we do so in a group." says Aggelides.

The group is looking for new members and is offering financial aid to those in need for their involvement. They have a play every year, and according to Dr. Ferrar, the theater director at Baruch, the group is very well attended.

The group is supported by the inner-city college. The program at Baruch is offered to students in the area who along with Earl Bovell are 20 year old sons of teachers.

At Dr. Ferrar's Homecoming concert, there wasn't enough than people to fit in the auditorium. The play is demanding. The cast is already jumping on the role of Carlino, in this his third play at Baruch. "Everybody does what they lay out the plot for me," says Carlino. "We are always looking for experience. The group is always planning an open policy for actors." says Carlino.

It means that whenever a group creates a new sound or a new way of making things, there is always a group of young people who are willing to try out this style in order to test their control. In this way, it is possible to test the control in front of the audience. How many groups wear a capella during the late 1990's? How many groups become political after the Beatles and the Doors? Today, how many Gene Hawkins and Lucy Brown wear a capella in the rock stores. Unfortunately, the Slash "Toll" talks about the working class, and the problems of money in the twentieth century version of prejudice, it makes you want to dance to. They have a better sound to the music.

Baruch's Tennis Team Finishes in Close Second

The statesmen beat Hunter in both matches. They lost the number five and six seed lost in the finals to Hunter. Baruch lost all three doubles matches. In the first match Shinderman and Pries lost in the finals to Lehman 5-2. 6-3. Number three Clarke lost in the second match. And, the third match was lost to Hunter by the score of 5-7, 6-1.

End says, "we have to set certain goals. It's some things happened in the men's division two years ago. There were some low points to stop something like this right now. In a few weeks there will be a championship game and you better believe that this problem will be brought up. When asked if this can be interpreted as a strategy, Eng says no. "This is not an ethical way to win," the coach explained. "It is neither honest and easy to is to have there number one player our number one. It has taken a year that it has happened in the women's tournament? Eng says, "this is the only way that this will be said." Eng continued to say that, "the Hunter coach acted like a jerk. He started talking in front of players and parents. He got into disagreements with the other coaches.

On the year Irina Shinderman had a record of 1-2, 2-1. She was the number one player in CUNY. If she keeps up her great form she is ready to win four CUNY titles. The record is three straight titles. Eng says, "She is very steady and has improved over the years. The only problem is that sometimes she beta her self."

Diana Bayonas started slowly. Coach Daniels says, "She is stepping up to play with more confidence. She has a good serve and forehand."

Her was on for two weeks. She came back and played some of her best tennis. She was very fortunate with Schinderman and Prias. In a sense I realised her. I stayed in touch with her while she was in high school."

The school can't offer a scholarship, but the school can offer a good education.

Daniels is really looking forward to "why? When you come in first or second for six straight years you can't anticipate another good season.

Soccer Team Suffers Four Game Losing Streak

By David A. Amir

And so it comes to an end. The men's soccer team completed the 1991 season in fifth place without receiving an invitation to the postseason bowl. The team had eight wins and four losses. "I think we have ourselves to blame," says Coach Tony Henry. "The loss to Lehman put us out."

The team started the season with an impressive 4-1-2 record, but things started going downhill. The October 5 loss to Lehman started a five game losing streak. On the streck Henry says, "a key game that hurt us was, Staten Island. We didn't have all of our players due to commissio, the team had only eight players for the game. Instead of forfeiting the game, Baruch wanted a chance to win and played anyway. They played three players short and lost 6-0.

Baruch then lost to both NYU and York by a score of 3-1.

By that point of the season Baruch knew the season was over but the job in hand was to break the losing streak. They did it the old fashioned way. On October 19 the statesmen beat Hunter College by a score of 12-1. "All of our frustration came out in that game," says Henry. Baruch ran up the score in order to increase their goals per game average. They ended up finishing in a tie with another school to enter the championships, the second tie breaker is the average of goals scored in a game. The first tie breaker is the record of head to head games.

The team has a record of 6-6-3 for the season remaining. Baruch will play C.W. Post on October 30 to close out the season. The team hopes they win they will finish the season with a record over .500, knowing that they have a chance.

Last year Coach Henry had mostly Freshmen and Sophomore on a team that finished well below the .500 mark.

Coach Henry points out that "there are still more improvements that need to be made. A major factor is the lack of concentration with "Players need to stay focused on the goal." Henry blames the lack of in-game mark and focus on the team. He says, "the ability is there. We are the better team going into the game." The other reason for the season's misfortunes is the fact that this team has no practical field. The only possible practice is the FDR drive and 6th street. However, there is no public transportation to get there. So, the only place to practice is the 6th floor gym in the 23rd building. The coach does feel that the future is bright. "We think next year will be much better. Our young players are just learning," he says. The team is especially looking forward to the return of Ahmed Fares. Fares is the leading candidate for the MVP (Most Valuable Player). He scored 10 goals on the season. The top four scorers are David Gibson, Enzo Elia, Max Baer and Ahmed Fares.

RIDDLE OF THE WEEK:

What would Bobby Bonilla mean to the Yankees? He means having 20 million dollars less and still no starting pitching.

One upon a time Lenny Dykstra decided he wanted cash out of New York, so the Mets traded him for Juan Samuel. After a short stay Juan demanded a trade and so he was sent to L.A. for Mike Marshall and Al Peña. It didn't take long for Mike for Los Angeles to finish his days in the majors and soon after was released. Peña on the other hand was unhappy about his role with the Mets and wanted to be moved. Quickly Al Peña was shipped to Atlanta for a nice 9-5 record. By the time he kept the million, the Phillips and Dodgers wound up with all-stars, while Peña pitched the Braves to the World Series. The Mets finally have someone who wants to play in N.Y., but, he belongs in Tidewater.

The Yankees are trying to fill their managerial vacancy. Anyone who received a C or higher from their Managerial 3120 class is being asked to hand in an application.

The DH (Designated Hitter) rule currently used in the World Series is very unfair to the American League team. For example, when the games are played in Minnesota the DH is used and Atlantic got to add an extra better to their line-up which they already won a league title with. Clearly this helps the Braves attack stronger, while the Twins remain the same. When the games shift to Atlanta there is no DH so the Braves remain unchanged. Meanwhile, the Twins not only lose their biggest power hitter in Chili Davis but they also have to let their pitchers hit. This is something they have never done before.

Next season the Yankees will not let Tim Leary pitch batting practice because he got hit too hard.

I know how the Mets could light a fire under low key Kevin McReynolds and spark him up. Light his paycheck on fire. Frank Viola should win the Rolyd's pitcher of the year award. His fastball. This is something they have never done before.

When it comes to offense Giant coach Ray Handly is as patient as patient gets. He's looking to the future. The school can't offer a scholarship but the school can offer a good education.

Take away Sanders away from the Detroit Lions and you're left with a team that looks at the Minnesota Vikings, the team is not bad. Anyone who receive a C or higher from their Managerial 3120 class is being asked to hand in an application.
