Baruch Security Confiscates IDs
Chaos and Confusion as CUNY Card Becomes College Policy

By Joseph M. Maldarelli

Adding to the confusion and basic chaos of the first days of classes, Baruch security guards were confiscating the former Baruch identification cards, as the CUNY card began being recognized as the card of choice.

As students entered the buildings on the first day of classes they were met with security guards demanding to see identification cards and students with Baruch ID cards, not CUNY cards, were forced to surrender the previously used cards. "Please present IDs," CUNY security guards yelled. All passageways were blocked and upon presenting Baruch IDs students were informed, "We are confiscating the IDs, they are no longer valid."

Many students complained about the process and manner in which they were treated, accusing security guards of Gestapo-like tactics.

"It was horrible," claimed a student who asked not to be identified. "The guards were yelling and grabbed my old ID as I was taking it out of my wallet."

According to Director of Security, Henry J. McLaughlin, all guards were instructed to be courteous. "Students were informed of the new ID system," says McLaughlin. "We are doing this for the safety of the Baruch community."

"The elevator lines were tremendously long, as usual for Baruch," said one freshman. "Adding to the mayhem were the obnoxious security guards, screaming, 'Give us your ID cards.' People were fumbling around, looking for their old IDs, holding up the lines. That's just Baruch."

When asked if the added congestion at the elevators could be accredited to the confiscation of the IDs, McLaughlin responded, "No, of course not. Absolutely not. The collection of IDs had nothing to do with it. It was the first week of classes, McLaughlin explained. "We are doing this for the safety of the Baruch community."

Student Governments Crumble
DSSG and ESSA Lose Key Members as Other Colleges Organize

By Deirdre A. Hussey

As the Baruch community moves forward to organize efforts in the fight against Governor George E. Pataki's proposed tuition increase and budget cuts, the voice of students is weakened as Baruch's elected student governments scramble to keep their members.

In what has become standard practice, ten members of Day Session Student Government (DSSG) Council, technically an elected position, will have to be appointed this week. Meanwhile, the Evening Session Student Association (ESSA) is functioning without a President because its elected president, Kyle George, did not register for the Spring semester and failed to maintain the required 2.0 grade point average. Members of ESSA declined to comment on George's absence, and the future of the Assembly.

Low voter turnout in recent elections and lack of students running for these positions has left both governments familiar with their current situations. Only 11 of the 20 council positions for DSSG were filled after last spring's election and all of those positions went unchallenged. DSSG filled these positions through a special election held last fall, which allowed elected Council members to appoint other members. ESSA also appointed a number of council positions this past fall, due to a lack of elected members.

"I think there is a problem, but I don't know what it is," says Vice President of Student Development Samuel Johnson.

Only 1,836 students voted last spring (1069 day students and 667 evening students and 267 graduate students) although only 15,000 students attend Baruch, Still, that was the highest student turnout since 1985. "I need a student government to do my
The property of Baruch College, says E. Peress, a professor in CUNY Card. "When asked if it hadn’t something to do with the sale of cards to the students who used them for personal use," Peress was quoted as saying, "They didn’t ask us to participate in the sale of cards to the students who used them for personal use."

The security concerns were reportedly raised by the Briloff Prize Committee, which handles the annual Briloff Prize for Business Ethics, named after the late Abraham J. Briloff. The committee, according to its chairman, is in the process of selecting the winner of the 1997 Briloff Prize. The deadline for submissions is March 1, 1997. The winner will be announced in May.

"I am surprised by the security concerns," said one of the committee members. "We have been considering the issue for some time, and we are planning to address it in the near future."

"I am concerned about the security of the CUNY card," said another committee member. "We are currently working on a solution to this problem, and we hope to have it in place by the end of the semester."
Student Governments Lose Ground During Budget Crisis

continued from front page

... and the fault of the administration.

At the most vulnerable point in the school year, with impending budget cuts likely to result in a tuition hike, when students need to be organized, Johnson says he is worried that the lack of DSSG members who have experience would effect student organization. "We need student representatives in spring because of the lobbying effort in spring. We need them to be strong and healthy. In my opinion, we do not have enough experienced people. We have a few leaders with experience to get a lot of students organized." In the past, the notion of combining student governments has been approached, but recent student governments have been against the idea. "I feel we have a very inefficient structure," says Johnson. "Any time we try to change things, anything students think we are taking something away from them. I believe there is an advantage to having a unified student government."

The three student governments control over a half a million dollars, which is collected in the form of student activity fees each semester. "Most people give their money and they don't know what they do," says Johnson. "A lot of money is spent in a way that I think would shock a lot of people if they took a good look at it."
EDITORIALS

Wake Up, Security Guards!!!

Conscripting old ID cards should be the least of problems for Baruch Security. Elevator lines span for what seems like miles, and security does nothing to help the situation. These long lines immobilize students in the hallways and aggravate them by forcing them to arrive late to classes. This may pose a fire hazard.

When students block the entrance of the 23rd Street building, security guards turn their heads the other way and ignore other students’ anguish. But if a student has an old ID card, security officers suddenly wake up from their hibernation and bluntly demand that students surrender them without exception. What we need is a security system that is sensitive to students’ needs.

Quote of the Fortnight

"It’s not an academic problem—it’s a grid problem and the fault of the administration."

—David Kinzelberg, DSSG President, on the dismissal of student government members owing to poor academic standing.

BUNGLES INSIDE THE BELTWAY want you to get an education to get off the public rolls but continue to maintain the distinction of graduating with a 3.3 GPA in Psychology. Sigy Hanser has been told that she will be dropped from the Welfare rolls in 21 days (ten weeks before she is due to graduate). The WEP notice and continuing to pursue a college degree can lose all benefits while educating America’s welfare recipients and shoot it all to hell. By the time any politician can introduce an amendment to this law, the State of New York will have the most accomplished street cleaning crew in the nation.
OVERFED MIDDLE-AGED WHITE GUYS HAVE NO BUSINESS PASSING LAWS AFFECTING INNOCENT WELFARE MOMS continued from page 7
so Patuk is doing a good job of complying with the federal guidelines...he has in effect educated the poor. Educated them to be minimum wage earners, no chance of gaining respect. But the bright side is that the Boss and Bohn will have the utmost respect for the planet.

The facts remain. State and local agencies are uncertain as to the newly signed Personal Responsibility Act. New York will be无所谓 the Welfare Reform Act, will affect those making the transition from welfare to the workforce. Each two-year limit will cut out almost all higher education programs. Judith Watts of Agenda for Children believes that welfare reform will be "a major disincentive for women to go for higher education." No

Interview with a former New York City 'Workfare' participant

This is a transcript of an interview with a former participant in New York City's Workfare program. The interview is taken from the on-line publication NEW YORK where it is available in both text and audio. You can reach them at 360 Park Avenue South New York City ‘Workfare’ program -- it's very limited, they don't tell you what the program is about, they don't tell you how to get a job. And that's the main thing - you want a job out of this whole program.

LG: So, you're doing work, but it sounds like you're not getting paid. Did this lead to a job?

WEP: No it didn't; it didn't lead to a job. The only thing that lead to a job was my own experience and my own talking that got me a job but they couldn't tell me out of it.

LG: And when you got this WEP assignment, do they take into consideration all this experience that you had before?

WEP: No. Not really. There's maybe $20 left over from the WEP program. That's gone. You still have to buy lunch, you still have to pay the bus fare.

LG: At the different worksites, are you afforded the same protections as the City workers?

WEP: No, not really. To them, just because you're a WEP person, you're just a body and you're just there and if you do any harm to yourself, you could get sanctioned; they could fire you if you work on the streets or something.

LG: Can you give some examples of that? Like in the Department, things where maybe you didn't get equipment or City workers did?

WEP: Well, I first started working, I ranched and we refused to get in the truck because we had no rubber. We refused to get in the blue truck until we actually got rubber. A work later, we finally got rubber, so we could go out onto the streets and rubber -- which made no sense to me -- but it took about a week. And, even as the gloves are rubber, a week right away because we needed them because we couldn't work. Basic stuff, like boots and gloves, took a long time. It took about a month before we got all our stuff and cans.

continued on page 9

WEP: Does it really work at all? Read on and You Decide!

WEP: My assignment was to clean parks; that was my assignment to clean parks, to pick up garbage in the parks. No training, no job experience, no nothing until I actually got on a PAC program which is actually like an umbrella WEP program. If you get on that program -- it's very limited, they don't tell you about it than you might get something out of the program, but you still won't get a job. And that's the main thing -- you want to get out of this whole program.

LG: So, you're doing work, but it sounds like you're not getting paid. Did this lead to a job?

WEP: No it didn't; it didn't lead to a job. The only thing that lead to a job was my own experience and my own talking that got me a job but they couldn't tell me out of it.

LG: And when you got this WEP assignment, do they take into consideration all this experience that you had before?

WEP: No. Not really. To them, just because you're a WEP person, you're just a body and you're just there and if you do any harm to yourself, you could get sanctioned; they could fire you if you work on the streets or something.

LG: Can you give some examples of that? Like in the Department, things where maybe you didn't get equipment or City workers did?

WEP: Well, I first started working, I ranched and we refused to get in the truck because we had no rubber. We refused to get in the blue truck until we actually got rubber. A work later, we finally got rubber, so we could go out onto the streets and rubber -- which made no sense to me -- but it took about a week. And, even as the gloves are rubber, a week right away because we needed them because we couldn't work. Basic stuff, like boots and gloves, took a long time. It took about a month before we got all our stuff and cans.

Investing In Bankruptcies
Part One

By Victoria S. Harris
Many people are familiar with the basic mechanics of investing in corporate stocks and bonds and other vehicles, such as mutual funds and other entities. There are several bankruptcy filing situations, but bankruptcy court-appointed trustees tend to sell the assets of the failed company. This strategy is advisable for those bankruptcy investors who are primarily concerned with the liquidation of assets of the failed company. The plan of reorganization was confirmed by the court and the debtor is discharged from its liabilities.

In order to be a successful bankruptcy investor, it is imperative that you know the rules of the bankruptcy game and how they are applied.

By Hong Tuan
In an announcement made on May 4, 1997, Dean Winter, Discover, and Jr., agreed to merge with Morgan Stanley in a stock swap worth around $10 billion. The merger of the brokerage powerhouse and the premier investment bank will create the largest U.S. security firm. The new firm, which will be called Morgan Stanley, Dean Winter, Discover & Co., will have a combined market capitalization of $2.1 billion, more than 400 offices in 38 countries and earn about $3 billion a year. Under the terms of the merger, Dean Winter will issue 1.52 shares of its stock for each share of Morgan Stanley's shares. Dean Winter's shareholders will end up owning 54% of the combined firm.

"The melding of the two very different cultures of these firms will be a real opportunity and a challenge," said William Donaldson, a co-founder of Donaldson, Lufkin, and Jenrette Inc. closed at 60-1/8 up from 59-3/8, up from a week of confidences from the investors.

Investing In Bankruptcies

Continued from page 11

The typical creditor, if still solvent and not a preferred creditor, is given the right to receive a distribution on a "pari passu" or equal basis. The typical hierarchy of creditors is as follows:

1. Debtor in Possession. In some cases, the court assigns a trustee who will systematically liquidate the company's assets and distribute the proceeds to the creditors. The lending bank becomes the debtor in possession, and it will be given top priority over all other claims. If a bank line of credit is given top priority over all other creditors, it may be able to avoid many of the costs associated with a Chapter 11 bankruptcy filing. The lending bank will then collect all of the company's assets and distribute the proceeds to the creditors.

2. Administrative fees (court fees, legal fees, trustee fees).

3. IRS and employee claims (wages, pensions, etc.).

4. Secured bonds (regular and subordinated).

5. Trade claims.

6. Unsecured bonds (regular and subordinated).

7. Preferred and common shareholders.

For a plan to be approved by the court, it must be in the best interests of the creditors. The bankruptcy judge can approve a plan even if a class of creditors does not accept it. This situation is called a "cram down." According to the absolute priority rule, for a dissenting class to be successfully crammed down, the classes below it generally must receive satisfaction. When a plan is confirmed, payments are made to the creditors. These payments can be a combination of cash, property and stock of the debtor. Classes of creditors may ban together to pursue their mutual interests. To one unfamiliar with the bankruptcy process, it appears that the senior creditors do not have an incentive to pay anything to the junior creditors. However, the power of the junior creditors lies in the fact that they can slow down the bankruptcy process by litigating against the seniors. The higher the case value is in Chapter 11, the higher the expenses become, which translates into further depletion of the debtor's assets and less for everyone involved. Thus, senior creditors have been known to typically give up 20-30% of their recovery to the junior classes to expedite the bankruptcy process.

What you need to know to analyze an investment in Chapter 11 debt. Bankruptcy investment requires a different type of financial analysis than an equity investment. It involves not only looking at the turnaround possibilities of the company within its industry, but also a thorough evaluation of the balance sheet, the earnings potential, the impact of the bankruptcy process, and the bankruptcy litigation process (including the reputation of the assigned judge and the nature and extent of intercreditor disputes). Most importantly, you must evaluate the timing of the bankruptcy process, as this has a direct effect on the value of any investment you make. Bankruptcy investing is an interesting process. It is very complex, but when done correctly, it can be very rewarding. In part two of this article, I will detail the valuation aspects of bankruptcy investments.

Explore Your World With AIESEC

by Andrew Heller

At the end of the Second World War, leaders from across the globe came together to form an alliance of "peacemakers." This alliance is known as the United Nations and was created to prevent oppressive leaders from gaining too much power again. However while the leaders of the world were forming the United Nations, the future leaders of the world were being formed in their own united nations.

AIESEC (International Association of Students in Economic and Commercial Sciences) was born when a small group of students from a handful of European countries gathered to begin an effort to prevent another world war through an exchange of cultures. They believed that ignorance was the cause of all our wars, so we broke down that ignorance and learned to respect each other and then the world will come together and work towards a brighter future for all. The organization accomplishes this by sending students to countries around the world. In their new home, they have an opportunity to work and live in that environment and experience the culture of another country. AIESEC is known as the "unknown unknowns." It is a way to discover hidden talents and hidden opportunities. It is a way to discover hidden truths and hidden realities. It is a way to discover hidden possibilities and hidden potential.

AIESEC is an international organization on the business world, and helps students achieve their goals in life. Students who participate in AIESEC can make a difference in the world. They can make a difference in their own lives. They can make a difference in the lives of others. They can make a difference in the world.

In order to "trick" their parents and make it easier to get their parents to agree to let them travel, AIESEC offers a "National Conferences" where local committees from across the United States meet to discuss where the organization is and where it is going. This year I had the honor to be invited to participate in AIESEC's national conference held in New York City. During this week during the New Year's holiday, the National Conference was directed towards all types of students from the young, fresh "AIESECer" to the most experienced veteran. Imagine hundreds of students from across the country and around the world coming together in one location with one purpose - to change the world. As I sit here in my new home, I realize that I am part of the greatest generation. I am part of the generation that will come next year. I am part of the generation that will change the world.

AIESEC is an international organization on the business world, and helps students achieve their goals in life. Students who participate in AIESEC can make a difference in the world. They can make a difference in their own lives. They can make a difference in the lives of others. They can make a difference in the world.

What Do You Want For Valentine's Day?

- Lots of love
- Peace with ourselves, in America, Israel, and the world
- Someone who's gonna treat me right
- I want all the girls that read this to give me a call
- Chocolate, ice cream, and lots of flesh
- 5 women, a kiddie pool, 200 lbs of chocolate pudding... you put it together

By Paola Marocchi

Every February 14, millions of Americans send valentines to their loved ones, but few ponder how this all began... Those of you who are interested in this festivity's origin need to wonder no more! I cybersearched the corners of the electronic world and I found a couple of interesting facts.

The exact origin of Valentine's Day is uncertain since it is attributed to not one, but two saint valentines. Both are believed to have been martyrs named Valentine who were executed on February 14 of the third century. One was executed for secretly marrying certain people thus disobeying the Emperor's law. The other was accused of believing in Christianity and refusing to pray to the Roman gods. Some historians question whether these men existed at all while others assert that they did. The history of Valentine's Day, however, does not end here.

The 15th of February was the day when the Roman Feast of Lupercalia was ended in the 1600 and incorporated with the feast of St. Valentine on February 14. Therefore, St. Valentine became known as the Saint of Lovers. In reality, however, these two martyrs may not have existed and even if they did, they had nothing to do with romance.

The celebration of Lupercalia was ended in the 1600 and incorporated with the feast of St. Valentine on February 14. Therefore, St. Valentine became known as the Saint of Lovers. In reality, however, these two martyrs may not have existed and even if they did, they had nothing to do with romance.

Back to this century... If you are thinking of sending a valentine, don't just send a card... send an E-card! Thanks to the internet, delivering a love message is easier than ever before. How does it work? Most sites offer a variety of card designs for the cybermaniac to choose from. Sounds good? Well, it gets even better because many sites also have pre-written love notes for the non-creative minds. Just a few clicks of the mouse on these directions:

- Family Planet: http://www.familyplanet.com/seasonal/valentine/index.html
- Blue Mountain Arts: http://www.bluemountain.com
- Cards for Valentine's Day: http://www.gogreet.com/index.html?/occasion/valentine

ASSEON
Association of Dominican Students

"We at ASSEON are a culturally based organization. We believe in preserving our heritage while exposing other ethnic groups to the unique history, background, and customs of our Caribbean life. We are interested in meeting new people who are serious and dedicated to changing the Latino image to a more positive one while having tons of fun doing it."

PRIDE
We are an ever-growing happy family, where you can meet people that are not just Puerto Rican but, of other nationalities. We're a place where you can feel welcomed, where everyone looks out for everyone else. We show you what school, friends, and family are all about.

We are a club that is growing rapidly, where people come to talk, laugh, and relax from school and family stress. We're interested in meeting students of other people's cultures including our own.

We meet in the 26th Street building in Room 2421 every day, Monday through Thursday during club hours.

THE SOCIETY FOR HUMAN RESOURCE MANAGEMENT (SHRM)

The Society for Human Resource Management is affiliated with the National Organization for Human Resource Management, other interested students, with the opportunity to interact with faculty and professional practitioners in the Human Resource and other Business Management areas.

Professionals come in and give advice in areas such as resume writing, critiquing, and interviews, and also give insights into what prospective employers are looking for in job applicants.

An important benefit of SHRM membership is the ability to regularly network with professionals, giving students the needed contacts for entry into the tough job market.

The SHRM meets on Thursdays during club hours at 360 PAS, Room 1816.

BUSINESS TO BUSINESS

The Business to Business Marketing Society (BTT) offers an academic and cultural environment to bring the real world of industrial and commercial marketing to its members. Our main goal is to help members be better prepared for successful career advancement, and to guide them toward the market activities of organizations who engage themselves in marketing to other businesses. BTT provides access were students are involved in a variety of subcategories, industry marketing, trends in Corporate America as well as acquainting oneself on careers in marketing.

BTT is an organization that provides awareness and understanding about marketing activity with companies that sell goods and services primarily to other businesses and institutions, not the consumer. If you want a university that would like to gain exposure to the many professionals who are engaged in industrial marketing, join us during club hours Room 839, 360 PAS ALL ARE WELCOME.

INTERVARSITY CHRISTIAN FELLOWSHIP

The Purpose of the Intervarsity Christian Fellowship

1. To lead others to personal faith in Christ as Lord and Savior
2. To help Christians grow toward maturity in their Christian faith by study of the Bible, by prayer, and by Christian fellowship
3. To help students and faculty to discover God's rule in their lives

UPCOMING EVENTS: Events are held in 360 PAS

THE FINANCE AND ECONOMICS SOCIETY

The Finance and Economics Society is open to all of those interested in the processes of the financial world. It provides students with an informative view of current changes and the future trends in the rapidly evolving financial world via various functions such as lectures, symposiums, and field trips.

We meet in Room 640/ 26th Street Building

BETA ALPHA PSI

Membership in Beta Alpha Psi gives you an instantaneous recognition. Beta Alpha Psi offers a guest speaker who are recognized in their fields and who are invited lecturers in human resource departments at potential employers. The Big Six Accounting firms are focusing less on the campus interview and are putting greater emphasis on pre-internship. These firms have developed a biased preference for members of Beta Alpha Psi. Therefore, we invite you to become a member of Beta Alpha Psi in order to leverage your participation in our society for your job search. Please look for our flyer posted on college bulletin boards for the meeting dates and room numbers. You do not have to be a member to attend the meetings.

Upcoming events: 10/3 - Communication Skills Seminar in Public Accounting. 10/30 - Mock Interviews, 10/17 Opening and Cover Letter Workshop

BARUCH ACHIEVERS

The goal of our organization is to uplift students by providing them with valuable information about current issues that we feel is pertinent to them. The focus of our effort is to fight for the student, dressing for an interview, to financial planning on an individual basis.

We hope that this activity will provide help to better prepare Baruch students for their future, as well as bring them closer together, in an environment where there is a cultural diversity.

Meetings are Thursdays, Room 1802, 300 PAS from 2:35-2:20

CHINESE CHRISTIAN FELLOWSHIP

Chinese Christian Fellowship believes that there is only one True God, the God of Israel. We believe in the infinite, perfect, sovereign, eternal Trinity of the Father, Son, and Holy Spirit. We also believe that Jesus Christ was sent from Heaven to Earth to serve as a sacrifice on the cross for our sins. Believing and following God's commandments will bring salvation. We will return to earth to establish His kingdom of righteousness and peace. We are here to spread the Gospel to the campus of Baruch College with an emphasis on Chinese-American and overseas-born students.

We meet every Thursday between 12:25 and 1:30pm

---

HILLEL OF NEW YORK AT BARUCH

Come and be apart of the Jewish Community at Baruch College. Meet new people, improve your networking skills, get religious information, have FUN!!! Please see Ellen Steinberg in 360 PAS room 1311 or call 212/802-6808 for more information

PHI ETA SIGMA

NATIONAL FRESHMAN HONOR SOCIETY

Phi Eta Sigma is a national honor society for undergraduates (freshmen and sophomores). Our goal is to encourage and award academic excellence among Baruch College students. Our activities include: workshops on different topics of interest, internships, management, resume enhancement, and scholarships; visits to places of interest (UN, Uncle, etc.); participation in volunteer programs including New York Cares Day, Volunteers of America, and the Salvation Army.

We hope to make the transition process into Baruch a pleasant one for freshmen by serving as a link between the activities carried out by the college and the students. JOIN US DURING CLUB HOUR (TUESDAY IN ROOM 434, 26TH STREET BUILDING)

The officers of the chapter can be contacted through the Dean of Student Affairs at 360 PAS room 1702, 212/802-6820.

THE BARUCH ARCHERY CLUB

What is archery? You've seen it in the movies, for various Robin Hood films being the most memorable. It's been in the media types as simple as a comic book, and as events as grand as the Olympic games. And yet, most people only have a vague notion of just what the sport is all about.

So, why not drop by and check it out. We would be glad to teach and train anyone interested. We provide all the equipment and no experience is necessary. For more information please go to the 6th floor gym on 2nd floor building.

All are welcomed.

THE SOCIAL AND POLITICAL ACTION CLUB

S.P.A.C. is one of Baruch's newest clubs founded in November of 1995. The goal of the club is to provide a forum for the discussion of political and social issues through the use of speakers, debates, and movies. Last semester the club was involved in numerous activities including a fund raising dinner dance, support of a social service workshop hosted by the Helpline office, participation in the D.E.S.S. debate on the publication of two newsletters, and the hosting of a dance competition. This semester, the club will be working closely with the Political Science Department with the aim of building upon the achievements of the previous semester. We hope that you the Baruch Community will provide support as the club could make a useful contribution to the college.
GREAT GRADES ARE JUST A PHONE CALL AWAY!

Hey kids, why study hard? We at the Ticker realize what a chore it is to go to school and listen to those smart people talk and talk and talk. We at the Ticker believe that education should be fun. That's why we created the Ticker, your one-stop-shop for all your educational needs. We have a team of experts who will help you with all your academic needs, from homework help to test prep. We believe in giving you the tools you need to succeed, so you can focus on what really matters: playing video games and watching Netflix.

Here are some of our services:

- Homework help
- Test prep
- Essay writing
- Study tips
- College applications

We also offer a variety of other services, such as:

- Financial aid assistance
- Job search help
- Internship placement

Our services are available to students of all ages and academic levels. We believe that education should be accessible to everyone, so we offer services at a variety of price points. Whether you're looking for a little extra help or need a complete academic plan, we have you covered.

Contact us today and let us help you achieve your academic goals. We're here to make education fun and accessible. Call us at 1-800-TICKER or visit our website at www.theticker.com.
Edward Norton portrays Flynt's attorney in "The People Vs. Larry Flynt.

From being anywhere near great, "Larry Flynt," however, does provide us with an entertaining comedy that is well supported and built around the strong performance of Woody Harrelson. His portrayal is deep despite the insipid nature of this film. It is because of Harrelson that we are able to absorb the comedy of this film without constantly remembering how faulty it is as a drama and even as a film.

Harrelson has always been extremely adept at comic timing and combining solid dramatic acting with a charm that makes us feel the humor in situations. His performance should be nominated.

The other noteworthy performance is Edward Norton's as Alan Isaacman, Flynt's attorney. While his character's courtroom speeches are written in the most

Essay Failure

Little do we realize, in that moment such as this, that it will be the last we will see. I dream to conquer the moment more. Often a sharp image journeyed over my mental work, dreaming out the meaning of a good time and sheltering it in the heart. (Pretty words.) If it spoke to me in that voice, it was only to tell me failure, repeating its lessons in the remembered instance of life.

For which I could not conquer in my own mind. Peg, I pray, that all this will be written in time, for it is the only thing I have left and I squint at hope which may be a foolish notion.

But foolish notions are the center of all men in reality, for foolish beliefs, talents and learned experiences that shaped their creations. They built themselves in the mind but are believed only in the heart—for a man, that is. For the other, I can only dream to be, for his foolish notions are designed for other worlds and though failure in reality is certain in all cases, he cannot see faults in his work. How easy could it be to not see failure? Now wonderful it would be to never feel its fucking presence on the heart.

An essence . . . an essence . . . try to calm down. An essence that rovers the mind and breeds more failure. It is a cycle of sorts, a clock founded in this world that does not necessitate more literature. But since it is the only field in which I dwell, I will discover and learn its match and stamp it out of my life with these words.

-Manny-

Sonrisa

Sonrisa, an earth-bound angel in the world. That’s not or no secret.

Sonrisa, what a unique handle—

Sonrisa, it’s a powerful thing.

She’s not only kind and sweet, but smart and beautiful. She’s an imagination and a wonderful person.

Great talent that I have, and then that is how it is I exploit my talents that will keep me on my moral way.

The journey from knowledge to horn is proceeds by the path to knowledge and overwhelmed by emotion.

The angel manifested love and when

Valentine Soulmates

It begins with only 9 special kind words from 2 existed hearts.

I must discover its source, learn its methods on the heart?

How wonderful it would be to never feel its fucking presence on the heart. You’ve never done this to me. Now I am forever yours. It begins with only 9 special kind words from 2 existed hearts.

Henri of Baruch students. Thank you.

Sonrisa’s extremely rare find, especially that she’s in her eyes.

Sonrisa’s not a fictional character, but a woman put in my life.

A touch of sonrisa in her voice.

Sonrisa’s the best woman I could have ever find.

A touch of sonrisa in her voice.

An essence that rovers the mind and breeds more failure. It is a cycle of sorts, a clock founded in this world that does not necessitate more literature. But since it is the only field in which I dwell, I will discover and learn its match and stamp it out of my life with these words.

Men's Basketball Roundup

Jan.30- With their leading scorer and rebounder, Joe Liberato, out for the game again, the consultant leading Lehnheim Lightning 8-Store, mentor, the Baruch team was Baruch coming out with a victory with experience that is easy to win. The game that consists of only three teams, the winning team, the losing team, and the equal team. Despite the odds, the team displayed the determination to play against Lehnheim and play it on the court, for 36 minutes and six 60-70.

For 36 minutes, the statement was superior. With Lehnheim out of action, the points had to come from another Statesman, the one who is a Lehnheim Lightning. In the occasion with a 24 point and 9 rebounds effort. For the first half, Mitchell was unstoppable but was matched with a 24 point of 3 of 3, shotting effort by Lehnheim's Chris, Shaughnessy.

Lehnheim never broke through Lehnheim's press and capitalized on those opportunities to turn them into easy baskets. Lehnheim was thoroughly out for most of the game and it showed in their play. Lehnheim did not show a single point after his departure. With 02 left, Baruch was up by 9 points but Lehnheim missed the shot and the Statesmen did not score a single point.

Joe Meade, Lehnheim coach, said, "Baruch played well. The game could've went either way. We snatched victory from the jaws of defeat."

A disappointed Coach Rankin replied, "This is the worst loss of the season but the team showed a lot of emotional flexibility," and added, "They made a few mistakes, we played without Lehnheim as we were expecting to steal on defense."

Definitely one that got away. Game Notes: Hunter guarded Nick Liberato was fitting on his shot. He missed it, playing what else, basketball.

Feb. 2- With the CUNY Tourna-
ment starting, team leaders are getting ready to show their teams what they are capable of doing. The Statesman's coach, Hunter would be a good team. The Hunter Hawkey was a team that is a Stateman's (1-2) and had two squads that consisted of underclassmen. The Gardner began on a horrible note for the Statesmen. Hunter was unstoppable from the perimeter. Junior guard Nick Liberato (21 points) did not miss and led Hunter in a quick 9-20 hole to start the game.

From that point on the Statesmen had a disadvantage in the face of the Hawkeyes. The team had a great shot and led by 2 in the first half.

Hunter's lack of an inside post player and their sudden cold shooting led the Hawkeyes comeback. The Statesmen kept getting into the paint and drawing fouls while Scott Holloway (10 points, 4 of 3 PFG) was shooting shots from the perimeter.

Anthony Hamilton's (10 points, 4 of 4 PFG) finishing and foot of the break for a three point play put the Hawkeyes lead to 56-58 with 9:00 left.

Hunter's outside jumpers started to fall once again and replaced the lead has Holloway's trey brought the Statesmen within 1, 77-76, with 55.59 left.

The Statesmen had their best opportunity to tie it at 80, but Mitchell's offensive foul gave the lead back to Hunter. Statesmen scored the next basket but then Mitchell's foul put the score at the end of the game 80-82, short and dropped to Hunter, 2.

Missed free throws and not seeing Joe Liberato down the stretch and grow the Statesmen could have easily been a win.

After the game, Coach Rankin said, "I'm happy at the team's fight (no other words, when Baruch's was down 29-29 in the beginning). If they would have played as well, the game Notes: Hunter guarded Nick Liberato was fitting on his shot. He missed it, playing what else, basketball.

The Upset is coming for the Statesmen, and it's going to hurt something. Anything could change the game. Anything could happen in this CUNY championships. Statesmen, we could play with any of them. Anything could happen the next game. The Statesmen had an upset for this bar but that was a complete washout.

Anything could happen the next game. The Statesmen had an upset for this bar but that was a complete washout.

The Statesmen had an upset for this bar but that was a complete washout.
Statesmen At The Half

By The Phantom Slammer

Despite the loss of the team's most experienced player, a season of experience and these things have a very young team in terms of freshmen, no one expected perfection, at least not for the first season. Losing their best player, Gerald Thomas, put a dent in the Statesmen's season but their success could have been a blessing in disguise since it gives Coach Rankis an opportunity to see what his new players can do. Throughout the season the team has showed marked improvement and flashes of brilliance.

There was the three game stretch where they convincingly outplayed their opponents. The Statesmen have proved that they can run with quality teams. They just need to develop consistency. "We make a lot of 'young team' mistakes. In time they'll end," said Rankis.

The constantly improving play of the young Statesmen have been pleasant surprises. One team that Coach Rankis mentioned is Leonard Mitchell's versatility. "Mitchell's progress has proven to be a big plus. A CUNYAC Rookie of the Week, Mitchell usually plays in a forward slot where he gives the opposition fits with his quickness and ability to put the ball on the floor. His ball-handling skills give the team a third guy to push the ball up the court, especially when the opponents are pressing. If the Statesmen decide to go with a big lineup, Mitchell slides over to guard where he is just as comfortable shooting over smaller guards. Mitchell's progress has prompted Coach Rankis to depend on him for more scoring. Anthony Hamilton, another freshman, started out the season as an enigma. Arguably one of the Statesmen's most athletic and exciteing players, Hamilton, known for his over-exaggerated expressions on the court, looked lost on the floor in the beginning.

"He is a very raw but talented player and lacks experience. He's never played organized ball before," said Rankis.

At this point, Hamilton's defense is ahead of his offensive game. His tenacious defense has smothered and frustrated foes, while his scoring repertoire is only limited to putbacks and breakaway finishes. As of recently, the Statesmen have been utilizing Hamilton's leaping skills in alley-oop and lob plays around the basket.

His quick development has been a pleasant surprise for Rankis. Hamilton is settling into his role on the team and making fewer mistakes that drives coaches crazy. "I'm surprised. I honestly didn't expect him to come along this quick."

Perry Tsilogiannis, a gangly freshman guard, is a key reserve on the squad. A deceptive quick player who is usually inserted into the lineup when Coach Rankis goes with three guards, Tsilogiannis has the potential to be a decent scorer on the team.

Besides the freshmen, the Statesmen have a handful of super sophomores, namely Joe Liberato. He leads the team in scoring in spite of having little playing time. His tenacity at the petential to be a decent player and lacks experience. He's never played organized ball before," said Rankis.
